B. WARRANTY. Supplier warrants that all Equipment, Products, and Services furnished are free from liens and encumbrances, and are free from defects in design, materials, and workmanship. In addition, Supplier warrants the Equipment, Products, and Services are suitable for and will perform in accordance with the ordinary use for which they are intended. Supplier's dealers and distributors must agree to assist the Participating Entity in reaching a resolution in any dispute over warranty terms with the manufacturer. We consider the actual and potential impacts of our operations on the environment, with particular focus on climate-related risks and sustainability. We are mindful of these factors in how we develop, modify, and delivery our products and services. To provide a discipline and consistency to these practices across the organization we use a cross-functional environmental sustainability committee. This committee focuses on sharing industry best practices, serves as a forum to share information and ideas throughout the company, and reviews company strategy, products, and operations through the lens of environment sustainability. For additional information, please see our Corporate Responsibility Document at this link: https://www.pitneybowes.com/content/dam/pitneybowes/us/en/our-company/corporate-responsibility/reports/2020/corporate_responsibility_report_2020_web.pdf Pitney Bowes hold the following certifications and recognitions: • Current ISO14001 Certification • Green Power Program. In 2019, Pitney Bowes was listed by the U.S. Environmental Protection Agency as one of the “Green Power Partnership Top 30” in Tech & Telecom, which places it among the 30 largest U.S. green power users in that category. • Pitney Bowes is recognized with the 2020 Climate Leadership Award for Excellence in Greenhouse Gas Management from the U.S. Environmental Protection Agency and the Center for Climate Solutions, in recognition of its consistent success in improving energy efficiency and reducing our environmental footprint. In addition, Pitney Bowes has achieved numerous other environmental targets including: • Reducing energy consumption. In 2019, Pitney Bowes achieved its 2020 carbon emissions target a full year ahead of schedule, and electricity consumption was down by approximately 34.7 million kilowatt hours from its 2007 baseline, saving $5.03 million and reducing our carbon footprint by 16,810 metric tons of CO2. • Fleet efficiency and sustainability initiatives. Transportation and logistics are vital components of Pitney Bowes Commerce Services business, with a fleet encompassing more than 400 power vehicles, vans, straight trucks and tractors. As an EPA SmartWay Partner, the company has steadily improved the environmental performance of both its vehicles and its transportation network through a combination of hardware and software solutions, enabling its vehicles to avoid 300,000 miles of driving and save more than 30,000 gallons of fuel in 2019. • Green remanufacturing. Pitney Bowes has a long legacy of product remanufacturing and recycling. It has established centers throughout the United States, Canada and Europe where clients return products for subsequent remanufacture, reuse of parts, or recycling. In 2019, equipment remanufactures diverted more than 498,000 pounds of waste from recycling to reuse. In total, Pitney Bowes’ remanufacturing process has kept more than 3.6 million pounds of products out of waste streams in the past eight years. • Flexible work arrangements help lower our carbon footprint. Well before the COVID-19 pandemic transformed workplaces around the world, Pitney Bowes encouraged agile work as a means of saving time and reducing energy consumption, resulting in more than 14,000 fewer miles per employee not driven.	*

PRESS RELEASE: Pitney Bowes Recognized with 2021 Climate Leadership Award STAMFORD, Conn., October 14th, 2021 - Pitney Bowes (NYSE:PBI), a global shipping and mailing company that provides technology, logistics, and financial services, today announced it is being recognized with the 2021 Climate Leadership Award for Excellence in Greenhouse Gas Management for the second consecutive year. Pitney Bowes will be recognized for its ongoing efforts and commitment to reducing its environmental footprint in a ceremony that will take place virtually this evening during the Climate Leadership Awards. The Climate Leadership Awards take place during the Climate Leadership Conference, which brings together forward-thinking leaders from business, government, academia, and the non-profit community to address climate change through policy, innovation, and business solutions. Awardees are honored for exemplary corporate, organizational, and individual leadership in reducing carbon pollution and addressing climate change in their operations and strategies. “Taking action on climate change is more important than it’s ever been. We are inspired and honored to be in the company of so many outstanding U.S. organizations being recognized by The Center for Climate Solutions and The Climate Registry,” said Daniel Goldstein, Executive Vice President, Chief Legal Officer and Corporate Secretary at Pitney Bowes. “As we transform our business model and objectives, we do so along with a long-term vision of achieving carbon neutrality. To meet our objectives of both growth and environmental sustainability, we have a consistent focus on making our operations more efficient and using green technologies.” Pitney Bowes is being recognized for Excellence in Greenhouse Gas Management (Goal Achievement Award) for the following: • Reducing global emissions nearly 13% from 2015 to 2020, exceeding goal of 8%. • Developing and implementing sustainability initiatives in transportation and logistics, including by phasing in fuel-efficient vehicles for the North America Service Fleet, installing EV charging stations at Pitney Bowes’s largest office building, and making hardware and software improvements for commercial vehicles to reduce emissions. • Reducing electricity consumption through site consolidations, efficiency upgrades, energy audits, and employee trainings. Since 2007, electricity consumption has decreased by approximately 35 million kilowatt hours, saving $5.03 million and reducing 16,810 metric tons of carbon dioxide. • Implementing "Green Energy” in place of fossil fuel-based energy at operating facilities when possible. Since 2009, Pitney Bowes has also purchased renewable energy credits to support 193,754,000 kWh of green power projects. • Implementing programs to reduce waste and promote remanufacturing and recycling. The company avoided 3,636 metric tons of carbon dioxide equivalent through their waste reduction campaign in 2019 alone, and in the past 8 years has kept 3.6 million pounds of products out of the waste stream through remanufacturing. “Congratulations to the 2021 Climate Leadership Award winner Pitney Bowes for their stand-out achievements,” said Amy Holm, Executive Director of The Climate Registry. “At a time when the world urgently needs more climate action and ambition, these organizations and individuals demonstrate what is possible.” “Being a climate leader and advocate for ambitious action means taking the steps today that set up opportunity for the future,” said Nathaniel Keohane, President of the Center for Climate and Energy Solutions (C2ES). “The Climate Leadership Awards recognizes only those that aim high and have plans in place to achieve their goals. Pitney Bowes has shown exactly that kind of foresight and set an example among its peers.” Pitney Bowes has committed to achieve carbon neutrality by 2040 through continued investment in more efficient facilities and green technologies to support our operations. 45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes	In April of last year our company entered our second century during a global pandemic. There was a certain symmetry to how we entered our second century, since Pitney Bowes began a hundred years ago as the last	

	your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	major pandemic was ending. On top of the global pandemic, 2020 was a year of tremendous social disruption. With all these disruptions came opportunities. Opportunities from a business perspective and importantly opportunities to demonstrate our commitments to our values of doing the right thing the right way and ultimately opportunities to demonstrate our character. Successful companies that create long term value effectively answer four questions: First, why do employees work for you; second, why do customers buy from you; third, why do communities allow you license to operate within their locales; and finally, why do investors give you the capital to run your business. Limit focus on one of these priorities to favor another and any advantage you create will be ephemeral. It has always been important to focus on the health and well-being of your employees. In 2020, it was literally life or death. As Pitney Bowes was deemed an essential business many, actually most, of our workers showed up at our distribution and sortation centers as they did before, but with new protocols. Masks, social distancing, temperature checks and a variety of other changes were made to ensure our team was safe. As has been the case for a hundred years, our team came through with flying colors demonstrating their resilience and dedication which has sustained Pitney Bowes. 2020 was also a year which called into question a company's cultural commitment to equality for all. At Pitney Bowes this is nothing new. Doing the right thing the right way is grounded in creating a workplace that works for all. Consequently, diversity and inclusion are not new topics to us. They are topics that we have been living for 100 years. And our commitment to diversity and inclusion continues to be recognized. In 2020, Pitney Bowes was recognized by Forbes Magazine for the second consecutive year as a great company for diverse employees to work and we were also recognized for our commitment to Women and the LGBTQ+ community. All that said, we need to, and we will continue to up our game, particularly in the area of inclusion. Pitney Bowes was deemed an essential company because of the unique role we play in commerce, specifically the movement of mail and parcels. With the huge influx of volume of parcels, 2020 was a challenging year, but we did our level best to help as many clients as we could. Also, because of hardship from the pandemic, we worked with our clients as best we could to help with momentary economic difficulties. Again, Pitney Bowes can't alleviate all hardship caused by the pandemic, but we did what we could. Our commitment to responsible citizenship is making a difference in communities where we operate around the world. This past year we helped meet urgent needs through direct charitable contributions, partnerships with local and national nonprofit organizations, grants from the Pitney Bowes Foundation, volunteerism, and advocacy on key issues made more acute by public health challenges. We also continued our longstanding work to combat social inequities by closing education gaps, supporting initiatives around early childhood education, literacy, STEM, summer learning and workforce preparedness programs with a particular focus on the needs of students in underserved communities. In 2020, we also continued our aggressive search for better ways to minimize our environmental footprint and model best practices for others. After achieving our five-year target for carbon emission reduction, a year early, we immediately set a more aggressive goal for the next five. Our 2020 recognition by "The Climate Leadership Awards" for excellence in greenhouse gas management served as a further impetus to do even more and we are. We have committed to achieve carbon neutrality by 2040 through continued investment in more efficient facilities and green technologies to support our operations. In terms of products, We have an abundance of products in which	*

		we continue to innovate. Our Mailing and Shipping systems are IBI compliant as the new USPS mandates go into effect, further, we have built up our smart locker and integrated tracking software offerings as more and more contactless options become necessary in the world today.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
68	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	At Pitney Bowes contract compliance is of supreme importance. Access to Sourcewell pricing is integrated into our electronic online pricing tool which is available to all sellers regardless of channel. This tool ensures compliance to contracted pricing and is not alterable by the sales representative. Client accounts also have a visual identifier in our system that further alerts the representative. Clients are verified against the online Member Lookup portal on the Sourcewell site before pricing is quoted. Our quarterly usage reports draw sales directly from the system and are verified. As has been demonstrated over the last five years of the current contract, only very rarely is there an error which is quickly remedied.	*
69	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	One internal metric and probably the most important will be the client satisfaction scores received from our Sourcewell clients. Members deserve and expect superior customer service and satisfaction, especially from the pre-eminent industry leader. It is not just about growing GPO or supplier revenue but truly satisfying the wants, needs and desires of the members. The NAST and other scores allow us to constantly improve our service to clients. When those clients are very satisfied, the quarterly usage reports will be reflective of that as does our most Q4 2021 usage report which reflect and all-time high in contract revenue reported.	*
70	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Pitney Bowes is pleased to offer a 1% administration fee to Sourcewell under this contract.	*

I. ABOUT SOURCEWELL

A. SOURCEWELL

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements, and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

MASH and MUSH sector refers to regional, local, district or other forms of municipal government, school boards, publicly-funded academic, health and social service entities, as well as any corporation or entity owned or controlled by one or more of the preceding entities, including but not limited to represented associations, Saskatchewan Association of Rural Municipalities ("SARM"), Association of Manitoba Municipalities ("AMM"), Local Authorities Services/Association of Municipalities Ontario ("LAS/AMO", excluding the cities of Toronto and Ottawa), Nova Scotia Federation of Municipalities (“NSFM”), Federation of Prince Edward Island Municipalities (“FPEIM”), Municipalities Newfoundland Labrador (“MNL”), Union of New Brunswick Municipalities (“UNBM”), North West Territories Association of Communities ("NWTAC") and their members. For a listing of current United States and Canadian Participating Entities visit Sourcewell’s website (note: there is a tab for each country): https://www.sourcewell-mn.gov/sourcewell-for-vendors/agency-locator.

Participating Entities typically access contracted equipment, products, or services through a purchase order issued directly to the contracted supplier. A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities’ needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In the United States each state-level procurement department receives notice for possible re-posting.

Proof of publication will be available at the conclusion of the solicitation process.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

DocuSign Envelope ID: FEE57F59-68F9-412C-AE7D-07AC7635DEC7

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Mailing and Postage Equipment and Technology, such as:

a. Solutions for the receiving, handling, preparation, packaging, tracking, and shipping of mail and parcels, including equipment, technology, hardware, software, supplies, and accessories;
b. Purpose-built mailroom furniture, furnishings, security or storage systems, and equipment, with related supplies and accessories;
c. Postage systems of all types and postal cost-optimization solutions; and,
d. Services related to the offering of the solutions described in Sections 1. a. – c. above, including installation, maintenance, repair, training, integration, support, and customization.

2. This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:

a. Technology Catalog Solutions (RFP #081419);
b. Furniture Solutions with Related Accessories and Services (RFP #121919), with the limited exception of the purpose-built furniture identified in Section 1. b. above;
c. Industrial and Workplace Storage Systems with Related Accessories (RFP #010920), with the limited exception of the purpose-built security or storage systems described in Section 1. b. above;
d. Office Supply Catalog Solutions (RFP #012320);
e. Copiers, Printers, and Multi-Function Devices with Related Supplies, Accessories, and Services (RFP #030321); and,
f. Express Courier and Ground Delivery Logistics Services (RFP #090121).

Proposers may include related equipment, accessories, and services to the extent that these solutions are complementary to the equipment, products, or service(s) being proposed.

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment or products only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

DocuSign Envelope ID: FEE57F59-68F9-412C-AE7D-07AC7635DEC7

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell desires the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. ANTICIPATED CONTRACT TERM

Sourcewell anticipates that the term of any resulting contract(s) will be four years, with an optional one year extension that may be offered based on the best interests of Sourcewell and its Participating Entities.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD $30 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the

DocuSign Envelope ID: FEE57F59-68F9-412C-AE7D-07AC7635DEC7

contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
3. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
4. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
   a. **Line-item Pricing** is pricing based on each individual product or services**.** Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
   b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any Contract resulting from this RFP.

DocuSign Envelope ID: FEE57F59-68F9-412C-AE7D-07AC7635DEC7

2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.
Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

DocuSign Envelope ID: FEE57F59-68F9-412C-AE7D-07AC7635DEC7

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Supplier Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the

DocuSign Envelope ID: FEE57F59-68F9-412C-AE7D-07AC7635DEC7

Sourcewell Procurement Portal Supplier Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

i) make any required adjustments to its proposal;
ii) acknowledge the addenda; and
iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Supplier Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.
