### Analysis

This resolution extends the time period for the waiver of certain building permit fees for the repair or rebuilding of property damaged as a result of the March 3, 2020 tornado. BL2020-234, as amended, was approved May 5, 2020, to waive building permit fees for property owners (or their authorized agents) who met the following conditions:

- The permits are obtained to repair damage to the owner’s property caused by the March 3, 2020 tornado.
- The permits are obtained on or before June 3, 2020.
- The permits are issued to construct, alter, repair, enlarge, move or demolish any building or structure or part thereof or any appurtenances connected or attached thereto.
- The owner must provide evidence satisfactory to the Director of Codes Administration, or his designee, that the work is being performed as a result of damage sustained as a result of the March 3, 2020 tornado.
- Property owners who paid building permit fees prior to the adoption of the ordinance will be entitled to a refund if they provide evidence satisfactory to the Director of Codes Administration, or his designee, that the work is being performed as a result of damage sustained as a result of the March 3, 2020 tornado.
- Property owners or their agents had to sign an affidavit that the permit fees will not be reimbursed by insurance or other funding sources in order to receive the fee waiver.

Ordinance No. BL2020-377, as amended, extended the deadline for permits to be obtained to September 30,

2020, provided that permits obtained after July 1, 2020 must be for properties for which there has been no change in ownership. It also provided that future amendments to BL2020-234 could be made by a resolution receiving twenty-one affirmative votes. Resolution No. RS2020-502 extended the deadline from September 30, 2020 to December 31, 2020. This resolution would extend the deadline from December 31, 2020 to June 30, 2021.
