Master Customer Agreement

This Master Customer Agreement (the “**MCA**”) is entered into between Motorola Solutions, Inc., with offices at 500 W. Monroe Street, Suite 4400, Chicago, IL 60661 (“**Motorola**”) and the entity set forth in the signature block below (“**Customer**”). Motorola and Customer will each be referred to herein as a “**Party**” and collectively as the “**Parties**”. This Agreement (as defined below) is effective as of the date of the last signature and approval by Metro (the “**Effective Date**”) of the Master Agreement 455783.

1. Agreement.

1.1. Scope; Agreement Documents. This MCA governs Customer’s purchase of Products (as defined below) and Services (as defined below) from Motorola. Additional terms and conditions applicable to specific Products and Services are set forth in one or more addenda attached to this MCA (each an “**Addendum**”, and collectively the “**Addenda**”). In addition, the Parties may agree upon solution descriptions, equipment lists, statements of work, schedules, technical specifications, and other ordering documents setting forth the Products and Services to be purchased by Customer and provided by Motorola and additional rights and obligations of the Parties (the “**Ordering Documents**”). To the extent required by applicable procurement law, a proposal submitted by Motorola in response to a competitive procurement process will be included within the meaning of the term Ordering Documents. The Master Agreement (455783), this MCA, the Addenda, and any Ordering Documents collectively form the Parties’ “**Agreement**”.

1.2. Order of Precedence. Each Addendum will control with respect to conflicting terms in the MCA, but only as applicable to the Products and Services described in such Addendum. The Master Agreement (455783) will control with respect to conflicting terms in the MCA or any Addenda, or each Ordering Document as applicable to the Products and Services described on such Ordering Document.

2. Products and Services.

2.1. Products. Motorola will (a) sell hardware provided by Motorola (“**Equipment**”), (b) license software which is either preinstalled on Equipment or installed on Customer-Provided Equipment (as defined below) and licensed to Customer by Motorola for a perpetual or other defined license term (“**Licensed Software**”), and (c) license cloud-based software as a service products and other software which is either preinstalled on Equipment or installed on Customer-Provided Equipment, but licensed to Customer by Motorola on a subscription basis (“**Subscription Software**”) to Customer, to the extent each is set forth in an Ordering Document, for Customer’s own use in accordance with this Agreement. The Equipment, Licensed Software, and Subscription Software shall collectively be referred to herein as “**Products**”, or individually as a “**Product**”. At any time during the Term (as defined below), Motorola may substitute any Products at no cost to Customer, if the substitute is materially similar in function to the Products set forth in the applicable Ordering Documents.

2.2. Services.

2.2.1. Motorola will provide services related to purchased Products (“**Services**”), to the extent set forth in an Ordering Document.

2.2.2. Integration Services; Maintenance and Support Services. If specified in an Ordering Document, Motorola will provide, for the term of such Ordering Document, (a) design, deployment, and integration Services in order to design, install, set up, configure, and/or integrate the applicable Products at the applicable locations ("**Sites**"), agreed upon by the Parties ("**Integration Services**"), or (b) break/fix maintenance, technical support, or other Services (such as software integration Services) ("**Maintenance and Support Services**"), each as further described in the applicable statement of work. Maintenance and Support Services and Integration Services will each be considered "Services", as defined above.

2.2.3. Service Ordering Documents. The Fees for Services will be set forth in an Ordering Document and any applicable project schedules. A Customer point of contact will be set forth in the applicable statement of work for the Services. For purposes of clarity, each statement of work will be incorporated into, and form an integral part of, the Agreement.

2.2.4. Service Completion. Unless otherwise specified in the applicable Ordering Document, Services described in an Ordering Document will be deemed complete upon Motorola's performance of all Services listed in such Ordering Document ("**Service Completion Date**"); provided, however, that Maintenance and Support Services may be offered on an ongoing basis during a given Ordering Document term, in which case such Maintenance and Support Services will conclude upon the expiration or termination of such Ordering Document.

2.3. Customer Obligations. Customer will ensure that information Customer provides to Motorola in connection with receipt of Products and Services are accurate and complete in all material respects. Customer will make timely decisions and obtain any required management approvals that are reasonably necessary for Motorola to provide the Products and Services and perform its other duties under this Agreement. Unless the applicable Ordering Document states otherwise, Motorola may rely upon and is not required to evaluate, confirm, reject, modify, or provide advice concerning any assumptions or Customer information, decisions, or approvals described in this Section. If any assumptions in the Ordering Documents or information provided by Customer prove to be incorrect, or if Customer fails to perform any of its obligations under this Agreement, Motorola's ability to perform its obligations may be impacted and changes to the Agreement, including the scope, Fees, and performance schedule may be required.

2.4. Documentation. Products and Services may be delivered with documentation for the Equipment, software Products, or data that specifies technical and performance features, capabilities, users, or operation, including training manuals, and other deliverables, such as reports, specifications, designs, plans, drawings, analytics, or other information (collectively, "**Documentation**"). Documentation is and will be owned by Motorola, unless otherwise expressly agreed in an Addendum or Ordering Document that certain Documentation will be owned by Customer. Motorola hereby grants Customer a limited, royalty-free, worldwide, non-exclusive license to use the Documentation solely for its internal business purposes in connection with the Products and Services.

2.5. Motorola Tools and Equipment. As part of delivering the Products and Services,

Motorola may provide certain tools, equipment, models, and other materials of its own. Such tools and equipment will remain the sole property of Motorola unless they are to be purchased by Customer as Products and are explicitly listed on an Ordering Document. The tools and equipment may be held by Customer for Motorola's use without charge and may be removed from Customer's premises by Motorola at any time without restriction. Customer will safeguard all tools and equipment while in Customer's custody or control, and, to the extent permitted by Tennessee law, be liable for any loss or damage. Upon the expiration or earlier termination of this Agreement, Customer, at its expense, will return to Motorola all tools and equipment in its possession or control.

2.6. Authorized Users. Customer will ensure its employees and Authorized Users comply with the terms of this Agreement and will be liable for all acts and omissions of its employees and Authorized Users to the extent permitted by Tennessee law. Customer is responsible for the secure management of Authorized Users' names, passwords and login credentials for access to Products and Services. "**Authorized Users**" are Customer's employees, full-time contractors engaged for the purpose of supporting the Products and Services that are not competitors of Motorola, and the entities (if any) specified in an Ordering Document or otherwise approved by Motorola in writing (email from an authorized Motorola signatory accepted), which may include affiliates or other Customer agencies.

2.7. Export Control. Customer, its employees, and any other Authorized Users will not access or use the Products and Services in any jurisdiction in which the provision of such Products and Services is prohibited under applicable laws or regulations (a "**Prohibited Jurisdiction**"), and Customer will not provide access to the Products and Services to any government, entity, or individual located in a Prohibited Jurisdiction. Customer represents and warrants that (a) it and its Authorized Users are not named on any U.S. government list of persons prohibited from receiving U.S. exports, or transacting with any U.S. person; (b) it and its Authorized Users are not a national of, or a company registered in, any Prohibited Jurisdiction; (c) Customer will not permit its Authorized Users to access or use the Products or Services in violation of any U.S. or other applicable export embargoes, prohibitions or restrictions; and (d) Customer and its Authorized Users will comply with all applicable laws regarding the transmission of technical data exported from the U.S. and the country in which Customer, its employees, and the Authorized Users are located.

2.8. Change Orders. Unless a different change control process is agreed upon in writing by the Parties, a Party may request changes to an Addendum or an Ordering Document by submitting a change order to the other Party (each, a "**Change Order**"). If a requested change in a Change Order causes an increase or decrease in the Products or Services, the Parties by means of the Change Order will make appropriate adjustments to the Fees, project schedule, or other matters. Change Orders are effective and binding on the Parties only upon execution of the Change Order by an authorized representative of both Parties.

3. Term and Termination.

3.1. Termination. Either Party may terminate the Agreement or the applicable Addendum or Ordering Document if the other Party breaches a material obligation under the Agreement and does not cure such breach within thirty (30) days after receipt of notice of the breach or fails to produce a cure plan within such period of time. Each Addendum and Ordering Document may be separately terminable as set forth therein.

3.2. Suspension of Services. Motorola may terminate or suspend any Products or Services under an Ordering Document if Motorola determines: (a) the related Product license has expired or has terminated for any reason; (b) the applicable Product is being used on a hardware platform, operating system, or version not approved by Motorola; (c) Customer fails to make any payments when due; or (d) Customer fails to comply with any of its other obligations or otherwise delays Motorola's ability to perform.

3.3. Effect of Termination or Expiration. Upon termination for any reason or expiration of this Agreement, an Addendum, or an Ordering Document, Customer and the Authorized Users will return or destroy (at Motorola's option) all Motorola Materials and Motorola's Confidential Information in their possession or control, unless otherwise required by law to be retained, and, as applicable, provide proof of such destruction, except that Equipment purchased by Customer should not be returned. If Customer has any outstanding payment obligations under this Agreement, Motorola may accelerate and declare all such obligations of Customer immediately due and payable by Customer within a reasonable time not exceeding thirty (30) days. Notwithstanding the reason for termination or expiration, Customer must pay Motorola for Products and Services already delivered. Customer has a duty to mitigate any damages under this Agreement, including in the event of default by Motorola and Customer's termination of this Agreement.

4. Payment and Invoicing.

4.1. Fees. Fees and charges applicable to the Products and Services (the "**Fees**") will be as set forth in the applicable Addendum or Ordering Document, and such Fees may be changed by Motorola at any time, except that Motorola will not change the Fees for Products and Services purchased by Customer during the term of an active Ordering Document or during a Subscription Term (as defined and further described in the applicable Addendum). Changes in the scope of Services described in an Ordering Document may require an adjustment to the Fees due under such Ordering Document. No change to any fee or charge under this agreement shall be effective without Metro's express approval. If a specific invoicing or payment schedule is set forth in the applicable Addendum or Ordering Document, such schedule will apply solely with respect to such Addendum or Ordering Document. Unless otherwise specified in the applicable Ordering Document, the Fees for any Services exclude expenses associated with unusual and costly Site access requirements (e.g., if Site access requires a helicopter or other equipment), and Customer will reimburse Motorola for these or other expenses incurred by Motorola in connection with the Services.

4.2. Taxes. The Fees do not include any excise, sales, lease, use, property, or other taxes, assessments, duties, or regulatory charges or contribution requirements (collectively, "**Taxes**"), all of which will be paid by Customer, except as exempt by law, unless otherwise specified in an Ordering Document. Customer shall provided to Motorola a valid tax exemption certificate upon request. Customer will be solely responsible for reporting the Products for personal property tax purposes, except as exempt by law, and Motorola will be solely responsible for reporting taxes on its income and net worth.

4.3. Invoicing. Motorola will invoice Customer at the frequency set forth in the applicable Addendum or Ordering Document, and Customer will pay all invoices within thirty (30) days of the invoice date or as otherwise specified in the applicable Addendum or Ordering Document. To the extent permitted by applicable Tennessee law, late payments will be

subject to interest charges at the maximum rate permitted by law, commencing upon the due date. Motorola may invoice electronically via email, and Customer agrees to receive invoices via email at the email address set forth in an Ordering Document. Customer acknowledges and agrees that a purchase order or other notice to proceed is not required for payment for Products or Services.

5. Sites; Customer-Provided Equipment; Non-Motorola Content.

5.1. Access to Sites. Customer will be responsible for providing all necessary permits, licenses, and other approvals necessary for the installation and use of the Products and the performance of the Services at each applicable Site, including for Motorola to perform its obligations hereunder, and for facilitating Motorola's access to the Sites.

5.2. Site Conditions. Customer will ensure that (a) all Sites are safe and secure, (b) Site conditions meet all applicable industry and legal standards (including standards promulgated by OSHA or other governmental or regulatory bodies), (c) to the extent applicable, Sites have adequate physical space, air conditioning, and other environmental conditions, electrical power outlets, distribution, equipment, connections, and telephone or other communication lines (including modem access and interfacing networking capabilities), and (d) Sites are suitable for the installation, use, and maintenance of the Products and Services. This Agreement is predicated upon normal soil conditions as defined by the version of E.I.A. standard RS-222 in effect on the Effective Date.

5.3. Site Issues. Motorola will have the right at any time to inspect the Sites and advise Customer of any deficiencies or non-conformities with the requirements of this **Section 5 – Sites; Customer-Provided Equipment; Non-Motorola Content**. If Motorola or Customer identifies any deficiencies or non-conformities, Customer will promptly remediate such issues or the Parties will select a replacement Site. If a Party determines that a Site identified in an Ordering Document is not acceptable or desired, the Parties will cooperate to investigate the conditions and select a replacement Site or otherwise adjust the installation plans and specifications as necessary. A change in Site or adjustment to the installation plans and specifications may cause a change in the Fees or performance schedule under the applicable Ordering Document.

5.4. Customer-Provided Equipment. Certain components, including equipment and software, not provided by Motorola may be required for use of the Products and Services ("**Customer-Provided Equipment**"). Customer will be responsible, at its sole cost and expense, for providing and maintaining the Customer-Provided Equipment in good working order. Customer represents and warrants that it has all rights in Customer-Provided Equipment to permit Motorola to access and use the applicable Customer-Provided Equipment to provide the Products and Services under this Agreement, and such access and use will not violate any laws or infringe any third-party rights (including intellectual property rights). Customer (and not Motorola) will be fully liable for Customer-Provided Equipment damage, loss, change, or theft that may impact Motorola's ability to provide the Products and Services under this Agreement, and Customer acknowledges that any such events may cause a change in the Fees or performance schedule under the applicable Ordering Document.

5.5. Non-Motorola Content. In certain instances, Customer may be permitted to access,

use, or integrate Customer or third-party software, services, hardware, content, and data that is not provided by Motorola (collectively, “**Non-Motorola Content**”) with or through the Products and Services. If Customer accesses, uses, or integrates any Non-Motorola Content with the Products or Services, Customer will first obtain all necessary rights and licenses to permit Customer’s and its Authorized Users’ use of the Non-Motorola Content in connection with the Products and Services. Customer will also obtain the necessary rights for Motorola to use such Non-Motorola Content in connection with providing the Products and Services, including the right for Motorola to access, store, and process such Non-Motorola Content (e.g., in connection with Subscription Software), and to otherwise enable interoperation with the Products and Services. Customer represents and warrants that it will obtain the foregoing applicable rights and licenses prior to accessing, using, or integrating the applicable Non-Motorola Content with the Products and Services, and that Customer and its Authorized Users will comply with any terms and conditions applicable to such Non-Motorola Content. If any Non-Motorola Content require access to Customer Data (as defined below), Customer hereby authorizes Motorola to allow the provider of such Non-Motorola Content to access Customer Data, in connection with the interoperation of such Non-Motorola Content with the Products and Services. Customer acknowledges and agrees that Motorola is not responsible for, and makes no representations or warranties with respect to, the Non-Motorola Content (including any disclosure, modification, or deletion of Customer Data resulting from use of Non-Motorola Content or failure to properly interoperate with the Products and Services). If Customer receives notice that any Non-Motorola Content must be removed, modified, or disabled within the Products or Services, Customer will promptly do so. Motorola will have the right to disable or remove Non-Motorola Content if Motorola believes a violation of law, third-party rights, or Motorola’s policies is likely to occur, or if such Non-Motorola Content poses or may pose a security or other risk or adverse impact to the Products or Services, Motorola, Motorola’s systems, or any third party (including other Motorola customers). Motorola may provide certain Non-Motorola Content as an authorized sales representative of a third party as set out in an Ordering Document. As an authorized sales representative, the third party’s terms and conditions, as set forth in the Ordering Document, will apply to any such sales. Any orders for such Non-Motorola Content will be filled by the third party. Nothing in this Section will limit the exclusions set forth in **Section 7.2 – Intellectual Property Infringement**.

5.6. End User Licenses. Notwithstanding any provision to the contrary in the Agreement, certain Non-Motorola Content software are governed by a separate license, EULA, or other agreement, including terms governing third-party equipment or software, such as open source software, included in the Products and Services. Customer will comply, and ensure its Authorized Users comply, with any such additional terms applicable to third-party equipment or software. In the event Metro has any issues with changes to EULA terms, Metro has the right to terminate this Agreement immediately. In the event Metro elects to terminate under this Section, they shall be responsible for payment of all Equipment delivered and Services rendered through the date of termination.

6. Representations and Warranties.

6.1. Mutual Representations and Warranties. Each Party represents and warrants to the other Party that (a) it has the right to enter into the Agreement and perform its obligations hereunder, and (b) the Agreement will be binding on such Party.

6.2. Motorola Warranties. Subject to the disclaimers and exclusions below, Motorola

represents and warrants that (a) Services will be provided in a good and workmanlike manner and will conform in all material respects to the descriptions in the applicable Ordering Document; and (b) for a period of ninety (90) days commencing upon the Service Completion Date for one-time Services, the Services will be free of material defects in materials and workmanship. Other than as set forth in subsection (a) above, recurring Services are not warranted but rather will be subject to the requirements of the applicable Addendum or Ordering Document. Motorola provides other express warranties for Motorola-manufactured Equipment, Motorola-owned software Products, and certain Services. Such express warranties are included in the applicable Addendum or Ordering Document. Such representations and warranties will apply only to the applicable Product or Service that is the subject of such Addendum or Ordering Document.

6.3. Warranty Claims; Remedies. To assert a warranty claim, Customer must notify Motorola in writing of the claim prior to the expiration of any warranty period set forth in this MCA or the applicable Addendum or Ordering Document. Unless a different remedy is otherwise expressly set forth for a particular warranty under an Addendum, upon receipt of such claim, Motorola will investigate the claim and use commercially reasonable efforts to repair or replace any confirmed materially non-conforming Product or re-perform any non-conforming Service, at its option. Motorola's warranties are extended by Motorola to Customer only, and are not assignable or transferrable.

6.4. Pass-Through Warranties. Notwithstanding any provision of this Agreement to the contrary, to the extent permitted by Tennessee law, Motorola will have no liability for third-party software or hardware provided by Motorola; provided, however, that to the extent offered by third-party providers of software or hardware and to the extent permitted by law, Motorola will pass through express warranties provided by such third parties.

6.5. WARRANTY DISCLAIMER. TO THE EXTENT PERMITTED BY TENNESSEE LAW, EXCEPT FOR THE EXPRESS AND PASS THROUGH WARRANTIES IN THIS AGREEMENT, PRODUCTS AND SERVICES PURCHASED HEREUNDER ARE PROVIDED "AS IS" AND WITH ALL FAULTS. TO THE EXTENT PERMITTED BY TENNESSEE LAW, WARRANTIES SET FORTH IN THE AGREEMENT ARE THE COMPLETE WARRANTIES FOR THE PRODUCTS AND SERVICES AND MOTOROLA DISCLAIMS ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND QUALITY. TO THE EXTENT PERMITTED BY TENNESSEE LAW, MOTOROLA DOES NOT REPRESENT OR WARRANT THAT USE OF THE PRODUCTS AND SERVICES WILL BE UNINTERRUPTED, ERROR-FREE, OR FREE OF SECURITY VULNERABILITIES, OR THAT THEY WILL MEET CUSTOMER'S PARTICULAR REQUIREMENTS.

7. Indemnification.

7.1. Intellectual Property Infringement. Motorola will defend Customer against any third-party claim alleging that a Motorola-developed or manufactured Product or Service (the "**Infringing Product**") directly infringes a United States patent or copyright ("**Infringement Claim**"), and Motorola will pay all damages finally awarded against Customer by a court of competent jurisdiction for an Infringement Claim, or agreed to in writing by Motorola in settlement of an Infringement Claim. Motorola's duties under this **Section 7.2 – Intellectual Property Infringement** are conditioned upon: (a) Customer promptly notifying Motorola in

writing of the Infringement Claim; (b) Motorola having sole control of the defense of the suit and all negotiations for its settlement or compromise; and (c) Customer cooperating with Motorola and, if requested by Motorola, providing reasonable assistance in the defense of the Infringement Claim.

7.1.1. If an Infringement Claim occurs, or in Motorola's opinion is likely to occur, Motorola may at its option and expense: (a) procure for Customer the right to continue using the Infringing Product; (b) replace or modify the Infringing Product so that it becomes non-infringing; or (c) grant Customer (i) a pro-rated refund of any amounts pre-paid for the Infringing Product (if the Infringing Product is a software Product, i.e., Licensed Software or Subscription Software) or (ii) a credit for the Infringing Product, less a reasonable charge for depreciation (if the Infringing Product is Equipment, including Equipment with embedded software).

7.1.2. In addition to the other damages disclaimed under this Agreement, Motorola will have no duty to defend or indemnify Customer for any Infringement Claim that arises from or is based upon: (a) Customer Data, Customer-Provided Equipment, Non-Motorola Content, or third-party equipment, hardware, software, data, or other third-party materials; (b) the combination of the Product or Service with any products or materials not provided by Motorola; (c) a Product or Service designed, modified, or manufactured in accordance with Customer's designs, specifications, guidelines or instructions; (d) a modification of the Product or Service by a party other than Motorola; (e) use of the Product or Service in a manner for which the Product or Service was not designed or that is inconsistent with the terms of this Agreement; or (f) the failure by Customer to use or install an update to the Product or Service that is intended to correct the claimed infringement. In no event will Motorola's liability resulting from an Infringement Claim extend in any way to any payments due on a royalty basis, other than a reasonable royalty based upon revenue derived by Motorola from Customer from sales or license of the Infringing Product.

7.1.3. For clarity, the rights and remedies provided in this Section are subject to, and limited by, the restrictions set forth in **Section 8 – Limitation of Liability** below.

8. Limitation of Liability.

8.1. DISCLAIMER OF CONSEQUENTIAL DAMAGES. TO THE EXTENT PERMITTED BY TENNESSEE LAW, AND ACKNOWLEDGING THAT CUSTOMER IS AN ENTITY OF THE STATE OF TENNESSEE, EXCEPT FOR PERSONAL INJURY OR DEATH, MOTOROLA, ITS AFFILIATES, AND ITS AND THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES, SUBCONTRACTORS, AGENTS, SUCCESSORS, AND ASSIGNS (COLLECTIVELY, THE "**MOTOROLA PARTIES**") WILL NOT BE LIABLE IN CONNECTION WITH THIS AGREEMENT (WHETHER UNDER MOTOROLA'S INDEMNITY OBLIGATIONS, A CAUSE OF ACTION FOR BREACH OF CONTRACT, UNDER TORT THEORY, OR OTHERWISE) FOR ANY INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, PUNITIVE, OR CONSEQUENTIAL DAMAGES OR DAMAGES FOR LOST PROFITS OR REVENUES, EVEN IF MOTOROLA HAS BEEN ADVISED BY

CUSTOMER OR ANY THIRD PARTY OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES AND WHETHER OR NOT SUCH DAMAGES OR LOSSES ARE FORESEEABLE.

8.2. DIRECT DAMAGES. TO THE EXTENT PERMITTED BY TENNESSEE LAW, AND ACKNOWLEDGING THAT CUSTOMER IS AN ENTITY OF THE STATE OF TENNESSEE, EXCEPT FOR PERSONAL INJURY OR DEATH, THE TOTAL AGGREGATE LIABILITY OF THE MOTOROLA PARTIES, WHETHER BASED ON A CLAIM IN CONTRACT OR IN TORT, LAW OR EQUITY, RELATING TO OR ARISING OUT OF THE AGREEMENT WILL NOT EXCEED THE FEES SET FORTH IN THE ORDERING DOCUMENT UNDER WHICH THE CLAIM AROSE. NOTWITHSTANDING THE FOREGOING, FOR ANY SUBSCRIPTION SOFTWARE OR FOR ANY RECURRING SERVICES, THE MOTOROLA PARTIES' TOTAL LIABILITY FOR ALL CLAIMS RELATED TO SUCH PRODUCT OR RECURRING SERVICES IN THE AGGREGATE WILL NOT EXCEED THE TOTAL FEES PAID FOR SUCH SUBSCRIPTION SOFTWARE OR RECURRING SERVICE, AS APPLICABLE, DURING THE CONSECUTIVE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE EVENT FROM WHICH THE FIRST CLAIM AROSE.

8.3. ADDITIONAL EXCLUSIONS. TO THE EXTENT PERMITTED BY TENNESSEE LAW, AND ACKNOWLEDGING THAT CUSTOMER IS A ENTITY OF THE STATE OF TENNESSEE, NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, MOTOROLA WILL HAVE NO LIABILITY FOR DAMAGES ARISING OUT OF (A) CUSTOMER DATA, INCLUDING ITS TRANSMISSION TO MOTOROLA, OR ANY OTHER DATA AVAILABLE THROUGH THE PRODUCTS OR SERVICES; (B) CUSTOMER-PROVIDED EQUIPMENT, NON-MOTOROLA CONTENT, THE SITES, OR THIRD-PARTY EQUIPMENT, HARDWARE, SOFTWARE, DATA, OR OTHER THIRD-PARTY MATERIALS, OR THE COMBINATION OF PRODUCTS AND SERVICES WITH ANY OF THE FOREGOING; (C) LOSS OF DATA OR HACKING, RANSOMWARE, OR OTHER THIRD-PARTY ATTACKS OR DEMANDS; (D) MODIFICATION OF PRODUCTS OR SERVICES BY ANY PERSON OTHER THAN MOTOROLA; (E) RECOMMENDATIONS PROVIDED IN CONNECTION WITH OR BY THE PRODUCTS AND SERVICES; (F) DATA RECOVERY SERVICES OR DATABASE MODIFICATIONS; OR (G) CUSTOMER'S OR ANY AUTHORIZED USER'S BREACH OF THIS AGREEMENT OR MISUSE OF THE PRODUCTS AND SERVICES.

8.4. Voluntary Remedies. To the extent permitted by Tennessee law, Motorola is not obligated to remedy, repair, replace, or refund the purchase price for the disclaimed issues in **Section 8.3 – Additional Exclusions** above, but if Motorola agrees to provide Services to help resolve such issues, Customer will reimburse Motorola for its reasonable time and expenses, including by paying Motorola any Fees set forth in an Ordering Document for such Services, if applicable.

10.2. Motorola Materials. The Products and Services, Motorola Data, Third-Party Data, and Documentation, are considered Motorola Materials. Except when Motorola has expressly transferred title or other interest to Customer by way of an Addendum or Ordering Document, the Motorola Materials are the property of Motorola or its licensors, and Motorola or its licensors retain all right, title and interest in and to the Motorola Materials (including, all rights in patents, copyrights, trademarks, trade names, trade secrets, know-how, other intellectual property and proprietary rights, and all associated goodwill and moral rights). For clarity, this Agreement does not grant to Customer any shared development rights in or to any Motorola Materials or other intellectual property, and Customer agrees to execute any documents and take any other actions reasonably requested by Motorola to effectuate the foregoing.

Motorola and its licensors reserve all rights not expressly granted to Customer, and no rights, other than those expressly granted herein, are granted to Customer by implication, estoppel or otherwise. Customer will not modify, disassemble, reverse engineer, derive source code or create derivative works from, merge with other software, distribute, sublicense, sell, or export the Products and Services or other Motorola Materials, or permit any third party to do so.

10.3. Ownership of Customer Data. All Customer data is and shall be the sole property of Customer. Motorola hereby waives any and all statutory and common law liens it may now or hereafter have with respect to Customer information. Nothing in this Contract or any other agreement between Customer and Motorola shall operate as an obstacle to such Customer's right to retrieve any and all Customer information from Motorola or its agents or to retrieve such information or place such information with a third party for provision of services to Customer, including without limitation, any outstanding payments, overdue payments and/or disputes, pending legal action, or arbitration. Upon Customer's request, Motorola shall supply Customer with an inventory of Customer information that Motorola stores and/or backs up.

Customer retains all right, title and interest, including intellectual property rights, if any, in and to Customer Data. Motorola acquires no rights to Customer Data except those rights granted under this Agreement including the right to Process and use the Customer Data as set forth in **Section 10.4 – Processing Customer Data** below and in other applicable Addenda. The Parties agree that with regard to the Processing of personal information which may be part of Customer Data, Customer is the controller and Motorola is the processor, and may engage sub-processors pursuant to **Section 10.4.3 – Sub-processors**.

10.4. Processing Customer Data.

10.4.1. Motorola Use of Customer Data. To the extent permitted by Tennessee law, Customer grants Motorola and its subcontractors a right to use Customer Data and a royalty-free, worldwide, non-exclusive license to use Customer Data (including to process, host, cache, store, reproduce, copy, modify, combine, analyze, create derivative works from such Customer Data and to communicate, transmit, and distribute such Customer Data to third parties engaged by Motorola) to (a) perform Services and provide Products under the Agreement, (b) analyze the Customer Data to operate, maintain, manage, and improve Motorola Products and Services, and (c) create new products and services. Customer agrees that this Agreement, along with the Documentation, are Customer's complete and final documented instructions to Motorola for the processing of Customer Data. Any additional or alternate instructions must be agreed to according to the Change Order process. Customer represents and warrants to Motorola that Customer's instructions, including appointment of Motorola as a processor or sub-processor, have been authorized by the relevant controller.

10.4.2. Collection, Creation, Use of Customer Data. Customer further represents and warrants that the Customer Data, Customer's collection, creation, and use of the Customer Data (including in connection with Motorola's Products and Services), and Motorola's use of such Customer Data in accordance with the Agreement, will comply with all laws and will not

violate any applicable privacy notices or infringe any third-party rights (including intellectual property and privacy rights). It is Customer's responsibility to obtain all required consents, provide all necessary notices, and meet any other applicable legal requirements with respect to collection and use (including Motorola's use) of the Customer Data as described in the Agreement.

10.4.3. Sub-processors. Customer agrees that Motorola may engage sub-processors who in turn may engage additional sub-processors to Process personal data in accordance with this Agreement. When engaging sub-processors, Motorola will enter into agreements with the sub-processors to bind them to data processing obligations to the extent required by law.

10.5. Data Retention and Deletion. Except as expressly provided otherwise under the Agreement, Motorola will delete all Customer Data following termination or expiration of this MCA or the applicable Addendum or Ordering Document, with such deletion to occur no later than ninety (90) days following the applicable date of termination or expiration, unless otherwise required to comply with applicable law. Any requests for the exportation or download of Customer Data must be made by Customer to Motorola in writing before expiration or termination, subject to **Section 13.9 – Notices**. Motorola will have no obligation to retain such Customer Data beyond expiration or termination unless the Customer has purchased extended storage from Motorola through a mutually executed Ordering Document.

10.6. Service Use Data. Customer understands and agrees that Motorola may collect and use Service Use Data (e.g. backend data such as logs or transactional information) for its own purposes, including the uses described below. Motorola may use Service Use Data to (a) operate, maintain, manage, and improve existing and create new products and services, (b) test products and services, (c) to aggregate Service Use Data and combine it with that of other users, and (d) to use anonymized or aggregated data for marketing, research or other business purposes. For example, Motorola might use Service Use Data to monitor excessive traffic volume from Motorola's Cloud-based Gateway, or review Service Use Data to troubleshoot a failed connection related to a specific client software. Service Use Data may be disclosed to third parties. It is Customer's responsibility to notify Authorized Users of Motorola's collection and use of Service Use Data and to obtain any required consents, provide all necessary notices, and meet any other applicable legal requirements with respect to such collection and use, and Customer represents and warrants to Motorola that it has complied and will continue to comply with this Section. For purposes of clarification, Service Use Data is anonymized prior to use and does not include sensitive customer data.

10.7. Third-Party Data and Motorola Data. Motorola Data and Third-Party Data may be available to Customer through the Products and Services. Customer and its Authorized Users may use Motorola Data and Third-Party Data as permitted by Motorola and the applicable Third-Party Data provider, as described in the applicable Addendum. Unless expressly permitted in the applicable Addendum, or required by Tennessee law, Customer will not, and will ensure its Authorized Users will not: (a) use the Motorola Data or Third-Party Data for any purpose other than Customer's internal business purposes; (b) disclose the data to third parties; (c) "white label" such data or otherwise misrepresent its source or ownership, or resell, distribute, sublicense, or commercially exploit the data in any manner; (d) use such data in violation of applicable laws; (e) remove, obscure, alter, or falsify any

marks or proprietary rights notices indicating the source, origin, or ownership of the data; or (f) modify such data or combine it with Customer Data or other data or use the data to build databases. Additional restrictions may be set forth in the applicable Addendum. Any rights granted to Customer or Authorized Users with respect to Motorola Data or Third-Party Data will immediately terminate upon termination or expiration of the applicable Addendum, Ordering Document, or this MCA. Further, Motorola or the applicable Third-Party Data provider may suspend, change, or terminate Customer's or any Authorized User's access to Motorola Data or Third-Party Data if Motorola or such Third-Party Data provider believes Customer's or the Authorized User's use of the data violates the Agreement, applicable law or Motorola's agreement with the applicable Third-Party Data provider. Upon termination of Customer's rights to use any Motorola Data or Third-Party Data, Customer and all Authorized Users will immediately discontinue use of such data, delete all copies of such data, and certify such deletion to Motorola. To the extent permitted by Tennessee law, notwithstanding any provision of the Agreement to the contrary, Motorola will have no liability for Third-Party Data or Motorola Data available through the Products and Services. Motorola and its Third-Party Data providers reserve all rights in and to Motorola Data and Third-Party Data not expressly granted in an Addendum or Ordering Document.

10.8. Feedback. Any Feedback provided by Customer is entirely voluntary, and will not create any confidentiality obligation for Motorola, unless designated as confidential by Tennessee law. Motorola may use, reproduce, license, and otherwise distribute and exploit the Feedback without any obligation or payment to Customer or Authorized Users and Customer represents and warrants that it has obtained all necessary rights and consents to grant Motorola the foregoing rights.

10.9. Improvements; Products and Services. The Parties agree that, notwithstanding any provision of this MCA or the Agreement to the contrary, all fixes, modifications and improvements to the Services or Products conceived of or made by or on behalf of Motorola that are based either in whole or in part on the Feedback, Customer Data, or Service Use Data (or otherwise) are the exclusive property of Motorola and all right, title and interest in and to such fixes, modifications or improvements will vest solely in Motorola. Customer agrees to execute any written documents necessary to assign any intellectual property or other rights it may have in such fixes, modifications or improvements to Motorola.

11. Force Majeure; Delays Caused by Customer.

11.1. Force Majeure. Except for Customer's payment obligations hereunder, neither Party will be responsible for nonperformance or delayed performance due to events outside of its reasonable control. If performance will be significantly delayed, the affected Party will provide notice to the other Party, and the Parties will agree (in writing) upon a reasonable extension to any applicable performance schedule.

11.2. Delays Caused by Customer. Motorola's performance of the Products and Services will be excused for delays caused by Customer or its Authorized Users or subcontractors, or by failure of any assumptions set forth in this Agreement (including in any Addendum or Ordering Document). In the event of a delay under this **Section 11.2 – Delays Caused by Customer**, (a) Customer will continue to pay the Fees as required hereunder, (b) the Parties will agree (in writing) upon a reasonable extension to any applicable performance schedule, and (c) Customer will compensate Motorola for its out-of-pocket costs incurred due to the delay (including those incurred by Motorola's affiliates, vendors, and subcontractors).

12. Disputes. The Parties will use the following procedure to resolve any disputes relating to or arising out of this Agreement (each, a “**Dispute**”):

12.1. Governing Law. All matters relating to or arising out of the Agreement are governed by the laws of the State of Tennessee. The terms of the U.N. Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act will not apply.

12.2. Litigation, Venue, Jurisdiction. Each party expressly consents to the exclusive jurisdiction of the courts of Davidson County, Tennessee, for disputes related to this agreement.

13. General.

13.1. Compliance with Laws. Each Party will comply with applicable laws in connection with the performance of its obligations under this Agreement, including that Customer will ensure its and its Authorized Users’ use of the Products and Services complies with law (including privacy laws), and Customer will obtain any FCC and other licenses or authorizations (including licenses or authorizations required by foreign regulatory bodies) required for its and its Authorized Users’ use of the Products and Services. Motorola may, at its discretion, cease providing or otherwise modify Products and Services (or any terms related thereto in an Addendum or Ordering Document), in order to comply with any changes in applicable law.

13.2. Audit; Monitoring. After reasonable notice to Customer, Motorola will have the right to monitor and audit use of the Products, which may also include access by Motorola to Customer Data and Service Use Data. Customer will provide notice of such monitoring to its Authorized Users and obtain any required consents, including individual end users, and will cooperate with Motorola in any monitoring or audit. Customer will maintain during the Term, and for two (2) years thereafter, accurate records relating to any software licenses granted under this Agreement to verify compliance with this Agreement. Motorola or a third party (“**Auditor**”) may inspect Customer’s and, as applicable, Authorized Users’ premises, books, and records. Motorola will pay expenses and costs of the Auditor.

13.3. Waiver. A delay or omission by either Party to exercise any right under this Agreement will not be construed to be a waiver of such right. A waiver by either Party of any of the obligations to be performed by the other, or any breach thereof, will not be construed to be a waiver of any succeeding breach or of any other obligation. All waivers must be in writing and signed by the Party waiving its rights.

13.4. Severability. If any provision of the Agreement is found by a court of competent jurisdiction to be invalid, illegal, or otherwise unenforceable, such provision will be deemed to be modified to reflect as nearly as possible the original intentions of the Parties in accordance with applicable law. The remaining provisions of this Agreement will not be affected, and each such provision will be valid and enforceable to the full extent permitted by applicable Tennessee law.

13.5. Independent Contractors. Each Party will perform its duties under this Agreement as an independent contractor. The Parties and their personnel will not be considered to be employees or agents of the other Party. Nothing in this Agreement will be interpreted as granting either Party the right or authority to make commitments of any kind for the other.

This Agreement will not constitute, create, or be interpreted as a joint venture, partnership, or formal business organization of any kind.

13.6. Third-Party Beneficiaries. The Agreement is entered into solely between, and may be enforced only by, the Parties. Each Party intends that the Agreement will not benefit, or create any right or cause of action in or on behalf of, any entity other than the Parties. Notwithstanding the foregoing, a licensor or supplier of third-party software included in the software Products will be a direct and intended third-party beneficiary of this Agreement.

13.7. Interpretation. The section headings in this Agreement are included only for convenience. The words “including” and “include” will be deemed to be followed by the phrase “without limitation”. This Agreement will be fairly interpreted in accordance with its terms and conditions and not for or against either Party.

13.8. Notices. Notices required under this Agreement to be given by one Party to the other must be in writing and either personally delivered or sent to the address provided by the other Party by certified mail, return receipt requested and postage prepaid (or by a recognized courier service, such as FedEx, UPS, or DHL), and will be effective upon receipt.

13.9. Cumulative Remedies. Except as specifically stated in this Agreement, all remedies provided for in this Agreement will be cumulative and in addition to, and not in lieu of, any other remedies available to either Party at law, in equity, by contract, or otherwise. Except as specifically stated in this Agreement, the election by a Party of any remedy provided for in this Agreement or otherwise available to such Party will not preclude such Party from pursuing any other remedies available to such Party at law, in equity, by contract, or otherwise.

13.10. Survival.

The following provisions will survive the expiration or termination of this Agreement for any reason: **Section 3.4 – Effect of Termination or Expiration; Section 6.5 – Warranty Disclaimer; Section 7.3 – Customer Indemnity; Section 8 – Limitation of Liability; Section 10 – Proprietary Rights; Data; Feedback.**

13.11. Entire Agreement. This Agreement, including the Master Agreement 455783, MISA, all Addenda and Ordering Documents, constitutes the entire agreement of the Parties regarding the subject matter hereto, and supersedes all previous agreements, proposals, and understandings, whether written or oral, relating to this subject matter. This Agreement may be executed in multiple counterparts, and will have the same legal force and effect as if the Parties had executed it as a single document. The Parties may sign in writing or by electronic signature. An electronic signature, facsimile copy, or computer image of a signature, will be treated, and will have the same effect as an original signature, and will have the same effect, as an original signed copy of this document. This Agreement may be amended or modified only by a written instrument signed by authorized representatives of both Parties. The preprinted terms and conditions found on any Customer purchase order, acknowledgment, or other form will not be considered an amendment or modification or part of this Agreement, even if a representative of each Party signs such document.

This Equipment Purchase and Software License Addendum (this "EPSLA") is entered into between Motorola Solutions, Inc., with offices at 500 W. Monroe Street, Suite 4400, Chicago, IL 60661 ("Motorola") and the entity set forth in the signature block below or in the MCA ("Customer"), and will be subject to, and governed by, the terms of the Master Customer Agreement entered into between the Parties (the "MCA"), as well as the Master Agreement 455783. Capitalized terms used in this EPSLA, but not defined herein, will have the meanings set forth in the MCA.

1. Addendum. This EPSLA governs Customer's purchase of Equipment and license of Licensed Software (and, if set forth in an Ordering Document, related Services) from Motorola, and will form part of the Parties' Agreement.

2. Delivery of Equipment and Licensed Software.

2.1. Delivery and Risk of Loss. Motorola will provide to Customer the Products (and, if applicable, related Services) set forth in an Ordering Document, in accordance with the terms of the Agreement. Motorola will, using commercially reasonable practices, pack the ordered Equipment and ship such Equipment to the Customer address set forth in the applicable Ordering Document or otherwise provided by Customer in writing, using a carrier selected by Motorola. Notwithstanding the foregoing, delivery of Equipment (and any incorporated Licensed Software) will occur, and title and risk of loss for the Equipment will pass to Customer, upon shipment by Motorola in accordance with Ex Works, Motorola's premises (Incoterms 2020). Customer will pay all shipping costs, taxes unless exempt, and other charges applicable to the shipment and import or export of the Products and Services, as applicable, and Customer will be responsible for reporting the Products for personal property tax purposes to the extent required by Tennessee law. Delivery of Licensed Software for installation on Equipment or Customer-Provided Equipment will occur upon the earlier of (a) electronic delivery of the Licensed Software by Motorola, and (b) the date Motorola otherwise makes the Licensed Software available for download by Customer. If agreed upon in an Ordering Document, Motorola will also provide Services related to such Products.

2.2. Delays. Any shipping dates set forth in an Ordering Document are approximate, and while Motorola will make reasonable efforts to ship Products by any such estimated shipping date, Motorola will not be liable for any delay or related damages to Customer. Time for delivery will not be of the essence, and delays will not constitute grounds for cancellation, penalties, termination, or a refund.

2.3. Beta Services. If Motorola makes any beta version of a software application ("Beta Service") available to Customer, Customer may choose to use such Beta Service at its own discretion, provided, however, that Customer will use the Beta Service solely for purposes of Customer's evaluation of such Beta Service, and for no other purpose. Customer acknowledges and agrees that all Beta Services are offered "as-is" and without any representations or warranties or other commitments or protections from Motorola. Motorola will determine the duration of the evaluation period for any Beta Service, in its sole discretion, and Motorola may discontinue any Beta Service at any time. Customer acknowledges that Beta Services, by their nature, have not been fully tested and may contain defects or deficiencies.

3. Licensed Software License and Restrictions.

3.1. Licensed Software License. Subject to Customer's and its Authorized Users' compliance with the Agreement (including payment terms), Motorola hereby grants Customer and its Authorized Users a limited, non-transferable, non-sublicenseable, and non-exclusive license to use the Licensed Software identified in an Ordering Document, in object code form only, and the associated Documentation, solely in connection with the Equipment provided by Motorola or authorized Customer-Provided Equipment (as applicable, the "Designated Products") and solely for Customer's internal business purposes. Unless otherwise stated in an Addendum or the Ordering Document, the foregoing license grant will be limited to the number of licenses set forth in the applicable Ordering Document and will continue for the life of the applicable Designated Product. Except as otherwise permitted in an applicable Addendum or Ordering Document, Customer may install, access, and use Licensed Software only in Customer's owned or controlled facilities, including any authorized mobile sites; provided, however, that Authorized Users using authorized mobile or handheld devices may also log into and access the Licensed Software remotely from any location.

3.2. Subscription License Model. If the Parties mutually agree that any Licensed Software purchased under this EPSLA will be replaced with or upgraded to Subscription Software, then upon such time which the Parties execute the applicable Ordering Document, the licenses granted under this EPSLA will automatically terminate, and such Subscription Software will be governed by the terms of the applicable Addendum under this Agreement.

3.3. Customer Restrictions. Customers and Authorized Users will comply with the applicable Documentation in connection with their use of the Products. Customer will not and will not allow others, including the Authorized Users, to: (a) make the Licensed Software available for use by unauthorized third parties, including via a commercial rental or sharing arrangement; (b) reverse engineer, disassemble, or reprogram the Licensed Software or any portion thereof to a human-readable form; (c) modify, create derivative works of, or merge the Licensed Software with other software or equipment; (d) copy, reproduce, distribute, lend, lease, or transfer the Licensed Software or Documentation for or to any third party without the prior express written permission of Motorola; (e) take any action that would cause the Licensed Software or Documentation to be placed in the public domain; (f) use the Licensed Software to compete with Motorola; or (g) remove, alter, or obscure, any copyright or other notice.

3.4. Copies. Customer may make one (1) copy of the Licensed Software solely for archival, back-up, or disaster recovery purposes during the term of the applicable Licensed Software license. Customer may make as many copies of the Documentation reasonably required for the internal use of the Licensed Software during such Licensed Software's license term. Unless otherwise authorized by Motorola in writing, Customer will not, and will not enable or allow any third party to: (a) install a licensed copy of the Licensed Software on more than one (1) unit of a Designated Product; or (b) copy onto or transfer Licensed Software installed in a unit of a Designated Product onto another device. Customer may temporarily transfer Licensed Software installed on a Designated Product to another device if the Designated Product is inoperable or malfunctioning, if Customer provides written notice to Motorola of the temporary transfer and identifies the device on which the Licensed is transferred. Temporary transfer of the Licensed Software to another device must be discontinued when the original Designated Product is returned to operation and the Licensed Software must be removed from the other device. Customer must provide prompt written notice to Motorola at the time temporary transfer is discontinued.

3.5. Resale of Equipment. Equipment contains embedded Licensed Software. If Customer desires to sell its used Equipment to a third party, Customer must first receive prior written authorization from Motorola and obtain written acceptance of the applicable Licensed Software license terms, including the obligation to pay relevant license fees, from such third party.

4. Term.

4.1. Term. The term of this EPSLA (the "EPSLA Term") will commence upon the Effective Date of the Agreement

5. Payment. Customer will pay invoices for the Products and Services provided under this EPSLA in accordance with the invoice payment terms set forth in the MCA. Generally, invoices are issued after shipment of Equipment or upon Motorola's delivery of Licensed Software (in accordance with Section 2.1 – Delivery and Risk of Loss), as applicable, but if a specific invoicing or payment schedule is set forth in the applicable Ordering Document, EULA or other Addendum, such schedule will control with respect to the applicable Products and Services referenced therein. Motorola will have the right to suspend future deliveries of Products and Services if Customer fails to make any payments when due.

6. Representations and Warranties; Liability.

6.1. Motorola Warranties. Subject to the disclaimers and exclusions set forth in the MCA and this EPSLA, (a) for a period of one (1) year commencing upon the delivery of Motorola-manufactured Equipment under Section 2.1 – Delivery and Risk of Loss, Motorola represents and warrants that such Motorola-manufactured Equipment, under normal use, will be free from material defects in materials and workmanship; (b) to the extent permitted by the providers of third-party software or hardware included in the Products and Services, Motorola will pass through to Customer any warranties provided by such third parties, which warranties will apply for the period defined by the applicable third party; and (c) for a period of ninety (90) days commencing upon the delivery of Motorola-owned Licensed Software under Section 2.1 – Delivery and Risk of Loss, Motorola represents and warrants that such Licensed Software, when used in accordance with the Documentation and the Agreement, will be free from reproducible defects that prevent operation of features critical to the primary functionality or successful operation of the Motorola-developed Licensed Software (as determined by Motorola). The warranty set forth in subsection (c) will be referred to as the "Motorola Licensed Software Warranty". Motorola will use commercially reasonable efforts to remedy the material defect in the applicable Licensed Software; provided, however, that if Motorola does not remedy such material defect within a reasonable time, then at Motorola's sole option, Motorola will either replace the defective Licensed Software with functionally-equivalent software, provide substitute software to Customer, or terminate the applicable software license and refund any paid license fees to Customer on a pro-rata basis. For clarity, the Motorola Licensed Software Warranty applies only to the most current version of the Licensed Software issued by Motorola, and issuance of updated versions of any Licensed Software does not result in a renewal or extension of the Motorola Licensed Software Warranty beyond the ninety (90) day warranty period.

6.2. ADDITIONAL EXCLUSIONS. TO THE EXTENT PERMITTED BY TENNESSEE LAW, IN ADDITION TO THE EXCLUSIONS FROM DAMAGES SET FORTH IN THE MCA,

AND NOTWITHSTANDING ANY PROVISION OF THE AGREEMENT TO THE CONTRARY, MOTOROLA WILL HAVE NO LIABILITY FOR (A) DEFECTS IN OR DAMAGE TO PRODUCTS RESULTING FROM USE OTHER THAN IN THE NORMAL AUTHORIZED MANNER, OR FROM ACCIDENT, LIQUIDS, OR NEGLIGENCE; (B) TESTING, MAINTENANCE, REPAIR, INSTALLATION, OR MODIFICATION BY PARTIES OTHER THAN MOTOROLA; (C) CUSTOMER'S OR ANY AUTHORIZED USER'S FAILURE TO COMPLY WITH INDUSTRY AND OSHA OR OTHER LEGAL STANDARDS; (D) DAMAGE TO RADIO ANTENNAS, UNLESS CAUSED BY DEFECTS IN MATERIAL OR WORKMANSHIP; (E) EQUIPMENT WITH NO SERIAL NUMBER; (F) BATTERIES OR CONSUMABLES; (G) FREIGHT COSTS FOR SHIPMENT TO REPAIR DEPOTS; (H) COSMETIC DAMAGE THAT DOES NOT AFFECT OPERATION; (I) NORMAL WEAR AND TEAR; (J) ISSUES OR OBSOLESCENCE OF LICENSED SOFTWARE DUE TO CHANGES IN CUSTOMER OR AUTHORIZED USER REQUIREMENTS, EQUIPMENT, OR SYSTEMS; (K) TRACKING AND LOCATION-BASED SERVICES; OR (L) BETA SERVICES.

6.3. Voluntary Remedies. Motorola is not obligated to remedy, repair, replace, or refund the purchase price for the disclaimed or excluded issues in the MCA or Section 6.2 – Additional Exclusions above, but if Motorola agrees to provide Services to help resolve such issues, Customer will reimburse Motorola for its reasonable time and expenses, including by paying Motorola any Fees set forth in an Ordering Document for such Services, if applicable.

7. Copyright Notices. The existence of a copyright notice on any Licensed Software will not be construed as an admission or presumption of publication of the Licensed Software or public disclosure of any trade secrets associated with the Licensed Software.

.

Monroe Street, Suite 4400, Chicago, IL 60661 ("Motorola") and the entity set forth in the signature block below or in the MCA ("Customer"), and will be subject to, and governed by, the terms of the Master Agreement (455783) and this Master Customer Agreement (the "MCA"). Capitalized terms used in this SSA, but not defined herein, will have the meanings set forth in the MCA.

1. Addendum. This SSA governs Customer's purchase of Subscription Software (and, if set forth in an Ordering Document, related Services) from Motorola, and will form part of the Parties' Agreement. Additional Subscription Software-specific Addenda or other terms and conditions may apply to certain Subscription Software, where such terms are provided or presented to Customer.

2. Delivery of Subscription Software.

2.1. Delivery. Motorola will provide Customer advance notice (which may be provided electronically) of any planned downtime. Delivery will occur upon

Customer's receipt of credentials required for access to the Subscription Software or upon Motorola otherwise providing access to the Subscription Software. If agreed upon in an Ordering Document, Motorola will also provide Services related to such Subscription Software.

2.2. Modifications. In addition to other rights to modify the Products and Services set forth in the MCA, Motorola may modify the Subscription Software, any associated recurring Services and any related systems so long as their functionality (as described in the applicable Ordering Document) is not materially degraded. Documentation for the Subscription Software may be updated to reflect such modifications. For clarity, new features or enhancements that are added to any Subscription Software may be subject to additional Fees. Metro has the right to first review and approve any changes to the fees.

2.3. User Credentials. If applicable, Motorola will provide Customer with administrative user credentials for the Subscription Software, and Customer will ensure such administrative user credentials are accessed and used only by Customer's employees with training on their proper use. Customer will protect, and will cause its Authorized Users to protect, the confidentiality and security of all user credentials, including any administrative user credentials, and maintain user credential validity, including by updating passwords. Customer will be liable for any use of the Subscription Software through such user credential (including through any administrative user credentials), including any changes made to the Subscription Software or issues or user impact arising therefrom. To the extent Motorola provides Services to Customer in order to help resolve issues resulting from changes made to the Subscription Software through user credentials, including through any administrative user credentials, or issues otherwise created by Authorized Users, such Services will be billed to Customer on a time and materials basis, and Customer will pay all invoices in accordance with the payment terms of the MCA.

2.4. Beta Services. If Motorola makes any beta version of a software application ("Beta Service") available to Customer, Customer may choose to use such Beta Service at its own discretion, provided, however, that Customer will use the Beta Service solely for purposes of Customer's evaluation of such Beta Service, and for no other purpose. Customer acknowledges and agrees that all Beta Services are offered "as-is" and without any representations or warranties or other commitments or protections from Motorola. Motorola will determine the duration of the evaluation period for any Beta Service, in its sole discretion, and Motorola may discontinue any Beta Service at any time. Customer acknowledges that Beta Services, by their nature, have not been fully tested and may contain defects or deficiencies.

3. Subscription Software License and Restrictions.

3.1. Subscription Software License. Subject to Customer's and its Authorized Users' compliance with the Agreement, including payment terms, Motorola hereby grants Customer and its Authorized Users a limited, non-transferable, non-sublicenseable, and non-exclusive license to use the Subscription Software identified in an Ordering Document, and the associated Documentation, solely for Customer's internal business purposes. The foregoing license grant will be limited to use in the territory and to the number of licenses set forth in an Ordering Document (if applicable), and will continue for the applicable Subscription Term. Customer may access, and use the Subscription Software only in Customer's owned or controlled facilities, including any authorized mobile sites; provided, however, that

Authorized Users using authorized mobile or handheld devices may also log into and access the Subscription Software remotely from any location. No custom development work will be performed under this Addendum.

3.2. Customer Restrictions. Customers and Authorized Users will comply with the applicable Documentation and the copyright laws of the United States and all other relevant jurisdictions (including the copyright laws where Customer uses the Subscription Software) in connection with their use of the Subscription Software. Customer will not, and will not allow others including the Authorized Users, to make the Subscription Software available for use by unauthorized third parties, including via a commercial rental or sharing arrangement; reverse engineer, disassemble, or reprogram software used to provide the Subscription Software or any portion thereof to a human-readable form; modify, create derivative works of, or merge the Subscription Software or software used to provide the Subscription Software with other software; copy, reproduce, distribute, lend, or lease the Subscription Software or Documentation for or to any third party; take any action that would cause the Subscription Software, software used to provide the Subscription Software, or Documentation to be placed in the public domain; use the Subscription Software to compete with Motorola; remove, alter, or obscure, any copyright or other notice; share user credentials (including among Authorized Users); use the Subscription Software to store or transmit malicious code; or attempt to gain unauthorized access to the Subscription Software or its related systems or networks.

4. Term.

4.1. Subscription Terms. The duration of Customer's subscription to the first Subscription Software and any associated recurring Services ordered under this SSA (or the first Subscription Software or recurring Service, if multiple are ordered at once) will commence upon delivery of such Subscription Software (and recurring Services, if applicable) and will continue for a twelve (12) month period or such longer period identified in an Ordering Document (the "Initial Subscription Period"). (The Initial Subscription Period and each Renewal Subscription Year will each be referred to herein as a "Subscription Term".) Motorola may increase Fees prior to any Renewal Subscription Year. In such case, Motorola will notify Customer of such proposed increase no later than thirty (30) days prior to commencement of such Renewal Subscription Year. Unless otherwise specified in the applicable Ordering Document, if Customer orders any additional Subscription Software or recurring Services under this SSA during an in-process Subscription Term, the subscription for each new Subscription Software or recurring Service will (a) commence upon delivery of such Subscription Software or recurring Service, and continue until the conclusion of Customer's then-current Subscription Term (a "Partial Subscription Year"), and (b) automatically renew for Renewal Subscription Years thereafter, unless either Party notifies the other Party of its intent not to renew at least thirty (30) days before the conclusion of the then-current Subscription Term. Thus, unless otherwise specified in the applicable Ordering Document, the Subscription Terms for all Subscription Software and recurring Services hereunder will be synchronized. The Subscription Service shall last no longer than 60 months from the Effective Date of the Agreement.

4.2. Term. The term of this SSA (the "SSA Term") will commence upon the Effective Date of the Agreement will continue until the expiration or termination of all Subscription Terms under this SSA, unless this SSA or the Agreement is earlier terminated in accordance with the terms of the Agreement. 5. Payment.

5.1. Payment. Unless otherwise provided in an Ordering Document (and notwithstanding the provisions of the MCA), Customer will prepay an annual subscription Fee set forth in an Ordering Document for each Subscription Software and associated recurring Service, before the commencement of each Subscription Term. For any Partial Subscription Year, the applicable annual subscription Fee will be prorated based on the number of months in the Partial Subscription Year. The annual subscription Fee for Subscription Software and associated recurring Services may include certain one-time Fees, such as start-up fees, license fees, or other fees set forth in an Ordering Document. Motorola will have the right to suspend the Subscription Software and any recurring Services if Customer fails to make any payments when due.

5.2. License True-Up. Motorola will have the right to conduct an audit of total user licenses credentialed by Customer for any Subscription Software during a Subscription Term, and Customer will cooperate with such audit. If Motorola determines that Customer's usage of the Subscription Software during the applicable Subscription Term exceeded the total number of licenses purchased by Customer, Motorola may invoice Customer for the additional licenses used by Customer, pro-rated for each additional license from the date such license was activated, and Customer will pay such invoice in accordance with the payment terms in the MCA.

6. Liability.

6.1. ADDITIONAL EXCLUSIONS. TO THE EXTENT PERMITTED BY TENNESSEE LAW, IN ADDITION TO THE EXCLUSIONS FROM DAMAGES SET FORTH IN THE MCA, AND NOTWITHSTANDING ANY PROVISION OF THE AGREEMENT TO THE CONTRARY, MOTOROLA WILL HAVE NO LIABILITY FOR (A) INTERRUPTION OR FAILURE OF CONNECTIVITY, VULNERABILITIES, OR SECURITY EVENTS; (B) DISRUPTION OF OR DAMAGE TO CUSTOMER'S OR THIRD PARTIES' SYSTEMS, EQUIPMENT, OR DATA, INCLUDING DENIAL OF ACCESS TO USERS, OR SHUTDOWN OF SYSTEMS CAUSED BY INTRUSION DETECTION SOFTWARE OR HARDWARE; (C) AVAILABILITY OR ACCURACY OF ANY DATA AVAILABLE THROUGH THE SUBSCRIPTION SOFTWARE OR SERVICES, OR INTERPRETATION, USE, OR MISUSE THEREOF; (D) TRACKING AND LOCATION-BASED SERVICES; OR (E) BETA SERVICES.

The warranties set forth in the applicable Addenda are not otherwise modified by this MVA.

5. Additional Software and Video Terms.

5.1. Unlimited Storage. Storage shall be specifically described in an Ordering Documents. In the event Customer purchases a Cloud Hosted Evidence Management System with “Unlimited Storage”, as specified in the Ordering Documents, then “Unlimited Storage” means storage of all data captured using Equipment sold under this MVA, provided that (1) video recordings are recorded in an event-based setting where users are not recording an

entire shift under one video footage and (2) Customer's data retention policies and practices do not result in the retention of data beyond the statutory minimums set forth by the State of Tennessee and Metro Government in which the Customer resides. In the event Customer does not comply with the preceding clauses (1) and (2), Motorola shall have the right to charge Customer for such excess data storage at the prevailing rates. Motorola also has the right to place any data that has not been accessed for a consecutive eighteen (18) month period into archival storage, retrieval of which may take up to twenty-four (24) hours from any access request.

5.2. Applicable End User Terms. Additional license terms apply to third-party software included in certain software Products which are available online at: www.motorolasolutions.com/legal-flow-downs. APIs will evolve and mature over time, requiring changes and updates. Motorola will use reasonable efforts to continue supporting any version of an API for six (6) months after such version is introduced, but if Motorola determines, in its sole discretion, to discontinue support of an API for any reason, Motorola will provide reasonable advance notification to Customer. If an API presents a security risk, Motorola may discontinue an API without prior notice.

5.7. Support of Downloaded Clients. If Customer purchases any software Product that requires a client installed locally on Customer-Provided Equipment or Equipment in possession of Customer, Customer will be responsible for downloading and installing the current version of such client, as it may be updated from time to time. Motorola will use reasonable efforts to continue supporting any version of a client for forty-five (45) days following its release, but Motorola may update the current version of its client at any time, including for bug fixes, product improvements, and feature updates, and Motorola makes no representations or warranties that any software Product will support prior versions of a client.

5.8. CJIS Security Policy. Motorola agrees to support Customer's obligation to comply with the Federal Bureau of Investigation Criminal Justice Information Services ("**CJIS**") Security Policy, incorporated herein, and will comply with the terms of the CJIS Security Addendum for the term of the Addendum or Ordering Documents for the applicable Product. Customer hereby consents to Motorola screened personnel serving as the "escort" within the meaning of CJIS Security Policy for unscreened Motorola personnel that require access to unencrypted Criminal Justice Information for purposes of Product support and development.

6. VaaS Program Terms. All hardware provided by Motorola to Customer under the VaaS Program will be considered "Equipment", as defined in the EPSLA, and constitutes a purchase of such Equipment subject to the terms of the EPSLA. Additionally, the following terms and conditions apply to any Equipment purchased under the VaaS Program:

6.1. Technology Refresh. Body cameras and associated batteries purchased under the VaaS Program ("**Body Cameras**") may be eligible for a technology refresh as described in the Ordering Documents. If included in the Ordering Documents, and in the event the Body

Camera is eligible for replacement applicable under this **Section 6.1 – Technology Refresh**, Customer must return the existing Body Camera to Motorola in working condition. The corresponding replacement Body Camera will be the then-current model of the Body Camera at the same tier as the Body Camera that is returned to Motorola. For clarity, any other Equipment received by Customer as part of the VaaS Program, other than Body Cameras, or associated batteries (if specified in the Ordering Documents) will not be eligible for a technology refresh hereunder.

6.2. No-Fault Warranty. If specified in the Ordering Documents, and subject to the disclaimers set forth in the MCA and EPSLA, upon delivery of Equipment purchased as part of the VaaS Program, Motorola will provide a No-fault Warranty to Customer for such Equipment that extends until the end of the Commitment Term (as defined below) applicable to such Equipment; except that the No-fault Warranty will not apply to: (i) any Equipment with intentionally altered or removed serial numbers, (ii) any other damages disclaimed under the MCA or EPSLA, or (iii) any Equipment that Motorola determines was changed, modified, or repaired by Customer or any third party. The “**No-fault Warranty**” means that Motorola will repair or replace any Equipment components or parts that render the applicable Equipment unable to perform its intended purpose.

6.3. Commitment Term. Customer accepts that following the delivery of any Equipment under the VaaS Program, Customer commits to a five (5) year subscription term for such Equipment at the rate provided in the Ordering Documents (the “**Initial Commitment Term**”). If Customer, for any reason, terminates any of its obligations to Motorola prior to expiration of the applicable Commitment Term (as defined below), Customer will be subject to the payments described in **Section 6.7.2 – Termination** hereunder.

6.4. Additional Devices. Any additional Equipment, including any accessory items, ordered by Customer after Customers’ initial purchase of Equipment hereunder may be subject to an incremental increase in Fees. Customer shall be notified in advance of potential increases, and such increases shall be agreed upon by the parties prior to implementation. In the event Customer orders additional Equipment under the VaaS Program within the ninety (90) days immediately following its initial purchase, such Equipment will be included in and subject to the Initial Commitment Term. Any additional Equipment purchased under the VaaS Program subsequent to such ninety (90) day period, will commence an additional subscription term commitment for such Equipment of five (5) years (a “**Subsequent Commitment Term**”) with respect to the monthly Fee associated with such additional Equipment. For purposes of this Addendum, the Initial Commitment Term and each Subsequent Commitment Term are each also referred to herein as a “**Commitment Term**”.

6.5. Included Subscription Software.

6.5.1. **VideoManager EL.** Subject to **Section 6.7.1 – VaaS Term**, if the Equipment purchased under the VaaS Program provides Customer with a subscription to the Cloud Hosted Evidence Management System specified in the Ordering Documents during the VaaS Term (as defined below), the use of which is subject to the SSA. Customer’s subscription will include unlimited users, Unlimited Storage and unlimited sharing, provided any media or data uploaded to the Cloud Hosted Evidence Management System is done so using Motorola Equipment actively enrolled in the VaaS Program. Following expiration of the applicable Commitment Term, if Customer desires to

continue use of expired Equipment with the Cloud Hosted Evidence Management System, Customer must purchase additional access to Cloud Hosted Evidence Management System based on Motorola's prevailing rates, or Motorola may disconnect connectivity of any expired Equipment to the Cloud Hosted Evidence Management System.

6.5.2. CommandCentral. If specified and included in the Ordering Documents, for each applicable Body Camera, in-car system or integrated system purchased, Customer will receive one user license for Motorola CommandCentral, which provides access to CC Community, CC Capture, CC Vault and CC Records. If the Customer requires additional licenses to CommandCentral they must be purchased for an additional fee.

6.5.3. CarDetector Mobile. If Customer's VaaS Program order includes an in-car system, Customer, will receive a subscription to WatchGuard CarDetector Mobile during the VaaS Term, the use of which is subject to the SSA.

6.5.4. VideoManager EX: Subject to **Section 6.7.1 – VaaS Term**, if specified in the Ordering Documents, Equipment purchased under the VaaS Program provides Customer with a single subscription to Video Manager EX during the VaaS Term (as defined below), the use of which is subject to the SSA. Following expiration of the applicable Commitment Term, if Customer desires to continue use of expired Equipment with the VideoManager EX, Customer must purchase additional access to VideoManager EX based on Motorola's prevailing rates, or Motorola may disconnect connectivity of any expired Equipment to VideoManager EX.

6.6. VaaS Program Payment. Unless otherwise provided in an Ordering Documents (and notwithstanding the provisions of the MCA), Customer will prepay a subscription Fee quarterly (each a "**Subscription Quarter**"), as set forth in an Ordering Documents. If Customer orders any additional Product(s) under the VaaS Program subsequent to the initial purchase by Customer, Fees for such additional Product will be added to the quarterly subscription Fee, and will be payable on the same Fee payment schedule as the initial Product purchased under the VaaS Program; provided, however, that for the first Subscription Quarter during which such additional Product is purchased, the subscription Fee for the applicable additional Product will be pro-rated based on the applicable number of days remaining in the such initial Subscription Quarter.

6.7. VaaS Program Term and Termination.

6.7.1. VaaS Term. Customer's participation in the VaaS Program will commence upon the System Completion Date under this MVA, and will continue through the end of the final Commitment Term hereunder ("the **VaaS Term**"). Following the end of any Commitment Term, Customer's access to the Cloud Hosted Evidence Management System with respect to the Equipment purchased relative to that Commitment Term will expire, and Customer must download or transfer all Customer Data associated with the applicable Equipment within thirty (30) days following expiration unless Customer purchases extended access to the Cloud Hosted Evidence

Management System from Motorola at the prevailing rates. Motorola has no obligation to retain Customer Data for expired Equipment beyond thirty (30) days following expiration of the applicable Commitment Term. For example, if Customer purchases 100 devices on January 1 of Year 1 of the VaaS Term, and then 100 additional devices on January 1 of Year 3, on December 31 of Year 5 (i.e., the conclusion of the Initial Commitment Term), Customer's access to the Cloud Hosted Evidence Management System with respect to the first 100 devices will be discontinued, and Customer must purchase extended storage or transfer all Customer Data associated with the first 100 devices within thirty (30) days of expiration of the Initial Commitment Term. In the foregoing example, the Cloud Hosted Evidence Management System access and data storage for the second 100 devices purchase will extend until December 31 of Year 7.

6.7.2. Termination. The termination provisions applicable to the VaaS Program will be those set forth in the Master Agreement (455783), MCA, EPSLA and SSA, as applicable. If Customer's participation in the VaaS Program is terminated for any reason prior to the end of the Initial Commitment Term or any Subsequent Commitment Term, Customer will pay the pro-rated remainder of the aggregate Equipment MSRP price (prevailing as of the time of delivery) with contractual equipment discounts applied, calculated by multiplying the MSRP price with contractual equipment discounts of all Equipment purchased under the VaaS Program by the percentage resulting from dividing the number of months remaining in the Commitment Term applicable to such Equipment by sixty (60). In the event Customer purchased Equipment on multiple dates, resulting in separate Commitment Terms for certain Equipment, the preceding calculation will be made relative to the applicable Commitment Term for each Equipment order. For example, if Customer purchased \$1,000 worth of Equipment on January 1 of Year 1 of the VaaS Term, and then \$1,000 worth of Equipment on January 1 of Year 2, and then Customer's VaaS Program terminates on December 31 of Year 3, Customer will be required to repay: $\$1,000 \times (24/60) + \$1,000 \times (36/60)$, which is equal to \$1,000 in the aggregate.

7. **System Completion.** Any Mobile Video System sold hereunder will be deemed completed upon Customer's (or the applicable Authorized User's) Beneficial Use of the applicable Mobile Video System (the "**System Completion Date**"). Customer will not unreasonably delay Beneficial Use, and in any event, the Parties agree that Beneficial Use will be deemed to have occurred thirty (30) days after functional demonstration. As used in this Section, "**Beneficial Use**" means use by Customer or at least one (1) Authorized User of the material features and functionalities of Mobile Video System, in material conformance with Product descriptions in the applicable Ordering Documents. Any additional Equipment sold in connection with the initial Mobile Video System shall be deemed delivered in accordance of the terms of the EPSLA. Any additional Subscription Software purchased under the VaaS Program will be deemed delivered upon Customer's receipt of credentials required for access to the Cloud Hosted Evidence Management System or upon Motorola otherwise providing access to the Cloud Hosted Evidence Management System. This Section applies to Products purchased under the MVA notwithstanding the delivery provisions of the Addendum applicable to such Products, such as the SSA or EPSLA, and this Section will control over such other delivery provisions to the extent of a conflict.

8. Additional Cloud Terms. The terms set forth in this **Section 8 – Additional Cloud Terms** apply in the event Customer purchases any cloud hosted software Products under this MVA, including a Cloud Hosted Evidence Management System.

8.1. Data Storage. Motorola will determine, in its sole discretion, the location of the stored content for cloud hosted software Products. All data, replications, and backups will be stored at a location in the United States for Customers in the United States.

8.2. Data Retrieval. Cloud hosted software Products will leverage different types of storage to optimize software, as determined in Motorola's sole discretion. For multimedia data, such as videos, pictures, audio files, Motorola will, in its sole discretion, determine the type of storage medium used to store the content. The type of storage and medium selected by Motorola will determine the data retrieval speed. Access to content in archival storage may take up to twenty-four (24) hours to be viewable.

8.3. Availability. Unless otherwise specified in the Ordering Documents, Motorola will make reasonable efforts to provide monthly availability of 99.9% for cloud hosted software Products with the exception of maintenance windows. There are many factors beyond Motorola's control that may impact Motorola's ability to achieve this goal.

8.4. Maintenance. Scheduled maintenance of cloud hosted software Products will be performed periodically. Motorola will make commercially reasonable efforts to notify customers one (1) week in advance of any such maintenance. Unscheduled and emergency maintenance may be required from time to time. Motorola will make commercially reasonable efforts to notify customers of any unscheduled or emergency maintenance twenty-four (24) hours in advance.

9. Survival. The following provisions will survive the expiration or termination of this MVA for any reason: **Section 1 – Addendum; 2 – Evidence Management Systems; Applicable Terms and Conditions; Section 3 – Payment; Section 5.2 – Applicable End User Terms; Section 6.5.1 – VideoManager EL Section 6.7 – VaaS Program Term and Termination; Section 9 – Survival.**

Justification for Contract Extension: BWC/ICC System – Contract #455783

Background: The original contract (#455783) between the Metropolitan Government of Nashville and Davidson County and WatchGuard, Inc. (now Motorola Solutions, Inc.) was executed on **August 29, 2019**, with an initial term of **60 months**. Two amendments followed:

- **Amendment 1 (January 29, 2020):** Modified escrow terms.
- **Amendment 2 (January 6, 2021):** Introduced a lease agreement (Equipment-Lease Purchase Agreement #24876) and extended the contract term to **January 5, 2026**.

Current Status: The contract is set to expire on **January 5, 2026**, totaling **6 years and 4 months** from the original start date.

Proposed Extension: The request is to extend the contract to its maximum allowable term of **10 years**, moving the expiration date to **August 28, 2029**.

Justification:

1. Continuity of Operations:

Extending the contract ensures uninterrupted service and support for the BWC/ICC systems, which are critical to MNPd's operational integrity and public accountability.

2. Investment in Custom Integrations:

The current vendor, in collaboration with Police IT, has developed and implemented custom interfaces with the Police Records Management Systems. Additionally, custom automation has been built to facilitate secure video sharing with the District Attorney's Office video storage system. These integrations took over four years to develop and represent a significant investment that would be lost—and costly to replicate—if the contract were not extended.

3. Data Storage and Security Risks:

The current cloud-based storage platform under this contract houses over **three (3) Petabytes** of BWC and In-Car Camera video. Migrating this volume of evidentiary video to a different cloud platform would be cost-prohibitive and introduce substantial risks to the integrity and security of the video evidence.

4. Capital Investment in Hardware:

The capital investment in the current In-Car Camera system hardware—installed in **1,100 Police patrol vehicles**—would be lost. This hardware is proprietary to the

current vendor and cannot function without the associated licensing and cloud storage subscription. It is not compatible with other vendors' systems.

5. **Operational Efficiency:**

Avoiding a new procurement process saves time and resources, especially given the complexity of integrating BWC/ICC systems with MNPd's IT infrastructure.

Amendment Request Review

,Reviewed By:	Gary C. Clay	Department:	Police
Contract #:	455783	Unique ID No.	
Contractor Name:	Motorola Solutions, Inc. dba WatchGuard	Contract Description:	Body Worn Camera and In-car Camera Systems
Amendment No:	3	Amendment Amount:	8,000,000
Recommendation:	Approve		

Review:

This amendment increases the estimated value by \$8,000,000.00 for a revised estimated contract value of \$27,000,000.00

- Amendment has **no impact** on the scope of the contract.
- Amendment will extend the **contract term** to 08/28/2029
- Insert **Boycott of Israel clause**.
- Amendment will likely require Council approval (though previous amendment #2 was approved) as the amendment seeks to extend the Contract to (10) years from the original Contract date.

Based on the above, **amendment is recommended**.

ASSIGNMENT AND ASSUMPTION AGREEMENT

THIS ASSIGNMENT AND ASSUMPTION AGREEMENT (the “Assignment Agreement” or this “Agreement”) is made and entered into effective as of April 25, 2022 at 12:01 AM/PM Central Standard Time (the “Effective Time”) by and between:

WATCHGUARD VIDEO, INC., a corporation organized and existing under the laws of the State of Delaware (“Assignor”); and

MOTOROLA SOLUTIONS, INC., a corporation organized and existing under the laws of the State of Delaware (“Assignee”).

(Assignor and Assignee are collectively referred to as the “Parties,” and each individually as a “Party”).

Recitals

WHEREAS, Assignor is an direct wholly-owned subsidiary of Assignee;

WHEREAS, Assignee has determined that it is advisable and in the best interests of the Assignee and its shareholders to effect an internal restructuring involving certain subsidiaries of Assignee, including Assignor (the “Restructuring”);

WHEREAS, Assignor is engaged in the delivery of mobile video and digital evidence management products (the “Business”); and

WHEREAS, in connection with the Restructuring, Assignor desires to transfer and assign to Assignee, and Assignee desires to acquire and assume from Assignor, all of Assignor’s right, title and interest in and to the Assigned Contracts, effective as of the Effective Time, upon the terms and subject to the conditions set forth in this Agreement. For purposes of this Agreement, “Assigned Contracts” shall mean all contracts for the sale of products and/or services by Assignor, including any amendments or ancillary agreements thereto (which such assignment shall include customer, resale and distribution agreements, but, for the avoidance of doubt, does not include licensing arrangements, patent licenses or litigation settlement agreement, or other contracts related solely to intellectual property rights).

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants and agreements set forth below, and other good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Parties hereby agree as follows:

Section 1 – Transfer

1.1 Assignment and Delegation and Assumption. Effective as of the Effective Time and subject to Section 2.1 hereof, Assignor hereby assigns, transfers and conveys to Assignee, and Assignee hereby receives and accepts from Assignor, all of Assignor’s rights, benefit and interest in, to and under the Assigned Contracts. Where applicable, Assignor hereby delegates the performance of all of its duties under the Assigned Contracts to Assignee, and Assignee hereby accepts such delegation and agrees to assume, to the extent permitted by applicable law, and to perform, satisfy and discharge all liabilities and obligations in relation to the Assigned Contracts in accordance with their respective terms.

Section 2 – Miscellaneous

2.1 Beneficial Ownership. It is the intention of the Parties that the transfer of the Assigned Contracts shall be effective as of the Effective Time, and except as may otherwise be expressly provided

in this Assignment Agreement, from and after such date Assignee shall be the owner and payee or other obligee of the Assigned Contracts for all purposes, and to the extent that any third party consent or registration, notice, filing or other formal step is required under the Assigned Contracts or under the laws of any applicable jurisdiction (each, a “Formality”) in order to give legal or other effect to such transfer, and any transfer is not effected as of the Effective Time as a result, Assignor shall hold the Assigned Contracts as nominee or trustee for the benefit of Assignee until such consent has been obtained or the applicable action has been taken to satisfy such other Formality. Assignor agrees to use all reasonable efforts to obtain such consent, or to seek to satisfy such other Formalities, as soon as practicable after the Effective Time. Notwithstanding any other provision of this Agreement, this Agreement does not effect an assignment of any Assigned Contracts that prohibits any assignment otherwise contemplated by this Agreement, and for which the Transferor has not obtained a required consent to assignment or given a required notice as of the Effective Time. It is the intention of the Parties that, except as may otherwise be expressly provided in this Assignment Agreement, all the benefits and burdens of the Assigned Contracts shall transfer to Assignee on the Effective Time. To the extent that the transfer of the Assigned Contracts to Assignee is not perfected on the Effective Time or would be contrary to applicable law, the Parties will use their best efforts to provide to, or cause to be provided to, Assignee, to the extent permitted by law, the rights and benefits associated with the Assigned Contracts and take such other actions as may reasonably be requested by Assignee in order to place Assignee, insofar as reasonably possible, in the same position as if Assignee were the owner and payee or other obligee of the Assigned Contracts. Without limiting the foregoing and in connection therewith Assignor will (a) promptly pass along to Assignee (or such person as directed by Assignee) when received all payments of principal, interest and other benefits derived by Assignor with respect to the Assigned Contracts and (b) enforce, on behalf of Assignee, any rights, claims, causes of action and remedies with respect to the Assigned Contracts as requested by Assignee, and Assignee will pay, perform and discharge on behalf of Assignor all of Assignor’s obligations under the Assigned Contracts in a timely manner and in accordance with the terms thereof which it may do without breach, in each case accruing on or after the Effective Time. If and when such consents are obtained or such other required Formalities satisfied, the transfer of the Assigned Contracts will be effected in accordance with the terms of this Assignment Agreement.

2.2 Further Assurances. Each Party shall perform such acts, execute and deliver such instruments and documents, and do all such other things as are reasonably necessary to accomplish the transactions contemplated in and otherwise give effect to this Assignment Agreement.

2.3 Governing Law. The laws of Delaware (excluding its rules governing conflicts of laws that would result in the application of the laws of another jurisdiction), shall govern the construction, interpretation and other matters arising out of or in connection with this Assignment Agreement (whether arising in contract, tort, equity or otherwise), except to the extent that mandatory provisions of other jurisdictions apply to the transfer of the Assigned Contracts.

2.4 Severability. If any provision of this Assignment Agreement is determined by a court of competent jurisdiction to be invalid, illegal or unenforceable, the remaining provisions of this Assignment Agreement shall remain in full force, if the essential terms and conditions of this Assignment Agreement for each Party remain valid, binding and enforceable. The Parties shall then use all reasonable endeavors to replace the invalid or unenforceable provision(s) by a valid, legal and enforceable substitute provision the effect of which is as close as possible to the intended effect of the invalid, illegal or unenforceable provision.

2.5 Entire Agreement. This Assignment Agreement, including the exhibits hereto (if any), constitutes the final agreement between the Parties with respect to the subject matter contained herein, and is the complete and exclusive statement of the Parties’ agreement on the matters contained herein. All prior and contemporaneous negotiations and agreements between the Parties with respect to the matters contained herein are superseded by this Assignment Agreement. Notwithstanding the foregoing, the Parties contemplate that they may desire to enter into or execute transfer instruments of various kinds

consistent with, but in some cases duplicative of, this Assignment Agreement in order to effect the transfer of the Assigned Contracts and to facilitate the registration of such transfer with local governmental authorities having jurisdiction over the Assigned Contracts (if required).

2.6 Successors and Assigns. This Assignment Agreement shall be binding on and inure to the benefit of the Parties, their successors in interest and assigns.

2.7 Counterparts. The Parties may execute this Assignment Agreement in counterparts, each of which constitutes an original as against the Party that signed it, and both of which together constitute one agreement. The signatures of both Parties need not appear on the same counterpart. The delivery of signed counterparts by facsimile or email transmission that includes a copy of the sending Party's signature is as effective as signing and delivering the counterpart in person.

2.8 Headings. The captions, titles and headings included in this Assignment Agreement are for convenience only, and do not affect this Assignment Agreement's construction or interpretation. When a reference is made in this Assignment Agreement to a Section, such reference will be to a section of this Assignment Agreement unless otherwise indicated.

2.9 Amendments. This Assignment Agreement may not be amended, supplemented or otherwise modified except by a written instrument executed by each of the Parties.

EQUIPMENT LEASE-PURCHASE AGREEMENT**

Lease Number: 24876

LESSEE:

Metropolitan Government of Nashville and Davidson County
1 Public Square
Nashville TN 37201

LESSOR:

Motorola Solutions, Inc.
500 W. Monroe
Chicago IL 60661

Lessor agrees to lease to Lessee and Lessee agrees to lease from Lessor, the equipment and/or software described in Schedule A attached hereto ("Equipment") in accordance with the following terms and conditions of this Equipment Lease-Purchase Agreement ("Lease").

1. TERM. This Lease will become effective upon the execution hereof by Lessor, Lessee, and filing in the office of the Metropolitan Clerk. The Term of this Lease will commence on date specified in Schedule A attached hereto and unless terminated according to terms hereof or the purchase option, provided in Section 18, is exercised this Lease will continue until the Expiration Date set forth in Schedule B attached hereto ("Lease Term").

2. RENT. Lessee agrees to pay to Lessor or its assignee the Lease Payments (herein so called), including the interest portion, in the amounts specified in Schedule B. The Lease Payments will be payable without notice or demand at the office of the Lessor (or such other place as Lessor or its assignee may from time to time designate in writing), and will commence on the first Lease Payment Date as set forth in Schedule B and thereafter on each of the Lease Payment Dates set forth in Schedule B. Any payments received later than ten (10) days from the due date will bear interest at the highest lawful rate from the due date. Except as specifically provided in Section 5 hereof, the Lease Payments will be absolute and unconditional in all events and will not be subject to any set-off, defense, counterclaim, or recoupment for any reason whatsoever. Lessee reasonably believes that funds can be obtained sufficient to make all Lease Payments during the Lease Term and hereby covenants that a request for appropriation for funds from which the Lease Payments may be made will be requested each fiscal period, including making provisions for such payment to the extent necessary in each budget submitted for the purpose of obtaining funding. It is Lessee's intent to make Lease Payment for the full Lease Term if funds are legally available therefor and in that regard Lessee represents that the Equipment will be used for one or more authorized governmental or proprietary functions essential to its proper, efficient and economic operation.

3. DELIVERY AND ACCEPTANCE. Lessor will cause the Equipment to be delivered to Lessee at the location specified in Schedule A ("Equipment Location"). Lessee will accept the Equipment as soon as it has been delivered and is operational. Lessee will evidence its acceptance of the Equipment either (a) by executing and delivering to Lessor a Delivery and Acceptance Certificate in the form provided by Lessor; or (b) by executing and delivering the form of acceptance provided for in the Contract (defined below).

Even if Lessee has not executed and delivered to Lessor a Delivery and Acceptance Certificate or other form of acceptance acceptable to Lessor, if Lessor believes the Equipment

has been delivered and is operational, Lessor may require Lessee to notify Lessor in writing (within ten (10) days of Lessee's receipt of Lessor's request) whether or not Lessee deems the Equipment (i) to have been delivered and (ii) to be operational, and hence be accepted by Lessee. If Lessee fails to so respond in such ten (10) day period, Lessee will be deemed to have accepted the Equipment and be deemed to have acknowledged that the Equipment was delivered and is operational as if Lessee had in fact executed and delivered to Lessor a Delivery and Acceptance Certificate or other form acceptable to Lessor.

4. REPRESENTATIONS AND WARRANTIES. Lessor acknowledges that the Equipment leased hereunder is being manufactured and installed by a subsidiary of the Lessor, WatchGuard, Inc. pursuant to Contract #455783 (the "Contract") covering the Equipment. Lessee acknowledges that on or prior to the date of acceptance of the Equipment, Lessor intends to sell and assign Lessor's right, title and interest in and to this Agreement and the Equipment to an assignee ("Assignee"). LESSEE FURTHER ACKNOWLEDGES THAT EXCEPT AS EXPRESSLY SET FORTH IN CONTRACT 455783, LESSOR MAKES NO EXPRESS OR IMPLIED WARRANTIES OF ANY NATURE OR KIND WHATSOEVER, AND AS BETWEEN LESSEE AND THE ASSIGNEE, THE PROPERTY SHALL BE ACCEPTED BY LESSEE "AS IS" AND "WITH ALL FAULTS". LESSEE AGREES TO SETTLE ALL CLAIMS DIRECTLY WITH LESSOR AND WILL NOT ASSERT OR SEEK TO ENFORCE ANY SUCH CLAIMS AGAINST THE ASSIGNEE. NEITHER LESSOR NOR THE ASSIGNEE SHALL BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER AS A RESULT OF THE LEASE OF THE EQUIPMENT, INCLUDING WITHOUT LIMITATION, LOSS OF PROFITS, PROPERTY DAMAGE OR LOST PRODUCTION WHIETIER SUFFERED BY LESSEE OR ANY THIRD PARTY. NOTHING CONTAINED HEREIN SHALL PRECLUDE THE LESSEE FROM ENFORCING ANY REMEDIES, WARRANTIES OR MAINTENANCE AGREEMENTS AFFORDED UNDER CONTRACT 455783, AGAINST MOTOROLA SOLUTIONS, INC. OR ITS SUBSIDIARY WATCHGUARD, INC., AS THE EQUIPMENT VENDOR, AND CONTRACTOR

Lessor is not responsible for, and shall not be liable to Lessee for damages relating to loss of value of the Equipment for any cause or situation (including, without limitation, governmental actions or regulations or actions of other third parties).

5. NON-APPROPRIATION OF FUNDS. Notwithstanding anything contained in this Lease to the contrary, Lessee has the right to not appropriate funds to make Lease Payments required hereunder in any fiscal period and in the event no funds are appropriated or in the event funds appropriated by Lessee's governing body or otherwise available by any lawful means whatsoever in any fiscal period of Lessee for Lease Payments or other amounts due under this Lease are insufficient therefor, this Lease shall terminate on the last day of the fiscal period for which appropriations were received without penalty or expense to Lessee of any kind whatsoever, except as to the portions of Lease Payments or other amounts herein agreed upon for which funds shall have been appropriated and budgeted or are otherwise available. The Lessee will immediately notify the Lessor or its Assignee of such occurrence. In the event of such termination, Lessee agrees to peaceably surrender possession of the Equipment to Lessor or its Assignee on the date of such termination, packed for shipment in accordance with manufacturer specifications and freight prepaid and insured to any location in the continental United States

designated by Lessor. Lessor will have all legal and equitable rights and remedies to take possession of the Equipment. Non-appropriation of funds shall not constitute a default hereunder for purposes of Section 16.

6. LESSEE CERTIFICATION. Lessee represents, covenants and warrants that: (i) Lessee is a state or a duly constituted political subdivision or agency of the state of the Equipment Location; (ii) it is the intention of the parties that the interest portion of the Lease Payments shall be excludable from Lessor's gross income pursuant to Section 103 of the Internal Revenue Code of 1986, as it may be amended from time to time (the "Code"); (iii) the execution, delivery and performance by the Lessee of this Lease have been duly authorized by all necessary action on the part of the Lessee; (iv) this Lease constitutes a legal, valid and binding obligation of the Lessee enforceable in accordance with its terms; (v) Lessee will comply with the information reporting requirements of Section 149(e) of the Internal Revenue Code of 1986 (the "Code"), and such compliance shall include but not be limited to the execution of information statements requested by Lessor; (vi) Lessee will not do or cause to be done any act which will cause, or by omission of any act allow, the Lease to be an arbitrage bond within the meaning of Section 148(a) of the Code; (vii) Lessee will not do or cause to be done any act which will cause, or by omission of any act allow, this Lease to be a private activity bond within the meaning of Section 141(a) of the Code; (viii) Lessee will not do or cause to be done any act which will cause, or by omission of any act allow, the interest portion of the Lease Payment to be or become includible in gross income for Federal income taxation purposes under the Code; and (ix) Lessee will be the only entity to own, use and operate the Equipment during the Lease Term.

Lessee represents, covenants and warrants that: (i) it will do or cause to be done all things necessary to preserve and keep the Lease in full force and effect, (ii) it has complied with all laws relative to public bidding where necessary, and (iii) it has sufficient appropriations or other funds available to pay all amounts due hereunder for the current fiscal period.

If Lessee breaches the covenant contained in this Section, the interest component of Lease Payments may become includible in gross income of the owner or owners thereof for federal income tax purposes. In such event, notwithstanding anything to the contrary contained in Section 11 of this Agreement, Lessee agrees to pay promptly after any such determination of taxability and on each Lease Payment date thereafter to Lessor an additional amount determined by Lessor to compensate such owner or owners for the loss of such excludibility (including, without limitation, compensation relating to interest expense, penalties or additions to tax), which determination shall be conclusive (absent manifest error). Notwithstanding anything herein to the contrary, any additional amount payable by Lessee pursuant to this Section 6 shall be payable solely from Legally Available Funds.

It is Lessor's and Lessee's intention that this Agreement not constitute a "true" lease for federal income tax purposes and, therefore, it is Lessor's and Lessee's intention that Lessee be considered the owner of the Equipment for federal income tax purposes.

7. TITLE TO EQUIPMENT; SECURITY INTEREST. Upon shipment of the Equipment to Lessee hereunder, title to the Equipment will vest in Lessee subject to any applicable license; provided, however, that (i) in the event of termination of this Lease by Lessee pursuant to Section 5 hereof; (ii) upon the occurrence of an Event of Default hereunder, and as long as such Event of Default is continuing; or (iii) in the event that the purchase option has not

been exercised prior to the Expiration Date, title will immediately vest in Lessor or its Assignee, and Lessee shall immediately discontinue use of the Equipment, remove the Equipment from Lessee's computers and other electronic devices and deliver the Equipment to Lessor or its Assignee. In order to secure all of its obligations hereunder, Lessee hereby (i) grants to Lessor a first and prior security interest in any and all right, title and interest of Lessee in the Equipment and in all additions, attachments, accessions, and substitutions thereto, and on any proceeds therefrom; (ii) agrees that this Lease may be filed as a financing statement evidencing such security interest; and (iii) agrees to execute and deliver all financing statements, certificates of title and other instruments necessary or appropriate to evidence such security interest.

8. USE; REPAIRS. Lessee will use the Equipment in a careful manner for the use contemplated by the manufacturer of the Equipment and shall comply with all laws, ordinances, insurance policies, the Contract, any licensing or other agreement, and regulations relating to, and will pay all costs, claims, damages, fees and charges arising out of the possession, use or maintenance of the Equipment. Lessee, at its expense will keep the Equipment in good repair and furnish and/or install all parts, mechanisms, updates, upgrades and devices required therefor.

9. ALTERATIONS. Lessee will not make any alterations, additions or improvements to the Equipment without Lessor's prior written consent unless such alterations, additions or improvements may be readily removed without damage to the Equipment.

10. LOCATION; INSPECTION. The Equipment will not be removed from, [or if the Equipment consists of rolling stock, its permanent base will not be changed from] the Equipment Location without Lessor's prior written consent which will not be unreasonably withheld. Upon reasonable notice and while accompanied by an authorized employee of the Lessee, Lessor will be entitled to enter upon the Equipment Location or elsewhere during reasonable business hours to inspect the Equipment or observe its use and operation.

11. LIENS AND TAXES. Lessee shall keep the Equipment free and clear of all levies, liens and encumbrances except those created under this Lease. To the extent that the Lessee is unable to provide valid proof of exemption, Lessee shall pay, when due, all charges and taxes (local, state and federal) which may now or hereafter be imposed upon the ownership, licensing, leasing, rental, sale, purchase, possession or use of the Equipment, excluding however, all taxes on or measured by Lessor's income. If Lessee fails to pay said charges and taxes when due, Lessor shall have the right, but shall not be obligated, to pay said charges and taxes. If Lessor pays any charges or taxes, Lessee shall reimburse Lessor therefor within ten days of written demand.

12. RISK OF LOSS: DAMAGE; DESTRUCTION. After receipt of Equipment, and to the extent permitted by Tennessee law, Lessee assumes all risk of loss or damage to the Equipment from any cause whatsoever, and no such loss of or damage to the Equipment nor defect therein nor unfitness or obsolescence thereof shall relieve Lessee of the obligation to make Lease Payments or to perform any other obligation under this Lease. In the event of damage to any item of Equipment, Lessee will immediately place the same in good repair with the proceeds of any insurance recovery applied to the cost of such repair. If Lessor determines that any item of Equipment is lost, stolen, destroyed or damaged beyond repair (an "Event of Loss"), Lessee at the option of Lessor will: either (a) replace the same with like equipment in good repair; or

(b) on the next Lease Payment date, pay Lessor the sum of : (i) all amounts then owed by Lessee to Lessor under this Lease, including the Lease payment due on such date; and (ii) an amount equal to all remaining Lease Payments to be paid during the Lease Term as set forth in Schedule B.

In the event that Lessee is obligated to make such payment with respect to less than all of the Equipment, Lessor will provide Lessee with the pro rata amount of the Lease Payment and the Balance Payment (as set forth in Schedule B) to be made by Lessee with respect to that part of the Equipment which has suffered the Event of Loss.

13. INSURANCE. Lessee will, at its expense, maintain at all times during the Lease Term, fire and extended coverage, public liability and property damage insurance with respect to the Equipment in such amounts, covering such risks, and with such insurers as shall be satisfactory to Lessor, or Lessee may self-insure against any or all such risks. All insurance covering loss of or damage to the Equipment shall be carried in an amount no less than the amount of the then applicable Balance Payment with respect to such Equipment. The initial amount of insurance required is set forth in Schedule B. Each insurance policy will name Lessee as an insured and Lessor or it's Assigns as an additional insured, and will contain a clause requiring the insurer to give Lessor at least thirty (30) days prior written notice of any alteration in the terms of such policy or the cancellation thereof. The proceeds of any such policies will be payable to Lessee and Lessor or it's Assigns as their interests may appear. Upon acceptance of the Equipment and upon each insurance renewal date, Lessee will deliver to Lessor a certificate evidencing such insurance.

In the event that Lessee has self-insured, the insurance requirements above do not apply. In that case, Lessee will (1) be fully and financially responsible for any and all partial or total loss of the Equipment; (2) repair or replace said Equipment to the extent available, or so much as thereof as may be destroyed or damaged from any cause whatsoever, except for any Equipment destroyed or damaged by any action of Motorola, as soon as possible; (3) in the event the Equipment cannot be repaired or restored to a condition or value equivalent to its condition or value before the damage, or replaced by comparable Equipment to pay the portion of the obligation as may be attributable to the Equipment destroyed or damaged beyond repair; (4) to be fully and financially responsible for any loss, damage, injury or accident involving or resulting from use of the Equipment to the extent permitted by Law; (5) in the event that the Lessee obtains the insurance, then, in such event, all of the terms, conditions and provisions of the Lease, regarding the applicable insurance coverage shall be applicable for the remainder of the term of the Lease; (6) notify Lessor in writing, immediately upon any loss of, or damage to, the Equipment; and (7) notify Lessor with written notice of any claims for loss, damage, injury or accident involving or resulting from use of the Equipment, and make available to Lessor all information and documentation relating thereto. The parties acknowledge that Lessee is currently self-insured.

To the extent the Lessee decides to terminate any self-insurance arrangement, after notice of such assignment, the insurance requirements above do apply. Lessee shall name the Assignee as additional insured and loss payee in any insurance policies obtained or in force. Any Assignee of Lessor may reassign this Lease and its interest in the Equipment and the Lease Payments to any other person who, thereupon, shall be deemed to be Lessor's Assignee hereunder.

14. INDEMNIFICATION. Intentionally omitted.

15. ASSIGNMENT. Without Lessor's prior written consent, Lessee will not either (i) assign, transfer, pledge, hypothecate, grant any security interest in or otherwise dispose of this Lease or the Equipment or any interest in this Lease or the Equipment or; (ii) sublet or lend the Equipment or permit it to be used by anyone other than Lessee or Lessee's employees. Lessor may assign its rights, title and interest in and to this Lease, the Equipment and any documents executed with respect to this Lease and/or grant or assign a security interest in this Lease and the Equipment, in whole or in part. Any such assignees shall have all of the rights of Lessor under this Lease. Subject to the foregoing, this Lease inures to the benefit of and is binding upon the heirs, executors, administrators, successors and assigns of the parties hereto.

Lessee covenants and agrees not to assert against the Assignee any claims or defenses by way of abatement, setoff, counterclaim, recoupment or the like which Lessee may have against Lessor. Lessee agrees to work with Lessor or Lessor's subsidiary, WatchGuard, Inc to resolve any performance related issues concerning the Equipment. No assignment or reassignment of any Lessor's right, title or interest in this Lease or the Equipment shall be effective unless and until Lessee shall have received a notice of assignment, disclosing the name and address of each such assignee; provided, however, that if such assignment is made to a bank or trust company as paying or escrow agent for holders of certificates of participation in the Lease, it shall thereafter be sufficient that a copy of the agency agreement shall have been deposited with Lessee until Lessee shall have been advised that such agency agreement is no longer in effect. During the Lease Term Lessee shall keep a complete and accurate record of all such assignments in form necessary to comply with Section 149(a) of the Code, and the regulations, proposed or existing, from time to time promulgated thereunder. No further action will be required by Lessor or by Lessee to evidence the assignment, but Lessee will acknowledge such assignments in writing if so requested.

16. EVENT OF DEFAULT. The term "Event of Default", as used herein, means the occurrence of any one or more of the following events: (i) Lessee fails to make any Lease Payment (or any other payment) as it becomes due in accordance with the terms of the Lease when funds have been appropriated sufficient for such purpose, and any such failure continues for ten (10) days after the due date thereof; (ii) Lessee fails to perform or observe any other covenant, condition, or agreement to be performed or observed by it hereunder and such failure is not cured within twenty (20) days after written notice thereof by Lessor; (iii) the discovery by Lessor that any statement, representation, or warranty made by Lessee in this Lease or in writing delivered by Lessee pursuant hereto or in connection herewith is false, misleading or erroneous in any material respect; (iv) proceedings under any bankruptcy, insolvency, reorganization or similar legislation shall be instituted against or by Lessee, or a receiver or similar officer shall be appointed for Lessee or any of its property, and such proceedings or appointments shall not be vacated, or fully stayed, within twenty (20) days after the institution or occurrence thereof; or (v) an attachment, levy or execution is threatened or levied upon or against the Equipment.

17. REMEDIES. Upon the occurrence of an Event of Default, and as long as such Event of Default is continuing, Lessor may, at its option, exercise any one or more of the following remedies: (i) by written notice to Lessee, declare all amounts then due under the Lease, and all remaining Lease Payments due during the fiscal period in effect when the default occurs to be immediately due and payable, whereupon the same shall become immediately due

and payable; (ii) by written notice to Lessee, request Lessee to (and Lessee agrees that it will), at Lessee's expense, promptly discontinue use of the Equipment, remove the Equipment from all of Lessee's computers and electronic devices, return the Equipment to Lessor in the manner set forth in Section 5 hereof, or Lessor, at its option and with reasonable notice and while accompanied by an authorized employee of Lessee, may enter upon the premises where the Equipment is located and in an orderly manner take possession of and remove the same; (iii) sell or lease the Equipment or sublease it for the account of Lessee, holding Lessee liable for all Lease Payments and other amounts due prior to the effective date of such selling, leasing or subleasing and for the difference between the purchase price, rental and other amounts paid by the purchaser, Lessee or sublessee pursuant to such sale, lease or sublease and the amounts payable by Lessee hereunder; (iv) promptly return the Equipment to Lessor in the manner set forth in Section 5 hereof; and (v) exercise any other right, remedy or privilege which may be available to it under applicable laws of the state of the Equipment Location or any other applicable law or proceed by appropriate court action to enforce the terms of the Lease or to recover damages for the breach of this Lease or to rescind this Lease as to any or all of the Equipment. In addition, both Lessor and Lessee will remain liable for all covenants under this Lease. In the event of a default, as determined by a final court order, the non-prevailing party shall be responsible for all legal fees and other costs and expenses, including court costs, incurred by prevailing party with respect to the enforcement of any of the remedies listed above or any other remedy available to either party.

18. PURCHASE OPTION. Upon thirty (30) days prior written notice from Lessee to Lessor, and provided that no Event of Default has occurred and is continuing, or no event, which with notice or lapse of time, or both could become an Event of Default, then exists, Lessee will have the right to purchase the Equipment on the Lease Payment dates set forth in Schedule B by paying to Lessor, on such date, the Lease Payment then due together with the Balance Payment amount set forth opposite such date. Upon satisfaction by Lessee of such purchase conditions, Lessor will transfer any and all of its right, title and interest in the Equipment to Lessee as is, without warranty, express or implied, except that the Equipment is free and clear of any liens created by Lessor.

19. NOTICES. All notices to be given under this Lease shall be made in writing and mailed by certified mail, return receipt requested, to the other party at its address set forth herein or at such address as the party may provide in writing from time to time. At this time, Notice of Assignment shall be made by letter to:

THREE-PARTY ESCROW SERVICE AGREEMENT

1. Introduction

This Three Party Escrow Service Agreement (the “**Agreement**”) is entered into by and between WatchGuard, Inc. (the “**Depositor**”), and by the Metropolitan Government of Nashville and Davidson County (the “**Beneficiary**”) and by Iron Mountain Intellectual Property Management, Inc. (“**Iron Mountain**”). Depositor, Beneficiary, and Iron Mountain may be referred to individually as a “**Party**” or collectively as the “**Parties**” throughout this Agreement.

- (a) The use of the term services in this Agreement shall refer to Iron Mountain services that facilitate the creation, management, and enforcement of software or other technology escrow accounts as described in Exhibit A attached to this Agreement (“**Services**”). A Party shall request Services under this Agreement by selecting such Service on Exhibit A upon execution of the Agreement or by submitting a work request for certain Iron Mountain Services (“**Work Request**”) via written instruction or the online portal maintained at the website located at www.ironmountainconnect.com or other websites owned or controlled by Iron Mountain that are linked to that website (collectively the “**Iron Mountain Website**”).
- (b) The Beneficiary and Depositor have, or will have, entered into a license agreement or other agreement (“**License Agreement**”) conveying intellectual property rights to the Beneficiary, and the Parties intend this Agreement to be considered as supplementary to such agreement, pursuant to Title 11 United States [Bankruptcy] Code, Section 365(n).

2. Depositor Responsibilities and Representations

- (a) It shall be solely the Depositor’s responsibility to: (i) make an initial deposit of all proprietary technology and other materials covered under this Agreement (“**Deposit Material**”) to Iron Mountain within thirty (30) days of the Effective Date; (ii) make any required updates to the Deposit Material during the Term (as defined below) of this Agreement; and (iii) ensure that a minimum of one (1) copy of Deposit Material is deposited with Iron Mountain at all times. At the time of each deposit or update, Depositor will provide an accurate and complete description of all Deposit Material sent to Iron Mountain using the form attached to this Agreement as Exhibit B.
- (b) Depositor represents that it lawfully possesses all Deposit Material provided to Iron Mountain under this Agreement and that any current or future Deposit Material liens or encumbrances will not prohibit, limit, or alter the rights and obligations of Iron Mountain under this Agreement. Depositor warrants that with respect to the Deposit Material, Iron Mountain’s proper administration of this Agreement will not violate the rights of any third parties.
- (c) Depositor represents that all Deposit Material is readable and useable in its then current form; if any portion of such Deposit Material is encrypted, the necessary decryption tools and keys to read such material are deposited contemporaneously.

3. Beneficiary Responsibilities and Representations

- (a) Beneficiary acknowledges that, as between Iron Mountain and Beneficiary, Iron Mountain’s obligation is to maintain the Deposit Material as delivered by the Depositor and that, other than Iron Mountain’s inspection of the Deposit Material (as described in Section 4) and the performance of any of the optional verification Services listed in Exhibit A, Iron Mountain has no other obligation regarding the completeness, accuracy, or functionality of the Deposit Material.
- (b) It shall be solely the Beneficiary’s responsibility to monitor whether a deposit or deposit update has been accepted by Iron Mountain.

4. Iron Mountain Responsibilities and Representations

- (a) Iron Mountain agrees to use commercially reasonable efforts to provide the Services requested by Authorized Person(s) (as identified in the “**Authorized Person(s)/Notices Table**” below) representing the Depositor or Beneficiary in a Work Request. Iron Mountain may reject a Work Request (in whole or in part) that does not contain all required information at any time upon notification to the Party originating the Work Request.
- (b) Iron Mountain will conduct a visual inspection upon receipt of any Deposit Material and associated Exhibit B. If Iron Mountain determines that the Deposit Material does not match the description provided by Depositor represented in Exhibit B, Iron Mountain will notify Depositor of such discrepancy.

- (c) Iron Mountain will provide notice to the Beneficiary of all Deposit Material that is accepted and deposited into the escrow account under this Agreement. Either Depositor or Beneficiary may obtain information regarding deposits or deposit updates upon request or through the Iron Mountain Website.
- (d) Iron Mountain will follow the provisions of Exhibit C attached to this Agreement in administering the release of Deposit Material.
- (e) Iron Mountain will hold and protect Deposit Material in physical or electronic vaults that are either owned or under the control of Iron Mountain, unless otherwise agreed to by the Parties.
- (f) Upon receipt of written Instructions by both Depositor and Beneficiary, Iron Mountain will permit the replacement or removal of previously submitted Deposit Material. The Party making such request shall be responsible for getting the other Party to approve the joint instructions. Any Deposit Material that is removed from the deposit account will be either returned to Depositor or destroyed in accordance with Depositor's written instructions.
- (g) Should transport of Deposit Material be necessary for Iron Mountain to perform Services requested by Depositor or Beneficiary under this Agreement or following the termination of this Agreement, Iron Mountain will use a commercially recognized overnight carrier such as Federal Express or United Parcel Service. Iron Mountain will not be responsible for any loss or destruction of, or damage to, such Deposit Material while in the custody of the common carrier.

5. Deposit Material Verification

- (a) Beneficiary may submit a verification Work Request to Iron Mountain for one or more of the Services defined in Exhibit A attached to this Agreement and Depositor consents to Iron Mountain's performance of any level(s) of such Services. Upon request by Iron Mountain and in support of Beneficiary's request for verification Services, Depositor shall promptly complete and return an escrow deposit questionnaire and reasonably cooperate with Iron Mountain by providing reasonable access to its technical personnel whenever reasonably necessary.
- (b) The Parties consent to Iron Mountain's use of a subcontractor to perform verification Services. Such subcontractor shall be bound by the same confidentiality obligations as Iron Mountain and shall not be a direct competitor to either Depositor or Beneficiary. Iron Mountain shall be responsible for the delivery of Services of any such subcontractor as if Iron Mountain had performed the Services. Depositor warrants and Beneficiary warrants that any material it supplies for verification Services is lawful, does not violate the rights of any third parties and is provided with all rights necessary for Iron Mountain to perform verification of the Deposit Material.
- (c) Iron Mountain will work with a Party who submits any verification Work Request for Deposit Material covered under this Agreement to either fulfill any standard verification Services Work Request or develop a custom Statement of Work ("SOW"). Iron Mountain and the requesting Party will mutually agree in writing to an SOW on terms and conditions that include but are not limited to: description of Deposit Material to be tested; description of verification testing; requesting Party responsibilities; Iron Mountain responsibilities; Service Fees; invoice payment instructions; designation of the paying Party; designation of authorized SOW representatives for both the requesting Party and Iron Mountain with name and contact information; and description of any final deliverables prior to the start of any fulfillment activity. Provided that the requesting Party has identified in the verification Work Request or SOW that the Deposit Material is subject to the regulations of the International Traffic In Arms Regulations (22 CFR 120)(hereinafter "ITAR"), Iron Mountain shall ensure that any subcontractor who is granted access to the Deposit Material for the performance of verification Services shall be a U.S. Person as defined in 8 U.S.C. 1101(a)(20) or who is a protected person as defined in 8 U.S.C. 1324b(a)(3). After the start of fulfillment activity, each SOW may only be amended or modified in writing with the mutual agreement of both Parties, in accordance with the change control procedures set forth in the SOW. If the verification Services extend beyond those described in Exhibit A, the Depositor shall be a necessary Party to the SOW governing the Services.

6. Payment

The Depositor shall be responsible for payment ("Paying Party") shall pay to Iron Mountain all fees as set forth in the Work Request ("Service Fees"), provided that the Parties have selected the Depositor as the Paying Party in such Work Request and have provided the Depositor's billing contact information. For the avoidance of doubt, Iron Mountain will solely rely on the Party provided in the Paying Party Billing Contact Table of the Agreement, Exhibit A, Exhibit E, or any valid Work Request or SOW as the Paying Party for fees associated with Services requested pursuant to such document. All Service Fees are due within thirty (30) calendar days from the date of invoice in U.S. currency and are non-refundable. Iron Mountain may update Service Fees with a ninety (90) calendar day written notice to the Paying Party during the Term of this Agreement (as defined below). The Paying Party is liable for any taxes (other than Iron Mountain income taxes) related to Services purchased under this Agreement or shall present to Iron Mountain an exemption certificate acceptable to the taxing authorities. Applicable taxes shall be billed as a separate item on the invoice. Any Service Fees not collected by Iron Mountain when due shall bear interest until paid at a rate of one percent (1%) per month (12% per annum) or the maximum rate permitted by law, whichever is less. Notwithstanding the non-performance of any obligations of Depositor to deliver Deposit Material under the License Agreement or this Agreement, Iron Mountain is entitled to be paid all Service Fees that accrue during the Term of this Agreement.

7. Term and Termination

- (a) The term of this Agreement is for a period of one (1) year from the Effective Date ("**Initial Term**") and will automatically renew for additional one (1) year terms ("**Renewal Term**") (collectively the "**Term**"). This Agreement shall continue in full force and effect until one of the following events occur: (i) Depositor and Beneficiary provide Iron Mountain with sixty (60) days' prior written joint notice of their intent to terminate this Agreement; (ii) Beneficiary provides Iron Mountain and Depositor with sixty (60) days' prior written notice of its intent to terminate this Agreement; (iii) the Agreement terminates under another provision of this Agreement; or (iv) any time after the Initial Term, Iron Mountain provides sixty (60) days' prior written notice to the Depositor and Beneficiary of Iron Mountain's Intent to terminate this Agreement. The Effective Date and the Deposit Account Number shall be supplied by Iron Mountain only. The Effective Date supplied by Iron Mountain and specified above shall be the date Iron Mountain sets up the escrow account. The Parties acknowledge and agree that upon the expiration or termination of the master contract between Depositor and Beneficiary, Beneficiary will have no further obligations under this Agreement other than those set forth in Exhibit C of this Agreement, in the event Beneficiary issues a release Work Request.
- (b) Unless the express terms of this Agreement provide otherwise, upon termination of this Agreement, Iron Mountain shall return physical Deposit Material to the Depositor and erase electronically submitted Deposit Material. If reasonable attempts to return the physical Deposit Material to Depositor are unsuccessful, Iron Mountain shall destroy the Deposit Material.
- (c) In the event of the nonpayment of undisputed Service Fees owed to Iron Mountain, Iron Mountain shall provide all Parties to this Agreement with written notice of Iron Mountain's intent to terminate this Agreement. Any Party to this Agreement shall have the right to make the payment to Iron Mountain to cure the default. If the past due payment is not received in full by Iron Mountain within thirty (30) calendar days of the date of such written notice, then Iron Mountain shall have the right to terminate this Agreement at any time thereafter by sending written notice to all Parties. Iron Mountain shall have no obligation to perform the Services under this Agreement (except those obligations that survive termination of this Agreement, which includes the confidentiality obligations in Section 10) so long as any undisputed Service Fees due Iron Mountain under this Agreement remain unpaid.

8. Infringement Indemnification

Anything in this Agreement to the contrary notwithstanding, Depositor at its own expense shall defend, indemnify and hold Iron Mountain fully harmless against any claim or action asserted against Iron Mountain (specifically including costs and reasonable attorneys' fees associated with any such claim or action) to the extent such claim or action is based on an assertion that Iron Mountain's administration of this Agreement infringes any patent, copyright, license or other proprietary right of any third party. When Iron Mountain has notice of a claim or action, it shall promptly notify Depositor in writing. Depositor may elect to control the defense of such claim or action or enter into a settlement agreement, provided that no such settlement or defense shall include any admission or implication of wrongdoing on the part of Iron Mountain without Iron Mountain's prior written consent, which consent shall not be unreasonably delayed or withheld. Iron Mountain shall have the right to employ separate counsel and participate in the defense of any claim at its own expense.

9. Warranties

IRON MOUNTAIN WARRANTS ANY AND ALL SERVICES PROVIDED HEREUNDER SHALL BE PERFORMED IN A COMMERCIALY REASONABLE MANNER CONSISTENT WITH INDUSTRY STANDARDS. EXCEPT AS SPECIFIED IN THIS SECTION, ALL CONDITIONS, REPRESENTATIONS, AND WARRANTIES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, SATISFACTORY QUALITY, OR ARISING FROM A COURSE OF DEALING, USAGE, OR TRADE PRACTICE, ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW. AN AGGRIEVED PARTY MUST NOTIFY IRON MOUNTAIN PROMPTLY UPON LEARNING OF ANY CLAIMED BREACH OF ANY WARRANTY AND, TO THE EXTENT ALLOWED BY APPLICABLE LAW, SUCH PARTY'S REMEDY FOR BREACH OF THIS WARRANTY SHALL BE SUBJECT TO THE LIMITATION OF LIABILITY AND CONSEQUENTIAL DAMAGES WAIVER IN THIS AGREEMENT. THIS DISCLAIMER AND EXCLUSION SHALL APPLY EVEN IF THE EXPRESS WARRANTY AND LIMITED REMEDY SET FORTH ABOVE FAILS OF ITS ESSENTIAL PURPOSE.

10. Confidential Information

Iron Mountain shall have the obligation to implement and maintain safeguards designed to protect the confidentiality of the Deposit Material and use at least the same degree of care to safeguard the confidentiality of the Deposit Material as it uses to protect its own confidential information, but in no event less than a reasonable degree of care. Except as provided in this Agreement Iron Mountain shall not use or disclose the Deposit Material. Iron Mountain shall not disclose the terms of this Agreement to any third party other than its financial, technical, or legal advisors, or its administrative support service providers. Any such third party shall be bound by the same confidentiality obligations as Iron Mountain. If Iron Mountain receives a subpoena or any other order from a court or other judicial tribunal pertaining to the disclosure or release of the Deposit Material, Iron Mountain will promptly notify the Parties to this Agreement unless prohibited by law. After notifying the Parties, Iron Mountain may comply in good faith with such order or subpoena. It shall be the responsibility of Depositor or Beneficiary to challenge any such order or subpoena; provided, however, that Iron Mountain does not waive its rights to

present its position with respect to any such order or subpoena. Iron Mountain will cooperate with the Depositor or Beneficiary, as applicable, to support efforts to quash or limit any order or subpoena, at such Party's expense.

11. **Limitation of Liability**

EXCEPT FOR: (I) LIABILITY FOR DEATH OR BODILY INJURY; (II) PROVEN GROSS NEGLIGENCE OR WILLFUL MISCONDUCT; OR (III) THE INFRINGEMENT INDEMNIFICATION OBLIGATIONS OF SECTION 8, ALL OTHER LIABILITY RELATED TO THIS AGREEMENT, IF ANY, WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, SHALL BE LIMITED TO \$250,000.00 (USD), TO THE EXTENT PERMITTED BY APPLICABLE LAW WITH RESPECT TO THE BENEFICIARY. THE PARTIES UNDERSTAND AND ACKNOWLEDGE THAT BENEFICIARY CANNOT LIMIT LIABILITY TO AN EXTENT THAT IS INCONSISTENT WITH T.C.A. §12-3-701.

12. **Consequential Damages Waiver**

TO THE EXTENT PERMITTED BY TENNESSEE LAW, IN NO EVENT SHALL ANY PARTY TO THIS AGREEMENT BE LIABLE FOR ANY INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, LOST PROFITS, ANY COSTS OR EXPENSES FOR THE PROCUREMENT OF SUBSTITUTE SERVICES (EXCLUDING SUBSTITUTE ESCROW SERVICES), OR ANY OTHER INDIRECT DAMAGES, WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE EVEN IF THE POSSIBILITY THEREOF MAY BE KNOWN IN ADVANCE TO ONE OR MORE PARTIES.

13. **General**

- (a) **Purchase Orders.** In the event that the Paying Party issues a purchase order or other instrument used to pay Service Fees to Iron Mountain, any terms and conditions set forth in the purchase order which constitute terms and conditions which are in addition to those set forth in this Agreement or which establish conflicting terms and conditions to those set forth in this Agreement are expressly rejected by Iron Mountain.
- (b) **Right to Make Copies.** Iron Mountain shall have the right to make copies of all Deposit Material as reasonably necessary to perform the Services. Iron Mountain shall copy all copyright, nondisclosure, and other proprietary notices and titles contained on Deposit Material onto any copies made by Iron Mountain. Any copying expenses incurred by Iron Mountain as a result of a Work Request to copy will be borne by the requesting Party. Iron Mountain may request Depositor's reasonable cooperation in promptly copying Deposit Material in order for Iron Mountain to perform this Agreement.

Depositor and Beneficiary warrant that they shall maintain the accuracy of the name and contact information of their respective designated Authorized Person during the Term of this Agreement by providing Iron Mountain with a written request to update its records for the Party's respective Authorized Person which includes the updated information and applicable deposit account number(s).
- (e) **Right to Rely on Instructions.** With respect to release of Deposit Material or the destruction of Deposit Material, Iron Mountain shall rely on instructions from a Party's Authorized Person. In all other cases, Iron Mountain may act in reliance upon any Instruction, Instrument, or signature reasonably believed by Iron Mountain to be genuine and from an Authorized Person, officer, or other employee of a Party. Iron Mountain may assume that such representative of a Party to this Agreement who gives any written notice, request, or instruction has the authority to do so. Iron Mountain will not be required to inquire into the truth of, or evaluate the merit of, any statement or representation contained in any notice or document reasonably believed to be from such representative.
- (f) **Force Majeure.** No Party shall be liable for any delay or failure in performance due to events outside the defaulting Party's reasonable control, including without limitation acts of God, strikes, riots, war, acts of terrorism, fire, epidemics, or delays of common carriers or other circumstances beyond its reasonable control. The obligations and rights of the excused Party shall be extended on a day-to-day basis for the time period equal to the period of the excusable delay.

- (h) **No Waiver.** No waiver of any right under this Agreement by any Party shall constitute a subsequent waiver of that or any other right under this Agreement.
- (i) **Assignment.** No assignment of this Agreement by Depositor or Beneficiary or any rights or obligations of Depositor or Beneficiary under this Agreement is permitted without the written consent of Iron Mountain, which shall not be unreasonably withheld or delayed. THREE-PARTY ESCROW SERVICE AGREEMENT

1. Introduction

This Three Party Escrow Service Agreement (the "**Agreement**") is entered into by and between WatchGuard, Inc. (the "**Depositor**"), and by the Metropolitan Government of Nashville and Davidson County (the "**Beneficiary**") and by Iron Mountain Intellectual Property Management, Inc. ("**Iron Mountain**"). Depositor, Beneficiary, and Iron Mountain may be referred to individually as a "**Party**" or collectively as the "**Parties**" throughout this Agreement.

- (a) The use of the term services in this Agreement shall refer to Iron Mountain services that facilitate the creation, management, and enforcement of software or other technology escrow accounts as described in Exhibit A attached to this Agreement ("**Services**"). A Party shall request Services under this Agreement by selecting such Service on Exhibit A upon execution of the Agreement or by submitting a work request for certain Iron Mountain Services ("**Work Request**") via written instruction or the online portal maintained at the website located at www.ironmountainconnect.com or other websites owned or controlled by Iron Mountain that are linked to that website (collectively the "**Iron Mountain Website**").
- (b) The Beneficiary and Depositor have, or will have, entered into a license agreement or other agreement ("**License Agreement**") conveying intellectual property rights to the Beneficiary, and the Parties intend this Agreement to be considered as supplementary to such agreement, pursuant to Title 11 United States [Bankruptcy] Code, Section 365(n).

2. Depositor Responsibilities and Representations

- (a) It shall be solely the Depositor's responsibility to: (i) make an initial deposit of all proprietary technology and other materials covered under this Agreement ("**Deposit Material**") to Iron Mountain within thirty (30) days of the Effective Date; (ii) make any required updates to the Deposit Material during the Term (as defined below) of this Agreement; and (iii) ensure that a minimum of one (1) copy of Deposit Material is deposited with Iron Mountain at all times. At the time of each deposit or update, Depositor will provide an accurate and complete description of all Deposit Material sent to Iron Mountain using the form attached to this Agreement as Exhibit B.
- (b) Depositor represents that it lawfully possesses all Deposit Material provided to Iron Mountain under this Agreement and that any current or future Deposit Material liens or encumbrances will not prohibit, limit, or alter the rights and obligations of Iron Mountain under this Agreement. Depositor warrants that with respect to the Deposit Material, Iron Mountain's proper administration of this Agreement will not violate the rights of any third parties.
- (c) Depositor represents that all Deposit Material is readable and useable in its then current form; if any portion of such Deposit Material is encrypted, the necessary decryption tools and keys to read such material are deposited contemporaneously.

3. Beneficiary Responsibilities and Representations

- (a) Beneficiary acknowledges that, as between Iron Mountain and Beneficiary, Iron Mountain's obligation is to maintain the Deposit Material as delivered by the Depositor and that, other than Iron Mountain's inspection of the Deposit Material (as described in Section 4) and the performance of any of the optional verification Services listed in Exhibit A, Iron Mountain has no other obligation regarding the completeness, accuracy, or functionality of the Deposit Material.
- (b) It shall be solely the Beneficiary's responsibility to monitor whether a deposit or deposit update has been accepted by Iron Mountain.

4. Iron Mountain Responsibilities and Representations

- (a) Iron Mountain agrees to use commercially reasonable efforts to provide the Services requested by Authorized Person(s) (as identified in the "**Authorized Person(s)/Notices Table**" below) representing the Depositor or Beneficiary in a Work Request. Iron Mountain may reject a Work Request (in whole or in part) that does not contain all required information at any time upon notification to the Party originating the Work Request.
- (b) Iron Mountain will conduct a visual inspection upon receipt of any Deposit Material and associated Exhibit B. If Iron Mountain determines that the Deposit Material does not match the description provided by Depositor represented in Exhibit B, Iron Mountain will notify Depositor of such discrepancy.

- (c) Iron Mountain will provide notice to the Beneficiary of all Deposit Material that is accepted and deposited into the escrow account under this Agreement. Either Depositor or Beneficiary may obtain information regarding deposits or deposit updates upon request or through the Iron Mountain Website.
- (d) Iron Mountain will follow the provisions of Exhibit C attached to this Agreement in administering the release of Deposit Material.
- (e) Iron Mountain will hold and protect Deposit Material in physical or electronic vaults that are either owned or under the control of Iron Mountain, unless otherwise agreed to by the Parties.
- (f) Upon receipt of written instructions by both Depositor and Beneficiary, Iron Mountain will permit the replacement or removal of previously submitted Deposit Material. The Party making such request shall be responsible for getting the other Party to approve the joint instructions. Any Deposit Material that is removed from the deposit account will be either returned to Depositor or destroyed in accordance with Depositor's written instructions.
- (g) Should transport of Deposit Material be necessary for Iron Mountain to perform Services requested by Depositor or Beneficiary under this Agreement or following the termination of this Agreement, Iron Mountain will use a commercially recognized overnight carrier such as Federal Express or United Parcel Service. Iron Mountain will not be responsible for any loss or destruction of, or damage to, such Deposit Material while in the custody of the common carrier.

5. Deposit Material Verification

- (a) Beneficiary may submit a verification Work Request to Iron Mountain for one or more of the Services defined in Exhibit A attached to this Agreement and Depositor consents to Iron Mountain's performance of any level(s) of such Services. Upon request by Iron Mountain and in support of Beneficiary's request for verification Services, Depositor shall promptly complete and return an escrow deposit questionnaire and reasonably cooperate with Iron Mountain by providing reasonable access to its technical personnel whenever reasonably necessary.
- (b) The Parties consent to Iron Mountain's use of a subcontractor to perform verification Services. Such subcontractor shall be bound by the same confidentiality obligations as Iron Mountain and shall not be a direct competitor to either Depositor or Beneficiary. Iron Mountain shall be responsible for the delivery of Services of any such subcontractor as if Iron Mountain had performed the Services. Depositor warrants and Beneficiary warrants that any material it supplies for verification Services is lawful, does not violate the rights of any third parties and is provided with all rights necessary for Iron Mountain to perform verification of the Deposit Material.
- (c) Iron Mountain will work with a Party who submits any verification Work Request for Deposit Material covered under this Agreement to either fulfill any standard verification Services Work Request or develop a custom Statement of Work ("SOW"). Iron Mountain and the requesting Party will mutually agree in writing to an SOW on terms and conditions that include but are not limited to: description of Deposit Material to be tested; description of verification testing; requesting Party responsibilities; Iron Mountain responsibilities; Service Fees; invoice payment instructions; designation of the paying Party; designation of authorized SOW representatives for both the requesting Party and Iron Mountain with name and contact information; and description of any final deliverables prior to the start of any fulfillment activity. Provided that the requesting Party has identified in the verification Work Request or SOW that the Deposit Material is subject to the regulations of the International Traffic in Arms Regulations (22 CFR 120)(hereinafter "ITAR"), Iron Mountain shall ensure that any subcontractor who is granted access to the Deposit Material for the performance of verification Services shall be a U.S. Person as defined in 8 U.S.C. 1101(a)(20) or who is a protected person as defined in 8 U.S.C. 1324b(a)(3). After the start of fulfillment activity, each SOW may only be amended or modified in writing with the mutual agreement of both Parties, in accordance with the change control procedures set forth in the SOW. If the verification Services extend beyond those described in Exhibit A, the Depositor shall be a necessary Party to the SOW governing the Services.

6. Payment

The Depositor shall be responsible for payment ("Paying Party") shall pay to Iron Mountain all fees as set forth in the Work Request ("Service Fees"), provided that the Parties have selected the Depositor as the Paying Party in such Work Request and have provided the Depositor's billing contact information. For the avoidance of doubt, Iron Mountain will solely rely on the Party provided in the Paying Party Billing Contact Table of the Agreement, Exhibit A, Exhibit E, or any valid Work Request or SOW as the Paying Party for fees associated with Services requested pursuant to such document. All Service Fees are due within thirty (30) calendar days from the date of invoice in U.S. currency and are non-refundable. Iron Mountain may update Service Fees with a ninety (90) calendar day written notice to the Paying Party during the Term of this Agreement (as defined below). The Paying Party is liable for any taxes (other than Iron Mountain income taxes) related to Services purchased under this Agreement or shall present to Iron Mountain an exemption certificate acceptable to the taxing authorities. Applicable taxes shall be billed as a separate item on the invoice. Any Service Fees not collected by Iron Mountain when due shall bear interest until paid at a rate of one percent (1%) per month (12% per annum) or the maximum rate permitted by law, whichever is less. Notwithstanding the non-performance of any obligations of Depositor to deliver Deposit Material under the License Agreement or this Agreement, Iron Mountain is entitled to be paid all Service Fees that accrue during the Term of this Agreement.

7. Term and Termination

- (a) The term of this Agreement is for a period of one (1) year from the Effective Date ("Initial Term") and will automatically renew for additional one (1) year terms ("Renewal Term") (collectively the "Term"). This Agreement shall continue in full force and effect until one of the following events occur: (i) Depositor and Beneficiary provide Iron Mountain with sixty (60) days' prior written joint notice of their intent to terminate this Agreement; (ii) Beneficiary provides Iron Mountain and Depositor with sixty (60) days' prior written notice of its intent to terminate this Agreement; (iii) the Agreement terminates under another provision of this Agreement; or (iv) any time after the Initial Term, Iron Mountain provides sixty (60) days' prior written notice to the Depositor and Beneficiary of Iron Mountain's intent to terminate this Agreement. The Effective Date and the Deposit Account Number shall be supplied by Iron Mountain only. The Effective Date supplied by Iron Mountain and specified above shall be the date Iron Mountain sets up the escrow account. The Parties acknowledge and agree that upon the expiration or termination of the master contract between Depositor and Beneficiary, Beneficiary will have no further obligations under this Agreement other than those set forth in Exhibit C of this Agreement, in the event Beneficiary issues a release Work Request.
- (b) Unless the express terms of this Agreement provide otherwise, upon termination of this Agreement, Iron Mountain shall return physical Deposit Material to the Depositor and erase electronically submitted Deposit Material. If reasonable attempts to return the physical Deposit Material to Depositor are unsuccessful, Iron Mountain shall destroy the Deposit Material.
- (c) In the event of the nonpayment of undisputed Service Fees owed to Iron Mountain, Iron Mountain shall provide all Parties to this Agreement with written notice of Iron Mountain's intent to terminate this Agreement. Any Party to this Agreement shall have the right to make the payment to Iron Mountain to cure the default. If the past due payment is not received in full by Iron Mountain within thirty (30) calendar days of the date of such written notice, then Iron Mountain shall have the right to terminate this Agreement at any time thereafter by sending written notice to all Parties. Iron Mountain shall have no obligation to perform the Services under this Agreement (except those obligations that survive termination of this Agreement, which includes the confidentiality obligations in Section 10) so long as any undisputed Service Fees due Iron Mountain under this Agreement remain unpaid.

8. Infringement Indemnification

Anything in this Agreement to the contrary notwithstanding, Depositor at its own expense shall defend, indemnify and hold Iron Mountain fully harmless against any claim or action asserted against Iron Mountain (specifically including costs and reasonable attorneys' fees associated with any such claim or action) to the extent such claim or action is based on an assertion that Iron Mountain's administration of this Agreement infringes any patent, copyright, license or other proprietary right of any third party. When Iron Mountain has notice of a claim or action, it shall promptly notify Depositor in writing. Depositor may elect to control the defense of such claim or action or enter into a settlement agreement, provided that no such settlement or defense shall include any admission or implication of wrongdoing on the part of Iron Mountain without Iron Mountain's prior written consent, which consent shall not be unreasonably delayed or withheld. Iron Mountain shall have the right to employ separate counsel and participate in the defense of any claim at its own expense.

9. Warranties

IRON MOUNTAIN WARRANTS ANY AND ALL SERVICES PROVIDED HEREUNDER SHALL BE PERFORMED IN A COMMERCIALY REASONABLE MANNER CONSISTENT WITH INDUSTRY STANDARDS. AN AGGRIEVED PARTY MUST NOTIFY IRON MOUNTAIN PROMPTLY UPON LEARNING OF ANY CLAIMED BREACH OF ANY WARRANTY AND, TO THE EXTENT ALLOWED BY APPLICABLE LAW, SUCH PARTY'S REMEDY FOR BREACH OF THIS WARRANTY SHALL BE SUBJECT TO THE LIMITATION OF LIABILITY AND CONSEQUENTIAL DAMAGES WAIVER IN THIS AGREEMENT. THIS DISCLAIMER AND EXCLUSION SHALL APPLY EVEN IF THE EXPRESS WARRANTY AND LIMITED REMEDY SET FORTH ABOVE FAILS OF ITS ESSENTIAL PURPOSE.

10. Confidential Information

Iron Mountain shall have the obligation to implement and maintain safeguards designed to protect the confidentiality of the Deposit Material and use at least the same degree of care to safeguard the confidentiality of the Deposit Material as it uses to protect its own confidential information, but in no event less than a reasonable degree of care. Except as provided in this Agreement Iron Mountain shall not use or disclose the Deposit Material. Iron Mountain shall not disclose the terms of this Agreement to any third party other than its financial, technical, or legal advisors, or its administrative support service providers. Any such third party shall be bound by the same confidentiality obligations as Iron Mountain. If Iron Mountain receives a subpoena or any other order from a court or other judicial tribunal pertaining to the disclosure or release of the Deposit Material, Iron Mountain will promptly notify the Parties to this Agreement unless prohibited by law. After notifying the Parties, Iron Mountain may comply in good faith with such order or subpoena. It shall be the responsibility of Depositor or Beneficiary to challenge any such order or subpoena; provided, however, that Iron Mountain does not waive its rights to

present its position with respect to any such order or subpoena. Iron Mountain will cooperate with the Depositor or Beneficiary, as applicable, to support efforts to quash or limit any order or subpoena, at such Party's expense.

11. Limitation of Liability

EXCEPT FOR: (I) LIABILITY FOR DEATH OR BODILY INJURY; (II) PROVEN GROSS NEGLIGENCE OR WILLFUL MISCONDUCT; OR (III) THE INFRINGEMENT INDEMNIFICATION OBLIGATIONS OF SECTION 8, ALL OTHER LIABILITY RELATED TO THIS AGREEMENT, IF ANY, WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, SHALL BE LIMITED TO \$250,000.00 (USD), TO THE EXTENT PERMITTED BY APPLICABLE LAW WITH RESPECT TO THE BENEFICIARY. 12. Consequential Damages Waiver

TO THE EXTENT PERMITTED BY TENNESSEE LAW, IN NO EVENT SHALL ANY PARTY TO THIS AGREEMENT BE LIABLE FOR ANY INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, LOST PROFITS, ANY COSTS OR EXPENSES FOR THE PROCUREMENT OF SUBSTITUTE SERVICES (EXCLUDING SUBSTITUTE ESCROW SERVICES), OR ANY OTHER INDIRECT DAMAGES, WHETHER ARISING IN CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE EVEN IF THE POSSIBILITY THEREOF MAY BE KNOWN IN ADVANCE TO ONE OR MORE PARTIES.

------------------------	--

Iron Mountain will use the following procedures to process any Beneficiary Work Request to release Deposit Material. All notices under this Exhibit C shall be sent pursuant to the terms of Section 13(g) Notices.

1. Release Conditions.

Depositor and Beneficiary agree that a Work Request for the release of the Deposit Material shall be based solely on one or more of the following conditions (defined as "**Release Conditions**"):

- (i) Failure of the Depositor to function as a going concern or operate in the ordinary course; or
- (ii) Depositor is subject to voluntary or involuntary bankruptcy.

2. Release Work Request.

A Beneficiary may submit a Work Request to Iron Mountain to release the Deposit Material covered under this Agreement. To the extent that the Deposit Material is subject to applicable U.S. export control regulations and laws, including ITAR, the Beneficiary Work Request to release the Deposit Material must include Beneficiary's certification that such release would be compliant with the applicable U.S. export control regulations and laws, including ITAR. Iron Mountain will send a written notice of this Beneficiary Work Request within five (5) business days to the Depositor's Authorized Person.

3. Contrary Instructions.

From the date Iron Mountain mails written notice of the Beneficiary Work Request to release Deposit Material covered under this Agreement, Depositor's Authorized Person shall have ten (10) business days to deliver to Iron Mountain contrary instructions. Contrary instructions shall mean the written representation by Depositor that a Release Condition has not occurred or has been cured ("**Contrary Instructions**"). Contrary Instructions shall be on company letterhead and signed by a Depositor Authorized Person. Upon receipt of Contrary Instructions, Iron Mountain shall promptly send a copy to Beneficiary's Authorized Person. Additionally, Iron Mountain shall notify both Depositor and Beneficiary Authorized Persons that there is a dispute to be resolved pursuant to the Disputes provisions of this Agreement. Iron Mountain will continue to store Deposit Material without release pending (i) instructions from Depositor to release the Deposit Material to Beneficiary; or (ii) withdrawal of Contrary Instructions from Depositor's Authorized Person or legal representative; or (iii) receipt of an order from a court of competent jurisdiction. The existence of a Release Condition dispute shall not relieve the Paying Party from payment of applicable Service Fees.

4. Release of Deposit Material.

If Iron Mountain does not receive timely Contrary Instructions from a Depositor Authorized Person or receives written instructions directly from Depositor's Authorized Person to release a copy of the Deposit Material to the Beneficiary, Iron Mountain is authorized to release Deposit Material to the Beneficiary. Iron Mountain is entitled to receive any undisputed, unpaid Service Fees due Iron Mountain from the Parties before fulfilling the Work Request to release Deposit Material covered under this Agreement. Any Party may cure a default of payment of Service Fees.

5. Termination of Agreement Upon Release.

This Agreement will terminate upon the release of Deposit Material held by Iron Mountain.

6. Right to Use Following Release.

Beneficiary has the right under this Agreement to use the Deposit Material for the sole purpose of continuing the benefits afforded to Beneficiary by the License Agreement until the scheduled termination or expiration of the License Agreement. Such records include: (A) Plans, security codes, passwords, combinations, or computer programs used to protect electronic information and government property; (B) Information that would identify those areas of structural or operational vulnerability that would permit unlawful disruption to, or interference with, the services provided by a governmental entity; and (C) Information that could be used to disrupt, interfere with, or gain unauthorized access to electronic information or government property.

Information which qualifies as "sensitive information" may be presented in oral, written, graphic, and/or machine-readable formats. Regardless of presentation format, such information will be deemed and treated as sensitive information.

CONTRACTOR, and its Agents, for METRO, may have access to sensitive information. CONTRACTOR, and its Agents, are required to maintain such information in a manner appropriate to its level of sensitivity. All sensitive information must be secured at all times including, but not limited to, the secured destruction of any written or electronic information no longer needed. The unauthorized access, modification, deletion, or disclosure of any METRO information may compromise the integrity and security of METRO, violate individual rights of privacy, and/or constitute a criminal act.

Upon the request of METRO, CONTRACTOR shall return all information in whatever form. In the event of any disclosure or threatened disclosure of METRO information, METRO is further authorized and entitled to immediately seek and obtain injunctive or other similar relief against CONTRACTOR, including but not limited to emergency and ex parte relief where available.

8.5. Information Ownership

All METRO information is and shall be the sole property of METRO. CONTRACTOR hereby waives any and all statutory and common law liens it may now or hereafter have with respect to METRO information. Nothing in this Contract or any other agreement between METRO and CONTRACTOR shall operate as an obstacle to such METRO's right to retrieve any and all METRO information from CONTRACTOR or its agents or to retrieve such information or place such information with a third party for provision of services to METRO, including without limitation, any outstanding payments, overdue payments and/or disputes, pending legal action, or arbitration. Upon

METRO's request, CONTRACTOR shall supply METRO with an inventory of METRO information that CONTRACTOR stores and/or backs up.

8.6. Information Security Breach Notification

In addition to the notification requirements in any Business Associate Agreement with METRO, when applicable, CONTRACTOR shall notify METRO of any data breach within 24 hours of CONTRACTOR's knowledge or reasonable belief (whichever is earlier) that such breach has occurred ("Breach Notice") by contacting the METRO ITS Help Desk. The Breach Notice should describe the nature of the breach, the scope of the information compromised, the date the breach occurred, and the identities of the individuals affected or potentially affected by the breach as well as specific information about the data compromised so that METRO can properly notify those individuals whose information was compromised. CONTRACTOR shall periodically update the information contained in the Breach Notice to METRO and reasonably cooperate with METRO in connection with METRO's efforts to mitigate the damage or harm of such breach.

8.7. Virus Representation and Warranty

CONTRACTOR represents and warrants that Products and/or Services, or any media upon which the Products and/or Services are stored, do not have, nor shall CONTRACTOR or its Agents otherwise introduce into METRO's systems, network, or infrastructure, any type of software routines or element which is designed to or capable of unauthorized access to or intrusion upon, disabling, deactivating, deleting, or otherwise damaging or interfering with any system, equipment, software, data, or the METRO network. In the event of a breach of this representation and warranty, CONTRACTOR shall compensate METRO for any and all harm, injury, damages, costs, and expenses incurred by METRO resulting from the breach.

For CONTRACTOR managed systems, CONTRACTOR shall install and maintain ICSA Labs certified or AV-Test approved Antivirus Software and, to the extent possible, use real time protection features. CONTRACTOR shall maintain the Anti-virus Software in accordance with the Antivirus Software provider's recommended practices. In addition, CONTRACTOR shall ensure that:

- Anti-virus signatures are current and no less recent than two versions/releases behind the most current version/release of the Anti-virus signatures for the Anti-virus Software

8.8. Copyright, Trademark, Service Mark, or Patent Infringement

CONTRACTOR shall, at its own expense, be entitled to and shall have the duty to defend any suit that may be brought against METRO to the extent that it is based on a claim that the products or services furnished infringe a Copyright, Trademark, Service Mark, or Patent. CONTRACTOR shall further indemnify and hold harmless METRO against any award of damages and costs made against METRO by a final judgment of a court of last resort in any such suit. METRO shall provide CONTRACTOR immediate notice in writing of the existence of such claim and full right and opportunity to conduct the defense thereof, together with all available information and reasonable cooperation, assistance and authority to enable CONTRACTOR to do so. No costs or expenses shall be incurred for the account of CONTRACTOR without its written consent. METRO reserves the right to participate in the defense

of any such action. CONTRACTOR shall have the right to enter into negotiations for and the right to effect settlement or compromise of any such action, but no such settlement or compromise shall be binding upon METRO unless approved by the METRO Department of Law Settlement Committee and, where required, the METRO Council.

If the products or services furnished under this Contract are likely to, or do become, the subject of such a claim of infringement, then without diminishing CONTRACTOR's obligation to satisfy the final award, CONTRACTOR may at its option and expense:

- Procure for METRO the right to continue using the products or services
- Replace or modify the alleged infringing products or services with other equally suitable products or services that are satisfactory to METRO, so that they become non-infringing
- Remove the products or discontinue the services and cancel any future charges pertaining thereto

Provided; however, that CONTRACTOR will not exercise the Remove option above until CONTRACTOR and METRO have determined that the Procure and/or Replace options are impractical. CONTRACTOR shall have no liability to METRO; however, if any such infringement or claim thereof is based upon or arises out of:

- The use of the products or services in combination with apparatus or devices not supplied or else approved by CONTRACTOR;
- The use of the products or services in a manner for which the products or services were neither designated nor contemplated; or,
- The claimed infringement in which METRO has any direct or indirect interest by license or otherwise, separate from that granted herein.

8.9. Maintenance of Records

CONTRACTOR shall maintain documentation for all charges against METRO. The books, records, and documents of CONTRACTOR, insofar as they relate to work performed or money received under this Contract, shall be maintained for a period of three (3) full years from the date of final payment and will be subject to audit, at any reasonable time and upon reasonable notice by METRO or its duly appointed representatives. The records shall be maintained in accordance with generally accepted accounting principles. In the event of litigation, working papers and other documents shall be produced in accordance with applicable laws and/or rules of discovery. Breach of the provisions of this paragraph is a material breach of this Contract.

All documents and supporting materials related in any manner whatsoever to this Contract or any designated portion thereof, which are in the possession of CONTRACTOR or any subcontractor or subconsultant shall be made available to METRO for inspection and copying upon written request from METRO. Said documents shall also be made available for inspection and/or copying by any state, federal or other regulatory authority, upon request from METRO. Said records include, but are not limited to, all drawings, plans, specifications, submittals, correspondence, minutes, memoranda, tape recordings, videos, or other writings or things which document the procurement and/or performance of this Contract. Said records expressly include those documents reflecting the cost, including all subcontractors' records and payroll records of CONTRACTOR and subcontractors.

8.10. Monitoring

CONTRACTOR's activities conducted and records maintained pursuant to this Contract shall be subject to monitoring and evaluation by METRO, the Department of Finance, the Division of Internal Audit, or their duly appointed representatives.

METRO shall have the option of reviewing and performing a security assessment of the information security

management practices of CONTRACTOR. METRO shall have the right, at its expense, during normal business hours and with reasonable advance notice, to evaluate, test, and review at CONTRACTOR's premises the Products and/or Services to ensure compliance with the terms and conditions of this Contract. METRO shall have the right to conduct such audits by use of its own employees and internal audit staff, or by use of outside consultants and auditors.

8.11. METRO Property

Any METRO property, including but not limited to books, records, and equipment that is in CONTRACTOR's possession shall be maintained by CONTRACTOR in good condition and repair, and shall be returned to METRO by CONTRACTOR upon termination of this Contract. All goods, documents, records, and other work product and property produced during the performance of this Contract are deemed to be METRO property. METRO property includes, but is not limited to, all documents which make up this Contract; all other documents furnished by METRO; all conceptual drawings, design documents, closeout documents, and other submittals by CONTRACTOR; and, all other original works of authorship, whether created by METRO or CONTRACTOR embodied in any tangible medium of expression, including, without limitation, pictorial, graphic, sculptural works, two (2) dimensional works, and three (3) dimensional works.

Except as to Contracts involving sensitive information, CONTRACTOR may keep one (1) copy of the aforementioned documents upon completion of this Contract; provided, however, that in no event shall CONTRACTOR use, or permit to be used, any portion of the documents on other projects without METRO's prior written authorization. All such safeguards shall be in accordance with industry-wide best security practices and commensurate with the importance of the information being protected, but in no event less protective than those safeguards that Contractor uses to protect its own information or information of similar importance, or is required by applicable federal or state law.
- 2 **Inventory.** Contractor agrees to maintain at all times during the Term of this Agreement a Product and Service Inventory. Contractor shall upon request of Metro Government, which shall be no more frequently than semi-annually, provide the current Product and Service Inventory to Metro Government within thirty (30) days of the request.
- 3 **Connection of Systems or Devices to the Metro Government Network.** Contractor shall not place any systems or devices on the Metro Government Network without the prior written permission of the Director of ITS, designee, or the designated Metro Government contact for this Agreement.
- 4 **Access Removal.** If granted access to Metro Government Network or systems, Contractor and its Agents shall only access those systems, applications or information which they are expressly authorized by Metro Government to access, even if the technical controls in the system or application do not prevent Contractor or its Agent from accessing those information or functions outside of Metro Government's authorization. Contractor shall impose reasonable sanctions against any Agent who attempts to bypass security controls. Notwithstanding anything to the contrary in the Purchasing Agreement or other agreement between Metro Government and Contractor, Metro Government at its sole discretion, may refuse granting access right to Metro Government Network or Sensitive Information to any Agent of Contractor, and may at any time remove access rights (whether physical premise access or system access) from Contractor or any Agents, without prior notice or liability to Contractor, if Metro Government reasonably suspects a security violation by Contractor or such Agent or otherwise deems such action appropriate to protect Metro Government Infrastructure, Metro Government Network or Metro Government Information.
- 5 **Subcontracting/Outsourcing.**
 - 5.1 **Prior Approval.** Without Metro Government's prior written consent, Contractor may not subcontract with a third party to perform any of its obligations to Metro Government which involves access to Metro Government Information or connection to Metro Government Network. Contractor or its Agent may not transfer, provide access to or otherwise make available Metro Government Information to any Individual or entity outside of the United States (even within its own organization) without the prior written consent of Metro Government. To obtain such consent, Contractor shall send Metro Government a notice detailing the type of information to be disclosed, the purpose of the disclosure, the recipient's identification and location, and other information required by Metro Government.
 - 5.3 **Contractor Responsibility.** Prior to subcontracting or outsourcing any Contractor's obligations to Metro Government, Contractor shall enter into a binding agreement with its subcontractor or outsource service provider ("Third Party Agreement") which (a) prohibits such third party to further subcontract any of its obligations, (b) contains provisions no less protective to Metro Government Network, Metro Government Infrastructure and/or Metro Government Information than those in this Agreement, and (c) expressly provides Metro Government the right to audit such subcontractor or outsource service provider to the same extent that Metro Government may audit Contractor under this Agreement. Contractor warrants that the Third Party Agreement will be enforceable by Metro Government in the U.S. against the subcontractor or outsource provider (e.g., as an intended third party beneficiary under the Third Party Agreement).

Without limiting any other rights of Metro Government in this Agreement, Contractor remains fully responsible and liable for the acts or omissions of its Agents. 12. Indemnification.

12.1 Provider Indemnification. We agree to indemnify, defend, and hold harmless you and your officers, directors, employees, agents, permitted successors, and permitted assigns (each, a "**Customer Indemnitee**") from and against any and all Losses incurred by you or a Customer Indemnitee resulting from any Action by a third party (other than your Affiliate) that your use or an Authorized User's use of the Services (excluding Customer Data and Third-Party Materials) in accordance with this Agreement (including the Specifications) infringes or misappropriates such third party's U.S. Intellectual Property Rights. The foregoing obligation does not apply to the extent that the alleged infringement arises

from:

12.2 Mitigation. If any of the Services or Provider Materials are, or in our opinion are likely to be, claimed to infringe, misappropriate, or otherwise violate any third-party Intellectual Property Right, or if you or any Authorized User's use of the Services or Provider Materials is enjoined or threatened to be enjoined, we may, at our option and sole cost and expense:

- (a) obtain the right for you to continue to use the Services and Provider Materials materially as contemplated by this Agreement;
- (b) modify or replace the Services and Provider Materials, in whole or in part, to seek to make the Services and Provider Materials (as so modified or replaced) non-infringing, while providing materially equivalent features and functionality, in which case such modifications or replacements will constitute Services and Provider Materials, as applicable, under this Agreement; or
- (c) by written notice to you, terminate this Agreement with respect to all or part of the Services and Provider Materials, and require that you immediately cease any use of the Services and Provider Materials or any specified part or feature thereof.

SERVICES, SERVICE ALLOCATION and FEES

The Services: Cloud-based, software-as-a-service evidence management data storage platform using Microsoft Azure Government Cloud Storage services fully-hosted in one or more secure Microsoft data centers.

Service Allocations and Fees:

Plan I (Unlimited)

Unlimited Storage available for customers with data retention policies as follows:

- a one-year storage period for non-evidentiary recordings;
- a 10-year storage period for evidentiary recordings; and
- the video recording policy is event-based (i.e. policies that do not require officers to record entire shifts)

For purposes of this Plan, the term “evidentiary recordings” refers to data having relevance to a legal trial or regulatory hearing.

Plan costs are based on a per-device basis, which means that the Plan does not have a per-user fee, meaning that an unlimited number of users can access data using the Services.

This Plan also features unlimited data sharing, using the Company’s CLOUD-SHARE on-premises software.

Plan cost is based upon the customer’s choice of two options: (a) a per-device fee of \$495 per contract year for assigned (i.e., individual use) devices, or (b) a per-device fee of \$695 per contract year for pooled (i.e., shared) devices. There is also a \$0.03 per GB per device per month for storage that does not meet these requirements.

When the actual usage across all devices averages less than 700 GB per device over a contract year, at the end of each calendar year the customer will be rebated an amount equal to \$0.03 per GB per month (\$0.36 per GB per calendar year) for each GB under 700 GB actually used per device. The rebate is offered in cash or as a credit against future charges for the Services.

Plan II (Actual Usage)

Plan cost is based upon a per-device fee of \$245 per calendar year for assigned (i.e., individual) devices, or \$345 per device per calendar year for pooled (i.e., shared) devices, plus a flat fee of \$0.03 per GB per device per month.

There are no limitations on the number of users who may access data using the Services under this Plan.

This Plan is available for both event-based and shift-based video recording policies.

EXHIBIT D - SaaS AGREEMENT

EXHIBIT B - SERVICE LEVEL AGREEMENT FOR EVIDENCELIBRARY.COM

LAST UPDATED: January 2, 2018

This Service Level Agreement for EvidenceLibrary.com (this "SLA") is a part of the Software as a Service Agreement between WatchGuard, Inc. ("Company" "us" or "we") and users of EvidenceLibrary.com ("Customer" or "you") (the "Agreement" and the "Services"). Capitalized terms used but not defined in this SLA have the meaning given to them in the Agreement. This SLA applies to the Services, but not to any other services we provide to you or to any of our on-premises software that is a part of the Services, or any Third-Party Materials that you use in connection with the Services, unless specifically provided to the contrary in this SLA or the Agreement.

SERVICE COMMITMENT

We will use commercially reasonable efforts to make the Services available with the Monthly Uptime Percentage defined below during any Service Period (our "Service Level Commitment"). If we do not meet the Service Level Commitment for any Service Period you may be entitled to a Service Credit, as described below.

DEFINITIONS

"Downtime" means the total number of minutes in any Service Period during which the Services are Unavailable. Downtime does not include time during which the Services are unavailable for Scheduled Downtime or as the result of one or more Exclusions.

"Incident" means an event or series of events resulting in Downtime.

"Maximum Available Minutes" means the number of minutes during a Service Period, less Scheduled Downtime, that the Services are required to be available for your access and use in accordance with the Specifications.

"Monthly Uptime Percentage" means, for any Service Period, Maximum Available Minutes less Downtime, divided by the Maximum Available Minutes multiplied by 100, as follows:

$$\text{Monthly Uptime Percentage} = ((\text{Maximum Available Minutes} - \text{Downtime}) / \text{Maximum Available Minutes}) \times 100$$

If you have used the Services for only part of a Service Period, the Services are assumed to be 100% available for that part of the Service Period in which the Services were not used (for example, if you begin to use the Services in the middle of a month). Monthly Uptime Percentage calculations do not include downtime that results from Scheduled Downtime or an Exclusion.

"Scheduled Downtime" means any Downtime (a) of which you are notified at least three (3) days in advance, or (b) during a standard maintenance window, according to a maintenance schedule we will publish from time to time.

"Service Credit" means a dollar credit, as calculated herein, that we may credit back to your account under the conditions set forth below. A Service Credit is based on a percentage, as stated below, of the Service Fee for the Service Period for which the Service Credit is approved.

“Emergency Downtime” means any Downtime for which you may receive less than 24-hour notification period. This emergency maintenance may be performed at any time, with or without notice, as deemed necessary by us. Emergency Downtime falling outside of Scheduled or Planned Downtime may be eligible for Service Credit.

“Service Fee” means the fee that you actually pay for the Services during a Service Period.

“Service Level” means a performance metric that we agree to meet in the delivery of the Services. A **“Service Level Failure”** means a material failure of the Services to meet the Maximum Available Minutes requirement.

“Service Period” means one calendar month.

“Unavailable” means that all connection requests to the Services fail during a one (1) minute period such that you or your End Users cannot upload or access files.

“Low Priority” means a request for information or software defects with acceptable workaround.

“Medium Priority” means an isolated issue (one agency, small subset of events) that prevents import, search, or export of events or cases.

“High Priority” means a pervasive issue (multiple agencies, large subsets of events) that prevents import, search, or export of events or cases, missing events, system performance out of Customer SLA. Customer designated emergency.

“Response time” means the amount of time between when a Customer first creates an incident report (which includes leaving a phone message, sending an email, or using an online ticketing system) and when the provider actually responds.

“Resolution time” means the amount of time between when the Customer first creates an incident report and when that problem is actually solved, workaround provided, or for issues requiring software changes is placed in to the future development backlog.

TERMS

I. SERVICE CREDITS

Service Credits are your only remedy for unavailability of the Services under this SLA and the Agreement. You may not offset a Service Fee for any performance or availability issues. Service Credits issued for any Service Period will not under any circumstances exceed the Service Fee for that Service Period.

To be eligible for a Service Credit, your claim must be received by us, in the required form, no later than the end of the second Service Period following the Service Period in which the incident(s) occurred. Your failure to make a timely request will disqualify you from receiving a Service Credit.

We will apply a Service Credit only against future Service Fees, and we will issue Service Credits only if the credit amount for the Service Fee is greater than one dollar (US\$1). Service Credits do not entitle you to a refund or cash payment. Service Credits may not be applied against any other account or service you may have with us. You must be in compliance with the Agreement to receive a Service Credit.

II. SERVICE CREDIT CLAIMS AND PAYMENT

To apply for a Service Credit, you must open a support case by going to support.watchguardvideo.com or by contacting customer support at 1800-605-6734 and providing us with all of the information we need to investigate and validate your claim. The information we need will include, but may not be limited to, (i) the dates and times of the Unavailability incident(s); (ii) request logs documenting the incident(s) and corroborating the claimed Unavailability (any PII or CJL information contained or described in logs should be redacted prior to submission); and (iii) details of your efforts to resolve the incident(s) at the time of occurrence.

We will review the submitted information and make a good faith determination of whether a Service Credit is due. If we determine that a Service Credit is due, we will process your claim within thirty (30) days of our determination and apply the Service Credit to the next Service Fee.

III. EXCLUSIONS

For purposes of calculating Maximum Available Minutes, the following are Exclusions for which the Services shall not be considered Unavailable nor any Service Level Failure be deemed to occur in connection with any failure to meet Maximum Available Minutes for any Service Period, or your inability to access or use the Services that is due, in whole or in part, to any:

- (a) act or omission by you to access or use the Services, or use of Access Credentials that does not strictly comply with the Agreement;
- (b) Customer Failure;
- (c) Internet connectivity failure;
- (d) causes beyond our reasonable control, such as a Force Majeure Event, or the performance of any third-party hosting provider or communications or internet service provider;

- (g) disabling, suspension, or termination of the Services pursuant to Section 2.8 of the Agreement; or
- (h) separate instances of unavailability of the Services of less than ten (10) minutes duration each.

Axon Enterprise – Proposal demonstrated experience using cloud based only, Microsoft Axure.

Proposal provided ongoing litigation for patent violation. Proposal demonstrated that all contracts were completed. Proposal demonstrated limited In-car Camera experience. Proposal demonstrated strong body worn camera experience and less than a year experience for in-car camera. Proposal included a 2016 TBI Agreement. Proposal demonstrated a nine (9) months implementation plan. Proposed 2.5-3 year equipment swap out. Proposal included 100 hours free expert testimonial. Proposal demonstrated plenty of mounting options. Product information submitted would not require a different uniform for officers. Proposal showed 30 frames per second which demonstrated resolution and pixels within acceptable range. Proposed product has an analog optic lens that records digitally. Proposed product information demonstrates compliance with h264. Product utilizes a USB Custom Cable. Proposed product has a nine (9) hours battery charging time. Proposed product has 64GB of storage which should be plenty for scope. Proposed product requires pre-buffering that is written to memory. Cannot categorize straight from the Body Worn Camera (BWC) and must use a smartphone or Mobile Data Computer (MDC) device. Play back in the field through smart phone device or MDC software. Proposed product must be paired with phone or vehicle for GPS. No removal of storage and requires one storage device per camera. Proposal demonstrated the need for a separate link to Mobile Data Computers to categorize, view, and transfer video. Audio and video synced together. Proposed on-premise does not support a true HTTPS web interface. Axon 5 (Amped) forensic video proposed. Body Worn Camera field trials demonstrated that the proposed mounting options were good. Body Worn Camera demonstrated an ease to use with big buttons. Body Worn Camera Field Trials showed that the camera turned off during two separate grappling training exercises. Body Worn Camera demonstrated a nighttime low light condition was noticeably worse throughout the field trials than the other field trial solutions; Field Trials of Body Worn Camera supported the information that there is no on board GPS. Field trials demonstrated that the BWC device does not have an LCD display, therefore there is no way to verify who it is assigned to, without docking and cross referencing the serial number in the system. There is no dock solution available for on-premise solution except for ad-hoc re-engineering in the field which was complex, involved accessing hidden web pages, and if a programmatic mistake was made, the dock would register to the cloud instead of the on-premise server. Field Trial dock and in-car equipment demonstrated limitations on what features can be turned on, off, or changed. As part of the field trials the DHCP service cannot be turned off in the docks, which is against Metro Network policy. Proposed solution is hard coded to point to evidence.com and as part of the field trials wanted Metro to spoof a non-authoritative domain on the Metro Network, which Metro did not do. As a result Metro had to go to

through numerous technical hoops to accommodate the Axon on-premise solution on the Metro enterprise network. Field Trials of Body Worn Cameras demonstrated that proposed solution does not allow for the ability to categorize from device; therefore, the categorizing must be done from MDC in the vehicle, smartphone, or after the video is uploaded. Installation of the In-Car Camera field trials in the vehicle took less time since the Axon solution only communicates via WiFi. So only power cables have to be run to the front of the vehicle. In-Car Camera Field Trials demonstrated that there is no on board GPS so MNPd is required to provide GPS function to the Axon solution. In-Car Camera solely relies on Wi-Fi in the car to transfer information. In-car system technical design required MNPd to create unique WIFI SSID's in each vehicle adding to the complexity and setup time of the solution. The Wi-Fi connection would randomly come and go during field trials on the device. Since triggering relied on Bluetooth technology, the signal device has to wait at least 15 seconds until the current Bluetooth burst is complete before it can send another command to the in-car/BWC cameras, in which case the Officers have to be mindful and wait up to 15 seconds before they can restart recording, if needed. Solution requires an Axon appication installed on Mobile Data Computers in order to allow categorization and uploading of data. Axon App periodically resulted in error a generic message then reboots automatically which does not allow MNPd IT to know what is going on to resolve the issue. During in-car camera field testing, the switch that turns on and off front facing camera would fail for no justified reason but appeared to be manufacturer error (all seven front facing cameras failed throughout field trials). During in-car camera field testing demonstrated that there was not an existing solution to turn off blue light trigger option in the on-premise solution; Axon provided a new out of cycle software install and adhoc configuration to resolve. In-car/BWC camera field testing was actually a form of beta testing for Axon local storage solution. Axon's on-premise design provides no way to control whether video uploads is allowed via 4G cellular verses WIFI. Axon worked during most of the 90-day field trial to try to find any solution for this issue. The only solution provided required an evidence.com cloud component that had to be available via internet connectivity before any video can be transferred to the on-premise server. Upload of video from vehicles takes more time due to the fact that the video being uploaded is copied twice, first from the Axon camera to the MDC, and then from the MDC to the Commander server. VMS Field Trial testing demonstrated a robust video search function that allows searching on all available fields. During the field trial there were ten (10) server software upgrades to the VMS during 90 day field trial to address issues in the on-premise solution provided. VMS Field Trial demonstrates that on-premise solution currently does not support multi camera play back at the same time without multiple windows and clicking play at a the same time. At start of field trials, it was

discovered that some videos were failing to be ingested at the server upon upload due to a miss match in field names between the devices and the VMS. The watermark/overlay on AXON video is not configurable. The on-premises system proposed by Axon only supports active directory for a single domain which is problematic when courts/DA have another domain within the same forest. The field trial demonstrated that the MDC software gave really good status update on uploading of information. During the interfacing field trial portion it was discovered that CAD and audit trials were not currently available but offered a timeframe once contract is signed. Store and forward functionality did not work as part of the field trial. During field trials the Axon cloud service experienced an outage due to a 2-hour 12-minute power failure at the Microsoft Azure data center in VA, therefore it appears there is no application redundancy in the Axon Cloud solution. Proposed the lowest overall cost per spreadsheet. Originally agreed to escrow requirement in Round 2 but stated in Round 4 that unable to adhere to escrow requirement. Per license cost offered rather than a perpetual license option which could be costly to Metro. The RMS interface is proposed to take 3-6 months and the court interface would take 6-12 months which would have a dramatic impact on the departments' implementation schedule.

GovDirect – Proposal demonstrated experience with on-premise. Proposal demonstrated heavy in car camera experience and similar body worn camera experience. References provided were Panasonic and none from GovDirect. Proposal demonstrated a five (5) months implementation plan. Proposed a five (5) year refresh on equipment; Proposal included a per diem for travel cost as part of proposal. Proposal demonstrated plenty of mounting options. Product information submitted would not require a different uniform for officers. Proposal showed 30 frames per second which demonstrated resolution and pixels within acceptable range. Proposed product appears to be like having a digital camera. Proposed product information demonstrates compliance with h264 and h265. Proposed product information demonstrates the use of a standard USB cable. Proposed product has a three (3) hours battery charging time. Proposed product has 64Gb storage which should be plenty for scope. Proposed product requires pre-buffering that is written memory. Proposal demonstrated the ability to categorize on the Body Worn Camera device. Proposal demonstrated the ability to play back in the field. Proposal demonstrated that GPS is on Proposed Body Worn Camera device. Proposal demonstrated that ability to remove storage devices and/or have multiple storage devices. requires an application installed. The proposed magnet mounting options used during the field trials were very strong.

During the field trials the Officers reported the body worn camera proposed was large and stuck out too far. It was noted during the field trial that the proposed device has too many lights and icons on at a time, which is confusing even after cheat sheet was provided. Proposed tested solution included docks which have a USB/LAN switch on the front, which proved to be too easy for users, on two occasions, to mistakenly change the switch, which caused the dock to not upload. Body worn camera Wi-Fi would not connect with mobile router and ended up hard wiring docks during the field trials. The in-car camera proposed demonstrated the best optical zoom capabilities. The proposed solution required an application to be installed on Mobile Data Computers. The application runs slow and causes other applications to run slower which has an impact on the Officers ability to access data on the computer. During field trial the live view frame and quality had to be turned down but video still played slow. The field trial of the in-car camera demonstrated that the window for software screen would jump around. The proposed solution had the largest footprint in trunk tray so no more expansion available. In the application, it takes seconds to switch tabs, and during field trials the screen would freeze until list is generated which limits officer use of mobile data computers and other tasks performed by officer (approx. 15-25 seconds). The VMS proposed had a very time consuming setup time for field trails. Some functionality that originally worked during the field trials stopped working which took longer for setup time and implementation. Server ran at 30% utilization without knowing what was taking place and no uploads taking place while Panasonic was working to try to resolve. User Accounts had to be updated one by one even though Active Directory group was setup. Metro could not modify district attorney user account because there was a dot in middle name which resulted in separate non-AD user account and was not resolved before conclusion of field trial. Proposed solution requires a separate application on every computer was needed for viewing videos for web based client functionality. To search for videos by Officer name, login IDs has to be searched rather than first name or last name. Export conversion from AV3 to MP4 is extremely slow. Reaction tool tested was 3rd party software and is an adequate redaction tool being proposed. Field trials demonstrated that the upload communication between server and device was chatty and bidirectional, which is problematic. To prevent uploading of video to the wrong store-n-forward server, a complex configuration across all store-n-forward host based firewalls was required. No current CAD, Courts, or RMS interface and no proposed date until after contract is signed. During field trials stacked on categories was used for retention process. Proposal

demonstrated the 2nd overall best cost. Proposed cost spreadsheet option that was not tested during field trials. Field trials included a two camera solution but submitted cost for single camera solutions.

WatchGuard Video – Proposal demonstrated strong experience using in-car camera and body worn camera. Proposal demonstrated experience using on-premise with both in-car camera and body worn camera. Proposal demonstrated a two and half (2.5) months implementation plan which is unrealistic given the size of the MNPD. Proposal included a schedule summary rather than detailed Gantt charts. Proposal recommended five (5) year refresh on equipment. Proposal included a per diem for travel cost as part of proposal. Proposal demonstrated plenty of mounting options. Proposed product utilizes a standard USB Cable that is a breakaway magnet. Proposed product has a four (4) hours battery charging time. Proposed product has 32GB storage which should be plenty for scope. Proposal stated that the proposed product is tamper proof. Proposed product requires pre-buffering at 120 second with feature that allows for going back to capture recording. Proposal states that everything is written including pre-buffer to non-volatile storage. Proposed product has the ability to categorize straight to the Body Worn Camera. Proposed a kiosk ability to recognize who picks up camera. Proposal demonstrated the ability to play back in the field. Proposal demonstrated that GPS is on Proposed Body Worn Camera device. Proposed In-car camera product has the ability to remove storage and also have USB. Audio and video synced together plus puts into one container. Product information demonstrated that audio and video synced together. Proposed product is HTTPS is complying. First tested magnet mounts out of the box did not work well for officers and actually broke as part of field trials but then provided new strong magnet mounts. During last month of field trial provided strong magnet mount for Body worn cameras. Proposed product had a soft button that must be held down for several second to turn off camera, so very difficult to mistakenly turn off. Demonstrated a magnetic quick release charging function that allows for charging of device while in car and cable just breaks away if officer had to get out of car suddenly. Proposed solution demonstrated a LCD screen on top of camera that displays lots of information for the officer. During the field trials the officer can go through menus which displays officer name to ensure correct camera is with the right officer. During field trials officer can categorize video from camera once recording has stopped. The proposed solution has the ability for the officer to

adjust the lens vertically depending on where on shirt BWC is attached. The proposed solution has GPS on device. LCD on the body worn camera gives a lot of information but had to be in good light to see it and low light conditions made it difficult to viewing.

During the in-car camera field trials, the front camera can be easily rotated by the officer. Proposed a self-contained solution which means nothing had to be done with mobile data computers to get the system to function properly. Device provides good information about status uploads on display. During field testing nothing had to be changed in the vehicle mobile router/network from an IT perspective to get the system to function properly. During field testing there was one single known issue when the device stopped recording and had to be rebooted but no further issues were noted. The proposed VMS had no core server or software upgrades during field trials. The next normal release version of the redaction module was provided as part of field trials but not required during field trials. During playback, the metadata displayed which allows commanders and supervisors to view metadata with the video. In car camera and body worn camera can play synchronized video. Reporting functionality demonstrated can be easily run and customized in SRSS. During wireless upload it was documented on four occasions that uploads did not automatically start within WIFI range. Reboots allowed uploads to start. Watchguard provided diagnostics instructions, but issue did not occur again. The redaction tool being embedded with video management was easily to use during field trials. The proposed CAD interface was implemented during field trials, and provided accurate and easily reviewable integration. Interfaces demonstrated audit trails exist. Field trial demonstrated the ability to share data, photos, and videos to specific devices. Field trials demonstrated ease when granting access to other domains if in secure area. The functionality of the cloud and local premises during field trial testing worked the same. Store and forward functionality works well. The highest cost proposed but cost includes the two in-car front facing integrated camera solution as installed and demonstrated in field trials. Failed to provide catalog pricing that percent discounts would be applied to. Failed to provide a detailed explanation why one storage option (cloud vs. on-premise) would be most advantageous to Metro in round 4. Failed to provide a detailed explanation as to how the overall proposal, including cost, would be impacted, along with any other information that may help Metro in determining which is most advantageous to Metro if the term of the contract was longer than 5 years.

COBAN Research – Proposal included examples of on premises. Proposal demonstrated experience with projects that included 300 body cameras and 1000+ in-car camera. Proposal demonstrated experience with very large customers.

Brite Computer – Proposal demonstrated limited implementation experience of both In-Car and Body-Worn Camera within the same organization. Proposal demonstrated installation experience using Cloud.

Function	Field Trial Results
BWC Durability	During Training Academy grappling exercises (starting in the standing position and on the ground), the WatchGuard BWC stayed on the Officers' uniform and recorded during the entire exercise.
BWC Mounting	WatchGuard's locking BWC mounts did not work well with MNPD uniforms due to the zipper in the shirt. The pins in the mounts kept breaking off. WatchGuard then provided a new strong magnet mount which performed well. The lens on the WatchGuard BWC can be rotated up or down as needed to allow officers to adjust for the best field of view for most mounting location on their uniform, vest or jacket.
BWC Video Clarity - Day	Good daytime clarity
BWC Video Clarity - Night	Good low-light condition recording.
BWC Video Field of View	Good field of view
BWC battery	Good battery performance WatchGuard Vista BWC's have a magnetic "quick disconnect" vehicular charging cable that Officers can magnetically connect to their BWC while it is still mounted to their shirt, if charging is needed. The magnetic connector breaks away from the BWC harmlessly if the officer has to exit the car quickly.
BWC Indicators	The LCD display on the BWC provides useful information such as number of recordings, officer name, and battery meter. The LDC display and buttons on the BWC allow the officer to categorize the BWC video from the BWC itself. The backlit LCD display on the top of the BWC is hard to read. Lettering needs to be bolder.
BWC Category	Officers can categorize video from the BWC device itself
BWC Playback	Integration with metadata is good.

Function	Field Trial Results
In-Car Video Clarity - Night	Good low-light condition recording.
In-Car Video Field of View	excellent with the field tested integrated panoramic camera with second 67 degree turret camera
In-Car Indicators	excellent display
In-Car Category	easy categorization in the vehicle
In-Car Playback	user friendly playback in the vehicle
In-Car Metadata	good
In-Car System Ease of Use	As part of the equipment that was provided during the trials, the front cameras could be easily rotated by the officer to view a different angle of the incident. This proved to be a valuable asset to officers as they could essentially point a camera in the direction it might be needed. The WatchGuard InCar solution included a display screen that allowed the Officers to control, categorize, and playback recorded video directly from the display screen without any interface needed with the MDC. Since WatchGuard does not require integration with the MDC, there is less administration burden on Police IT staff and it frees up CPU/Disk/Memory resources on the MDC for more critical applications. One officer had an issue where the WatchGuard system would not stop recording. A reboot of the smart power switch resolved that issue.
In-Car video storage size	acceptable
In-Car Interface	good
In-Car Triggers	good
In-Car Video Upload	WatchGuard's InCar display screen provides the officer with valuable information during the uploading process such as speed, estimated time left for upload, and how many events they have recorded that day. On four separate occasions, officers reported that the DVR/BWC doesn't start automatically uploading when in range of WIFI. On all these occasions, we verified the vehicle mobile routers were connected to our WIFI network and could reach the WatchGuard server. Powering the WatchGuard system down and rebooting allows the upload to start. WatchGuard provided us instructions for creating a "capture state" to send them for diagnostics, but the issue did not occur again after that.
In-Car GPS	Built-in GPS - good
In-Car Live Stream	acceptable
In-Car Training Tools	good training tools
In-Car Implementation/Install	The WatchGuard InCar solution required no configuration or operational changes to the Police vehicle mobile router.
BWC/In-Car Integration	well integrated
VMS Security	good

VMS Redaction	The export video process is simple and quick. The application has its own tab for exports, so it is easy to work on exports and the user can easily see when exports are finished. The application allows the user to continue working while the video exports. The WatchGuard Redactive module is a web based client. Therefore, no software is required to be installed on the users' computer. Also, all processing happens at the server, so no special hardware needed on the users' computer.
VMS Outside Sharing	good
VMS Ease of Use	WatchGuard client is web-based. When viewing video in the WatchGuard VMS, metadata is displayed above the video. This metadata includes speed, light bar status, and camera status. Having this information in one place is extremely useful for supervisors and command staff. When viewing video, you can play BWC video and InCar video from that incident at the same time in a "split screen" format. The user can also choose a source of audio for this playback. For instance, the user could be watching the front facing camera and the rear seat camera at the same time, but choose to listen to the rear seat audio.
VMS Deletion Process	good
VMS Searching	good
VMS Export	good
VMS Interfaces	WatchGuard developed and provided a CAD interface very quickly during field trials. Police Information Technology personnel had direct access to WatchGuard developers/implementers during the development, review, and testing of the CAD interface. The CAD interface results are easily reviewable within the WatchGuard VMS web client.
VMS AD Integration	well integrated with Active Directory
VMS On-Premise Tools	good dashboard provides quick glance into storage/video statistics
VMS Audit Trials	good
VMS Reporting	WatchGuard reports are done in SQL Server Reporting Services. Therefore our development team can build custom reports as needed.

VMS Admin Tools	Assigning cameras to an officer is done through the web interface and is quick and easy to perform. Administrators can also see in real time what cameras are docked in which location. This has proved to be helpful when troubleshooting.

VMS Training Tools	good
VMS System Implementation/Install	After initial installation of the WatchGuard system, there were no core software upgrades necessary during the field trials, except for one scheduled release of the WatchGuard Redaction module, the addition of some custom reports, and installation of WatchGuard’s customized CAD and RMS interface for MNPd.

BWC Overall Ease of Use	BWC is large and sticks out on the officer's chest.
BWC video storage size	acceptable
BWC Interface	good
BWC Triggers	good
BWC Video Upload	Docks have a USB/LAN switch on the front of the 8-bay upload dock, which makes it too easy for a user to misunderstand the purpose of the switch and unintentionally change the switch to "USB". During the field trials, this has happened on a couple occasions which caused any BWC's which were docked to not upload video. BWC's could not connect to the Sierra Router's WiFi network, although all other devices could. Through a process of elimination, led by MNPd, it was discovered that the BWC needed a firmware update to be able to connect. Eventually, the firmware issue was resolved and the BWC's could connect to the Sierra Router's access point although this did not get resolved until the last month of the field trial.
BWC GPS	built in GPS - good

In-Car System Ease of Use	Panasonic application on the MDC runs slow and makes other apps run slower. Switching between tabs inside the application took an average of 4-6 seconds. Live view frames per second and quality was turned down to its lowest setting but officers still complained of slowness. During implementation, MNPd found an issue that made the client move to another side of the screen so the "X" button was not visible nor could the user move the window to get the application restarted. Custom client code from Panasonic rectified this issue When the officer goes to the "Upload" tab, the software takes at least 4-5 seconds to switch tabs, and then makes the officer wait until the software generates the list of all files for upload on the recorder. If officers have 20-25 videos, just clicking the tab and viewing the list of videos for upload could take 15-25 seconds.
In-Car video storage size	good
In-Car Interface	good
In-Car Triggers	good
In-Car Video Upload	On one occasion, video would not upload from the InCar Video Processing Unit (VPU). MNPd confirmed connectivity to the server, and even brought another car into the garage to make sure server/network connectivity were working properly. Panasonic suggested switching the VPU in the car with a known good VPU to troubleshoot the issue. Before we were able to arrange that test, the car began to upload properly. Logs were retrieved from the server, but no root cause was found. Traffic between the vehicle DVR and the server requires many bi-directional connections, mostly on UDP ports, and seems unnecessarily chatty. With Panasonic's solution, DVR's in the vehicle polls for the server constantly but the server still initiates the upload connection to the client, which is difficult to manage. The client should initiate the upload to the server. Panasonic Store n forward servers are defined in the vehicle DVR's as a prioritized list of IP addresses, but it will always use first in the list regardless of which precinct the Officer is uploading from. We had to create host based firewall rules on the store n forward servers to work around this issue. During the uploading of video, in the MDC software, certain application tabs and controls are taken away from the officer and controlled by the server until the upload is finished, which limits application function during uploads.
In-Car GPS	built-in GPS acceptable

VMS Ease of Use	User client is web-based, except for the video player, which requires this software to be installed on all MNPd computers that need to use this system. VMS Searching	Video search function is not user friendly and requires officer's usernames instead of last name/first name. Users also have to go into Advanced Options to see this basic search option.
VMS Export	Export conversion from AV3 to MP4 is extremely slow. There is no indication where the export will be saved. There is not a status bar, so there is no way to know how long it will take. While the export is going, user cannot do anything else in the application.
VMS Interfaces	GovDirect/Panasonic did not provide a working CAD, RMS, or Court Interface during field trials. We received only a design interface document.
VMS AD Integration	After Active Directory synchronization takes place, user accounts do not automatically get the role permissions that are assigned based on group membership. User accounts have to be manually edited one-by-one after Active Directory synchronization to assign a Panasonic role. Assigning roles based on group membership does not work. Modifying user accounts fail when there are any special characters such as parenthesis or periods in any of the name fields that come over from the Active Directory synchronization. Manually taking out the special character usually allows the user account changes to be saved, but in the case of the middle name, UDE does not allow any edit, so changes cannot be saved for those user accounts, which required manual user accounts to be created. All Active Directory synchronized user accounts automatically get a 90 day expiration date from the date the user account was synced/created. When expired, users are not allowed to login anymore. Panasonic does not disable its own password expiration and allow Active Directory to handle password expiration, and there was no way this feature could be modified in the administration module. I was advised by Panasonic that a bug in the AD integration sets the expiration date to be set when it should not do so.

BWC Playback	The watermark/overlay on AXON video is not configurable. For example; the time format is Greenwich Mean Time (GMT), and cannot be changed to CST/CDT, which demonstrates a lack of configuration granularity.
BWC Metadata	If BWC video is uploaded from the in-car system, then the metadata incorrectly shows the video as an in-car camera video.

BWC Video Upload	While configuring and registering the upload/charging docking stations, it became apparent that AXON was taking a dock that was designed to register and upload directly to the cloud, and re-engineering it in the field to work in an on premise environment. This process required adhoc programming to each dock. Then a hidden registration webpage had to be accessed to register the dock to the on-premise Commander server, and a new firmware version had to be written by their developers and installed. We found that, if this adhoc process was not followed in specific order, then the dock would automatically be connected to the AXON cloud, instead of the on-premise server. Axon upload/charging docks have a DHCP server you cannot turn off. Maintaining unauthorized DHCP servers on devices connected to our network presents security and manageability challenges. This is an example of the lack of configuration granularity in the Axon software and hardware. The AXON dock equipment only uses an Internet-based certificate authority. That works well for cloud based solutions, but not for truly on-premise solutions within an enterprise network such as Metro. For Axon, this is apparently hardcoded in firmware with no ability to change or allow an additional certificate authority, such as the Metro PKI authoritative source for all internal MNPd hosts.
BWC GPS	Since Axon cameras do not include onboard GPS, the Axon solutions require us to provide them with GPS coordinates from our vehicle systems. Although we provided this function for the Axon solution, it adds complexity to the solution and adds multiple potential points of failure which could prevent GPS coordinates being applied correctly to the video. In addition, GPS coordinates will not be applied to the BWC video if the Officer does not have the BWC paired with ViewXL app on their MDC.

Proposer: AXON	
Function	Field Trial Results
BWC Live Stream	Not available
BWC Training Tools	good
BWC Implementation/Install	Inventory Management is a challenge with Axon's Commander VMS. Assigning a camera to an officer requires the administrator to enter the nine digit serial number of the camera into the system.
In-Car Durability	During the course of the field trials, we have experienced front camera hardware failures in all seven vehicles (at different times). The failure is in the Axon camera power switch, which would not allow the camera to be turned off. This issue required the vehicles to be brought back to the garage for replacement of the camera. Axon's response was that this was a bad batch of cameras and they normally don't have hardware issues
In-Car Mounting	acceptable
In-Car Video Clarity - Day	good
In-Car Video Clarity - Night	Does not perform well at night/low-light conditions.
In-Car Video Field of View	good
In-Car Indicators	good
In-Car Category	good
In-Car Playback	The watermark/overlay on AXON video is not configurable. For example; the time format is Greenwich Mean Time (GMT), and cannot be changed to CST/CDT, which demonstrates a lack of configuration granularity.
In-Car Metadata	acceptable
In-Car System Ease of Use	During field trials, the Axon View XL app on the MDC was receiving critical errors and the Axon service would then crash. The generic error message received was, "If you see this message for longer than 30 seconds, Axon View XL has encountered a serious problem. Please contact your department's IT or Axon Support. Axon system service not available." Axon advised they had identified an issue where if a video file hash does not match, Axon View XL service will crash. Axon provided a ViewXL software upgrade to address the issue
In-Car video storage size	acceptable
In-Car Interface	acceptable
In-Car Triggers	Since AXON signal vehicle devices sending triggers via a wireless Bluetooth burst, it has to wait at least 15 seconds until the current Bluetooth burst is complete before it can send another command to the in-car cameras, which means that Officers have to wait up to 15 seconds before they can restart recording, if needed.
In-Car Video Upload	cellular verses WIFI at the precincts. With Axon, uploads happen immediately out in the field via 4g cellular, possibly tying up cellular bandwidth from more critical MDC functions. This also creates concerns for MNPd if our cellular providers start to limit our bandwidth usage. This issue is very difficult to address in Axon's on-premise solution, given their chosen architectural design of their system. Axon worked during most of the 90-day field trial to try to find an adequate solution for this. The only solution provided was to create a new Commander server software update in which, after installation, allowed a new configuration to be pushed down to the Fleet ViewXL application on the MDC's, which implemented "constant pings" to an Axon cloud-based server to determine if the vehicle is on 4G cellular or WIFI. Although this solution allowed us to only upload video across WIFI, unfortunately, this solution added a "cloud-based" component to Axon's on-premise solution. In addition, due to this design, if Metro were to experience an Internet outage, then video could not be uploaded to the on-premise servers from the vehicles, since this Axon component requires connectivity to a "cloud-based" server before any video can be uploaded to the on-premise server. Provides officer with status information on video uploads within their Axon ViewXL MDC application.

Proposer: AXON	
Function	Field Trial Results
	Upload of video from vehicles takes more time due to the fact that the video being uploaded is copied twice, first from the Axon camera to the MDC, and then from the MDC to the Commander server. Once the Officer clicks <submit> on the category screen; View XL app copies video from the fleet cameras to the MDC via WIFI. Once the video is copied to the MDC hard drive, then View XL uploads the video to the Commander server via our existing NetMotion connection. So the video is copied twice during the upload process.
In-Car GPS	Since Axon cameras do not include onboard GPS, the Axon solutions require us to provide them with GPS coordinates from our vehicle systems. Although we provided this function for the Axon solution, it adds complexity to the solution and adds multiple potential points of failure which could prevent GPS coordinates being applied correctly to the video. In addition, GPS coordinates will not be applied to the BWC video if the Officer does not have the BWC paired with ViewXL app on their MDC.
In-Car Live Stream	Not available
In-Car Training Tools	good
In-Car Implementation/Install	Axon InCar camera installations takes less time to install in the vehicle, because they only need to run power cables to the cameras and install the signal input/output device and the two power supplies. No DVR is required since the recordings happen on the cameras. The complexity of this solution is shifted to our other In-car systems where more complex configurations are required in our existing vehicular mobile router, MDC, and NetMotion. AXON fleet requires us to define unique WIFI SSID's for each vehicle mobile router that is tied to the vehicle id. On the MDC, if Officers mistypes the vehicle id at the AXON View XL login window, then uploads and camera control will not work for the Officer. Requiring that each vehicle has their own unique WIFI network name creates additional administrative work for Police IT, since unique configuration files must be maintained for each vehicle. Officers reported consistent WiFi disconnects, this was also verified in a ride along. Sporadic disconnects of the in car cameras from the Sierra wireless access point causes a delay in copying InCar video to the MDC, and would have an effect on the time to complete an upload. Axon made a firmware update available to MNPd a week before the end of field trials, however this was not enough time at the end of field trials for MNPd to validate and test this firmware update
BWC/In-Car Integration	acceptable
VMS Security	good
VMS Redaction	The export video process is quick, and gives the user an informational status bar. The user can define where to save the export. The application allows the user to keep working while the video is exporting.
VMS Outside Sharing	acceptable

Proposer: AXON	
Function	Field Trial Results
VMS Ease of Use	AXON does not have a full web client for the Commander client. The Commander client runs in a VMware thin client from the server. The method in which the software runs on the client computers triggers Metro's Malware Detection system. File exclusions have been implemented, but the client sometimes run from other paths (such as when video is exported with player). It is unsustainable to keep defining all the different locations the executable could run from. Further, creating virus protection exceptions based on executable filenames effectively disables virus protection checks for that specific filename. Since this exception would have to be implemented on all MNPd computers that access the system, it is within reason that hackers/actors who knows that MNPd uses Axon software, could potentially try to attack the MNPd network by trying to send malware disguised as the same filename as Axon software. Axon Commander does not sync video in multi-cam playback. In the Commander client software, the application window cannot be maximized on the secondary display. Users can move the Commander client window over to a secondary display, but when they click maximize, the window snaps back to the primary display. Issue not resolved to date. In the Commander client: the hover-over popup Informational window does not work when the application window is moved over to a secondary display. Axon provided a Commander server
VMS Deletion Process	acceptable
VMS Searching	Provides a search function that searches across all defined fields. Has easy to use search filters.
VMS Export	good
VMS Interfaces	Axon did not provide a working CAD, RMS, or Court Interface during field trials. We received only a design interface document.
VMS AD Integration	Commanders Active Directory Integration supports users from one domain only. It does not support multiple domains within an Active Directory Forest, as is the Metro structure. For example, a JIS user (District Attorney user) added as a member of a sync'ed group caused Axon Commander's AD sync to fail.
VMS On-Premise Tools	acceptable
VMS Audit Trials	good
VMS Reporting	acceptable
VMS Admin Tools	Inventory Management is a challenge with Axon's Commander VMS. Assigning a camera to an officer requires the administrator to enter the nine digit serial number of the camera into the system.
VMS Setup	acceptable
VMS Training Tools	acceptable
VMS System Implementation/Install	Axon provided and installed no less than ten (10) Commander Server Upgrade Installations over the course of the 90-day Field Trials to fix issues and add functionality to their on-premise solution. Axon BWC's auto-activated from Fleet signal when the inCar cameras were turned on, however, there was no way to turn this feature off in AXON's current on-premise solution. Axon provided a Commander server upgrade to install, along with new configuration fields which had to be manually defined for each signal device I/O's before the BWC auto activations could be configured. GPS extraction was not included in the original on-premise Commander Server Installation, therefore GPS was not saved with the video with the initial Install of the system. After finding the issue, Axon provided a Commander Server upgrade to address this issue. Some videos were failing to be ingested at the server upon upload, which was causing video files to be moved to an "Offline folder". This issue was due to the BWC's configuration being incompatible with the on-premise Commander server, in relation to the categories field being named differently between the server and the devices. Axon provided a Commander server upgrade to address the issue."

Proposer: AXON	
Function	Field Trial Results
	Upon video ingestion, file size mismatch errors were showing up in the logs. When the Commander server generated the imd file for each video, it stores the size of the video file which was different from the actual size of the video file. Axon advised they need to change the way their software makes calls to the windows OS for the file size. Axon provided a Commander server upgrade to address the issue. Duplicate videos exist in the Commander video repository due to the hash calculation timeout issue during upload In the Commander client, text searches for incident numbers comes back with no results. It worked in the beginning of the field trial, but it appears one of the Commander upgrades performed during the field trial broke this function. Axon provided a SQL script to fix this issue

1.866.219.4318. Neither party will be liable for, or be considered to be in breach of or default on account of, any delay or failure to perform as required by these Terms and Conditions as a result of any cause or condition beyond such party's reasonable control, so long as such party uses all commercially reasonable efforts to avoid or remove such causes of non-performance or delay. These Terms and Conditions are governed in all respects by the laws of the State of Washington as such laws are applied to agreements entered into and to be performed entirely within Washington between Washington residents. Any controversy or claim arising out of or relating to these Terms and Conditions, the Hosted Service, or the Site will be settled by binding arbitration in accordance with the commercial arbitration rules of the American Arbitration Association. Any such controversy or claim shall be arbitrated on an individual basis, and shall not be consolidated in any arbitration with any claim or controversy of any other party. The arbitration will be conducted in King County, Washington, and judgment on the arbitration award may be entered into any court having jurisdiction thereof. The award of the arbitrator shall be final and binding upon the parties without appeal or review except as permitted by Washington law. Notwithstanding the foregoing, either party may seek any interim or preliminary injunctive relief from any court of competent jurisdiction, as necessary to protect the party's rights or property pending the completion of arbitration. By using the Site or the Subscription Service, you consent and submit to the exclusive jurisdiction and venue of the state and federal courts located in King County, Washington. Any legal action by Subscriber arising under these Terms and Conditions must be initiated within two years after the cause of action arises. The waiver by either party of any breach of any provision of these Terms and Conditions does not waive any other breach. The failure of any party to insist on strict performance of any covenant or obligation in accordance with these Terms and Conditions will not be a waiver of such party's right to demand strict compliance in the future, nor will the same be construed as a novation of these Terms and Conditions. If any part of these Terms and Conditions is found to be illegal, unenforceable, or invalid, the remaining portions of these Terms and Conditions will remain in full force and effect. If any material limitation or restriction on the grant of any license to Subscriber under these Terms and Conditions is found to be illegal, unenforceable, or invalid, the license will immediately terminate. Except as set forth in Section 2 of these Terms and Conditions, these Terms and Conditions may not be amended except in writing signed by both you and us. In the event that we make such a change that has a material adverse impact on your rights or use of the Service, you may terminate these Terms and Conditions by giving us notice within 20 days of the date we notify you, and you will not be charged any cancellation fee. These Terms and Conditions are the final and complete expression of the agreement between these parties regarding the Subscription Service. These Terms and Conditions supersede, and the terms of these Terms and Conditions govern, all previous oral and written communications regarding these matters.
