Explanation

- **This Supplemental Phase SVOG Notice of Award supersedes any previous Notices of Award you received under the Shuttered Venue Operators grant.** The following Terms & Conditions and Additional Program Assurances apply to all SVOG Award funds received under this program.
- The Grant Number (Box 2) is different from the Initial Phase SVOG Notice of Award confirming it is a new, superseding Notice of Award.
- Under the Initial Phase SVOG Award, you had one year from the date of award to spend your grant funds and you could only use those funds to pay allowable items of cost incurred between March 1, 2020, and December 31, 2021. Once you execute the Supplemental Phase SVOG Notice of Award and return it with your initialed and signed Terms & Conditions and Additional Program Assurances, you will have 18 months from the date of your Initial Phase SVOG Award (Box 5 Budget *From* date) to spend your grant funds. You can use those funds to pay allowable costs incurred between March 1, 2020, and June 30, 2022.
- The supplemental award amount was calculated based on the initial grant amount before subtracting PPP. Any PPP funds received after December 27, 2020, not previously deducted, were then subtracted from the supplemental award amount, which final total award amount (initial grant amount plus the supplemental award amount) is at Box 9 (Award Amount).
- Please reference the current SVOG list of Frequently Asked Questions and the Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (commonly called "Uniform Guidance") for guidance regarding allowable items of cost and use of your grant funds and repayment of any unused funds at the end of your Budget Period.

Field 13. Other Terms & Conditions Attached

- This Supplemental Phase SVOG Notice of Award supersedes any previous Notices of Award you received under the Shuttered Venue Operators grant.
- Prior approval is not required for the in-scope transfer or reallocation of funds among direct cost categories in the approved total budget. However, SBA will not permit any budget transfers or reallocations that represent a change in the scope of an SVOG Award or which would cause SVOG award funds to be used for purposes other than those consistent with the program legislation and appropriation.
- You must submit Form-425 with supporting documents when all award funds have been spent.
- You may spend your SVOG funds on costs incurred from March 1, 2020 to December 31, 2021 (or June 30, 2022 if you have received a Supplemental Award). Once you have spent all of your SVOG funds, it is recommended that you submit your expense report within 60 days. However, by law (per §200.344), you must complete this and the subsequent "Complete SVOG Closeout Process" to close out your grant within 120 days of the end of your Budget Period, whether or not all SVOG funds have been spent. You must submit your expense report through the portal or as otherwise directed by the program.
- You are required to submit a Single Audit or financial audit at the end of your fiscal year if you have spent \$750,000 or more in Federal Funding.
- You are not eligible for a Restaurant Revitalization Fund grant.

SUBSTITUTE ORDINANCE NO. BL2021-841

An ordinance amending Section 13.08.080 of the Metropolitan Code of Laws to pertaining to the use of License Plate Scanner (LPR) Technology in the public rights-of-way.

WHEREAS, the use of LPRs in Davidson County represents a significant intensification of resident surveillance; and

WHEREAS, and use of LPRs should be done in a measured manner that permits the Council maximum flexibility and oversight to reevaluate the way the technology is used; ~~and~~

~~WHEREAS, a recent study published by the United States Department of Justice found “significantly lower levels of trust in police” among test subjects who encountered mentions of law enforcement using LPRs as compared to a control group; and~~

~~WHEREAS, the Vallejo (California) Police Department found that 37 percent of “hits” from fixed LPRs were, in fact, misreads, some of which led to unwarranted stops and traumatic encounters; and~~

~~WHEREAS, data from LPRs is scheduled to become subject to Tennessee’s Public Records Act; and~~

~~WHEREAS, U.S. Immigration and Customs Enforcement (ICE) contracts with LPR operators to target deportations; and~~

~~WHEREAS, there are recorded instances of law enforcement using LPRs to surveil Muslim communities and target suspected gang members despite such lists being notoriously far-reaching and unreliable; and~~

~~WHEREAS, license plate readers can lead criminals to modify their behavior, such as stealing plates with greater frequency or obscuring their license plates, to thwart any benefit of these devices; and~~

~~WHEREAS, the abuse of license plate reader data can be mitigated by limiting reader use to those that are mobile in nature and by implementing policies that regulate the use of mobile readers.~~

NOW, THEREFORE, BE IT ENACTED BY THE COUNCIL OF THE METROPOLITAN GOVERNMENT OF NASHVILLE AND DAVIDSON COUNTY:

Section 1. That Section 13.08.080 of the Metropolitan Code is hereby amended by deleting Subsection G in its entirety and replacing it with the following:

1. It is lawful for the Metropolitan Government, or any official, agent, contractor, or employee of the Metropolitan Government acting in their official capacity on behalf of the Metropolitan Government, to operate any license plate scanner (LPR) located a) within or on a law enforcement vehicle a) not permanently and not semi-permanently affixed to its location, such as a LPR located within or on a law enforcement vehicle and a mobile LPR trailer, and b) employed for uses

specifically permitted by this subsection. The use of a LPR is otherwise prohibited within the public rights-of-way unless explicitly permitted in this section.

2. It is lawful to operate a LPR installed onto or within the public right-of-way that meets each of the following conditions:

- a. The LPR is used solely and exclusively in conjunction with a vehicle emissions sensor as part of an emissions inspection program authorized under local, state or federal law;
- b. The data from the LPR and vehicle emissions sensor is used solely and exclusively for purposes of determining compliance with vehicle emissions standards;
- c. A determination by the vehicle emissions sensor that a vehicle identified by the LPR is not in compliance with applicable emissions standards shall not lead to any penalty or punitive action against the registered vehicle owner;
- d. No fewer than two such LPRs shall be in operation within Davidson County at any given time unless no such LPRs are in operation; and
- e. Data that can be used to pair a specific vehicle's license plate number, VIN, or other unique identifier with a specific geographic location shall not be recorded.

3. It is lawful to operate a LPR installed onto or within the public right-of-way that meets each of the following conditions:

- a. The LPR is used solely and exclusively for determining whether a vehicle is currently and actively violating parking restrictions; and
- b. A specific vehicle's license plate number shall be deleted within thirty minutes of its exit from a monitored parking space, unless that vehicle is suspected of violating parking restrictions for which enforcement action would be appropriate.

Section 2. That Section 13.08.080 of the Metropolitan Code is hereby amended by ~~adding the following new Subsection H and by renumbering the existing Subsection H to Subsection I deleting Subsection H in its entirety and replacing it with the following:~~

H. An LPR used by law enforcement shall meet each of the following conditions:

1. An LPR shall be ~~used~~ designed and intended for the sole purpose of recording and checking license plates and ~~shall not be capable of~~ photographing, recording, or producing images of the occupants of a motor vehicle.

2. An LPR shall not be placed in a specific location for a period of more than seven days at any one time, where "specific location" means the location of placement plus a 50-yard radius as well as the entire block face of the location of placement. Once an LPR is placed in a specific location for a period of up to seven days, no LPR shall be placed in that same specific location for a period of at least seven days. Further, an LPR shall not be placed within one-half mile of any rally, march, or political event for which a permit has been

issued or for which notification has been provided to the mayor's office. An LPR that is not operating and is located in or on a law enforcement vehicle that is in maintenance is not subject to this restriction.

23. LPR operation and access to LPR collected data shall be for official law enforcement purposes only. LPRs shall only be used to scan, detect, and identify license plate numbers for the purpose of identifying:

- a. Stolen vehicles.
- b. Vehicles associated with missing or endangered persons.
- c. Vehicles registered to a person against whom there is an outstanding felony arrest warrant.
- d. Vehicles for which a probable cause search warrant for a felony offense has been obtained.
- e. Suspects for whom probable cause exists for an arrest for a felony offense.

34. Prior to stopping a vehicle based on an LPR hit, the officer shall visually verify that the license plate on the list matches the digital image displayed on the LPR.

45. Data obtained by LPRs:

~~a. Records of license plates read by each LPR shall not be recorded or transmitted outside the LPR system and shall be purged from the LPR system within 24-72 hours of their capture in such a manner that they are destroyed and are not recoverable, unless it results in a match with a vehicle falling within paragraph 2 3 above.~~
