Status: AMENDMENT

Program Description:

This Centers for Disease Control and Prevention grant will create an action plan for Workforce Development addresses eight priority strategies and will involve collaboration among internal and external partners. MPHD will also support innovative changes in key areas and implement system changes that have a meaningful impact across public health areas and strengthen our Foundational Capabilities. Proposed efforts address four specific Foundational Capabilities strategies that will catalyze changes in how MPHD is organized and functions to use resources to enhance public health practice. Consequently, these efforts will remove barriers to services, reduce health disparities and build sustainable partnerships, community capacity and trust in the immediate and future public health efforts. Amend. 2 adds additional funds of \$843,396.00 to the previous amount of \$8,578,283 for a new total of \$9,421,679.00 and incorporates Notice of Funding Opportunity (NOFO) number OE22-2203, entitled Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems, and application dated October 2, 2023, as may be amended, which are hereby made a part of this non-research award, hereinafter referred to as the Notice of Award (NoA). In addition, Amend. 2 requires the recipient to respond to the information by February 1, 2024, as a Grant Note in Grant Solutions for Travel Costs, Supply Costs, and Other Costs. In addition, recipient has Expanded Authority to carryover unobligated funds. Amend 2 also updates "Funding Requirements" for Indirect cost, "Reporting Requirements" and "Payment Information".

1. NE11OE000029--Terms and Conditions for the A2 YR02 Non-Competing Continuation

AWARD INFORMATION

Incorporation: In addition to the federal laws, regulations, policies, and CDC General Terms and Conditions for Non-research awards at <https://www.cdc.gov/grants/federal-regulations-policies/index.html>, the Centers for Disease Control and Prevention (CDC) hereby incorporates Notice of Funding Opportunity (NOFO) number OE22-2203, entitled Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems, and application dated October 2, 2023, as may be amended, which are hereby made a part of this Non-research award, hereinafter referred to as the Notice of Award (NoA).

Approved Funding: Funding in the amount of **\$843,396** is approved for the Year 2 budget period, which is December 1, 2023 through November 30, 2024. All future year funding will be based on satisfactory programmatic progress and the availability of funds.

The federal award amount is subject to adjustment based on total allowable costs incurred and/or the value of any third-party in-kind contribution when applicable.

Note: Refer to the Payment Information section for Payment Management System (PMS) subaccount information.

Component/Project Funding: The NOFO provides for the funding of multiple components under this award. The approved component funding levels for this notice of award are:

NOFO Component	Amount
Strategy A2: Foundational Capabilities	\$ 843,396

Administrative Requirements: The recipient must respond to the information below by February 1, 2024 as a Grant Note in GrantSolutions. If the date falls on a weekend or holiday, the submission will be due the following business day. Failure to submit the required information in a timely manner may adversely affect the future funding of this project. If the information cannot be provided by the due date, contact the GMS/GMO identified in the Awarding Agency Contact Information section on the first page before the due date. Please use the CDC Budget Preparation Guidance <https://www.cdc.gov/grants/documents/budget-preparation-guidance.pdf>.

- **Travel Costs:** *For the Out -Of-State Travel*, provide a narrative justification describing the travel staff members will perform. List where travel will be undertaken, identify the names of the staff members who will be making the trips, and provide the approximate dates of travel in accordance with the CDC Budget Preparation Guidelines.
- **Supply Costs:** Identify the type of General Office Supplies (ex. Pens, pencils, paper) in accordance with the CDC Budget Preparation Guidelines.
- **Other Costs:** Please provide an estimated timeframe of how long the vehicle wraps will last (i.e., 3 months, 1 year or 2 years). Additionally, explain where vehicle wraps for the Animal Control Department coincide with the NOFO. Please be specific in your response.

Summary Statement/Technical Review: Within 5 days of this Notice of Award's (NoA) issue date, the Summary Statement/Technical Review will be accessible to the recipient in GrantSolutions Grant Notes. Contact the assigned Program Officer indicated in the NoA with any questions regarding this document or any follow up requirements.

Financial Assistance Mechanism: Grant

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of unobligated funds in Section 12 “Remarks” of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient’s authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.

FUNDING RESTRICTIONS AND LIMITATIONS

Indirect Costs: Indirect costs are approved based on the recipient’s approved Cost Allocation Plan dated May 12, 2022.

REPORTING REQUIREMENTS

Performance Progress and Monitoring: Performance information collection initiated under this grant/cooperative agreement has been approved by the Office of Management and Budget under **OMB Number 0920-1132, “Performance Progress and Monitoring Report”, Expiration Date 3/31/2026.** The components of the PPMR are available for download at: <https://www.cdc.gov/grants/already-have-grant/Reporting.html> .

Required Disclosures for Federal Awardee Performance and Integrity Information System (FAPIIS): Consistent with 45 CFR 75.113, applicants and recipients must disclose in a timely manner, in writing to the CDC, with a copy to the HHS Office of Inspector General (OIG), all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Subrecipients must disclose, in a timely manner in writing to the prime recipient (pass through entity) and the HHS OIG, all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Disclosures must be sent in writing to the CDC and to the HHS OIG at the following addresses:

Subject: Availability of Funds

There have been many questions surrounding the availability of funding for Strategy A1 and the A3 Accelerated DMI/LDX funding. Your current notice of award list your budget period as a 12-month period; however, this is because the A2 strategy is solicited on an annual basis and was not awarded as 5-year funding at the inception of your award. This does not negate the fact that funds awarded for the full period of performance under Strategy A1 and A3 Accelerated DMI/LDX are available for the full period of performance from 12/1/2022 to 11/30/2027, even though they are not listed in each notice of award. Additionally, these awards have expanded authority, which means that funds for approved activities that are within scope are available and moved forward for each budget segment.

Below is an excerpt from the Notice of Funding Opportunity which outlines the availability of the funds. Because the Notice of Funding Opportunity is a legal document, the guidance outlined in this document is applicable to the Notice of Award.

Page 34 of the original Notice of Funding Opportunity states the following regarding the awarding of the funds:

Over a five-year period of performance, CDC will award a total of approximately \$3.945 billion. All \$3 billion for strategy A1 Workforce will be disbursed during FY23. \$140 million for strategy A2 Foundational capabilities will be disbursed each budget year starting in FY23 for the five-year period of performance. \$40 million for strategy A3 Data modernization will be disbursed each budget year starting in FY23 for the five-year period of performance. The component B funding of \$45 million will be disbursed during year one of FY23.

Specific amount of funding described herein may be increased or decreased as they are subject to the availability of funds.

We request that you share this information with your finance office as official confirmation that these funds have been awarded for the five-year period of performance and are available for disbursement during the timeframe of December 1, 2022 to November 30, 2027.

Thank you,

Rhonda Latimer

Subject: Application for CDC -RFA-OE22-2203CONT24

This letter serves as the required cover letter for our application for the non-compete continuation of CDC-RFA-OE22-2203. The Metro Public Health Department (MPHD) intends to utilize funds from the CDC grant continuation to support our workforce efforts as we provide services to our Metro Nashville/Davidson County constituents.

The following components are included in our application packet:

- Cover Letter signed by the Authorized Organization Representative (AOR)
- Performance Progress and Monitoring Report (PPMR)
- SF-424A Budget Information-Non-Construction (online form) and Budget Justification (attachment)
- Interim Federal Financial Report (FFR) SF-425 (if applicable)
- Indirect Cost Rate Agreement (attachment)
- Performance Narrative
- SF-LLL Disclosure of Lobbying Activities

We are in the early stages of initiating work under this grant that is funded by the CDC in order for us to advance our workforce development efforts including addressing gaps in our workforce and foundational capabilities.

Sincerely,

Melva E. Black

Dr. Melva Black, Deputy Director & AOR

Performance Progress and Monitoring Report

The *Performance Progress and Monitoring Report (PPMR)* is a standard, CDC-wide performance progress and evaluation reporting format used by the Office of Grants Services (OGS) to collect performance information from recipients of CDC funds awarded under all CDC programs, excluding those that support research. General instructions for completing the *PPMR* are contained below. For further instructions on completing the *PPMR*, please contact the agency's points of contact specified in the "Agency Contacts" section of your award document.

Report Submissions

1. The recipient must submit the *PPMR* cover page and any of the forms (*PPMR A-F*), which CDC requires, as specified in the award terms and conditions.
2. The *PPMR* must be submitted to the attention of the agency's points of contact specified in the "Agency Contacts" section of the award document in accordance with the requirements established in the award document.
3. If additional space is needed to support the *PPMR*, supplemental pages should be attached. The additional pages must indicate the following at the top of each page: Federal Grant or other Identifying Award Number, Recipient Organization, DUNS Number, EIN, and period covered by the Report. Page numbers should be used if a particular page is used more than once.

Reporting Requirements

1. All recipients of grants or cooperative agreements awarded under all CDC programs, excluding those that support research, are required to submit a *PPMR* in accordance with the terms established in the award document.
2. The *PPMR* will be submitted in accordance with program guidance and award terms and conditions which may be quarterly, semi-annual, or annual. A final *PPMR* shall be required at the completion of the award agreement.
3. For interim *PPMRs*, due dates will be in accordance with program guidance based on required reporting frequency and budget period start dates.
4. For final *PPMRs* due dates are required not later than 90 days after the end of the reporting period end date.

Performance Progress and Monitoring Report

Item	Data Elements	Line Item Instructions for PPMR
1	Awarding Federal agency and Organizational Element to Which Report is Submitted	Enter the name of the awarding Federal agency and organizational element identified in the award document or otherwise instructed by the agency. The organizational element is a sub-agency within an awarding Federal agency.
2	Federal Grant or Other Identifying Number Assigned by the awarding Federal agency	Enter the grant/award number contained in the award document.
3a	DUNS Number	Enter the recipient organization's Data Universal Numbering System (DUNS) number or Central Contract Registry extended DUNS number.
3b	EIN	Enter the recipient organization's Employer Identification Number (EIN) provided by the Internal Revenue Service.
4	Recipient Organization	Enter the name of recipient organization and address, including zip code.
5	Recipient Account Number or Account Number	Enter the account number or any other identifying number assigned by the recipient to the award. This number is strictly for the recipient's use only and is not required by the awarding Federal agency.
6	Project/Grant Period	Indicate the project/grant period established in the award document during which Federal sponsorship begins and ends. Note: Some agencies award multi-year grants for a project/grant period (e.g., 5 years) that are funded in increments known as budget periods or funding periods. These are typically annual increments. Please enter the project/grant period, not the budget period or funding period.
7	Reporting Period End Date	Enter the ending date of the reporting period. For quarterly, semi-annual, and annual reports, the following calendar quarter reporting period end dates shall be used: 3/31; 6/30; 9/30; and or 12/31. For final PPMRs, the reporting period end date shall be the end date of the project/grant period. The frequency of required reporting is usually established in the award document.
8	Final Report	Mark appropriate box. Check "yes" only if this is the final report for the project/grant period specified in Box 6.
9	Report or Frequency	Select the appropriate term corresponding to the requirements contained in the award document. "Other" may be used when more frequent reporting is required for high-risk grantees, as specified in OMB Circular A110.
10	Performance Narrative	Attach performance narrative as instructed by the awarding Federal agency.
11	Other Attachments	Attach other documents as needed or as instructed by the awarding Federal agency.

Recipient Response:	
Item Requested:	Animal Control Department Vans to be Wrapped
Type of Cost:	Unit Cost
Estimated Unit or Monthly Cost:	\$15,000.00
Amount Requested:	\$45,000.00
Justification:	Funding to wrap 3 Metro Animal Control Center Vans in order to promote services and career options to Metro Nashville residents. Wraps for a single vehicle is expected to be approximately and no more than \$15,000
Recipient Response:	
Item Requested:	HR infrastructure updates
Type of Cost:	Unit Cost
Estimated Unit or Monthly Cost:	\$125,000.00
Amount Requested:	\$125,000.00
Justification:	The MPHD HR group has not had any funding to update or replace software or to automate manual, paper driven functions. Work is ongoing to determine if electronic onboarding, an electronic performance review system and an improved Talent Acquisition system can be added to our existing HRIS platform. At this time we are currently seeking quotes of appropriate systems and can provide a more specific cost breakdown once that information is available, and a purchasing decision is made.
Recipient Response:	
Item Requested:	HR Recruitment resources
Type of Cost:	Monthly Cost
Estimated Unit or Monthly Cost:	\$4,100.00
Amount Requested:	\$50,000.00
Justification:	The MPHD HR recruiter has no budget or resources to work with when additional advertising or recruitment efforts are needed to fill positions. this budget will allow for Indeed sponsored advertising, Specialty niche job board advertising and some sourcing agency usage.
Recipient Response:	
Item Requested:	Learning and Development Hub training
Type of Cost:	Unit Cost
Estimated Unit or Monthly Cost:	\$40,000.00
Amount Requested:	\$40,000.00

Justification:	Budget required to build or buy training materials to be added to our LMS system in order to deliver curated training courses or curriculums to staff. Training materials will focus on new Supervisor training, Existing supervisor training, Customer service training, and technical upskill training.
Recipient Response:	
Item Requested:	Facilitation Training support
Type of Cost:	Unit Cost

Item Requested:	IT Network system update for MPHD's central office and public health clinic
Type of Cost:	Unit Cost
Estimated Unit or Monthly Cost:	\$100,000.00
Amount Requested:	\$100,000.00
Justification:	This funding will be used towards the update and reworking of MPHD's central building's wireless network and systems. Currently, the network infrastructure is lacking and does not provide adequate coverage to reach all points of the offices and clinics. This will provide the foundational network to support any network-dependent devices being used on site.
Recipient Response:	
Item Requested:	Environmental Health Inspection Resources
Type of Cost:	Monthly Cost
Estimated Unit or Monthly Cost:	\$1,000.00
Amount Requested:	\$12,000.00
Justification:	This monthly funding totaling \$12,000 annually will go towards provide mobile network services for MPHD's environmental health inspectors as they perform duties in the field.

Certificate of Indirect Costs

METROPOLITAN GOVERNMENT OF NASHVILLE/DAVIDSON COUNTY

Metro Public Health Department

Fiscal Year July 1, 2022 through June 30, 2023

This is to certify that I have reviewed the indirect cost proposal submitted herewith and to the best of my knowledge and belief:

(1) All costs included in this proposal to establish cost allocation or billing rates for FY 2023 (July 1, 2022 through June 30, 2023) based on actual costs for the fiscal year ending June 30, 2021 (July 1, 2020 through June 30, 2021) are allowable in accordance with the requirements of the Federal/State/Local award(s) to which they apply and 2 CFR 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Unallowable costs have been adjusted for in allocating costs as indicated in the indirect cost rate proposal.

(2) All costs included in this proposal are properly allocable to Federal/State/Local awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal government will be notified of any accounting changes that would affect the predetermined rate.

I declare that the foregoing is true and correct.

A. Cost Allocation Methodology and Process

The Cost Allocation Plan (CAP) provided in *Section C* was prepared by MAXIMUS Consulting Services, Inc. (MAXIMUS) for NASHVILLE-DAVIDSON COUNTY, TENNESSEE. Utilizing our proprietary, web-based cost allocation system, MAXCAP™, MAXIMUS used cost data and allocation statistics to allocate the costs to departments/divisions/programs for Fiscal Year (FY) 2021.

MAXCAP uses a double step-down allocation procedure to distribute costs among Central Services and to departments that receive benefits. Using MAXCAP, costs are input by cost center identifications consistent with the entity's accounting code structure, which allows for efficient balancing with the entity's financial reporting systems. Additionally, MAXCAP provides for the inputting of allocation statistics appropriate for the distribution of the identified indirect cost pools. Credits for direct-billed payments, cost adjustments, and other valid and applicable costing factors are also facilitated within the software.

In this section, we provide an overview of our cost allocation methodology and process used to develop the CAP.

A.1 Cost Allocation Methodology

MAXIMUS employs a double step-down procedure that allows all Central Service Departments to allocate costs to all other Central Service Departments. Since Central Service Departments' costs are not simultaneously allocated, the process must be performed sequentially, one department after another. The second step-down allows for the equitable allocation of the costs the Central Service Departments receive from one another.

Typically, CAPs are compiled using a single step down or "waterfall" methodology in which the costs of Central Service Departments are allocated in an ordinal sequence with emphasis placed on ordering non-departmental and departmental cost groupings to optimize the flow of costs to recoverable program areas. Although this is an acceptable method resulting in accurate program allocations, it provides only partial information as to the costs of individual Central Service Departments and their significant activities.

To demonstrate the potential inequity of a single step-down, consider the costs of the Facilities Management and Purchasing activities. Facilities Management manages and maintains the office space that Purchasing uses to serve departments. Facilities costs are rightfully allocable to all the departments that have space in government buildings. If Facilities Management costs are allocated after Purchasing, the cost of Purchasing's space will be allocated to the other departments in the building. It could be argued that this method then allocates costs to departments disproportionate to the benefit received from those costs.

MAXIMUS double step-down approach mitigates potential allocation inequities and has been widely accepted by federal cognizant agencies for more than 30 years.

A.1.1 First Step-Down

The first step-down allows each Central Service Department to allocate to any other department, regardless of the sequence of the departments. The department also can allocate to itself providing the statistical measurements indicate a basis for the allocations.

**NASHVILLE-DAVIDSON COUNTY, TENNESSEE
METRO PUBLIC HEALTH DEPARTMENT ~ ICRP
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
Cost Allocation Methodology and Process**

Process

The process of allocating during this round is achieved sequentially, consistent with the order of the Central Service Departments. As each Central Service Department performs its allocations it allocates:

- Costs from entity financial records
- Cost adjustments
- Credits
- Costs received from other Central Service Departments that have completed their first round allocations
- Results

At the completion of the first step-down, each Central Service Department has the allocated costs from itself and from the Central Service Departments sequenced before it.

A.1.2 Second Step-Down

The rule for the second step-down is that each Central Service Department can allocate only to another department sequenced after the allocating department; provided that the statistical measurements indicate a basis for the allocations.

Process

The process of allocating during the second step-down is achieved sequentially and consistent with the order of the Central Service Departments. As each Central Service Department performs its allocations, it allocates:

- Costs received from other Central Service Departments that have completed their second round allocations
- Costs received in the first step-down from itself and from the Central Service Departments sequenced after the allocating department

Results

At the completion of the second step-down, each Central Service Department has completed all allocations and all Central Service Departments have been cleared of all costs. The costs have either been adjusted out of the cycle or sent to Receiving Departments based on the allocation statistics.

A.1.3 Supplemental Comments

When the relationship between and among the Central Service Departments is greatly intertwined, it may be prudent to implement three or more step-downs. Typically, the double step-down is sufficient to accomplish an equitable allocation of all costs.

If more than two step-downs are required the rules for all rounds of allocation — except the final round — are the same as defined above for the first step-down. The final round always follows the rules, as defined above, for the second step-down.

A.2 Cost Allocation Process

The process utilized by MAXIMUS in developing the CAP and tracking costs within it is discussed below.

**NASHVILLE-DAVIDSON COUNTY, TENNESSEE
METRO PUBLIC HEALTH DEPARTMENT ~ ICRP
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
Cost Allocation Methodology and Process**

A.2.1 Initiating the Process

Working in conjunction with the entity, MAXIMUS determines data to be included within the cost allocation process based on:

- Application of federal cost principles or full costing principles, as applicable
- Interviews
- Review of financial documents
- Review of organizational structure
- Analysis of statistical data relative to benefit of services provided

A.2.2 Establishing the Cost Pools to be Allocated

MAXIMUS analyzes the organizational structure of the entity to determine which departments or cost pools provide services to other departments/divisions/programs. These cost pools become the “Central Service Departments” in the CAP.

Next, each cost pool is evaluated to determine the activities or services provided. The costs are then broken into subparts or activities such that each activity can be allocated on a statistical measure that is relevant to the service provided and the benefit received.

Line items of expenditures are analyzed to determine which activities receive the benefit of the costs. Distributions of these costs are made according to the determined benefit of each activity.

A.2.3 Establishing the Statistical Measurements or Bases for Allocation

MAXIMUS evaluates available statistical measurements to establish the most equitable and meaningful basis for allocating each activity within each Central Service Department. Consideration is given to determining the measurement that most appropriately demonstrates its relationship to the receiving units. For example, an activity that is driven by the number of employees within the benefiting departments can be allocated by number of employees. Similarly, an activity that is driven by the number of transactions for each benefiting department can be allocated by the number of transactions.

A.2.4 Accommodating Exceptions and Adjustments

Applicable cost adjustments for unallowable costs and/or capitalized assets are incorporated into the appropriate schedules. Credits for direct billings, special revenues, etc. are entered into the computation.

A.2.5 Developing the CAP

The MAXIMUS Cost Allocation Plan typically is organized as follows:

- Cover
- Certification, if required
- Table of Contents
- Cost Allocation Methodology and Process
- Organizational Chart

- CAP: Summary and Detail Schedules
- Supplemental Materials

Below, we discuss each of the summary and detail schedules included in a CAP.

Summary Schedules

The summary schedules provide a recap of the results of the cost allocation process. The following explanations define the purposes of each of the typical schedules included in the cost allocation plan.

Schedule A – Allocated Costs by Department: Schedule A demonstrates for each Receiving Department the costs received from each Central Service Department. This schedule answers the question: Which Central Service Department actually allocated the costs to each Receiving Department?

This schedule does not necessarily demonstrate the Central Service Department from which the costs originated. For example, costs sent from Purchasing to Accounting and then to a Receiving Department will be recorded on Schedule A as being from Accounting.

Schedule C – Summary of Allocated Costs: Schedule C is the simplest report to use when balancing to the financials. It demonstrates the costs to be allocated, the adjustments made to these costs, and the results of the allocations. This schedule demonstrates the full sequence of all departments with the Central Service Departments listed first and in the order of their allocating sequence.

The Receiving departments follow the Central Service Departments with the total allocations received from all Central Service Departments.

Schedule E – Summary of Allocation Basis: Schedule E demonstrates, for each Central Service Department, the services or activities of the Central Service Department and the basis for the allocation of each activity. This schedule is a convenient reference for reviewing the activities identified for each Central Service Department. This is particularly important when preparing a new plan and incorporating organizational and services changes.

Schedule F – Indirect Cost Rate Proposal: Schedule F computes an indirect cost rate for selected Receiving Departments. The total allocated costs are divided by the indirect costs rate base to compute the indirect cost rate for each Receiver Department. For example, the indirect cost rate base used to compute the rates could be salaries, salaries and benefits, or modified total direct costs, etc. A composite rate is also computed at the bottom of the schedule.

Detail Schedules

The detail schedules demonstrate the original costs being allocated by each Central Service Department. In these schedules, the adjustments are applied; the activities are defined; the incoming costs from other Central Service Departments are detailed; the allocation calculations for both step-downs are documented; and the results for each Central Service Department are summarized.

When tracking costs, typically the schedules are reviewed in reverse order tracking from summary information back to detail information. This is discussed further in *Section A.2.6: Tracking Costs within the CAP*.

Schedule __.1 – Nature and Extent of Services: Schedule __.1 is a brief narrative defining the purpose of the Central Service and the benefit it provides to the Receiving Departments. The narrative also describes the allocation basis used for each activity and any other relevant information on expenditures.

Schedule __.2 – Costs to be Allocated: Schedule __.2 provides an overview of the total costs allocated by

Cost Allocation Methodology and Process**

each Central Service Department including:

- Expenditures from the financial reports — balances to Schedule C
- Adjustments to financial reports — balances to Schedule C
- Incoming costs from other Central Service Departments

The incoming costs are presented in columns that represent when these costs are allocated by the Central Service Department, not when the costs are received. As explained in *Section A.1: Cost Allocation Methodology*, the costs that are received from Central Service Departments sequenced after the given department are held for allocation in the second step-down.

Schedule __.3 – Costs to be Allocated by Activity: Schedule __.3 provides the following:

- Expenditures from the financials are defined by type of expenditure and by activities (to the extent deemed necessary) to ensure the application of allocation bases that closely correlate to the benefits derived by the Receiving departments. Each activity is represented in its own column. The totals balance with both Schedule C and Schedule __.2 expenditure amounts.
- Adjustments to the financial reports are applied to expenditures and the results spread to the appropriate activities.
- Incoming costs are demonstrated first in total and then spread to the appropriate activities for allocation for each step-down. The totals for each step-down balance to the totals on Schedule __.2. It should be noted that incoming costs may be coded to spread to only the activities that receive benefit from the services.

Schedule __.4 – Detail Activity Allocations: Schedule __.4 represents the allocation results by activity. Each activity defined on Schedule __.3 is demonstrated on a Detail Allocation Schedule. Because the number of activities varies, the number of the last of these schedules varies.

Schedule __.4 includes:

- Statistical measurement used as a basis for allocation
- Identification of statistical measurement
- Source of the statistical measurement
- Percent relationship of each statistical measurement to the whole or total statistical measurement base
- Results of the first step-down — balances to functional total after first additions on Schedule __.3
- Results of the second step-down — balances to functional total of second additions on Schedule __.3

The totals allocated from both step-downs balance to the functional grand total from Schedule __.3. Note the results of the second step-down. This schedule clearly demonstrates how the second step-down allocates only to departments sequenced after the allocating department.

Schedule __.5 – Allocation Summary for each Central Service Department: Schedule __.5 provides a summary of costs allocated by each activity. The activity totals balance to the totals from each Detail Activities Allocation schedule defined above.

The totals allocated to the Receiving Departments will balance to Schedule A for the allocating department.

Cost Allocation Methodology and Process**

A.2.6 Tracking Costs within the CAP

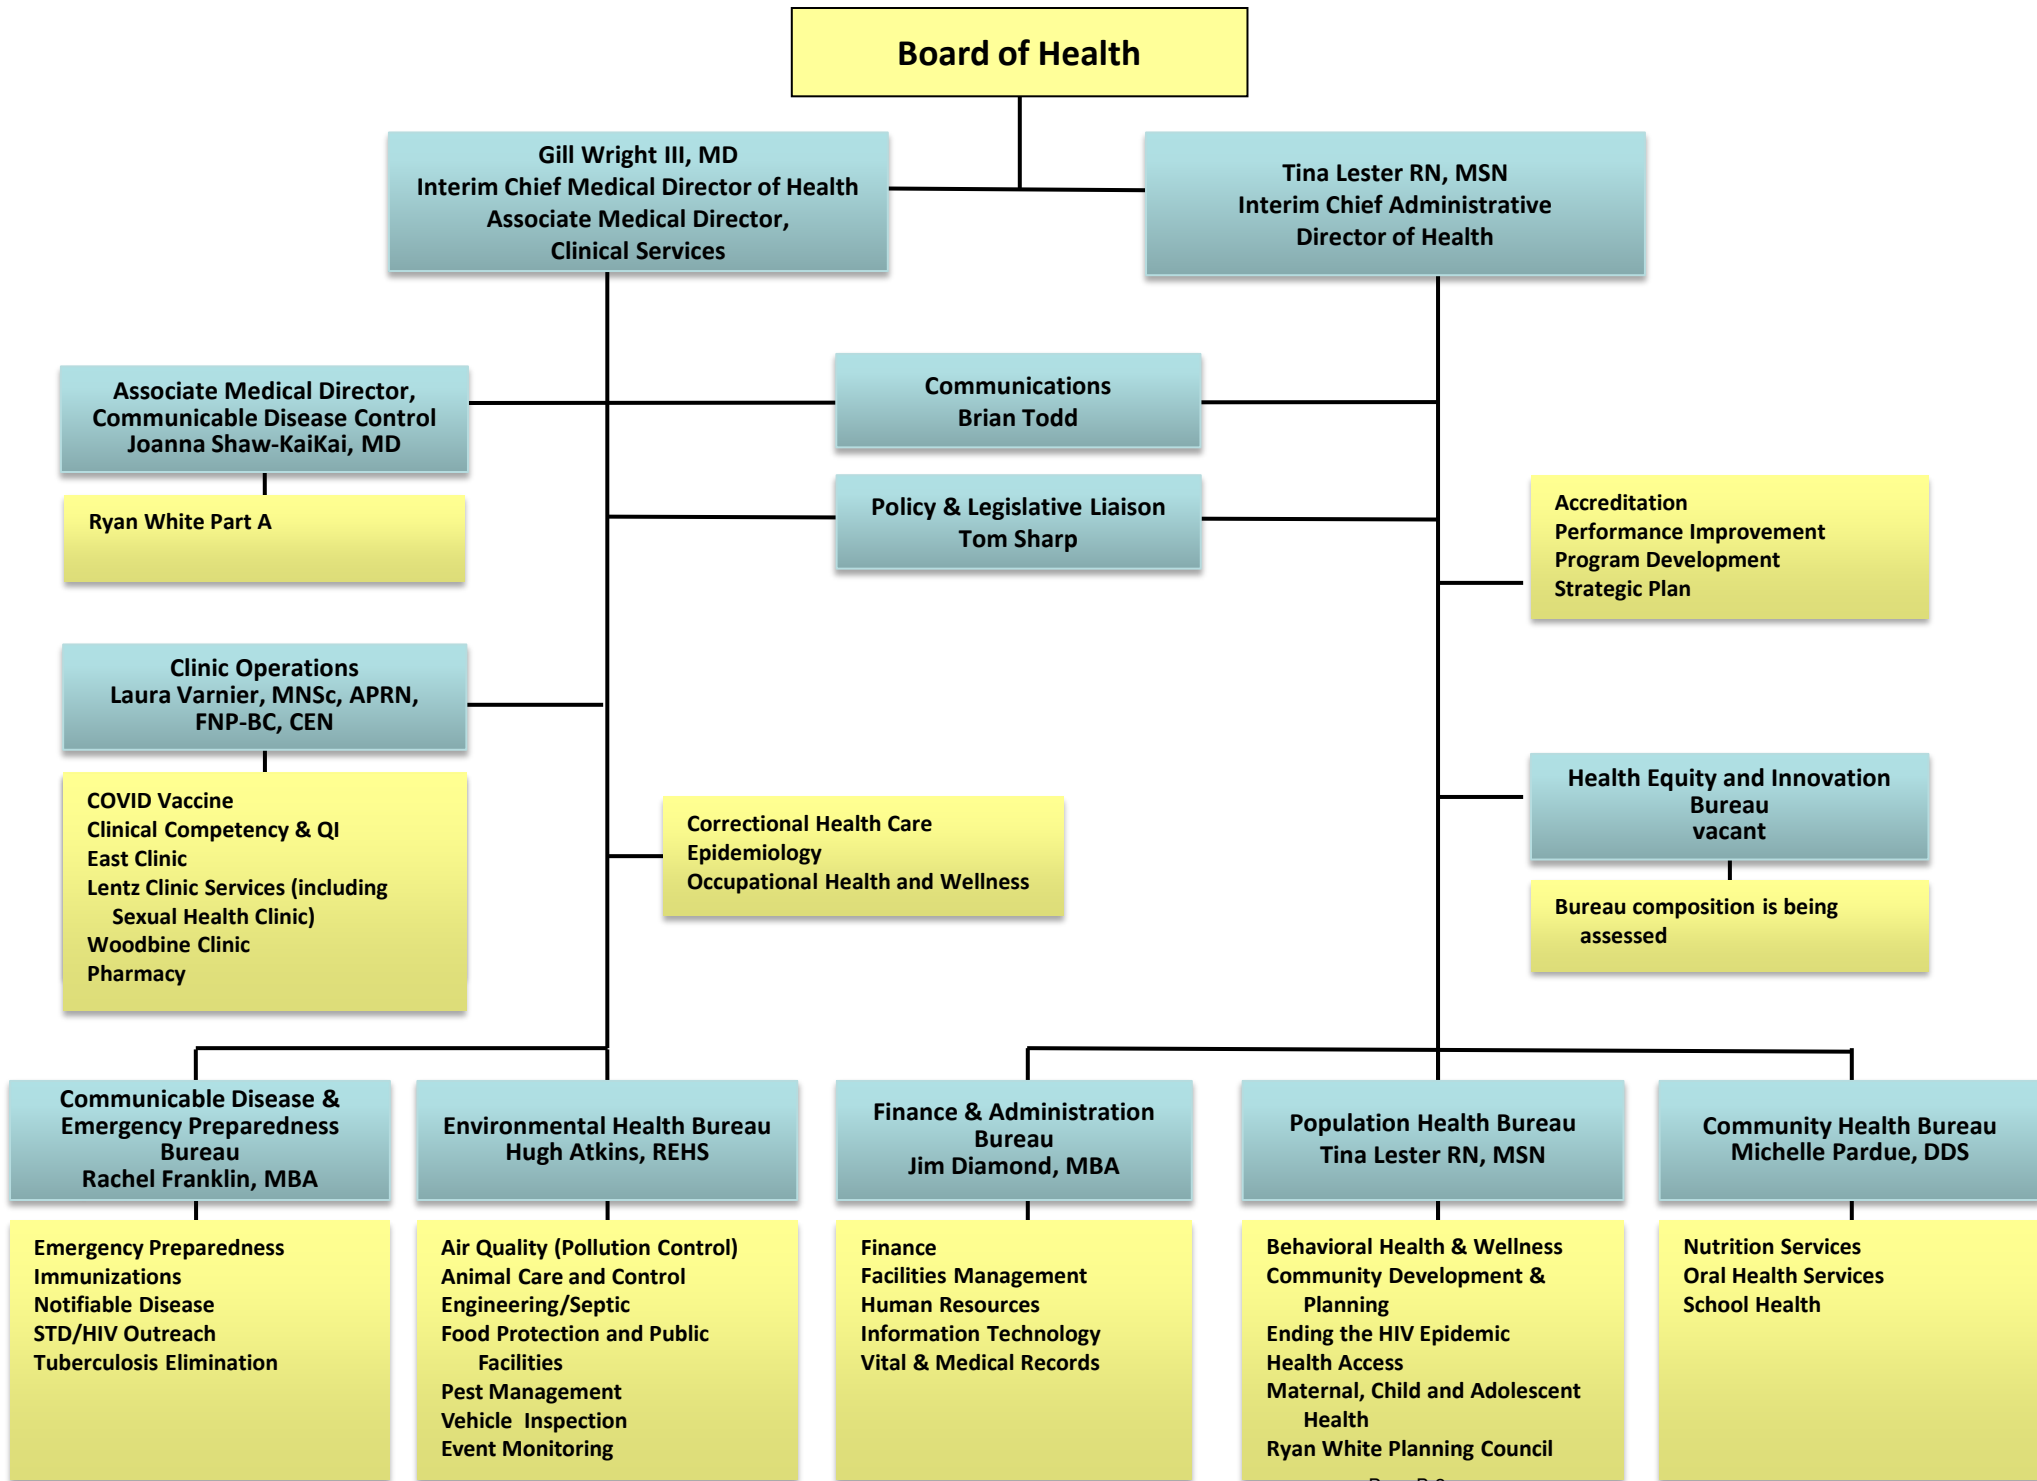

When costs are questioned, MAXIMUS utilizes our standard tracking process in order to resolve any issues with Schedule A where the questioned cost is usually identified.

From Schedule A, we identify the allocating Central Service Department. From the CAP Table of Contents the appropriate detail schedules for the allocating department are identified. Tracking begins with the last detail schedule. Once the questioned amount is located, our analysis of the summary amounts by activities indicates which detail allocation schedules to review.

Review of each detail schedule will demonstrate the relative benefit received by the Receiving Department for the portion of the questioned cost attributable to each activity. Continuing backward through the detail schedules, the composition of the total functional costs is reviewed.

At this point, any remaining questions are typically in regard to the incoming costs. If these costs are questioned, we can use Schedule __.2 to identify which department allocated the questioned incoming costs. Referring again to the CAP Table of Contents, the detail schedules for the sending Central Service Department can be located. Tracking continues by repeating these steps until all issues have been resolved.

METRO PUBLIC HEALTH DEPARTMENT ~ ICRP
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
Schedule .1 - Nature and Extent of Services
For Department 2 CFR 200 LOCAP Costs**

The OMB Local Cost Allocation Plan (2 CFR PART 200 LOCAP) quantifies the level of generally funded support services consumed by each of Nashville-Davidson's departments. The County-wide indirect (overhead) costs allocable to the Metro Public Health Department are identified in this schedule. These costs represent central service departments that provide services to the Health Department. These indirect costs are reported on the Summary Schedule – Allocated Costs by Department of the FY 2021 OMB Central Services Cost Allocation Plan for Nashville-Davidson, Tennessee.

For cost allocation plan purposes, the 2 CFR Part 200 LOCAP Costs cost pool is functionalized as follows:

Employee Support - Costs identified to this function represent central service employee-related support services provided to the Health Department. These costs are allocated based on the number of active employees per business unit/line of business.

Financial Support - Costs identified to this function include central service financial-related support services provided to the Health Department. These costs are allocated based on the total actual expenditures by business unit/line of business.

Benefits Support - Costs identified to this function comprise fringe benefits-related costs attributable to the Health Department. These costs are allocated based on the total salaries and wages recorded to each business unit/line of business.

Medical Examiner - Costs identified to this represent LOCAP costs allocable to the Medical Examiner. These costs have been allocated directly to the Medical Examiner as the primary beneficiary of the services and costs.

METRO PUBLIC HEALTH DEPARTMENT ~ ICRP
FOR THE FISCAL YEAR ENDED JUNE 30, 2021
Schedule .1 - Nature and Extent of Services
For Department Depreciation Expense**

Nashville-Davidson's Metro Public Health Department is entitled to claim year-to-date depreciation expense on generally funded assets in use by the administrative business units to provide services department-wide. Depreciation is based on the acquisition value of assets expended over the expected useful life for each class of fixed asset. The costs identified in this schedule represent the total depreciation expense for generally funded buildings, improvements (renovations) and equipment identified in the Fixed Asset Master Listing.

For cost allocation plan purposes, the **Depreciation** cost pool is allocated using the actual depreciation expense identified to benefiting business units.

Adheres to Established Definitions?	Agency Priority?	Data Limitations?	Questionable or Low Quality Data?	Additional Context / Information
Yes	Yes		The data is not of low or poor quality.	We expect that there will be some changes in the positions being funded i.e. we may be supporting less positions there will also be movement in what year positions will be brought on. For example, leadership may decide to support the Data Modernization Director position in year 2-3 of the grant instead of Year and remove the QI coordinator position due to availability of local funding

MEASURE: HIRING TIMELINESS

Minimum Days to Fill Position	Median Days to Fill Position	Maximum Days to Fill Position	Number of Job Postings
12	85	620	56

Adheres to Established Definitions?	Agency Priority?	Data Limitations?	Questionable or Low Quality Data?	Additional Context / Information
Yes	Yes	Yes	<p>Yes, the data may be questionable or low/poor quality. This is the first instance where this data has been collected from MPHD's Human Resources team for grant reporting. Human Resources does not store application posting and employee start date information in the same system. These data were requested, pulled from separate systems, and then aggregated into a single datasheet for analysis. Data for internal versus external hires are also store separately.</p> <p>Job posting information can also be questionable because job postings and codes are often reused when hiring for an open position that has been vacated. The data for maximum, minimum, and median days-to-fill may be skewed due to the nature of the hiring process for certain positions and internal HR procedure. Some positions, such as Register Nurses, Nurse Practitioners, and Physicians, require more time to fill due to more attractive offers within job market, because of higher pay rates or expanded benefits in other offers, or lack of a qualified candidate. For example, a TB Elimination Program Physician position was filled during this reporting period on 04/24/2023 with an original job posting date of 03/09/2022, 411 days-to-fill. The posting was adjusted and update multiple times over that period to attract the correct pool of candidates.</p> <p>Several school nurse positions also cause the data to be skewed because the postings are kept open continuously. At the time of reporting, there were four positions filled based on continuous postings made prior to the reporting period. The days-to-fill values for these positions are all greater than 500 days.</p>	<p>the manual process for integrating job posting or requisition data and staff hiring information is a limitation but did not hinder the ability of the grant team to report data. In a monitoring, data collection, or program evaluation, process improvements are often implemented as an immediate response to limitation in data collection. During the collection process for hiring timeliness, specifically obtaining accurate job posting dates, MPHD's Human Resource division agreed to begin using new postings and job codes whenever hiring for new positions, as opposed to reusing postings and codes, in order to more accurately and efficiently track information on job posting dates and new hire start dates.</p>

MEASURE: RETENTION**RETENTION RATE, INCLUDING PERMANENT AND TEMPORARY/CONTRACT STAFF**

Staff on Last Day of Reporting Period	New Hires During Reporting Period	Staff on First Day of Reporting Period	Retention Rate including LTEs
537	56	511	94.13

RETENTION RATE FOR PERMANENT STAFF ONLY

Staff on Last Day of Reporting Period	New Hires During Reporting Period	Staff on First Day of Reporting Period	Retention Rate for Permanent Staff
537	56	511	94.13

Adheres to Established Definitions?	Agency Priority?	Data Limitations?	Questionable or Low Quality Data?	Additional Context / Information
Yes	Yes	Yes	<p>The data provided are not of questionable or low/poor quality. There is currently missing data for temporary staff, as defined by the CDC in the performance measure guidelines. The data partially adhere to the definition established in the performance guidelines. Temporary staff retention rates were unavailable and omitted at the time of collection and reporting (as explained below). The data for permanent staff adhere to the definition provided within the guidelines. Data for Retention Rates for Total Staff (Both Permanent and Temporary) are unavailable at the time of reporting due to temporary staff data not being store or manage internally by MPHD Human Resources Division. Temporary staff that are assigned to position with limited term or contract have work agreements that are managed by the individual teams to which they are assigned and submit invoicing to the department's financial division. Currently, these data are still being collected and processes are being implemented to streamline the tracking of data pertaining to temporary staff.</p> <p>To provide a more detailed perspective on MPHD's staff retention, and in the absence of the data for temporary employees, we calculated retention rates for grant funded vs. locally funded staff and benefit earning vs non-benefit earning staff for this reporting period.</p>	<p>Total staff numbers entered is not correct - the numbers represent the retention rate for permanent staff . The permanent rate was also entered for the total retention rates because of data availability</p>

MEASURE: PROCUREMENT TIMELINESS

Minimum Days from Procurement to Contract	Median Days from Procurement to Contract	Maximum Days from Procurement to Contract	Number of Procurements
---	--	---	------------------------

Adheres to Established Definitions?	Agency Priority?	Data Limitations?	Questionable or Low Quality Data?	Additional Context / Information
		Yes	There is currently no data available for timeliness because procurement is handled externally by a central office. We continue to work with our internal finance department here and larger Metro procurement department to understand how best to report the requested metric.	

MEASURE: ACCREDITATION
