NARRATIVE INFORMATION --- VISUAL INSPECTION

- A. **Field Inspectors:** Completion of visual inspections for Davidson County will require thirty (30) Residential, Commercial, and Rural appraisers and seven (7) support staff members. During the reappraisal cycle, the Assessor's Office will conduct visual inspections using digital oblique images, field inspections, and high-resolution street-view images (at a sub-inch pixel resolution) that enable quality, grade, and physical condition to be verified. This will result in increased efficiency and accuracy. In addition, field data collectors will enter data directly into the Assessor's records using field data tablets.

- B. **Training Recommended:** The Assessor's Office continues to have staff attend appropriate training, including: IAAO courses and seminars, DPA courses, and training on specific software including Pictometry. In addition to this training, the Office will continue to provide applicable in-house training, including analysis database training, land valuation training, and statistics training.

- C. **Quarterly Progress Reports:** Each quarter, the Assessor will return a report to the DPA that shows progress that has been made on a quarterly basis. This report will show the number of parcels reviewed and keyed to the system along with the neighborhoods that have been completed.

- D. **Accuracy of All Attributes:** Land and Improvements must be reviewed on every parcel during the review phase for accuracy and completeness. This includes the physical attributes of the land, such as topography, and tree-lines that may have changed since the last inspection cycle.

- E. **Changes to Parcels:** Any new structures, additions, and remodeling should be keyed in the current file to maintain fairness and equity among all property owners. Changes held until reappraisal or future years, must only be nominal in nature. Review will be considered complete when changes have been keyed into the Computerized-Assisted Mass Appraisal system.

- F. **Geographic Areas Assigned:** Davidson County is divided into nine (9) appraisal zones, which are subdivided into 896 residential, 16 rural, and 81 commercial neighborhoods. Visual inspections will be scheduled and assigned by zone and neighborhood type.

Residential properties, including rural and condominium properties, are assigned by zone and neighborhoods to four (4) Sections (groups of appraisers) as follows: Section 1 - Zone 2 and all condos in county, Section 2 - Zones 3, 4, and 7, Section 3 - Zones 5, 6, and 9, and Section 4 - Zones 1 and 8. A detailed schedule for the visual inspection of residential properties is attached.

Commercial properties will be visually inspected by the office's Commercial Real Property Section. Commercial properties are assigned quarterly by zone, neighborhood, and parcel count. Multi-class and exempt properties will be reviewed by the commercial Section Leader and an assigned staff member. **Residential properties assigned a commercial classification will be assigned to the Residential (Urban) neighborhood in which they are located. (Example: non-owner-occupied single-family home Short-term Rental)** A detailed schedule for the visual inspection of commercial properties is attached.

- G. **Map Maintenance Schedule and Explanations:** Map maintenance in Davidson County is the responsibility of the Metropolitan Planning Commission. The maintenance of ownership records resulting from land transfers, including owner name(s), address, legal description, and map and parcel information is maintained daily by seven (7) members of the office's Deeds Division.
- H. **Use of Aerial Photography for Review:** The Assessor's Office will conduct visual inspections using digital oblique images, field inspections, and high-resolution street-view images (at a sub-inch pixel resolution) that enable quality, grade, and physical condition to be verified. This will result in increased efficiency and accuracy. In addition, field data collectors will enter data directly into the Assessor's records using field data tablets.
- I. **Quality Assurance Efforts Planned:** Section Leaders will review visual inspection completed by their section members daily and will also review each neighborhood upon completion. In addition, 5% of all visual inspections will be audited by the office's Quality Control Section to ensure the consistency and accuracy.

NARRATIVE INFORMATION – REVALUATION YEAR

- A. **Personnel Needs:** The Assessor's Office estimates that approximately 90% of its staff will participate in the work necessary during the revaluation year. During the third fiscal year of the cycle, staff will perform all necessary work, including: administrative, valuation analysis and the production of the assessment roll, quality control, appeals management, customer service, and information technology services to assign final 01/01 values and initiate the local appeals sessions.
- B. **Office Space and Equipment Needs:** The office's existing space located at 700 President Ronald Reagan Way, Suite 210 will either be expanded, or additional space will be provided by the county to house its entire staff. There is no foreseeable need for State personnel; however, if the need arises, appropriate space will be provided.
- C. **Use of Aerial Photographs and high-resolution street-view images:** Aerial photography and high-resolution street-view images will be utilized to check location, access, land grades, improvements, acreage, consistency of improvement types, land tables, etc. The high-resolution street-view images (at a sub-inch pixel resolution) enable quality, grade, and physical condition to also be verified.
- D. **Assistance of Division of Property Assessments (DPA):** The DPA will evaluate procedures through quarterly monitoring and suggest any improvements that need be implemented.
- E. **Development of Sales File:** The office uses the same procedures for collecting and verifying sales data that are used by the DPA. Warranty deeds that are "same-as" are received daily. Office staff confirms the information contained on the deeds with information in the Assessor's records and enters a sale code, price paid and any appropriate changes. A "Q" is entered for residential transactions that are qualified, or another code is entered for disqualified transfers. A sales verification form is mailed regarding all non-arms-length transactions. An "L" is entered into the record for all commercial, industrial, and farm sales until a determination is made based on communication with the grantee, grantor, and/or agent at which point a "Q" is entered for qualified sales or another code is entered for

disqualified transfers. The office also uses the Multiple Listing Service (MLS) to assist in the verification of sales.

F. **Neighborhood Codes:** Neighborhood Codes have been established within the nine (9) appraisal zones by property type (Residential, Condominium, Residential Planned Unit Development (PUD), Rural, and Commercial/Industrial) and are maintained on a daily basis by the appraisal staff.

G. **Improvement Valuation:**

1. **Base House Development:** Base rates are developed using data from the Marshall & Swift building cost data. The base rates are adjusted to local cost and calibrated by market data to each neighborhood by appraisal staff.

2. **Out Buildings and Yard Items:** The office develops and considers base rates for the valuation of special features and yard items using the Marshall & Swift building cost data. In addition, the office may use base rates developed by the DPA that will be adjusted to the market in Davidson County using multipliers.

3. **Collection & Use of Income & Expense Information:** Income and expense data is collected through interviews with property owners and during the appeals process. This information is entered into a database and maintained for each year. The information is used in conjunction with published sources to develop income and expense models for major commercial/industrial properties. The data is also stored at the parcel level on the office's CAMA system. In addition to the above, the office may contract with an outside firm to produce all attributes of an income approach for some major improvement types.

4. **Quality Assurance Efforts:** Audits are performed during the visual inspection cycle, the revaluation phase will be analyzed using sales ratio reports, before/after value compare reports, monthly audit reports and performance edits. This will be conducted in conjunction with other error and edit reports produced by the technical support division to ensure a quality product for the 2028 reappraisal.

H. **Land Valuation:**

1. **Rural Land & Use Value:** Rural land schedules will be developed from market data for each rural neighborhood. Use values will be obtained from the DPA.

2. **UOM Tables:** UOM tables will be used to value all residential land.

3. Commercial & Industrial: Commercial land will be valued on a per square foot basis and larger commercial tracts will be valued per acre. Small industrial parcels will also be valued on a per square foot basis and larger industrial tracts will be valued per acre.

4. Quality Control (QC): Each completed neighborhood will be monitored by the QC staff to ensure that all items in the neighborhood are accurately keyed. Statistical analysis, including sales ratio studies, will be performed for each neighborhood and zone to ensure statistical reliability. In addition, standard audit and edit reports will also be completed.

- I. **Mineral and/or Leaseholds**: Leasehold appraisals will be conducted in accordance with DPA guidelines. No mineral interest values have been discovered within the county.
- J. **Valuation Analysis: Detailed Analysis**: The office runs various programs and reports using its CAMA system to determine the levels of appraisal and equity, including sales ratio reports. In addition, staff programmers produce special needs reports to analyze the values on a neighborhood basis.
- K. **Mapping and Ownership**: Ownership data is updated by the office's Deeds Section for "same-as" transfers of ownership. Split-transfers are the responsibility of the Mapping Division of the Metropolitan Planning Commission. The Mapping Division updates the Land Management System and data is transferred daily via File Transfer Protocol (FTP) to the Assessor's CAMA system. After the data is transferred, it is audited by the Assessor's staff for accuracy.
- L. **New Construction**: Building permit data is received weekly from the Metro Codes Department and will be reviewed by neighborhood, within each appraisal zone. New construction and demolition that occurs from 2025 thru 2028 will be worked by field appraisers annually to ensure the annual assessment roll is completed in a timely fashion.
- M. **Final Value Meeting**: Upon completion of the valuation analysis by the appraisal staff, a sales file will be provided electronically to the DPA for review. Additional data will be provided upon the request of the DPA. Prior to the mailing of appraisal notices, a meeting will be scheduled with the DPA to ensure all applicable standards have been met.

N. **Hearings (Formal and Informal):** Upon completion of the valuation phase of the program, 01/01 notices will be mailed, and informal reviews will be conducted by Assessor's staff for a period of four to five weeks. Informal reviews will be filed on-line by the property owner via the internet, by telephone, or in-person with the assistance of a member of the office's staff. Regardless of the method of filing, all informal reviews will be maintained in a database and routed to appraisers so they may analyze the requests and make changes to those properties under review, where warranted. The reviews will be worked daily until completed. Once the reviews are concluded, informal review result notices will be mailed, and recipients will be made aware of their appeal rights to the Metropolitan Board of Equalization (MBOE). The MBOE will appoint hearing officers to assist with appeals.

Is your county currently on the IMPACT system? Yes _____ No X

We are currently on the AssessPro 5.0 system.

Do you plan to change to another system? Yes _____ No X

If so, list the name and the date:

O. **Possibility of Completing the Reappraisal Sooner:** We reserve the right to complete the reappraisal sooner if market conditions should warrant, and the DPA approves such action.

DATE SUBMITTED TO STATE BOARD OF EQUALIZATION:

DATE

RESOLUTION NO. _____

A resolution approving the plan for the reappraisal and equalization of assessments in Davidson County as submitted by the Metropolitan Nashville & Davidson County Assessor of Property, approving a Memorandum of Understanding between the Metropolitan Nashville & Davidson County Assessor of Property and the Tennessee Division of Property Assessments for the responsibilities of parties involved in the 2028 Year Reappraisal Program for Davidson County, and approving receipt of state funds, if provided, to assist in the cost of the reappraisal.

WHEREAS, Tennessee Code Annotated § 67-5-1601 requires that a reappraisal of all real property and an equalization of assessments be completed in every county in Tennessee every six (6) years; and,

WHEREAS, Tennessee Code Annotated § 67-5-1601 allows a reappraisal every four (4) years as determined by the Assessor of Property with the review of the local governing body; and,

WHEREAS, The State Board of Equalization (SBOE) may consider a plan submitted by an assessor which would have the effect of maintaining real property values at full value as defined by law on a schedule at least as frequent as outlined in Tennessee Code Annotated (TCA) § 67-5-1601; and,

WHEREAS, the Metropolitan Nashville & Davidson County Assessor of Property has determined that it is in the best interest of the Metropolitan Government for reappraisal to be accomplished in Davidson County on a three (3) year cycle comprised of a visual inspection of each parcel of property over a thirty-month period followed by a revaluation of all such property immediately following completion of the visual inspection cycle, and,

WHEREAS, in accordance with Tennessee Code Annotated § 67-5-1601, the Assessor of Property for the Metropolitan Government has prepared a plan for carrying out the county's reappraisal and equalization program (a copy of which is attached hereto) which must be submitted for review and approval by resolution of the county legislative body and the Metropolitan Mayor, pursuant to Tennessee Code Annotated § 67-5-1601(d); and,

WHEREAS, Tennessee Code Annotated § 12-9-104 requires a political subdivision of the state to approve by resolution an agreement of joint or cooperative action with another public agency of the state; and,

WHEREAS, the Tennessee Division of Property Assessments (DPA) has provided a Memorandum of Understanding to the Metropolitan Nashville & Davidson County Assessor of Property for the purpose of clarifying the areas of responsibility for all parties involved in the 2028 Year Reappraisal Program for Davidson County; and,

WHEREAS, Tennessee Code Annotated § 67-5-1601(c) requires the State of Tennessee, subject to funding, to assist local governments in the cost of the reappraisal program; and,

WHEREAS, Tennessee Code Annotated § 67-5-1601(c) requires that any funds received from the State be expended solely for the purpose of assisting in the cost of the reappraisal; and,

WHEREAS, pursuant to Tennessee Code Annotated § 67-5-160(c), if funded, the amount to be received annually from the State shall be paid on a per parcel basis.

NOW THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE METROPOLITAN GOVERNMENT OF NASHVILLE AND DAVIDSON COUNTY:

Section 1. That the plan for the reappraisal and equalization of assessments in Davidson County titled "The 2028 Reappraisal Plan", as submitted by the Assessor of Property, attached hereto and incorporated herein as Exhibit A, is approved.

Section 2. That the Metropolitan Government shall accept all funds tendered by the State pursuant to Tennessee Code Annotated § 67-5-160(c) to assist the Metropolitan Government in the cost of the reappraisal program. Such funds shall be expended by the Metropolitan Government solely for the purpose of assisting in the cost of the reappraisal.

Section 3. That the Metropolitan Nashville & Davidson County Assessor of Property and the Mayor are authorized to execute the 2028 Year Reappraisal Program Memorandum of Understanding attached hereto as Exhibit B.

Section 4. This resolution shall take effect from and after its adoption, the welfare of The Metropolitan Government of Nashville and Davidson County requiring it.
