**Support Services Provider**

The supportive services are to be customized with the needs of the tenants in mind. Supportive housing support services are intended to help ensure housing stability and to maximize each tenant's ability to live independently. It is the desire that the majority of the supportive services be provided on-site. Additionally, services should be designed and delivered to promote the integration of residents into the community to the greatest extent possible and appropriate. All supportive services are to be available to tenants in accordance with the "Housing First Model" and are to be voluntary and not a prerequisite to accessing housing or a condition of maintaining it.

Support services to be provided include but are not limited to the following:

- Case management services aim to optimize residents' health, recovery, independence, and housing stability. The case manager does not provide every service a tenant needs but helps broker relationships between the tenant and the service providers. Case management can include new tenant orientation, assistance with accessing childcare, community building activities, and transportation to help the tenant access services in the community.
- Mental Health Services focused on assisting tenants to improve their mental health status. Services in this category may include psychosocial assessment, individual or group counseling, support groups, and peer mentoring.
- Alcohol and Substance Abuse Services are designed to assist tenants in addressing abuse of substances. Services may include relapse prevention and recovery planning, individual or group counseling, harm reduction services, and inpatient rehabilitation.

This may include help with obtaining employment and disability benefits, rent payment and budgeting, conflict resolution, cooking/meal preparation, personal hygiene and self-care, and housekeeping and apartment safety training.
- Vocational Services are designed to assist tenants in accessing employment or improving their employment situation. Services may include vocational counseling, job placement, and supported employment.
- Health/Medical Services to ensure that tenants address their physical health needs. This is particularly important as persons experiencing homelessness often have unaddressed severe health needs. Services may include routine medical care, medication management, and nutrition counseling.
- Peer Support Services are provided by someone on their own recovery journey and has received training on how to be helpful to others who participate in mental health services. Peer Support Specialists can help people find interesting or fun things to do, advocate for themselves, make friends, get a job, and learn skills to live well in the community.
- Social Activities to build community within the PSH development. Some activities can be provided by housing and service providers, and others can be tenant-led. In addition to helping to create a positive milieu within a building, these activities help engage people who might otherwise be isolated in their apartments.
- Additional support service requirements are as follows:
  - o 24-hour staffing
  - o Regular visits from staff
  - o Full-time maintenance staff
  - o 24-hour security

Depaul USA Contract # \_\_\_\_\_ May 3, 2024**
