CRIME LAB DNA TECHNICAL LEAD

Class Number: 11253
EEO Category: Professional

Grade: OR08
FLSA: Top Management

JOB OBJECTIVE

Performs complex professional and analytical work involved in the Forensic Biology Unit. Reviews the procedures, training, quality assurance, and proficiency testing programs in the laboratory. This position is accountable for the technical operations of the laboratory and is authorized to stop or suspend laboratory operations. Performs related duties as required.

JOB DESCRIPTION

MAJOR JOB RESPONSIBILITIES

- Reviews, revises, approves, and proposes new DNA-related technical policies and procedures
- Facilitates training of laboratory personnel in DNA analysis and procedures
- Approves and directs the review of the Forensic Biology Quality System
- Maintains knowledge of currently used technologies and procedures through extensive reading of forensic literature and training
- Oversees, reviews, and approves new DNA method validations and new equipment
- Troubleshoots and resolves DNA technical equipment and supplies
- Ensures proficiency testing, quality control, and safety measures are being followed as outlined in the Quality Manual, Procedures, and the Safety Manual
- Serves as a technical reference regarding DNA analyses
- Acts as a mediator in the technical review of DNA analyses
- Recommends new DNA technical equipment and supplies
- Maintains and demonstrates efficiency in the field of forensic biology
- Performs chemical, microscopic, and immunological tests on physical evidence
- Maintains technical forensic laboratory files and records of findings
- Prepares analytical reports and effectively communicates results of analyses
- Conducts technical and/or administrative reviews on scientific reports
- Determines CODIS eligibility
- Provides expert testimony in court based on laboratory findings
- Interprets and evaluates serological results and DNA data
- Executes applicable operations of the laboratory information management system (LIMS)
- Attends seminars, courses, professional meetings, or documented training sessions/classes each calendar year of at least eight (8) cumulative hours

SUPERVISION EXERCISED/SUPERVISION RECEIVED

This is a non-supervisory classification

Receives general supervision and reports to a designated supervisor, who makes staff assignments and provides assistance with complex or difficult problems

WORKING ENVIRONMENT/PHYSICAL DEMANDS

Work involves everyday risks or discomforts that require normal safety precautions typical of such places as the laboratory, offices, training rooms, mechanical rooms, electrical rooms, etc. Work area is adequately lighted, heated and ventilated.

Employee works primarily in office/laboratory setting under favorable working conditions. There is walking, standing, bending, carrying items, etc. The employee may be required to lift items less than 50 pounds. No special physical demands are required to perform work. The employee may work with chemicals or items that are irritating, bio-hazardous, or toxic. The employee may work with laboratory machinery or instrumentation that requires special safety precautions.

Travel is required. Employee may be required to attend meetings or training at other police facilities or out-of-state.

Working past regular hours or extended hours may be required. Depending on assignment, may be required to serve on-call 24 hours.

EMPLOYMENT STANDARDS

EDUCATION AND EXPERIENCE

Master's Degree from an accredited institution in a field of science such as biology, chemistry, forensic science, or related area; completed twelve (12) coursework hours in areas of biochemistry, genetics, molecular biology, and statistics or population genetics; and five (5) years of forensic laboratory experience, with three (3) years' experience as a qualified DNA analyst.

Certifications, specific skills, knowledge, and related experience will be considered

PERFORMANCE STANDARDS

- Knowledge of and experience in using related laboratory instrumentation, computer software, calibration, validation, quality control, safety, accreditation, proficiency testing, and training
- Knowledge of international forensic laboratory accreditation standards
- Knowledge of Civil Service and departmental rules, policies, and procedures
- Knowledge of computers and Microsoft Office software
- Ability to establish and maintain effective working relationships
- Ability to communicate effectively, both orally and in writing
- Ability to plan, organize, and manage caseload

Licenses Required

Valid driver's license

INDUSTRIAL MAINTENANCE MANAGER

CLASS NUMBER: 11262

GRADE: OR09

EEO CATEGORY: Officials and Administrators

FLSA: Top-Management

JOB OBJECTIVE

Plans, directs, manages, and supervises all activities regarding maintenance and repair of mechanical, electrical, or electronic equipment of the Water Department. Serves as the Department's technical expert in one of the three (3) specialty trades (mechanical, electrical, or electronic). Performs related duties as required

JOB DESCRIPTION

MAJOR JOB RESPONSIBILITIES

- Directs all maintenance and repair duties of mechanical, electrical, or electronic equipment of the water/wastewater treatment plants and related facilities.
- Ensures all mechanical, electrical, or electronic equipment is in proper working order.
- Ensures safety regulations and procedures are followed.
- Determines manpower, equipment, and supply needs for repair and maintenance projects.
- Regularly inspects and reviews field work.
- Coordinates activities with other utilities, contractors, and operational sections of the Water Department.
- Collects data and prepares technical reports.
- Reviews current maintenance processes and makes recommendations for improvements.
- Reads and interprets specifications and contract and shop drawings for compliance with department standards.
- Maintains accurate records of work performed on mechanical, electrical, and electronic equipment.
- Troubleshoots in search of potential problem areas.
- Ensures maintenance inspections are performed to decrease down-time and obtain more efficient utilization of equipment.
- Supervises employees.
 - Assigns and reviews work.
 - Evaluates employee performance.
 - Counsels and corrects employees as needed.
 - Trains employees.

SUPERVISION EXERCISED/SUPERVISION RECEIVED

This classification exercises direct supervision over all employees involved in the repairing and maintenance of mechanical, electrical, or electronic equipment. Supervise, train, assign, and evaluate work and performance of lower-level employees.

Receives direction and reports to a Treatment Plant Superintendent, depending upon assignment, who is kept informed of all maintenance and repair projects.

WORKING ENVIRONMENT/PHYSICAL DEMANDS

This classification is on-call 24 hours per day. Work time is split between an office and field environments inspecting and/or participating in repair activities as necessary. Field work involves moderate risks or discomforts which require special safety precautions, e.g., working under extreme outdoor weather conditions, working around moving parts, carts, or machines, irritant chemicals, etc. May be required to use protective clothing or gear such as masks, coats, goggles, gloves, or shields.

Work requires some physical exertion such as walking, climbing, bending, stooping, stretching, or similar activities.

EMPLOYMENT STANDARDS

EDUCATION AND EXPERIENCE

Bachelor's Degree in Engineering, Electronics, Mechatronics, Construction Management, or related field and six (6) years of experience in managing mechanical, electrical or electronics systems or projects, including four (4) years of lead/supervisory experience. Must have expertise in one craft and have led or supervised a multi-crafted team or crew for at least one year.

OR

High School Diploma or equivalent and ten (10) years of experience maintaining and repairing industrial electrical, electronics, or mechanical equipment and systems, including four (4) years of lead or supervisory experience. Must have expertise in one craft and have led or supervised a multi-crafted team or crew for at least one year.

As vacancies occur, more specific degree, certification, and experience requirements will be included in the position announcement.

PERFORMANCE STANDARDS

- Knowledge of methods, materials, equipment, supplies, and tools used in the assigned area of specialization.
- Thorough knowledge of OSHA and related safety rules and regulations.
- Knowledge of the operations and functions of various equipment and systems, depending upon area of assignment.
- Knowledge of computer software programs.
- Knowledge of practices in supervisory practices and principles.
- Knowledge of planning, forecasting, and budgeting techniques.
- Knowledge of Civil Service and departmental rules, policies, and procedures.
- Knowledge of first aid.
- Ability to use the various tools and equipment used by workers in area of assignment.

Page 3 – INDUSTRIAL MAINTENANCE MANAGER

- Ability to establish priorities regarding maintenance and repair operations.
- Ability to plan major complex projects.
- Ability to detect deviations from established procedures.
- Ability to communicate effectively, both orally and in writing.
- Ability to keep accurate records.
- Ability to develop work plans and prepare comprehensive reports.
- Ability to analyze reports and make clear and sound recommendations.
- Ability to establish and maintain effective working relationships with subordinates, peers and managers.

LICENSES REQUIRED

Valid Driver's License

Some positions may require the employee to possess or obtain the appropriate commercial driver's license and/or endorsement as required by state law.
