**Status: NEW** 

#### **Program Description:**

Conservancy Cafe 2022 grant. This grant of up to one million dollars (\$1,000,000.00) from the Centennial Park Conservancy is for design and construction of improvements to the historic Centennial Park Croquet Clubhouse. The building will be operated as a cafe in partnership with Metro Parks upon completion. There is no match or other obligation to Metro Parks or Metro government associated with this grant.

#### Plan for continuation of services upon grant expiration:

## METROPOLITAN BOARD OF PARKS AND RECREATION

Centennial Park Office Park Plaza at Oman Street Nashville, TN 37201 (615) 862-8400 Fax (615) 862-8414 www.nashville.gov/parks

Monique Horton Odom, Director

September 13, 2022

Mr. John Tumminello Centennial Park Conservancy P.O. Box 128139 Nashville, TN 37212

Dear Mr. Tumminello:

The Parks Board, at its meeting held Tuesday, September 13, 2022, accepted a grant of up to one million dollars (1,000,000.00) from the Centennial Park Conservancy to design and construct improvements to the historic Centennial Park Croquet Clubhouse and approved the Conservancy's operation of the café in partnership with Metro Parks, upon completion.

Please note there is no required match or other obligation by Parks associated with this donation.

If further information is needed regarding the grant process, please contact Mr. Alan Enzo of my staff; he may be reached at 615 862-8400. On behalf of Metro Parks, thank you for this generous contribution and your partnership.

Sinderely,

Monique Horton Odom, Director

and Secretary to the Board

c: Alan Enzo Chinita White Tim Netsch

"It is the mission of Metro Parks and Recreation to sustainably and equitably provide everyone in Nashville with an inviting network of parks and greenways that offer health, wellness and quality of life through recreation, conservation and community"

August 22, 2022

Monique Odom, Metro Parks Director Metropolitan Board of Parks and Recreation 511 Oman Street Nashville, TN 37203

Dear Monique,

In partnership with Metro Parks, Centennial Park Conservancy proposes to repurpose the empty Croquet Clubhouse shelter in Centennial Park into a cafe for Park visitors. Converting this empty structure into a cafe will put an empty historic building to good use, enhance the Park's visitor experience, further activate the north side of the Park, and raise ongoing funds to support the Centennial Park Maintenance Fund and Parthenon Preservation Fund. Including this project within the scope of the Park Plaza capital improvements, which are currently in design development, will streamline the design/construction process and ensure its cohesion with the overall revitalization of this area of the Park.

#### IDENTIFIED NEED FOR CONCESSIONS AND RESTROOMS IN THE PARK

**Plan To Play:** The Plan to Play recommendations include repurposing historic structures for cafes and educational programming, as detailed in the following excerpts from its findings:

- "Find innovative ways to protect, use, and steward historic buildings. Historic buildings in Shelby, Centennial, Sevier, and other urban parks are well suited for adaptive re-use as restaurant or café space"
- "The Plan to Play needs assessment found that additional food concessions are desired. Historic buildings offer unique place-making opportunities unsurpassed by most new buildings while enriching the experience of urban parks."
- "Many cities have activated and promoted their parks through food service and related uses that bring people to the park and also add a social element. Currently, there is no food service in the parks that offers a high-quality cafe or restaurant experience. There is great opportunity to grow this type of facility. Key considerations: Park cafes should focus on quality food, unique experiences and settings, and local offerings."
- "Historic buildings can serve as unique restaurant space, and through programs, which can extend the benefit to environmental education and health and wellness activities."

Centennial Park Conservancy Strategic Plan: During our organization's recent strategic planning process, we surveyed key stakeholders, which included Metro Parks and Centennial Park Conservancy leadership and Board Members. Increased and improved concessions in Centennial Park was one of the recommendations made by many individuals surveyed. We also recently began surveying Centennial Park visitors, and over 50% of the initial people surveyed listed "additional food and beverage options" as a need.

The existing Croquet Clubhouse shelter building also has restrooms. By activating this space, Metro Parks and CPC can make the restrooms available to the public and meet another significant need in the Park. The lack of public restrooms in the Park was identified in our key stakeholder survey, and over 60% of individuals surveyed listed restrooms as a need in the Park. Making these restrooms available to the public would also reduce the strain on the Parthenon restrooms from Park users that utilize those facilities when the museum is open.

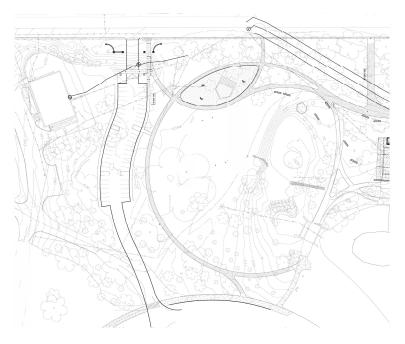

#### **PROJECT BENEFITS**

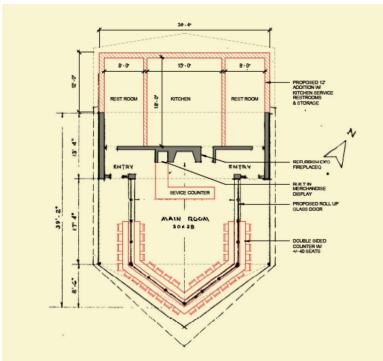

Implementing this project would achieve the following:

- Introduce a cafe and adjoining outdoor space with "quality food, unique experiences and settings, and local offerings" as recommended in Plan To Play
  - The outdoor space could host a series of small educational, arts, and recreational, programs, such as lunch & learn nature programs for adults and children, acoustic performances, and croquet tournaments on the adjacent lawn
- Provide access to restrooms that would be open to the public during cafe hours
- Offer an additional space in the Park to sell merchandise, like t shirts and honey produced by the Park's bees
- Meet a strategic plan need for ongoing and sustainable revenue sources that will generate
  the additional funds required to significantly increase CPC's support of the Park and its
  Maintenance and Preservation Funds

#### PROJECT SPECIFICS

The Croquet Clubhouse shelter is located on the north side of the park, adjacent to the current Event Shelter, which is being torn down to be replaced by a new Event Pavillion to the east. It is also located close to the new entrance being created on Park Plaza, within the current phase of capital improvements to the Park Plaza area of the Park, and it will be one of the first elements seen by Park visitors entering from the north side. The architects working on the Park Plaza Phase improvements propose that we include the shelter renovation in the scope of the larger revitalization project that is currently in design development. Given the grading, pathways, and access needed for the project, it would be more work and cost to separate it. Bringing the renovation into scope at this time would streamline design and construction, allow the cafe to be completed simultaneously with other improvements, and make sure the Park Plaza area is only under construction at one time.

The architects propose added a 12-foot addition to the back of the building to provide additional space to accommodate a kitchen and expanded restrooms. They also propose creating a decomposed granite area encompassing the cafe that would be filled with cafe tables or other mixed seating which will be used for restaurant visitors and to host various small program events. They are also proposing to fix the current drainage issues in that area of the Park.

The cafe's menu items would include local, healthy, and snack food options that would be appealing to Park visitors. Menu examples include sandwich wraps and paninis, salads, smoothies, coffee, cold drinks, muffins, ice cream, fruit, trail mix, and other snacks suitable for individuals running or exercising in the Park. Locally sourced items will be used wherever possible to support small businesses in our community and create a uniquely Nashville experience. Potential cafe names include the Croquet Cafe and Croquet Clubhouse.

#### PROJECT FUNDING

The design and construction of the cafe would be 100% funded by a grant from Centennial Park Conservancy, with funds raised by our ongoing Master Plan fundraising efforts. The architects and engineers working on the Park Plaza capital improvements estimate that design and construction costs would be approximately \$1M. Centennial Park Conservancy would provide a grant up to \$1M to cover all costs, and the grant requires no match or other obligation from Metro Parks. Once the acceptance of a grant is approved, CPC will send an initial payment equal to the design fees in order to issue a purchase order off Collier's existing IDIQ contract. CPC will make additional payments in the timing requested by Metro Parks.

#### **PROJECT MANAGEMENT**

The cafe's design and construction would be included in the scope of the current Park Plaza Phase capital improvements. This project is being managed by Tim Netsch, Assistant Director of Planning and Facilities. The project team is the same team overseeing the Park Plaza phase and includes representatives from Collier Engineering, Dryden Architecture + Design, Hodgson Douglas Landscape Architects, and Centennial Park. Utilizing this team of experts that are already doing work in the Park will ensure a cohesive design. Metro Parks staff will have final approval of all design and construction elements.

#### **CAFE MANAGEMENT**

Centennial Park Conservancy's investment in the cafe's development will provide an ongoing revenue stream to benefit Centennial Park. CPC requests permission from the Metro Parks Board to manage the cafe once it is built and utilize funds generated by its operations to directly support Centennial Park. Expenses related to operating the cafe, such as utilities, would be paid for by Centennial Park Conservancy. We understand that operating the cafe would be conducted through a mutually agreed upon operating agreement, and under the authority and supervision of Metro Parks, and under the guidance of the Assistant Director of Revenue Producing Facilities. Any event with 100+ attendees or with alcohol service would follow the standard Metro Parks Special Events permitting process, in partnership with the Assistant Director of Special Events. Any signage on the exterior of the cafe would be approved by Metro Parks Staff administratively.

CPC will engage local hospitality industry professionals, including several Board Members that operate restaurants and hotels, to create a plan for operating the cafe. We will also hire an experienced Cafe Manager to oversee its operations. We are confident that our extensive experience in managing and growing a local business, as evidenced by increasing our organization's annual revenue from \$200K to \$2M over the past 12 years, will ensure successful cafe operations, quality customer service, and long-term growth.

We propose placing 80% of the cafe's net income, divided evenly, into the restricted Centennial Park Maintenance Fund and Parthenon Preservation Fund to cover costs for maintaining the cafe facilities and fund ongoing maintenance, beautification, and preservation projects in the Park and

Parthenon. CPC would utilize the remaining 20% of net income to help fund our organization's general operations, underwrite accessible and inclusive programming in the Park and Parthenon, and support our overall efforts to sustain the vibrancy of Centennial Park and the Parthenon.

#### **CPC's REQUEST**

Centennial Park Conservancy requests the Metro Parks Board provide approval to accept a grant of up to \$1M to design/build the cafe and approval for CPC to operate the cafe, in partnership with Metro Parks, once it is built. We understand that we would need to create a mutually agreed upon cafe operating agreement with Metro Parks. Since the cafe would not open for approximately 18 months, we have sufficient time to partner with Metro Parks Staff and Legal to establish an agreement.

Thank you for your consideration and for the ongoing opportunity to partner with Metro Parks to support Centennial Park and serve its visitors.

Please contact me if you have any questions.
