Purpose:

The Community Project Funding for the House and Congressionally Directed Spending on the part of the Senate was authorized by the Consolidated Appropriations Act of 2023, P.L. 117-328, effective December 29, 2022. The program is intended to meet urgent needs across the United States, by funding projects submitted through members of Congress on behalf of their communities.

Project Rationale:

Metro Nashville has experienced rapid growth over the last 20 years, which has resulted in a significant decrease in its urban tree canopy. A canopy assessment performed in 2018 showed the loss of 918 acres of canopy on properties that were developed over an eight-year period. This translated to 13% canopy loss in the rapidly redeveloping urban areas. To help reduce the impact of these canopy losses, Metro Nashville started the Root Nashville campaign in 2018. This campaign is a public-private partnership to plant 500,000 trees by 2050. The campaign has planted over 33,000 trees to date and is continuing to ramp up operations on both the public and private sides to meet the 2050 goal. Root Nashville has launched an initiative to offer grants to non-profits to assist with canopy restoration and maintenance on private property where the greatest tree losses have occurred.

Nashville will also experience a substantial tree loss from the Emerald Ash Borer (EAB), which was first detected in Davidson County in 2014. This will result in the additional death of approximately 1.6 million trees county-wide. To better understand the impact to Metro government, a survey of ash and other hazard trees along 3,000 miles of Metro right-of-way (ROW) and in 200 park properties was conducted over the last three years. This inventory identified the need for felling or removal of over 15,500 trees in these areas. The estimated ten-year cost for this project, including replanting, exceeds \$40 million.

On a wider scale, both increased development and the EAB infestation are impacting the canopy of the State of Tennessee. Planting trees is one of the best management practices for enhancing our natural resources. Trees intercept and infiltrate rainwater, which reduces both the volume of runoff and the pollutants carried to our waterways. The root systems of trees stabilize soils and are especially effective at preventing streambank erosion. The loss of wildlife habitat in our urban areas is an ongoing concern for biodiversity and ecological balance. Newly reforested areas will help establish homes for a variety of species. Enhanced tree planting is necessary to help mitigate canopy lost to development and the pending loss of Tennessee's ash trees. Starting that replanting now will ensure all the benefits trees provide will begin to accumulate to improve our natural resources.

Scope of Work:

This proposal seeks to help replant Nashville's diminishing tree canopy and retain all the benefits it provides. The \$1,078,020 in requested funding will be allocated to two canopy restoration projects:

- Tree planting contracted to our non-profit partners on private property.
- A pilot ash tree removal and canopy tree replanting in Metro ROW.

This project will help meet the goals in the 2016-2026 Urban Forestry Action Plan in the following ways:

- The planting of street trees will help mitigate automotive pollution and the heat island effect, which will improve human health and wellness (Goal 2).
- The project recruits tree captains from these historically underserved areas so that the benefits of trees can be experienced by all Nashvillians (Goal 3)
- The planting projects will require a diversity of species to increase biodiversity and urban forest resilience (Goal 4).

Canopy Restoration on Private Property

Only six percent of the land in Davidson County is owned by Metro government, and the majority of tree canopy degradation in Davidson County has occurred on private property. A successful tree planting campaign needs to allocate significant resources to planting on private property. Tree-planting projects on private properties are best undertaken by non-profit operational partners who have fewer restrictions on improving private property. Non-governmental organizations (NGOs) can also leverage greater community support and engage more volunteers for tree planting activities.

The Cumberland River Compact (CRC) is the operational NGO partner for the Root Nashville campaign and has led its planting efforts since 2018. \$775,000 of the canopy funding will be contracted to the CRC to support their private property tree planting programs. This will include an expansion of their highly successful neighborhood captain program, which is a grassroots effort that uses neighbors to engage neighbors in tree planting. The funding will also provide planting assistance to larger institutions such as churches and colleges. Planting projects will be targeted to areas identified as experiencing canopy loss, with priority going to underserved communities.

Work will be completed in three years and result in the planting of 3,100 trees.

ROW Ash Removal & Replanting

Metro Nashville has begun the process of ash tree removals to protect the public. These removals should be paired with replanting efforts to help maintain tree canopy and the benefits provided for stormwater runoff mitigation. A failure to combine replanting efforts with removal will likely result in fewer replacement trees in the landscape. Metro is proposing a project in the ROW that will pair ash tree removals with the replanting of canopy trees, when possible. Canopy trees were chosen because they provide greater water quality runoff mitigation than understory trees. To help protect our canopy from future tree threats, Metro will replant with a diversity of tree species.

Metro Nashville’s ROW inventory has identified the location of ash trees. A total of 99 ash trees will be removed and two trees will be planted for each in return. This project will also include public outreach to educate residents both on the EAB infestation and the importance of trees to our city.

Methodology and Timeline:
Canopy Restoration on Private Property

Activity	Expected Completion Date
Train Neighborhood Planting Captains cohorts – 50 individuals/year Emphasis on low income, non-english speaking neighborhoods	August 2023-2025
Work with residents to pick species, planting location and develop a care plan: residents will be offered a choice from 5 tree species	September 2023-2025
Plan projects for churches, neighborhood association, NGOs, schools, etc are eligible	July 2023-2025
Deliver and help plant trees: staff will deliver trees to recipients houses and plant trees for those who are unable to plant themselves	October-March 2023-2026
Trees will be monitored for survival and entered into tree plotter, the city’s tree tracking software	ongoing

Progress will be tracked internally in real time. The Cumberland River Compact maintains detailed records of trees scheduled for delivery, trees planted, and trees under maintenance agreements. Programmatic and financial reports are shared with Metro Water quarterly. These reports provide a summary page with detailed supporting data also included. Finally, Tree Plotter will provide a publicly accessible map of where, and what species of trees are planted.

ROW Ash Removal & Replanting

Activity	Expected completion date
Generate maps of ash trees for removals and contact tree maintenance contractors for quotes – Metro staff	October 2024
Find locations to plant trees in subareas where removals will occur – Metro staff	March 2025
Public Outreach: Contact Council Members and Beautification Commissioners to inform them of program. Mail letters to property owners to inform them of removals and replanting – Metro staff	March 2025
Ash tree removals – Metro contractors	March 2025
Plant trees in ROW – Metro contractors	March 2025
Water planted trees for two years – Metro contractors	September 2026
Tree survivability study – Metro staff	September 2026

Metro Nashville will internally track all ash tree removals and tree plantings. Each removal site and tree planting will be inspected prior to the payment of contractor invoices. Tracking spreadsheets will be updated within one week of completed work. The spreadsheets and invoices will be stored on a secure server. Planted trees will be added to both Metro's internal GIS system and the publically viewable Root Nashville tree tracker: <https://pg-cloud.com/NashvilleTN/>.

[Note: If future needs arise outside the Methodology activities as described, the Forest Service will need to approve a grant modification.]

Accomplishment Reporting:[Describe how activity accomplishments will be monitored and reported. (How does the recipient track performance/accomplishments.)]

The reporting period will be annually. Reporting will include accomplishments of goals, objectives and other deliverables that were funded with this grant. A reporting template will be provided by the USFS later.

Canopy Restoration on Private Property Budget Narrative

- Salary and Benefits for Personnel: Staff Salaries
- Personnel: Staff Fringe & Benefits 18% for medical insurance, retirement contributions and sick/vacation time.
- Program Supplies: Trees and Materials: Trees are expected to cost \$75-\$85/each with materials like mulch and soil amendments adding another \$10/tree.
- Tree delivery: Trees will be purchased in McMinnville, TN and trucked to Nashville. From a staging site in Nashville trees will be delivered by Compact staff to private property planting sites throughout the city. This line item covers the trucking fee from McMinnville to Nashville and the fuel costs incurred during local tree delivery.
- Communications & Outreach: Generating a demand for trees on private property through website, printed material distributions and signage.
- Program Equipment: Purchase of a skid steer, trailer and truck will reduce the project's dependence on contractors and increase efficiencies and capacity.
- Equipment Maintenance and Supplies: Expected replacement of tires and regular servicing schedule.

ROW Ash Removal and Replanting Budget Narrative

The project will entail the removal of 99 ash trees and the planting of 198 new trees in the ROW. The removals, stump grinding, and planting will be done by contractors and the trees will be watered for two years post planting. The cost for the tree removals was estimated by Metro’s tree maintenance contractors and was based upon the average size of the trees. The \$615 price per planted tree was based upon the average cost of street tree plantings in fiscal year 2022 year plus two years of watering. The total project cost is estimated at \$303,020.

Adequate accounting systems and internal policies should meet the following criteria as outlined in the Office of Management and Budget's (OMB) Circular which can be found in 2 CFR Part 200, as implemented by USDA regulations 2 CFR Part 400.

- (A) Accounting records should provide information needed to adequately identify the receipt of funds under each grant awarded and the expenditure of funds for each grant.
- (B) Entries in accounting records should refer to subsidiary records and/or documentation which support the entry and which can be readily located.
- (C) The accounting system should provide accurate and current financial reporting information.
- (D) The accounting system should be integrated with an adequate system of internal controls to safeguard the funds and assets covered, validate the accuracy and reliability of accounting data, promote operational efficiency, and ensure adherence to prescribed management policies.

PURPOSE: This Checklist is to assist your organization in understanding the minimum requirements necessary to accept, manage, and spend Federal funds. If you have questions regarding the content presented in this checklist, please bring this to the attention of your Forest Service contact.

INSTRUCTIONS

A knowledgeable representative from your organization should review and complete the form, certifying in the last section that they have read and understand items listed in this document. The completed form will be returned to the designated U.S. Forest Service Grants & Agreements Specialist or Program Manager.

ACCOUNTING SYSTEM

- ☒ 1. My organization's accounting system provides for the recording of expenditures for each Federal award by the component project and budget cost categories.
- ☒ 2. My organization's accounting system provides for the recording of cost sharing or match for each project, and ensures that documentation is available to support recorded cost sharing or match.
- ☒ 3. My organization's time distribution records are maintained for each employee and effort can be specifically identified to a particular grant or cost objective.
- ☒ 4. My organization's accounting/financial system includes budgetary controls to preclude incurring obligations in excess of total funds available for a grant.
- ☒ 5. My organization's accounting/financial system includes budgetary controls to preclude incurring obligations in excess of total funds available for a budget cost category (e.g. Personnel, Travel, etc.).
- ☒ 6. My organization is familiar with the applicable OMB Uniform Administrative Requirements and Cost Principles, existing regulations and guidelines containing the procedures for the determination and allowance of costs in connection with Federal awards.

MANAGING FEDERAL FUNDS

- ☒ 7. My organization is aware that it is required to maintain accounting systems and financial records to accurately account for funds awarded. These records shall include both Federal funds and all matching funds of State, local, and private organizations, when applicable. Where a recipient's or sub-recipient's accounting system cannot comply with this requirement, the recipient or sub-recipient shall establish a system to provide adequate fund accountability for each project it has been awarded.
- ☒ 8. My organization is aware that funds specifically budgeted and/or received for one project may not be used to support another without prior written approval of the awarding agency.
- ☒ 9. My organization is aware that it must EITHER have a Federally approved negotiated indirect cost agreement (NICRA) or cost allocation plan in effect for indirect costs to be allowable for reimbursement or match OR may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC), which may be used indefinitely.

RECIPIENT AND SUB-RECIPIENT ACCOUNTING RESPONSIBILITIES

- ☒ 10. When applicable, my organization is aware that it must monitor its sub-recipients' financial operations, records, systems, and procedures. Particular attention should be directed to the maintenance of current financial data.
- ☒ 11. When applicable, my organization is aware that each sub-recipient prepares an adequate budget on which its award commitment is based. The detail of each project budget should be maintained on file by my organization.
- ☒ 12. My organization is aware that sub-recipients must not award or permit any award to any party that is debarred or suspended from participation in Federal assistance programs. The "Excluded Parties List" system for suspended or debarred sub-grantees and contractors may be search at www.sam.gov.

INTERNAL POLICIES: PROPERTY, PROCUREMENT STANDARDS, PERSONNEL, AND TRAVEL POLICIES AND PROCEDURES

- ☒ 13. My organization's property management system(s) provides for maintaining: (1) a description of the equipment; (2) an identification number; (3) source of the property, including the award number; (4) where title vests; (5) acquisition date; (6) federal share of property cost; (7) location and condition of the property; (8) acquisition cost; & (9) ultimate disposition information.
- ☒ 14. My organization's property management system(s) provides for a physical inventory and reconciliation of property at least every two years.
- ☒ 15. My organization's management system(s) provides controls to insure safeguards against loss, damage or theft of the property and that the property is used solely for authorized purposes.
- ☒ 16. My organization maintains written procurement procedures which (1) avoid unnecessary purchases; (2) provide an analysis of lease and purchase alternatives; and (3) provide a process for soliciting goods and services?
- ☒ 17. My organization's procurement system provides for the conduct to ensure selection on a competitive basis and documentation of cost or price analysis for each procurement action?
- ☐ 18. My organization's has internal policy to check the "Excluded Parties List" system for suspended or debarred sub-grantees and contractors, prior to award at www.sam.gov.
- ☒ 19. My organization maintains written personnel policies and procedures that provide for reasonable and consistent treatment of personnel costs, such as fringe benefits and pension plans.
- ☒ 20. My organization has written travel policy which is consistent for both internal travel and approved travel costs under the grant or cooperative agreement. If no policy exists, my organization adheres to rates and amounts established under 5 U.S.C. 5701-11, ("Travel and Subsistence Expenses; Mileage Allowances"), or by the Administrator of General Services, or by the President (or his or her designee) pursuant to any provisions of such subchapter must apply to travel under Federal awards (48 CFR 31.205- 46(a)).
- ☒ 21. My organization is aware of 2 CFR Part 400, Single Audit, which requires audit of any entity that expends more than \$750,000 in federal funds in a fiscal year.

ACKNOWLEDGEMENT

I acknowledge that my organization has received this document and understands the financial management standards necessary to manage Federal awards and subawards. At any time in reviewing this document, in pre-award negotiations, during the post-award meeting, or at any time subsequent, if my agency has questions regarding the content presented in this checklist or related to the award, I understand that I may bring this to the attention of the Forest Service for clarification and that the Forest Service is available to assist my organization.
