Cooperative Request Form

Request Utilization of a Federal, Statewide, Municipal, or Cooperative Contract

A cooperative is when Metro utilizes a contract from another public entity to make a purchase. With the exception of statewide contracts, use of a cooperative requires Metro Council approval.

Generally, cooperatives are appropriate when the purchase is for goods; cooperatives are not appropriate when the purchase is for services.

Cooperatives are not negotiable. Departments must accept the terms of the master contract without exception.

What was the solicitation method for this contract?

RFP - Request for Proposal.

What is the good/service that this cooperative will be utilized to purchase?

This cooperative is for the rental of various equipment. Water Services requires this contract for pump rental - specifically pumps used for emergency bypass pumping when there is a pumping station that has failed or a collapsed sewer main. The ability to access these pumps and ancillary equipment is critical in preventing raw sewage from being expelled on the ground.

Why is utilizing this cooperative contract more advantageous to Metro than issuing our own RFP/ITB?

The economy of scale by participating in a national cooperative agreement is advantageous to Metro. Executing this cooperative is a more expedient process which is of value to Metro Water Services and its ratepayers.

Cooperative Request Review

This cooperative request for **rental equipment from United Rentals via Sourcewell contract 040924-URI** is recommended for approval.

The anticipated project value is **\$5,000,000.00**. The cooperative was requested by **Metro Water Services**; use will be open to all Metro entities.

Council approval of the master agreement is required.

Legal Justification

T.C.A. § 12-3-1205 & MCL 4.12.093 authorize Metro to participate in cooperative purchasing agreements with other governmental entities outside Tennessee for the purchase of goods, supplies, services, and equipment.

For this request the cooperative purchasing agreement is held by Sourcewell; the lead agency is Sourcewell. Sourcewell is a public institution in Minnesota that meets the standards for governmental entity as defined in the referenced statute.

The contract resulted from a **competitive RFP with 11 offers**.

Regulatory Justification

R4.12.090.05 of the regulations to the procurement code limit participation in cooperative purchasing agreements to that of supplies and products that do not include services unless the purchasing agent determines that such a cooperative is in the best interest of Metro.

For this request the cooperative purchasing agreement is primarily for supplies and products. To the extent that services are included, they are related to the functionality and performance of these supplies and products. It is, therefore, in the best interest of Metro to utilize a cooperative that provides for both the supplies/products and their associated supportive services.

Value Justification

It is unlikely that Metro, as a single government entity, would obtain better value through a competitive solicitation. That is because the pricing in this cooperative purchase agreement leverages both the scale of Sourcewell membership and the competition of 11 offers.

Impact on Minority & Women Owned Businesses

This cooperative is primarily for goods, so the equal business opportunity program would likely not apply if Metro issued a competitive solicitation. There is, therefore, minimal impact on minority or women owned businesses programming resulting from utilization of this cooperative.

A. WARRANTY. The following warranties apply:

For equipment rentals by a Participating Entity, Supplier warrants that upon delivery the equipment rented hereunder will be in good working condition. If the equipment is not in good working condition upon delivery, Supplier shall promptly repair or replace the equipment at its sole cost and expense. If the equipment requires repair or replacement during the rental period, Supplier will promptly repair or replace the equipment at its sole cost and expense; provided, however, if the repair or replacement is necessary due to Participating Entity's abuse, misuse, or neglect, then Participating Entity will be responsible for the cost of such repair or replacement. EXCEPT AS SET FORTH HEREIN SUPPLIER DISCLAIMS ALL OTHER WARRANTIES EXPRESS OR IMPLIED WITH RESPECT TO REPLACEMENT PARTS AND SERVICE OF EQUIPMENT.

B. DEALERS, DISTRIBUTORS, AND/OR RESELLERS. Upon Contract execution and throughout the Contract term, Supplier must provide to Sourcewell a current means to validate or authenticate Supplier's authorized dealers, distributors, or resellers relative to the Equipment, Products, and Services offered under this Contract, which will be incorporated into this Contract by reference. It is the Supplier's responsibility to ensure Sourcewell receives the most current information.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. SHIPPING AND SHIPPING COSTS. All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

B. SALES TAX. Each Participating Entity is responsible for supplying the Supplier with valid tax-exemption certification(s). When ordering, a Participating Entity must indicate if it is a tax-exempt entity.

C. HOT LIST PRICING. At any time during this Contract, Supplier may offer a specific selection of Equipment, Products, or Services at discounts greater than those listed in the Contract. When Supplier determines it will offer Hot List Pricing, it must be submitted electronically to Sourcwell in a line-item format. Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Supplier Development Administrator. The new pricing restatement must include all Equipment, Products, and Services offered, even for those items where pricing remains unchanged.

A fully executed Sourcwell Price and Product Change Request Form will become an amendment to this Contract and will be incorporated by reference.

Any entity accessing benefits of this Contract will be considered a Service Member of Sourcewell during such time of access. Supplier understands that a Participating Entity's use of this Contract is at the Participating Entity's sole convenience and Participating Entities reserve the right to obtain like Equipment, Products, or Services from any other source.

Typically, a Participating Entity will issue an order directly to Supplier or its authorized subsidiary, distributor, dealer, or reseller. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements),

or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. **TERMINATION OF ORDERS.** Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. Payments should note the Supplier's name and Sourcewell-assigned contract number in the memo; and must be mailed to the address above "Attn: Accounts Receivable" or remitted electronically to Sourcewell's banking institution per Sourcewell's Finance department instructions. Payments must be received no later than 45 calendar days after the end of each calendar quarter.

Within this Article, all references to “federal” should be interpreted to mean the United States federal government. The following list only applies when a Participating Entity accesses Supplier’s Equipment, Products, or Services with United States federal funds.

A. **EQUAL EMPLOYMENT OPPORTUNITY.** Except as otherwise provided under 41 C.F.R. § 60, all contracts that meet the definition of “federally assisted construction contract” in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 C.F.R. §, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing

regulations at 41 C.F.R. § 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor." The equal opportunity clause is incorporated herein by reference.

B. DAVIS-BACON ACT, AS AMENDED (40 U.S.C. § 3141-3148). When required by federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. § 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 C.F.R. § 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. Under 40 U.S.C. § 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence. Our size and scale enable us to provide our customers with cutting-edge solutions and equipment, and our commitment to sustainability helps them operate jobsites safely, effectively and efficiently.

We occupy a unique position in the marketplace, between end-users and original equipment manufacturers (OEMs), and serve customers ranging from Fortune 500 companies to small businesses. Guided by our Work United® ethos, we partner with customers, communities and employees to find solutions with a shared commitment to service and safety. Our business model supports the circular economy by providing customers with rental access to one of the largest equipment and tool selections in the world. This enables customers to test new equipment or accomplish a specific task without having to purchase new, reducing the need to manufacture an estimated 400,000 pieces of equipment over United Rentals' 25 year history.

United Rentals serves its customers as a single-source solution, provided through two business segments: General Rentals and Specialty Rentals: General Rentals offers construction, industrial and homeowner equipment for rent, and related services. Specialty Rentals includes the rental of equipment and tools for underground construction, temporary power, power distribution, highway safety, climate control, fluid solutions, disaster recovery, tool management, modular offices, mobile storage and related services.

To serve specific sectors of its customer base, United Rentals has a comprehensive National Accounts program, industrial specialists and government sales specialists. Additional customer services are provided by the company's centralized, toll-free call centers, emergency response teams, and individuals dedicated to larger accounts, such as managed services consultants and single points of contact.

UR Worksite®

The United Rentals safety culture takes a no-compromise approach to loss prevention and safe behavior. Examples of safety initiatives include the company's Injury and Illness Prevention Program, branch safety meetings, driver safety programs and the United Academy® training and certification management portal for customers and employees.

Total Control® is United Rentals' proprietary, web-based rental management software, designed to help large customers reduce equipment consumption, control costs and drive efficiencies.

UR Control® is an online rental management platform that provides unlimited access to account details, giving customers the tools to track and control equipment costs and view all rented equipment, even across multiple accounts. With UR Control, users can request equipment pickups, submit electronic (ACH) payments, and access more than a dozen customer-specific reports that support bidding, budgeting and decision-making.

Tool Management is a service for capital projects, maintenance shutdowns and turnarounds, whereby an on-site mobile tool room is established to facilitate workflow and enhance accountability.

On-Site Shop Services are offered for major capital projects through a centralized, on-site maintenance and repair facility.

Sustainability is a major, ongoing focus of United Rentals as part of our commitment to corporate responsibility. Our company has implemented Sustainable Growth initiatives in the areas of facilities, fleet and logistics. We believe that these initiatives will result in the reduction of our total cost of operation and will safeguard

		<p>the environment, while helping our customers reduce their own carbon footprints.</p> <p>Industry Longevity Strategy</p> <p>For the past several years, as we continued to manage the impact of global economic conditions and COVID-19, we executed a strategy focused on improving the profitability of our core equipment rental business through revenue growth, margin expansion and operational efficiencies. In particular, we have focused on customer segmentation, customer service differentiation, rate management, fleet management and operational efficiency. Our general strategy focuses on profitability and return on invested capital, and, in particular, calls for:</p> <ul style="list-style-type: none"> • A consistently superior standard of service to customers, often provided through a single lead contact who can coordinate the cross-selling of the various services we offer throughout our network. We utilize a proprietary software application, Total Control®, which provides our key customers with a single in-house software application that enables them to monitor and manage all their equipment needs. Total Control® is a unique customer offering that enables us to develop strong, long-term relationships with our larger customers. Our digital capabilities, including our Total Control® platform, allow our sales teams to provide contactless end-to-end customer service; • The further optimization of our customer mix and fleet mix, with a dual objective: to enhance our performance in serving our current customer base, and to focus on the accounts and customer types that are best suited to our strategy for profitable growth. We believe these efforts will lead to even better service of our target accounts, primarily large construction and industrial customers, as well as select local contractors. Our fleet team's analyses are aligned with these objectives to identify trends in equipment categories and define action plans that can generate improved returns; • A continued focus on "Lean" management techniques, including kaizen processes focused on continuous improvement. We have a dedicated team responsible for reducing waste in our operational processes, with the objectives of: condensing the cycle time associated with preparing equipment for rent; optimizing our resources for delivery and pickup of equipment; improving the effectiveness and efficiency of our repair and maintenance operations; and implementing customer service best practices; • The continued expansion and cross-selling of adjacent specialty and services products, which enables us to provide a "one-stop" shop for our customers. We believe that the expansion of our specialty business, as exhibited by our acquisition of General Finance Corporation ("General Finance") in May 2021, as well as our tools and onsite services offerings, will further position United Rentals as a single source provider of total jobsite solutions through our extensive product and service resources and technology offerings; and • The pursuit of strategic acquisitions to continue to expand our core equipment rental business, as exhibited by our recently completed acquisition of assets of Ahern Rentals, which is discussed in note 4 to the consolidated financial statements. Strategic acquisitions allow us to invest our capital to expand our business, further driving our ability to accomplish our strategic goals.

Table 6: Ability to Sell and Deliver Service

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *	
26	Sales force.	With the largest sales force in the industry, United Rentals is well poised to support the Sourcewell participating entities across the US and Canada. We approach servicing a large national account like Sourcewell through a multi-layered team approach. Brad Laws is the Government Accounts Senior Manager and is responsible for the success of the Sourcewell program at United Rentals. He is the quarterback of the US state and local government team and works in tandem with Mark Dunlop as the lead for the Canadian entities. Under Brad are six regional Government Accounts Managers that will work with the field sales team of 6,400 industry experts. Additionally, there are a team of state level Strategic Account Managers as your Single Point of Contact, Daniel Cunningham. This robust sales team is supported by branch operations and field personnel across an extensive network of approximately 1,465 North American branch locations to effectively implement, manage and service an industrial client of Sourcewell's scope. Implementing and rolling out a national contract with Sourcewell requires a concerted effort from many levels of United Rentals' organization beyond the government accounts group. Strategic Account Managers (SAM), Outside & Inside Sales Representatives (OSR & ISR), Branch & Service Managers, Delivery Drivers and Field Service Technicians will continue to maintain current relationships while implementing a new contract in areas where we are already doing business. These levels will be heavily engaged in areas where we do not currently have relationships with Sourcewell's members for contract implementation and service. Current partnerships will be built upon and modeled after.	*
27	Dealer network or other distribution methods.	Sourcewell benefits from United Rentals owning all of our fleet. The following operating efficiencies help distribute our equipment to your members quickly: Equipment Sharing Among Branches. Each branch within a region can access equipment located elsewhere in the region. This fleet sharing increases equipment utilization because equipment that is idle at one branch can be marketed and rented through other branches. Additionally, fleet sharing allows us to be more disciplined with our capital spend. Our fleet sharing policy increases equipment availability and the likelihood United Rentals will have the right equipment at the right time for your project. Should the nearest branch not have the equipment needed, United Rentals has a vast network of branches nearby allowing for flexibility in transferring of fleet to meet the needs of Sourcewell. Customer Care Center: We have a Customer Care Center ("CCC") located in Charlotte, North Carolina that handles all telephone calls 24/7/365 to our customer service telephone line, 1-800-UR-RENTS. The CCC handles many of the 1-800-UR-RENTS telephone calls without having to route them to individual branches, and allows us to provide a more uniform quality experience to customers, manage fleet sharing more effectively and free up branch employee time.	*

28	Service force.	<p>Our branches across the US and Canada are wholly owned by United Rentals and never franchised. They are staffed with a knowledgeable team of Branch Managers, Sales Reps, Dispatchers, Service Technicians, and Drivers to fulfill Sourcewell's equipment and service needs. Our in-house government experts provide the knowledge and support to help our field service teams execute on any government customer requests. Backing them up is the company's extensive customer service team that is available for customer request 24/7/365.</p> <p>Government Experts: We have a team of government experts to support and grow our government business. Our Director of Government accounts leads the group of Regional Government Account Managers, state level Government Strategic Account Managers, National Government Sales Support Specialists, and National Government Contract Analysts.</p> <p>Government Sales & Support Center. Government business is unique with separate guidelines and compliance requirements. We understand that at United Rentals. For this reason, we provide our government customers a dedicated support team and 800 line. This team provides the Sourcewell participating members with a direct team that understands the Sourcewell contract and membership enrollment process.</p> <p>Branch Managers: United Rentals' has numerous branch managers to oversee operations at each of our local branches, such as bookings, dispatches and requests for on-site assistance. They can collaborate with other branches in our network, and with our centralized customer service facilities, to ensure fleet availability for Sourcewell. They are also able to train our local personnel so that we service your account in a way that supports Sourcewell's existing and future operations.</p> <p>Maintenance/Service Technicians: United Rentals' has approximately 10,200 technicians company-wide that are factory-trained and participate in periodic preventive maintenance refresher courses and manufacturer training. They inspect and service each piece of rental equipment to ensure its safety and operating condition before returning it to the rental-ready fleet.</p> <p>Dispatchers: Our dispatch team coordinates all deliveries and pick-ups for the branch, prioritizing scheduled time of need and rental-ready fleet. They utilize our FAST Dispatch technology to schedule our fleet of drivers. This system allows operations personnel to assign deliveries and route trucks most efficiently, as well as track on-time performance. Delivery Vehicles are equipped with GPS technology tied to the FAST dispatch system; drivers are required to input when deliveries are made (in order to track on-time delivery) and acknowledge changes in routing from ops personnel.</p> <p>Drivers: United Rentals' has approximately 4,300 drivers company-wide that are regulated by US DOT and all safety training requirements. They inspect every truckload for safety requirements before leaving the branch or customer site. Through our FAST technology, they are able to communicate delivery time updates in real-time for our customers and dispatch team.</p>
29	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>Our Government Sales and Service Center (GSSC) will process all orders. Providing a centralized location for all orders, allows consistency and a stronger account knowledge to support the decentralized system of orders submitted by the many end users. Additionally, the end users will have full account visibility through our UR Control System.</p> <p>Customers are able to use the GSSC team to submit orders through phone or email. Our system can be set up to require POs as well through customer request. All participating entities' accounts will be set up with Sourcewell pricing so each rental will be at the not to exceed rates regardless if the customer or internal order taker remembers to mention the contract. Customers can also go through their local sales representative or branch to place orders.</p> <p>The more time people and departments spend using Total Control®, the more ways they find that it helps their company be better at managing rentals. Before, during, and after the rental process, Total Control gives users access to the types of information used to make the best business decisions. Renting only what you need, when you need it helps you reduce rental costs by optimizing the amount, length, and utilization of equipment on rent.</p> <p>Full visibility of rental activities across your organization</p> <p>View overdue and upcoming return dates</p> <p>Extend rentals or request pick-up</p> <p>Add and update PO numbers</p> <p>GPS data</p> <p>Comprehensive account management</p> <p>Real-time invoice and payment history</p> <p>Download summary and detail billing data</p> <p>Invoice availability & support</p> <p>Customized flexible reporting</p> <p>Report live or historical rental information on nearly any subject (equipment on rent, rental history, hundreds of more report styles)</p> <p>We have a team of contract compliance specialists that monitor the accounts linked to the Sourcewell contract to provide the Sourcewell members the current negotiated rates and terms. This team is managed by Sonia Gregory. They work within our reporting system to provide quarterly reports to Sourcewell and will work to process all administrative fees owed.</p>

30	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>Customers are given information to reach any of our sales reps, Government Team, or customer service center to place an order or answer any questions. United Rentals tracks our service levels through our Quarterly Scorecard reported to Sourcewell. United Rentals is offering Sourcewell, a quarterly SLA (Service Level Agreement) for the Sourcewell facilities, which will be reported quarterly, and reviewed on a regular basis with Sourcewell management. 31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	<p>Sourcewell's participating entities will have access to a network of approximately 1,465 rental locations in North America. United Rentals maintains a robust fleet and has the proven experience to mobilize this fleet to service the needs of our customer. We have held the Sourcewell contract for the last 10 years and have a proven track record of servicing Sourcewell and its participating entities through our vast sales and service network led by our dedicated government team.</p> <p>Our GSSC team provides a single point of contact to all Sourcewell participating entities offering support and guidance to our products and services available through our contract. Additionally, this team also furnishes eligible entities with the hyperlink and instructions on how to become a member of Sourcewell in order to capitalize on these programs offered to them.</p> <p>Over the past 2 years, we have added another layer to the resources of our government customers. Our Business Development Representatives located in Charlotte, NC reach out to our government customers to educate them on the offering they have through their Sourcewell membership to support their equipment needs.</p>	*

On our Government Team we have several members led by Mark Dunlop that are dedicated to servicing the Canadian government and municipal accounts.</p>	*
33	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	<p>The only two geographic areas we are unable to service are Hawaii and the Northwest Territories in Canada. United Rentals' is exploring the opportunity to expand into Hawaii.</p>	*
34	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	<p>We are able to continue to service all participating entities as we have for nearly 15 years.</p>	*

35	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories. Line Item	Question	Response *	
36	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	Over the past 10 years, we have helped grow our Sourcewell contract over 450%. Our dedication to promoting this contract opportunity has resulted in \$87.6 million in revenues for 2023; up from \$15.8 million in 2014. Our team of government experts are strategically positioned across the US and Canada to market and grow this contract opportunity with the participating Sourcewell entities and our branches. We routinely introduce eligible entities to the Sourcewell program as well. United Rentals takes a three pronged approach to our marketing and sales plans: internal training, external sales and education, and customer faced marketing. You will find a comprehensive marketing plan and marketing material samples attached in the documents section. United Rentals is now also part of the NIGP Business Council. We are proudly working with government procurement experts and board members to continue the great work of the NIGP Business Council. We are actively partnering with this board to further the procurement activities within the equipment rental space as the solely industry representative on this business council. For more information, on the Business Council please utilize the following link https://www.nigp.org/suppliers/business-council .	*
37	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	We engage with customers through an omni-channel digital marketing strategy, allowing customers to interact with us through a variety of different platforms including our website, local Google listings, our mobile application and our social media tools. We use data to help personalize journeys for our customers, ensuring we are compliant along the way. This in conjunction with our proprietary digital management tools that provides a comprehensive digital experience for our customers.	*
38	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	We believe promoting the contract is a collaborative process that both Sourcewell and United Rentals are responsible for. We will continue to work together as we have over the past 10 years to promote our contract. This process has helped it grow over 450% since 2014. We plan to work with Sourcewell to make sure both organizations can articulate and promote the value proposition of the other. We collectively succeed most when we identify and promote each other's services to the participating entities. Sourcewell has a great reputation of promoting their contracts through their websites, tradeshow, marketing collateral, newsletters, and more. United Rentals has a proven track record of selling a Sourcewell contract that includes our sales process that is laid out in the provided marketing plan.	*
39	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	We understand that government entities have their internal purchasing systems for processing purchase orders, placing orders, and approving payment for the services. To simplify the ordering process for our government accounts we work collaboratively with them to create punch-out catalogs specific to each Participating Entities' equipment needs within their internal purchasing systems. This provides them with the flexibility of working within one system. We also recognize that not all participating entities utilize an internal punch-out and purchasing system for ordering. For these customers that prefer the ease of e-procurement via our systems, we offer our proprietary system Total Control. Total Control is more than just an e-procurement ordering process though. This is why our government customers also utilize it in combination with their internal purchasing systems to better manage their equipment - rented and owned. This is a cloud-based worksite management solution that helps customers make the most of their equipment fleet. This comprehensive, integrated suite of tools and services makes it easy to streamline their processes and cut their annual rental costs by up to a third. In addition to placing their equipment order, they can off-rent the equipment, access the location and use of rented equipment, set role-based alerts, PO tracking, auto-invoicing and more. Utilization tracking and telematics can also help them reduce the time machines sit idle, saving them money. Lastly, all orders can also be placed through our Government Sales and Service Center or locally through any of our branches. The GSSC team is available to take in orders through a single source email, phone, fax, or online. The service center will have all of the contract details for each of the various co-op partners' accounts.	*

40	<p>Describe any training programs related to this proposal such as OSHA training, safety training, specialty training like earth moving, hand tool safety, electrical safety, or other related certifications. Define if the training is offered in-person or virtually. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.</p>	<p>The technology and pace that business operates at is accelerating quickly. Yet, the way safety training is performed and tracked is quite stagnate. United Rentals invested in building the United Academy platform to replace primitive safety training and record keeping methods and to make sure that safety programs could match the pace of the projects they support. Often times, when you discover that a worker or a crew is untrained, the time involved in taking action strains a project timeline. United Academy leverages technology to avoid training related lost time, and respond quickly when you must. Quality training when you need it.</p> <p>Training is led by a team of certified trainers with years of experience in educating and protecting commercial, industrial and municipal workers and sites. Equipment familiarization and proper training are two very different concepts. Equipment familiarization is provided at no cost upon delivery of each piece of equipment. Proper certified training is per person cost through United Academy. We are providing all Participating Entities discounted United Academy Training. We can also help you determine when each is needed. Learner comprehension and learning preferences have evolved. United Academy gives you options: classroom instruction and blended learning. Schedule classroom training and certification or access blended e-learning 24/7. Ease of tracking training and certifications. Easy, real-time tracking and verification of training and certifications anytime, anywhere.</p> <p>Skilled Trainers Safety training is not new to United Rentals. Over the years we have built one of the largest and most professional training teams in the industry with over dedicated, full time safety trainers supporting United Academy across the USA and Canada. In addition, we have hundreds of certified trainers and evaluators located in many of our 1,465 branches. Our full-time trainers have years of experience educating workers on safety and many have been working in our industry for years in various capacities.</p> <p>Professional Courses In-Person & Online Top-notch training from an industry leader Courses developed by a team of subject matter experts Meets or exceeds OSHA, ANSI and OH&S training requirements Meets legal regulations for training, theory, practical, and hands on evaluation Instructor-led training by Certified Professional Trainers or interactive cinematic online component</p> <p>Over 300 courses to choose from Training valid in all 50 states and Canada Courses available in English, French and Spanish Record Management Made Easy Training documentation stored on United Academy platform Ability to upload training records taken outside of United Academy Email notifications sent when certification is up for renewal Certificates and temporary cards available to print immediately after training completion Work efficiently with compliance tools, team views and various reporting dashboards Managers can view all records, assign courses and upload external certificates for their employees</p> <p>Accessible Where You Are Classes and account records accessible 24/7 Verify training records out in the field by simply scanning the United Academy wallet card or hardhat sticker Access via website or United Academy mobile app</p> <p>Online Training Profile Sourcewell can save time and money by storing and maintaining training and certifications in United Academy. 41	Describe any technological advances that your proposed products or services offer.	<p>We've engineered worksite performance solutions that help our customers make better, smarter, safer decisions. And we're just getting started.</p> <p>Total Control & Mobile App Keeping tabs on dozens or hundreds of pieces of rental equipment on a jobsite, including what's in use, what needs to be returned and what's awaiting delivery or pickup, is a big job. Doing it well can lead to significant cost savings and increased worker productivity. Digital technology such as the cloud-based equipment management solution Total Control® gives our customers a huge leg up. But when you're out in the field, you want to be able to work from the phone in your pocket or the tablet in your bag, not the computer back in the office or trailer.</p> <p>The United Rentals Mobile App was designed for exactly that. It puts all your equipment data at your fingertips and enables a host of easy-click actions that help you do more in less time when you're out and about.</p> <p>RFID Badges On construction projects, site access management and equipment access management are both critical to safety, security and productivity. Digital tools from United Rentals now enable customers to manage equipment access using the same RFID badges they issue to workers for site access.</p> <p>With the Next-Generation Access Management Solution, PINs aren't necessary. Rather than entering a code on a keypad ignition lock, a worker can tap their RFID-enabled ID badge on the lock's card reader to unlock a piece of equipment they are authorized to operate. On large projects, leveraging RFID badges for equipment access eliminates the need to assign PINs to hundreds or thousands of workers, reducing administrative overhead. In addition to keeping unauthorized workers off equipment, it provides accurate real-time and historical insights into equipment usage.</p> <p>Smart Turnstiles At high-traffic job sites where employees, contractors and visitors come and go throughout the day, managing entry can be challenging, yet it's critical to ensuring the safety and security of employees and other personnel. Controlling site access is also essential to protecting the public from potential hazards and guarding against theft and vandalism. Smart Turnstiles are the modern-day answer to access management through the utilization of a variety of innovative technology offerings.</p> <p>With the swipe and/or tap of a badge, key fob or other credential, smart turnstiles ensure that only people with proper authorization can pass through the entry gate. Compared with sign-in sheets, which can be bypassed even when a security guard is present, smart turnstiles are effective and efficient. Just as important, they provide real-time entry and exit data that can be quickly accessed and searched in the event of an emergency.</p> <p>Wedge WEDGE is a remote monitoring system customized to fit your site. It monitors measurements such as temperature and humidity. Sensors installed on-site feed live data to the WEDGE Dashboard. Access real-time and historical data at your fingertips and if any pre-set thresholds are exceeded, you will be notified immediately.</p> <p>Please see our Value Added document in the attachments for more details.</p>
42	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>Environmental sustainability is central to United Rentals' growth strategy. We measure and manage our greenhouse gas emissions — and help customers do the same — in order to become a more resilient company and to continue delivering value to all our stakeholders. As a business based in the sharing economy, our services inherently provide an environmental benefit which we continuously build on by increasing our operational efficiency and growing our low-emission product portfolio.</p> <p>We are advancing our social and environmental responsibilities through eight Corporate Responsibility goals. Each goal was set using a rigorous analysis that considered our operations, workforce and available technology, as well as the potential advancements that will become available during the relevant time period. While these goals are challenging, we believe they are achievable through our continued dedication to progress and innovation. In addition to our goals, we have three thematic commitments to drive progress toward reducing our climate impact:</p> <p>Engaging with original equipment manufacturers and customers on low- and zero-emissions equipment opportunities.</p> <p>Exploring ways to acquire more efficient and alternatively-fueled vehicles for our sales, service and delivery fleet, which are the largest contributors to our Scope 1 emissions.</p> <p>Helping our customers track and measure greenhouse gas emissions from our rental offerings.</p> <p>Our company has implemented Sustainable Growth initiatives in the areas of facilities, fleet and logistics. Please see our Corporate Responsibility Report in the document attachments for more information on these initiatives and achievements. We believe that these initiatives will result in the reduction of our total cost of operation and will safeguard the environment, while helping our customers reduce their own carbon footprints.</p>

43	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>It's long been believed that renting equipment, in lieu of purchasing new, brings environmental benefits. In 2022, we validated this belief by partnering with a third-party consultant to analyze our rental business model and quantify the potential environmental benefit it brings. The results revealed that our business promotes environmental sustainability in two key ways:</p> <ol style="list-style-type: none"> 1. Reducing Total Equipment Needs 2. Reducing Emissions Intensity of Equipment <p>Sustainability is also the top of mind for many in the government, industrial and construction industry. As customers look to reduce their carbon footprint and meet their sustainability objectives and those of project owners, construction equipment emissions are one area of focus.</p> <p>Buying or renting electric construction equipment is increasingly an option, but fully electric fleets are a thing of the future. In the meantime, when it comes to reducing the emissions of diesel-powered equipment, the familiar adage applies: You can't manage what you can't measure.</p> <p>Until now, companies have had very limited access to information about the environmental impacts of their rental fleet. A recently launched emissions tracking feature in Total Control®, the United Rentals cloud-based worksite management solution, offers new visibility that can help inform decision-making around fleet and fleet utilization.</p> <p>The feature enables customers to monitor the estimated greenhouse gas (GHG) emissions from their telematics-enabled rental equipment as well as source pollutants such as particulate matter, nitrous oxides and carbon monoxide.</p>	*

What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?</p>	<p>We're proud to have been named by Forbes magazine as one of the world's top employers. Still, we never take our people for granted. They are the key to our success with Sourcewell over nearly 10 years we have been supporting this contract. Through our team of experts. United Rentals deploys \$19.99 billion of fleet (original equipment cost) through approximately 1,465 branches, a centralized reservation service and automated online ordering. Our branches are fully integrated through technology, allowing them to collaborate on solving customer needs.</p> <p>Below are some of the unique resources we bring to the Participating Entities. Please see the Value Added document for more details on the suite of services and resources we provide to the Sourcewell Participating Entities.</p> <p>Safety Our most important differentiator is safety, because of its vital importance to our employees and customers. Unsafe behavior can have a direct impact on our business and yours. Our safety culture is organized under the banner of United4Safety, which provides a way of thinking about safety in every aspect of our lives, at work and at home. United4Safety has four tenets: think safe, work safe, drive safe and live safe. We expect safety to be the primary consideration of each of our employees, and we facilitate this through innovation, leadership development, continuous learning and personal well-being. In 2023, we had a total recordable incident rate (TRIR) of 0.68, toward a goal of zero.</p> <p>Digital Solutions At United Rentals, our goal is to go beyond equipment rental. It's a digital world, and digital technology should hand customers easy victories whether they're on the worksite, in the field office or back at headquarters. United Rentals is committed to providing not only the equipment businesses need; when they need it, but the WORKSITE PERFORMANCE™ tools that will help customers work smarter, better and safer. From cloud-based worksite management tools to renting equipment directly from our mobile app, United Rentals digital solutions lead the pack. Total Control® is our proprietary software suite that provides customers with a single, transformative solution for equipment productivity. Total Control helps customers manage their equipment fleets in real time through greater visibility and accountability, with the goal of improving the utilization of resources. By reducing downtime and avoiding on-site productivity gaps, Total Control can help a customer cut annual equipment rental costs by up to a third.</p> <p>Emergency Response While United Rentals has always responded to disasters near our locations, in 2018 we began to take a more structured approach to our response. We've trained a first-responder team comprising more than 800 company volunteers across North America, whose first objective in any emergency is to help our employees and customers who have been affected. The response for every major event starts at the highest level with our executive steering committee. The committee moves quickly to assess the situation and define the logistics of the response. From there, the plan flows to the Emergency Operations Center, or EOC. Each disaster has its own EOC — a command post that sets up as close as safely possible to the disaster site. This is where the response and communications are coordinated. United Rentals can stand up an EOC in a matter of hours, bringing together region and district leaders and a cross-functional team of experts from human resources, legal, real estate, fleet management, technology and finance. The EOC sets the objectives and executes them. Our team of experts has experience in critical need situations and can put maintenance equipment on your site quickly, including:</p> <ul style="list-style-type: none"> - Complete portable sanitation solutions including hand wash stations, portable toilets and restroom trailers with hand wash stations, hand sanitizing stands, shower trailers, and laundry trailers with generators including service of waste - Power generation, fluid transfer, temporary lighting (indoor and outdoor) and site signage - Full range of HVAC products including air scrubbers, negative air machines with HEPA filtration, and portable air conditioners and heaters

Table 14B: Depth and Breadth of Offered Equipment Products and Services

Sourcewell is seeking proposals for Rental Equipment, Products, and Related Services. Awards under this solicitation will be made in three (3) separate categories. No proposer should select more than one category to respond to due to the RFP being structured such that Category 1 enables a supplier to respond with a single response that includes solutions from both categories 2 and 3. Proposers submitting a proposal in Category 1 must have at least one solution from each of categories 2 and 3. For example, if a Proposer offers at least one solution from Construction and General Rental Solutions, in addition to offering at least one solution from Public Works and Utility Equipment, the Proposer should designate it is seeking an award in Category 1 only.

A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In addition, where applicable, other purchasing cooperatives and procurement officials receive notice and are encouraged to re-post the solicitation opportunity.

Proof of publication will be available at the conclusion of the solicitation process.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Rental Equipment, Products, and Related Services. Awards under this solicitation will be made in three (3) separate categories. No proposer should select more than one category to respond to due to the RFP being structured such that Category 1 enables a supplier to respond with a single response that includes solutions from both categories 2 and 3. Whereas, those with only solutions in Category 2 or 3, should respond to the corresponding category whose scope includes those solutions (e.g., either category 2 or 3).

Proposers submitting a proposal in Category 1 must have at least one solution from each of categories 2 and 3. For example, if a Proposer offers at least one solution from Construction and General Rental Solutions, in addition to offering at least one solution from Public Works and Utility Equipment, the Proposer should designate it is seeking an award in Category 1 only.

Proposers seeking an award in Category 2 must include at least one solution offered within the scope of Category 2 for Construction and General Rental Solutions and no solutions from Category 3 Public Works and Public Utility Equipment.

Similarly, proposers seeking an award in Category 3 for Public Works and Public Utility Equipment must include at least one solution offered within the scope of Category 3 for Public Works and Public Utility Equipment and no solutions from Category 2 Construction and General Rental Solutions.

Category 1: Rental Equipment, Products and Related Services such as:

- a. Construction Equipment and General Rental Solutions (Category 2); and
- b. Public Works and Public Utility Equipment (Category 3).

Category 2: Construction Equipment and General Rental Solutions including but not limited to:

- a. Earth moving equipment;
- b. Aerial equipment;
- c. Compaction equipment;
- d. Industrial;
- e. Roadway;
- f. Concrete equipment;
- g. Landscape equipment;
- h. Trailers;
- i. Lighting equipment;
- j. Barricades;
- k. Signs;

- l. Batteries or charging equipment;
- m. Generators;
- n. Wash stations;
- o. Portable restrooms;
- p. Temporary shelters; and
- q. Used rental equipment sales

Category 3: Public Works and Public Utility Equipment, including but not limited to:

- a. Sewer vac & hydro or air excavators;
- b. Street maintenance and cleaning equipment;
- c. Bucket trucks;
- d. Diggers;
- e. Roll-off trucks;
- f. Refuse trucks; and
- g. Waste and debris handling equipment.

Proposers may include related services, including delivery, installation or setup, removal, repair, maintenance, equipment training programs, and safety training programs, and rental equipment protection plans to the extent these services are ancillary or complementary to categories 1, 2, and 3 above.

The primary focus of this solicitation is on Rental Equipment, Products, and Related Services. This solicitation should NOT be construed to include:

- a. Automobile (car or truck) rental or leasing
- b. Party or event rental only solution

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment-only or products-only solutions may be appropriate for situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcwell encourages suppliers to offer the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcwell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. PROSPECTIVE CONTRACT TERM

The term of any resulting contract(s) awarded by Sourcwell under this solicitation will be four years. Sourcwell and supplier may agree to up to three additional one-year extensions based on the best interests of Sourcwell and its Participating Entities. Sourcwell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$90M; therefore, proposers are expected to propose volume pricing. Sourcwell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or

dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. A proposer may submit only one proposal. If related, affiliated, or subsidiary entities elect to submit separate proposals, rather than a single parent-entity proposal, each such proposal must be prepared independently and without cooperation, collaboration, or collusion.
3. If a proposer works with a consultant on its proposal, the consultant (an individual or company) may not assist any other entity with a proposal for this solicitation.
4. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
5. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
6. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
 - a. **Line-item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
 - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price (MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any contract resulting from this RFP.

2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers awarded a contract are expected to pay to Sourcwell an administrative fee in exchange for Sourcwell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcwell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To identify any exception, or to request any modification, to Sourcwell's standard Contract terms, conditions, or specifications, a proposer must submit the proposed exception(s) or requested modification(s) via redline in the Contract Template provided in the "Documents" section of the "Bid Details" page on the Sourcwell Procurement Portal and uploaded as part of its response. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Vendor Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Vendor Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Vendor Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

E. GENERAL PROPOSAL REQUIREMENTS

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.
- Submitted in English.
- Valid and irrevocable for 90 days following the Proposal Due Date.

Any and all costs incurred in responding to this RFP will be borne by the proposer.

F. PROPOSAL WITHDRAWAL

Prior to the proposal deadline, a proposer may withdraw its proposal.

G. OPENING

The Opening of proposals will be conducted in the Sourcewell Procurement Portal immediately following the proposal due date and time. To view the list of proposers resulting from the opening, verify that the Sourcewell Procurement Portal opportunities list search is set to “All” or “Closed.”

Members of the public may attend the Opening at Sourcewell’s office located at 202 12th Street NE, Staples, MN to hear the results.

VI. EVALUATION AND AWARD

A. EVALUATION

It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Factors to be considered in determining the number of contracts to be awarded in any category may include the following:

- Total evaluation scores (giving consideration to natural breaks in the scoring of responsive proposals);
- The number and geographic location of highest-scoring proposers that offer:
 - A comprehensive selection of the requested equipment, products, or services;
 - A sales and service network ensuring availability and coverage for Participating Entities’ use; and

- Other attributes of the proposer or contents of its proposal that assist Participating Entities in achieving environmental and social requirements, and goals.

Information submitted as part of a proposal should be as specific as possible when responding to the RFP. Do not assume Sourcewell has any knowledge about a specific supplier or product.

B. AWARD(S)

Award(s) will be made to the highest-scoring proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Sourcewell may request written clarification of a proposal at any time during the evaluation process.

Proposal evaluation will be based on the following scoring criteria and the Sourcewell Evaluator Scoring Guide (a copy is available in the Sourcewell Procurement Portal):

Conformance to RFP Requirements	50
Financial Viability and Marketplace Success	75
Ability to Sell and Deliver Service	100
Marketing Plan	50
Value Added Attributes	75
Warranty	50
Depth and Breadth of Offered Equipment, Products, or Services	200
Pricing	400
TOTAL POINTS	1000

C. PROTESTS OF AWARDS

Any protest made under this RFP by a proposer must be in writing, addressed to Sourcewell's Executive Director, and delivered to the Sourcewell office located at 202 12th Street NE, P.O. Box 219, Staples, MN 56479. All documents that comprise the complete protest package must be received, and time stamped at the Sourcewell office by 4:30 p.m., Central Time, no later than 10 calendar days following Sourcewell's notice of contract award(s) or non-award. A protest must allege a procedural, technical, or legal defect, with supporting documentation. A protest that merely requests a re-evaluation of a proposal's content will not be entertained.

A protest must include the following items:

- The name, address, and telephone number of the protester;
- Identification of the solicitation by RFP number;
- A precise statement of the relevant facts;
- Identification of the alleged procedural, technical, or legal defect;

- Analysis of the basis for the protest;
- Any additional supporting documentation;
- The original signature of the protester or its representative; and
- Protest bond in the amount of \$20,000 (except where prohibited by law or treaty).

Protests that do not address these elements will not be reviewed.

D. RIGHTS RESERVED

This RFP does not commit Sourcewell to award any contract, and a proposal may be rejected if it is nonresponsive, conditional, incomplete, conflicting, or misleading. Proposals that contain false statements or do not support an attribute or condition stated by the proposer may be rejected.

Sourcewell reserves the right to:

- Modify or cancel this RFP at any time;
- Reject any and all proposals received;
- Reject proposals that do not comply with the provisions of this RFP;
- Select, for contracts or for discussion, a proposal other than that with the lowest cost;
- Independently verify any information provided in a proposal;
- Disqualify any proposer that does not meet the requirements of this RFP, is debarred or suspended by the United States or Canada, State of Minnesota, Participating Entity's state or province; has an officer, or other key personnel, who have been charged with a serious crime; or is bankrupt, insolvent, or where bankruptcy or insolvency are a reasonable prospect;
- Waive or modify any informalities, irregularities, or inconsistencies in the proposals received;
- Clarify any part of a proposal and discuss any aspect of the proposal with any proposer; and negotiate with more than one proposer;
- Award a contract if only one responsive proposal is received if it is in the best interest of Participating Entities; and
- Award a contract to one or more proposers if it is in the best interest of Participating Entities.

E. DISPOSITION OF PROPOSALS

All materials submitted in response to this RFP will become property of Sourcewell and will become public record in accordance with Minnesota Statutes Section 13.591, after negotiations are complete. Sourcewell considers that negotiations are complete upon execution of a resulting contract. It is the proposer's responsibility to clearly identify any data submitted that it considers to be protected. Proposer must also include a justification for the classification citing the applicable Minnesota law. Sourcewell may reject proposals that are marked confidential or nonpublic, either substantially or in their entirety.

Sourcewell will not consider the prices submitted by the proposer to be confidential, proprietary, or trade secret materials. Financial information, including financial statements, provided by a proposer is not considered trade secret under the statutory definition.

Addendum No. 4

Solicitation Number: RFP 040924

Solicitation Name: Rental Equipment, Products, and Related Services

Consider the following Questions and Answers to be part of the above-titled solicitation documents. The remainder of the documents remain unchanged.

Question 1:

Do you have to have coverage across the US to be awarded? Would an award be considered for limited coverage?

Answer 1:

A proposer is not required to cover every geographic region to be considered for award. Each proposal is evaluated based on the criteria stated in the RFP.

Question 2:

How many bidders will be awarded (sic)?

Answer 2:

Refer to RFP section VI. Section A. It is the intent of Sourcewell to award one or more contracts to responsive and responsible proposers offering the best overall quality, selection of equipment, products, and services, and price that meet the commonly requested specifications of Sourcewell and its Participating Entities. The award(s) will be limited to the number of proposers that Sourcewell determines is necessary to meet the needs of its Participating Entities.

Question 3:

Is it correct that only United Rentals, Sunbelt Rentals and Caterpillar hold this contract currently (sic)? If so, do smaller suppliers have a reasonable chance to get in the award circle (sic)?

Answer 3:

The current contract holders for RFP #062320, Equipment Rental and Related Services, are Altec Industries, Inc., Caterpillar Inc., Sunbelt Rentals, and United Rentals. Contract Awards for all Sourcewell contracts can be found at www.sourcewell-mn.gov. Award(s) will be made to the highest-scoring proposer(s) whose proposal conforms to all conditions and requirements of the RFP, and consistent with the award criteria defined in this RFP.

Question 4:

Considering the substantial effort involved in submitting, why is this just an annual contract as opposed to a multi-year contract?

Answer 4:

Refer to section II., Article D. The term of any resulting contract(s) awarded by Sourcewell under this solicitation will be four years. Sourcewell and supplier may agree to up to three additional one-year extensions based on the best interests of Sourcewell and its Participating Entities. Sourcewell retains the right to consider additional extensions beyond seven years as required under exceptional circumstances.

Question 5:

Can you acknowledge addenda after submission?

Answer 6:

Refer to RFP Article V. Section C. If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer’s proposal status to INCOMPLETE. The proposer can view this status change in the “MY BIDS” section of the Sourcewell Procurement Portal Vendor Account. The proposer is solely responsible to check the “MY BIDS” section of the Sourcewell Procurement Portal Vendor Account periodically after submitting its proposal (and up to the Proposal Due Date).
