**Grant contract between the Metropolitan Government of Nashville and Davidson County and
Music City Prep Clinic Contract # _____**

**GRANT CONTRACT
BETWEEN THE METROPOLITAN GOVERNMENT
OF NASHVILLE AND DAVIDSON COUNTY
AND
MUSIC CITY PREP CLINIC**

This Grant Contract issued and entered into pursuant to Resolution RS2025-_____ by and between the Metropolitan Government of Nashville and Davidson County ("Metro"), and Music City Prep Clinic, ("Recipient"), is for the provision of Ryan White Part A program services, as further defined in the "SCOPE OF PROGRAM" and detailed in this Grant Contract. Attachments A through I incorporated herein by reference.

A. SCOPE OF PROGRAM:

A.1. The Recipient will use the funds to provide the following Ryan White Part A program services:

a. Outreach Services

- i. Conduct two new outreach events per quarter targeting high-risk populations to promote HIV education, testing and linkage to care.
- ii. Identify and develop relationships with at least four new community organizations to improve education and referral pathways for testing and treatment.
- iii. Increase testing of patients identified as high risk at outreach events to receive HIV testing and follow-up support for linkage to care regardless of HIV status.
- iv. Expand in clinic, telehealth and home test kit options to reach individuals who face barriers to traditional testing services.
- v. Ensure that 80% of patients enrolled in early intervention services remain engaged in care for at least 12 months, with follow-ups at least every 3 months during the first year of treatment
- vi. Ensure that 100% of newly diagnosed or uncontrolled patients receive 4-6 medical visits annually, while stable patients receive 2-4 visits annually to support antiretroviral therapy adherence and viral suppression
- vii. Standardized structured screenings including PRAPARE, Patient Distress Indicator, PHQ-9 and GAD-7 during outpatient visit to assess adherence barriers, co-occurring conditions, and social determinants of health for 100% of ART patients.

b. Early Intervention Services

- i. Ensure that 95% of newly diagnosed patients are linked to care and initiated on the same day antiretroviral therapy when clinically appropriate.
- ii. Implement a standardized internal and external referral system and follow-up protocol to ensure that 100% of newly diagnosed individuals receive a follow-up visit within two weeks of their initial diagnosis.
- iii. Utilize electronic medical records and prescription data to monitor time from HIV diagnosis to ART initiation, establishing benchmarks for improvement.
- iv. Develop and maintain relationships with at least 4 community healthcare organizations to streamline referrals for newly diagnosed individuals and ensure seamless care transitions.

c. Medical Case Management (Treatment Adherence)

**Grant contract between the Metropolitan Government of Nashville and Davidson County and
Music City Prep Clinic Contract # _____**

- i. Review and enhance existing policies and protocols, ensuring 100% of case management interactions are accurately documented and tracked in the electronic medical record.
- ii. Develop and implement personalized care plans for 100% newly diagnosed or high-risk patients, incorporating medical, behavioral, and social support needs.

d. Case Management

- i. Develop and implement standardized documentation procedures to ensure accurate tracking of non-medical case management services and improve coordination with medical case management.

e. Emergency Financial Assistance

- i. Identify opportunities to address shortfalls in the community. Prototype a need-based program that considers individual caps and budgetary limitations.

f. Medical Transportation

- i. Increase transportation utilization by establishing a procedure for measuring utilization and costs; utilization rates will be measured and possible improvement methods identified.

g. Foodbank

- i. Identify opportunities to address shortfalls in existing food programs.

h. Housing Services

- i. Review emergency housing organizations in the community and add them to the referral network.
- ii. Identify shortfalls and use these to build an internal housing plan.
- iii. Implement a housing assistance pilot program.

I. Referral Services

- i. Review and evaluate existing referral agreements for utilization and effectiveness.
- ii. For each agreement, determine goals and criteria for an effective referral relationship and implement changes to improve utilization and effectiveness.
- iii. Measure the progress of the changes against the goals and criteria for an effective relationship.
- iv. Develop and implement a standardized referral tracking system within the electronic medical record to ensure 75% of referrals are documented, monitored, and followed up within a set timeframe.
- v. Ensure that at least 90% of patients referred to external services successfully complete their referrals, with follow-up by non-medical case managers to address any barriers.

- A.2. The Recipient shall ensure that eligible program participants are referred, encouraged and assisted in enrolling in other private and public benefits programs, including but not limited to, Housing Opportunities for Persons with AIDS, Section 8 Housing, Supplemental Nutrition Assistance Program, Temporary Assistance for Needy Families, Women Infant & Children and other non-profit service programs.

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

- A.3. The Recipient shall ensure that eligible program participants are referred, encouraged and assisted in enrolling in other private and public health coverage programs, including but not limited to, Medicaid, Medicare, State Children's Health Insurance Programs, and Private Insurance.
- A.4. The Recipient shall ensure billing and collection from private and public health coverage programs, including but not limited to, Medicaid, Medicare, State Children's Health Insurance Programs, and Private Insurance, so that the Ryan White Program remains the payer of last resort.
- A.5. The Recipient shall utilize Program Income as required by section 28 of the Ryan White Part A Notice of Award for grant #H89HA11433-17 (RS2025-1084) and all applicable modifications and further explained in provision 45 CFR § 75.307(e)(2).
- A.6. The Recipient shall utilize the CAREWare information system for program reporting purposes and meet the standards and specifications in 45 CFR § 170, subpart B.
- A.7. The Recipient must spend funds consistent with the Grant Spending Plan, attached and incorporated herein as **Attachment A**. The Recipient must collect data to evaluate the effectiveness of their services and must provide those results to Metro according to a mutually acceptable process and schedule, and when needed, upon request.
- A.8. The Recipient must comply with all quarterly reporting requirements. The Recipient must submit quarterly reports that contain the following:
- Implementation Plans
 - Provider Data Import Report
 - Other data as requested.
- A.9. The Recipient will only utilize these grant funds for services the Recipient provides to documented residents of Cannon, Cheatham, Davidson, Dickson, Hickman, Macon, Robertson, Rutherford, Smith, Sumner, Trousdale, Williamson and Wilson Counties. Documentation of residency may be established with a recent utility bill; voter's registration card; driver's license or other government issued identification; current record from a school district showing an address; or affidavit by landlord; or affidavit by a nonprofit treatment, shelter, half-way house, or homeless assistance entity located in the named counties.
- A.10. The funds received through this contract are considered federal funds subject to the Single Audit Act, the related provisions of 45 CFR § 75 Health & Human Services ("HHS") Uniform Guidance, 2 CFR § 200.1 Definitions, 2 CFR § 200.313(e) Equipment Disposition, 2 CFR § 200.314(a) Supply Disposition, 2 CFR § 200.320 Micro-Purchase Threshold, 2 CFR § 200.333 Fixed Amount Subawards Amount, 2 CFR § 200.344 Closeout Provisions, 2 CFR § 200.414(f) Indirect Cost Rate Provisions, and 2 CFR § 200.501 Audit Provisions, the Ryan White Part A Notice of Award for grant #H89HA11433-17 (RS2025-1084) and all applicable modifications, the HIV/AIDS Bureau Policy Notices and Program Letters, and the HHS Ryan White Part A Manual.

B. GRANT CONTRACT TERM:

- B.1. **Grant Contract Term.** The Grant will commence on the date this contract is approved by all required parties and filed in the office of the Metropolitan Clerk and end on February 28, 2026. Metro will have no obligation for services rendered by the Recipient that are not performed within this term.

C. PAYMENT TERMS AND CONDITIONS:

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

- C.1. **Maximum Liability.** In no event will Metro's maximum liability under this Grant Contract exceed Nineteen Thousand Two Hundred dollars (\$19,200). The Grant Spending Plan will constitute the maximum amount provided to the Recipient by Metro for all of the Recipient's obligations hereunder. The Grant Spending Plan line items include, but are not limited to, all applicable taxes, fees, overhead, and all other direct and indirect costs incurred or to be incurred by the Recipient.

Subject to modification and amendments as provided in section D.2 of this agreement, this amount will constitute the Grant Amount and the entire compensation to be provided to the Recipient by Metro.

- C.2. **Payment Methodology.** The Recipient will only be compensated for actual costs based upon the Grant Spending Plan, not to exceed the maximum liability established in Section C.1

Upon progress toward the completion of the work, as described in Section A of this Grant Contract, the Recipient shall submit invoices and any supporting documentation as requested by Metro to demonstrate that the funds are used as required by this Grant, prior to any payment for allowable costs. Such invoices shall be submitted no more often than monthly and indicate at a minimum the amount charged by Spending Plan line-item for the period invoiced, the amount charged by line-item to date, the total amount charged for the period invoiced, and the total amount charged under this Grant Contract to date.

Recipient must send all invoices to Metro Public Health Department, healthap@nashville.gov.

Final invoices for the contract period should be received by March 31, 2026. Any invoice not received by the deadline date will not be processed and all remaining grant funds will expire.

- C.3. **Annual Expenditure Report.** The Recipient must submit a final grant Annual Expenditure Report, to be received by Metro Public Health Department, within forty-five (45) days of the end of the Grant Contract. Said report must be in form and substance acceptable to Metro and must be prepared by a Certified Public Accounting Firm or the Chief Financial Officer of the Recipient Organization.

- C.4. **Payment of Invoice.** The payment of any invoice by Metro will not prejudice Metro's right to object to the invoice or any other related matter. Any payment by Metro will neither be construed as acceptance of any part of the work or service provided nor as an approval of any of the costs included therein.

- C.5. **Unallowable Costs.** The Recipient's invoice may be subject to reduction for amounts included in any invoice or payment theretofore made which are determined by Metro, on the basis of audits or monitoring conducted in accordance with the terms of this Grant Contract, to constitute unallowable costs. Any unallowable cost discovered after payment of the final invoice shall be returned by the Recipient to Metro within fifteen (15) days of notice.

- C.6. **Deductions.** Metro reserves the right to adjust any amounts which are or become due and payable to the Recipient by Metro under this or any Contract by deducting any amounts which are or become due and payable to Metro by the Recipient under this or any Contract.

- C.7. **Travel Compensation.** Payment to the Recipient for travel, meals, or lodging is subject to amounts and limitations specified in Metro's Travel Regulations and subject to the Grant Spending Plan.

- C.8. **Electronic Payment.** Metro requires as a condition of this contract that the Recipient have on file with Metro a completed and signed "ACH Form for Electronic Payment". If Recipient has not previously submitted the form to Metro or if Recipient's information has changed, Recipient will

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

have thirty (30) days to complete, sign, and return the form. Thereafter, all payments to the Recipient, under this or any other contract the Recipient has with Metro, must be made electronically.

D. STANDARD TERMS AND CONDITIONS:

D.1. Required Approvals. Metro is not bound by this Grant Contract until it is approved by the appropriate Metro representatives as indicated on the signature page of this Grant and approved by the Metropolitan Council.

D.2. Modification and Amendment. This Grant Contract may be modified only by a written amendment that has been approved in accordance with all Metro procedures and by appropriate legislation of the Metropolitan Council.

D.3. Termination - Cause. Metro shall have the right to terminate this Grant Contract immediately if Metro determines that Recipient, its employees or principals have engaged in conduct or violated any federal, state or local laws which affect the ability of Recipient to effectively provide services under this Grant Contract. Should the Recipient fail to properly perform its obligations under this Grant Contract or if the Recipient violates any terms of this Grant Contract, Metro will have the right to immediately terminate the Grant Contract and the Recipient must return to Metro any and all grant monies for services or programs under the grant not performed as of the termination date. The Recipient must also return to Metro any and all funds expended for purposes contrary to the terms of the Grant Contract. Such termination will not relieve the Recipient of any liability to Metro for damages sustained by virtue of any breach by the Recipient.

D.4. Termination - Notice. Metro may terminate the Grant Contract without cause for any reason. Said termination shall not be deemed a breach of Contract by Metro. Metro shall give the Recipient at least thirty (30) days written notice before effective termination date.

a. The Recipient shall be entitled to receive compensation for satisfactory, authorized service completed as of the effective termination date, but in no event shall Metro be liable to the Recipient for compensation for any service that has not been rendered.

b. Upon such termination, the Recipient shall have no right to any actual general, special, incidental, consequential or any other damages whatsoever of any description or amount.

D.5. Termination - Funding. The Grant Contract is subject to the appropriation and availability of local, State and/or Federal funds. In the event that the funds are not appropriated or are otherwise unavailable, Metro shall have the right to terminate the Grant Contract immediately upon written notice to the Recipient. Upon receipt of the written notice, the Recipient shall cease all work associated with the Grant Contract on or before the effective termination date specified in the written notice. Should such an event occur, the Recipient shall be entitled to compensation for all satisfactory and authorized services completed as of the effective termination date. The Recipient shall be responsible for repayment of any funds already received in excess of satisfactory and authorized services completed as of the effective termination date.

D.6. Subcontracting. The Recipient shall not assign this Grant Contract or enter into a subcontract for any of the services performed under this Grant Contract without obtaining the prior written approval of Metro. Notwithstanding any use of approved Sub-Grantee, the Recipient will be considered the prime Recipient and will be responsible for all work performed.

D.7. Conflicts of Interest. The Recipient warrants that no part of the total Grant Amount will be paid directly or indirectly to an employee or official of Metro as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Recipient in connection with any work contemplated or performed relative to this Grant Contract.

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

- D.8. **Nondiscrimination.** The Recipient hereby agrees, warrants, and assures that no person will be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Grant Contract or in the employment practices of the Recipient on the grounds of disability, age, race, color, religion, sex, national origin, or any other classification which is in violation of applicable laws. The Recipient must, upon request, show proof of such nondiscrimination and must post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.
- D.9. **Records.** The Recipient must maintain documentation for all charges to Metro under this Grant Contract. The books, records, and documents of the Recipient, insofar as they relate to work performed or money received under this Grant Contract, must be maintained for a period of three (3) full years from the date of the final payment or until the Recipient engages a licensed independent public accountant to perform an audit of its activities. The books, records, and documents of the Recipient insofar as they relate to work performed or money received under this Grant Contract are subject to audit at any reasonable time and upon reasonable notice by Metro or its duly appointed representatives. Records must be maintained in accordance with the standards outlined in the Metro Non-Profit Grants Manual. The financial statements must be prepared in accordance with generally accepted accounting principles.
- D.10. **Monitoring.** The Recipient's activities conducted and records maintained pursuant to this Grant Contract are subject to monitoring and evaluation by The Metropolitan Office of Financial Accountability or Metro's duly appointed representatives. The Recipient must make all audit, accounting, or financial records, notes, and other documents pertinent to this grant available for review by the Metropolitan Office of Financial Accountability, Internal Audit or Metro's representatives, upon request, during normal working hours.
- D.11. **Reporting.** The Recipient must submit a Quarterly Program Report to be received by Metro Public Health Department, within thirty (30) days of the end of the quarter and a Final Program Report, to be received by Metro Public Health Department, within forty-five (45) days of the end of the Grant Contract. Said reports shall detail the outcome of the activities funded under this Grant Contract.
- D.12. **Strict Performance.** Failure by Metro to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this agreement is not a waiver or relinquishment of any such term, covenant, condition, or provision. No term or condition of this Grant Contract is considered to be waived, modified, or deleted except by a written amendment by the appropriate parties as indicated on the signature page of this Grant.
- D.13. **Insurance.** The Recipient agrees to carry adequate public liability and other appropriate forms of insurance, and to pay all applicable taxes incident to this Grant Contract.
- D.14. **Metro Liability.** Metro will have no liability except as specifically provided in this Grant Contract.
- D.15. **Independent Contractor.** Nothing herein will in any way be construed or intended to create a partnership or joint venture between the Recipient and Metro or to create the relationship of principal and agent between or among the Recipient and Metro. The Recipient must not hold itself out in a manner contrary to the terms of this paragraph. Metro will not become liable for any representation, act, or omission of any other party contrary to the terms of this paragraph.
- D.16. **Indemnification and Hold Harmless.**
- a. Recipient agrees to indemnify, defend, and hold harmless Metro, its officers, agents and employees from any claims, damages, penalties, costs and attorney fees for injuries or damages arising, in part or in whole, from the negligent or intentional acts or omissions of Recipient, its officers, employees and/or agents, including its sub or independent Grantees, in connection with

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

the performance of the contract, and any claims, damages, penalties, costs and attorney fees arising from any failure of Recipient, its officers, employees and/or agents, including its sub or independent Grantees, to observe applicable laws, including, but not limited to, labor laws and minimum wage laws.

b. Metro will not indemnify, defend or hold harmless in any fashion the Recipient from any claims, regardless of any language in any attachment or other document that the Recipient may provide.

c. Recipient will pay Metro any expenses incurred as a result of Recipient's failure to fulfill any obligation in a professional and timely manner under this Contract.

d. Recipient's duties under this section will survive the termination or expiration of the grant.

D.17. **Force Majeure.** "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the party. Except as provided in this Section, any failure or delay by a party in the performance of its obligations under this Grant Contract arising from a Force Majeure Event is not a breach under this Grant Contract. The non-performing party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the party continues to use diligent, good faith efforts to resume performance without delay. Recipient will promptly notify Metro within forty-eight (48) hours of any delay caused by a Force Majeure Event and will describe in reasonable detail the nature of the Force Majeure Event.

D.18. **Iran Divestment Act.** In accordance with the Iran Divestment Act, Tennessee Code Annotated § 12-12-101 et seq., Recipient certifies that to the best of its knowledge and belief, neither Recipient nor any of its subcontractors are on the list created pursuant to Tennessee Code Annotated § 12-12-106. Misrepresentation may result in civil and criminal sanctions, including contract termination, debarment, or suspension from being a contractor or subcontractor under Metro contracts.

D.19. **State, Local and Federal Compliance.** The Recipient agrees to comply with all applicable federal, state and local laws and regulations in the performance of this Grant Contract. Metro shall have the right to terminate this Grant Contract at any time for failure of Recipient to comply with applicable federal, state or local laws in connection with the performance of services under this Grant Contract.

D.20. **Governing Law and Venue.** The validity, construction and effect of this Grant Contract and any and all extensions and/or modifications thereof will be governed by and construed in accordance with the laws of the State of Tennessee. The venue for legal action concerning this Grant Contract will be in the courts of Davidson County, Tennessee.

D.21. **Completeness.** This Grant Contract is complete and contains the entire understanding between the parties relating to the subject matter contained herein, including all the terms and conditions of the parties' agreement. This Grant Contract supersedes any and all prior understandings, representations, negotiations, and agreements between the parties relating hereto, whether written or oral.

D.22. **Headings.** Section headings are for reference purposes only and will not be construed as part of this Grant Contract.

D.23. **Severability.** In the event any provision of this Agreement is rendered invalid or unenforceable, said provision(s) hereof will be immediately void and may be renegotiated for the sole purpose of

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

rectifying the error. The remainder of the provisions of this Agreement not in question shall remain in full force and effect.

- D.24. **Metro Interest in Equipment.** The Recipient will take legal title to all equipment and to all motor vehicles, hereinafter referred to as "equipment," purchased totally or in part with funds provided under this Grant Contract, subject to Metro's equitable interest therein, to the extent of its *pro rata* share, based upon Metro's contribution to the purchase price. "Equipment" is defined as an article of nonexpendable, tangible, personal property having a useful life of more than one year and an acquisition cost which equals or exceeds Five Thousand dollars (\$5,000).

The Recipient agrees to be responsible for the accountability, maintenance, management, and inventory of all property purchased totally or in part with funds provided under this Grant Contract. Upon termination of the Grant Contract, where a further contractual relationship is not entered into, or at any time during the term of the Grant Contract, the Recipient must request written approval from Metro for any proposed disposition of equipment purchased with Grant funds. All equipment must be disposed of in such a manner as parties may agree as appropriate and in accordance with any applicable federal, state or local laws or regulations.

- D.25. **Assignment—Consent Required.** The provisions of this contract will inure to the benefit of and will be binding upon the respective successors and assignees of the parties hereto. Except for the rights of money due to Recipient under this contract, neither this contract nor any of the rights and obligations of Recipient hereunder may be assigned or transferred in whole or in part without the prior written consent of Metro. Any such assignment or transfer will not release Recipient from its obligations hereunder. Notice of assignment of any rights to money due to Recipient under this Contract must be sent to the attention of the Metro Department of Finance.

- D.26. **Gratuities and Kickbacks.** It will be a breach of ethical standards for any person to offer, give or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparations of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim or controversy in any proceeding or application, request for ruling, determination, claim or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It will be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a Sub-Grantee under a contract to the prime Grantee or higher tier Sub-Grantee or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from participation in Metropolitan Government contracts.

- D.27. **Communications and Contacts.** All instructions, notices, consents, demands, or other communications from the Recipient required or contemplated by this Grant Contract must be in writing and must be made by email transmission, or by first class mail, addressed to the respective party at the appropriate email or physical address as set forth below or to such other party, email, or address as may be hereafter specified by written notice.

D.28. Lobbying. The Recipient certifies, to the best of its knowledge and belief, that:

- a. No federally appropriated funds have been paid or will be paid, by or on behalf of the Recipient, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, and entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.
- b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this grant, loan, or cooperative agreement, the Recipient must complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- c. The Recipient will require that the language of this certification be included in the award documents for all sub-awards at all tiers (including sub-grants, subcontracts, and contracts under grants, loans, and cooperative agreements) and that all subcontractors of federally appropriated funds shall certify and disclose accordingly.

D.29. Certification Regarding Debarment and Convictions.

- a. Recipient certifies that Recipient, and its current and future principals:
 - i. are not presently debarred, suspended, or proposed for debarment from participation in any federal or state grant program;
 - ii. have not within a three (3) year period preceding this Grant Contract been convicted of fraud, or a criminal offence in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) grant;
 - iii. have not within a three (3) year period preceding this Grant Contract been convicted of embezzlement, obstruction of justice, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; and
 - iv. are not presently indicted or otherwise criminally charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in Sections D.29(a)(ii) and D.29(a)(iii) of this certification.
- b. Recipient shall provide immediate written notice to Metro if at any time Recipient learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals fall under any of the prohibitions of Section D.29(a).

D.30. Effective Date. This contract will not be binding upon the parties until it has been signed first by the Recipient and then by the authorized representatives of the Metropolitan Government and has been filed in the office of the Metropolitan Clerk. When it has been so signed and filed, this contract will be effective as of the date first written above.

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

- D.31. **Health Insurance Portability and Accountability Act.** Metro and Recipient shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and its accompanying regulations.
- a. Recipient warrants that it is familiar with the requirements of HIPAA and its accompanying regulations and will comply with all applicable HIPAA requirements in the course of this Agreement.
 - b. Recipient warrants that it will cooperate with Metro, including cooperation and coordination with Metro privacy officials and other compliance officers required by HIPAA and its regulations, in the course of performance of this Agreement so that both parties will be in compliance with HIPAA.
 - c. Recipient agrees to sign documents, including but not limited to Business Associate agreements, as required by HIPAA and that are reasonably necessary to keep Metro and Recipient in compliance with HIPAA. This provision shall not apply if information received by the Recipient from Metro under this Agreement is not "protected health information" as defined by HIPAA, or if HIPAA permits Recipient and Metro to receive such information without entering into a Business Associate agreement or signing another such document.
- D.32. **Federal Funding Accountability and Transparency Act (FFATA).** This Grant Contract requires the Recipient to provide supplies or services that are funded in whole or in part by federal funds that are subject to FFATA. The Recipient is responsible for ensuring that all applicable FFATA requirements, including but not limited to those below, are met and that the Recipient provides information to the Metro as required.

The Recipient shall comply with the following:

- a. Reporting of Total Compensation of the Recipient's Executives.
 - i. The Recipient shall report the names and total compensation of each of its five most highly compensated executives for the Recipient's preceding completed fiscal year, if in the Recipient's preceding fiscal year, it received:
 - (1) Eighty percent (80%) or more of the Recipient's annual gross revenues from Federal procurement contracts and federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and subawards); and
 - (2) Twenty-Five Million Dollars (\$25,000,000) or more in annual gross revenues from federal procurement contracts (and subcontracts), federal financial assistance subject to the Transparency Act (and subawards); and
 - (3) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. § 78m(a), 78o(d)) or § 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/execomp.htm>).

As defined in 2 C.F.R. § 170.315, "Executive" means officers, managing partners, or any other employees in management positions.

Grant contract between the Metropolitan Government of Nashville and Davidson County and Music City Prep Clinic Contract # _____

- ii. Total compensation means the cash and noncash dollar value earned by the executive during the Recipient's preceding fiscal year and includes the following (for more information see 17 CFR § 229.402(c)(2)):
 - (1) Salary and bonus.
 - (2) Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2004) (FAS 123R), Shared Based Payments.
 - (3) Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees.
 - (4) Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.
 - (5) Above-market earnings on deferred compensation which is not tax qualified.
 - (6) Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds Ten Thousand dollars (\$10,000).
- b. The Recipient must report executive total compensation described above to Metro by the end of the month during which this Grant Contract is established.
- c. If this Grant Contract is amended to extend its term, the Recipient must submit an executive total compensation report to the Metro by the end of the month in which the amendment to this Grant Contract becomes effective.
- d. The Recipient will obtain a Unique Entity Identifier and maintain its number for the term of this Grant Contract. More information about obtaining a Unique Entity Identifier can be found at: <https://www.sam.gov>.

The Recipient's failure to comply with the above requirements is a material breach of this Grant Contract for which Metro may terminate this Grant Contract for cause. Metro will not be obligated to pay any outstanding invoice received from the Recipient unless and until the Recipient is in full compliance with the above requirements.

D.33. Assistance Listing Number. When applicable, the Recipient shall inform its licensed independent public accountant of the federal regulations that require compliance with the performance of an audit. This information shall consist of the following Assistance Listing Numbers:

- a. 93.914 HIV Emergency Relief Project Grants.

BUSINESS ASSOCIATE AGREEMENT

This agreement is initiated by and between **THE METROPOLITAN GOVERNMENT OF NASHVILLE AND DAVIDSON COUNTY (METRO)**, a metropolitan form government organized and existing under the laws and constitution of the State of Tennessee ("**Metro**" or "**Covered entity**") and **Music City Prep Clinic** ("**Business Associate**").

SECTION 1 – DEFINITIONS

- a. **Business Associate.** "Business Associate" shall generally have the same meaning as the term "Business Associate" in 45 CFR § 160.103, and in reference to the party to this agreement, shall mean **Music City Prep Clinic**.
- b. **Covered Entity.** "Covered Entity" shall generally have the same meaning as the term "covered entity" at 45 CFR § 160.103, and in reference to the party to this agreement, shall mean **Metro**, which must fall under one of the following categories:
 - (1) A health plan.
 - (2) A health care clearinghouse.
 - (3) A health care provider who transmits any health information in electronic form in connection with a transaction covered by this subchapter.
- c. **Disclosure.** "Disclosure" means the release, transfer, provision of access to, or divulging in any manner of information outside the entity holding the information.
- d. **Electronic Media.** "Electronic Media" shall have the same meaning as set forth in 45 CFR § 160.103.
- e. **Employer.** "Employer" is defined as it is in 26 U.S.C. § 3401(d).
- f. **Genetic Information.** "Genetic Information" shall have the same meaning as set forth in 45 CFR § 160.103.
- g. **HITECH Standards.** "HITECH Standards" means the privacy, security and security Breach notification provisions under the Health Information Technology for Economic and Clinical Health (HITECH) Act, Final Rule of 2013, and any regulations promulgated thereunder.

- h. **Individual.** "Individual" shall have the same meaning as set forth in 45 CFR § 160.103 and shall include a person who qualifies as a personal representative in accordance with 45 CFR § 164.502(g).
- i. **Person.** "Person" means a natural person, trust or estate, partnership, corporation, professional association or corporation, or other entity, public or private.
- j. **Privacy Rule.** "Privacy Rule" shall mean the Standards for Privacy of Individually Identifiable Health Information at 45 CFR Part 160 and Part 164, Subparts A and E.
- k. **Protected Health Information.** "Protected Health Information" or "PHI":
 - (1) Shall have the same meaning as set forth in 45 CFR § 160.103.
 - (2) Includes, as set forth in 45 CFR § 160.103, any information, *now also including genetic information*, whether oral or recorded in any form or medium, that:
 - (i) Is created or received by a health care provider, health plan, public health authority, employer, life insurer, school or university, or health care clearinghouse; and
 - (ii) Relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual.
- l. **Required By Law.** "Required By Law" shall have the same meaning as the term "required by law" in 45 CFR § 164.103.
- m. **Secretary.** "Secretary" shall mean the Secretary of the Department of Health and Human Services or his designee.
- n. **Security Rule.** "Security Rule" shall mean the Standards for Security of Individually Identifiable Health Information at 45 CFR part 160 and subparts A and C of part 164.
- o. **Subcontractor.** "Subcontractor" means a person to whom a business associate delegates a function, activity, or service, other than in the capacity of a member of the workforce of such business associate.

- p. **Transaction.** "Transaction" shall have the same meaning as set forth in 45 CFR § 160.103.
- q. **Catch-all definition.** Terms used but not otherwise defined in this Agreement shall have the same meaning as the meaning ascribed to those terms in the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), the Health Information Technology Act of 2009, as incorporated in the American Recovery and Reinvestment Act of 2009 ("HITECH Act"), implementing regulations at 45 Code of Federal regulations Parts 160-164 and any other current and future regulations promulgated under HIPAA or the HITECH Act.

SECTION 2 - OBLIGATIONS AND ACTIVITIES OF BUSINESS ASSOCIATE

- a. **Permitted Uses of Protected Health Information.** Business Associate shall not use or disclose Protected Health Information other than as permitted or required by this Agreement or as Required by Law. Business Associate may: 1) use and disclose PHI to perform its obligations under its contract with Metro; (2) use PHI for the proper management and administration of Business Associate; and (3) disclose PHI for the proper management and administration of Business Associate, if such disclosure is required by law or such disclosure is authorized by Metro.
- b. **Safeguards.** Business Associate shall use appropriate administrative, physical and technical safeguards to prevent use or disclosure of the Protected Health Information other than as provided for by this Agreement. Business Associate shall develop and implement policies and procedures that comply with the Privacy Rule, Security Rule, and the HITECH Act. The Business Associate must obtain satisfactory assurances that any subcontractor(s) will appropriately safeguard PHI.
- c. **Mitigation.** Business Associate shall mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of Protected Health Information by Business Associate in violation of the requirements of this Agreement.
- d. **Notice of Use or Disclosure, Security Incident or Breach.** Business Associate shall notify Metro of any use or disclosure of PHI by Business Associate not permitted by this Agreement, any Security Incident (as defined in 45 C.F.R. section 164.304) involving Electronic PHI, and any Breach of Protected Health Information within five (5) business days.

- (i) Business Associate shall provide the following information to Metro within ten (10) business days of discovery of a Breach except when despite all reasonable efforts by Business Associate to obtain the information required, circumstances beyond the control of the Business Associate necessitate additional time. Under such circumstances, Business Associate shall provide to Metro the following information as soon as possible and without unreasonable delay, but in no event later than thirty (30) calendar days from the date of discovery of a Breach:
 - (1) The date of the Breach;
 - (2) The date of the discovery of the Breach;
 - (3) A description of the types of PHI that were involved;
 - (4) identification of each individual whose PHI has been, or is reasonably believed to have been, accessed, acquired, or disclosed; and
 - (5) Any other details necessary to complete an assessment of the risk of harm to the Individual.
- (ii) Business Associate shall cooperate with Metro in investigating the breach and in meeting Metro's notification obligations under the HITECH Act and any other security breach notification laws.
- (iii) Business Associate agrees to pay actual costs for notification after a determination that the Breach is significant enough to warrant such measures.
- (iv) Business Associate agrees to establish procedures to investigate the Breach, mitigate losses, and protect against any future Breaches, and to provide a description of these procedures and the specific findings of the investigation to Metro in the time and manner reasonably requested by Metro.
- (v) Business Associate shall report to Metro any successful: (1) unauthorized access, use, disclosure, modification, or destruction of Electronic Protected Health Information; and (2) interference with Business Associate's information systems operations, of which Business Associate becomes aware.

- e. **Compliance of Agents.** Business Associate agrees to ensure that any agent, including a subcontractor, to whom it provides Protected Health Information received from, or created or received by Business Associate on behalf of Metro, agrees to the same restrictions and conditions that apply through this Agreement to Business Associate with respect to such information.
- f. **Access.** Business Associate agrees to provide access, at the request of Metro, and in the time and manner designated by Metro, to Protected Health Information in a Designated Record Set, to Metro or, as directed by Metro, to an Individual, so that Metro may meet its access obligations under 45 CFR § 164.524, HIPAA and the HITECH Act.
- g. **Amendments.** Business Associate agrees to make any amendment(s) to Protected Health Information in a Designated Record Set that Metro directs or agrees at the request of Metro or an Individual, and in the time and manner designated by Metro, so that Metro may meet its amendment obligations under 45 CFR § 164.526, HIPAA and the HITECH Act.
- h. **Disclosure of Practices, Books, and Records.** Business Associate shall make its internal practices, books, and records relating to the use and disclosure of Protected Health Information received from, or created or received by Business Associate on behalf of, Metro available to Metro, or at the request of Metro to the Secretary, in a time and manner designated by Metro or the Secretary, for purposes of determining Metro's compliance with the HIPAA Privacy Regulations.
- i. **Accounting.** Business Associate shall provide documentation regarding any disclosures by Business Associate that would have to be included in an accounting of disclosures to an Individual under 45 CFR § 164.528 (including without limitation a disclosure permitted under 45 CFR § 164.512) and under the HITECH Act. Business Associate shall make the disclosure Information available to Metro within thirty (30) days of Metro's request for such disclosure Information to comply with an individual's request for disclosure accounting. If Business Associate is contacted directly by an individual based on information provided to the individual by Metro and as required by HIPAA, the HITECH Act or any accompanying regulations, Business Associate shall make such disclosure Information available directly to the individual.
- j. **Security of Electronic Protected Health Information.** Business Associate agrees to: (1) implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of the Electronic Protected Health Information that it creates, receives, maintains or transmits on behalf of Metro; (2) ensure that any agent, including a subcontractor, to whom it provides such information agrees to implement reasonable and appropriate safeguards to protect it; and (3) report to Metro any security incident of which it becomes aware.

- k. **Minimum Necessary.** Business Associate agrees to limit its uses and disclosures of, and requests for, PHI: (a) when practical, to the information making up a Limited Data Set; and (b) in all other cases subject to the requirements of 45 CFR 164.502(b), to the minimum amount of PHI necessary to accomplish the intended purpose of the use, disclosure or request.
- l. **Compliance with HITECH Standards.** Business Associate shall comply with the HITECH Standards as specified by law.
- m. **Compliance with Electronic Transactions and Code Set Standards:** If Business Associate conducts any Standard Transaction for, or on behalf, of Metro, Business Associate shall comply, and shall require any subcontractor or agent conducting such Standard Transaction to comply, with each applicable requirement of Title 45, Part 162 of the Code of Federal Regulations. Business Associate shall not enter into, or permit its subcontractor or agents to enter into, any Agreement in connection with the conduct of Standard Transactions for or on behalf of Metro that:
 - (i) Changes the definition, Health Information condition, or use of a Health Information element or segment in a Standard;
 - (ii) Adds any Health Information elements or segments to the maximum defined Health Information Set;
 - (iii) Uses any code or Health Information elements that are either marked “not used” in the Standard’s Implementation Specification(s) or are not in the Standard’s Implementation Specifications(s); or
 - (iv) Changes the meaning or intent of the Standard’s Implementations Specification(s).
- n. **Indemnity.** Business Associate shall indemnify and hold harmless Metro, its officers, agents and employees from and against any claim, cause of action, liability, damage, cost or expense, including attorneys’ fees, arising out of or in connection with any non-permitted use or disclosure of Protected Health Information or other breach of this Agreement by Business Associate or any subcontractor or agent of the Business Associate.

SECTION 3 - OBLIGATIONS OF METRO

- a. Metro shall notify Business Associate of any changes in, or revocation of, permission by Individual to use or disclose Protected Health Information, to the extent that such changes may affect Business Associate’s use or disclosure of Protected Health Information.

- b. Metro shall notify Business Associate of any restriction to the use or disclosure of Protected Health Information that Metro has agreed to in accordance with 45 CFR § 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of Protected Health Information.

SECTION 4 – TERM, TERMINATION AND RETURN OF PHI

- a. **Term.** The Term of this Agreement shall be effective when file in the office of the Metropolitan Clerk and shall terminate when all of the Protected Health Information provided by Metro to Business Associate, or created or received by Business Associate on behalf of Metro, is destroyed or returned to Metro, or, if it is infeasible to return or destroy Protected Health Information, protections are extended to such information, in accordance with the termination provisions in this section. The maximum length of the effective term of the contract is sixty (60) months from the effective date.
- b. **Termination for Cause.** Upon Metro's knowledge of a material breach by Business Associate, Metro shall provide an opportunity for Business Associate to cure the breach or end the violation. Metro may terminate this Agreement between Metro and Business Associate if Business Associate does not cure the breach or end the violation within fourteen (14) days. In addition, Metro may immediately terminate this Agreement if Business Associate has breached a material term of this Agreement and cure is not feasible.
- c. **Obligations on Termination.**
 - (i) Except as provided in subsection (ii), upon termination of this Agreement, for any reason, Business Associate shall return or destroy as determined by Metro, all Protected Health Information received from Metro, or created or received by Business Associate on behalf of Metro. This provision shall apply to Protected Health Information that is in the possession of subcontractor or agents of the Business Associate. Business Associate shall retain no copies of the Protected Health Information. Business Associate shall complete such return or destruction as promptly as possible, but no later than sixty (60) days following the termination or other conclusion of this Agreement. Within such sixty (60) day period, Business Associate shall certify on oath in writing to Metro that such return or destruction has been completed.

- (ii) In the event that Business Associate determines that returning or destroying the Protected Health Information is infeasible, Business Associate shall provide to Metro notification of the conditions that make return or destruction infeasible. Upon mutual agreement of the Parties that return or destruction of Protected Health Information is infeasible, Business Associate shall extend the protections of this Agreement to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such Protected Health Information. If Metro does not agree that return or destruction of Protected Health Information is infeasible, subparagraph (i) shall apply. Business Associate shall complete these obligations as promptly as possible, but no later than sixty (60) days following the termination or other conclusion of this Agreement.

Section 5 – Miscellaneous

- a. **Regulatory References.** A reference in this Agreement to a section in HIPAA or the HITECH Act means the section as in effect or as amended, and for which compliance is required.
- b. **Amendment.** The Parties agree to take such action as is necessary to amend this Agreement from time to time as is necessary for Metro to comply with the requirements of HIPAA or the HITECH Act and any applicable regulations in regard to such laws.
- c. **Survival.** The respective rights and obligations of Business Associate shall survive the termination of this Agreement.
- d. **Interpretation.** Any ambiguity in this Agreement shall be resolved in favor of a meaning that permits Metro to comply with HIPAA or the HITECH Act or any applicable regulations in regard to such laws.
- e. **Governing Law.** The validity, construction, and effect of this Agreement and any and all extensions and/or modifications thereof shall be governed by the laws of the State of Tennessee. Tennessee law shall govern regardless of any language in any attachment or other document that Business Associate may provide.
- f. **Venue.** Any action between the parties arising from this Agreement shall be maintained in the courts of Davidson County, Tennessee.

Music City PrEP Clinic
Nashville Metro Health
Ryan White Part A & MAI Proposal

A Bold Approach to Ending the HIV Epidemic in Uncertain Times

Music City PrEP Clinic
Nashville Metro Health's Ryan White HIV/AIDS Program (RWHAP) Part A and
Minority AIDS Initiative (MAI)

Summary

Music City PrEP Clinic (MCPC), a **Nashville-based sexual health and wellness clinic** dedicated to the **elimination and treatment of HIV**, will leverage the **Ryan White Part A (RWPA) network** to expand access to **comprehensive HIV care and support services**.

MCPC provides Early Intervention Services (EIS), Outpatient Medical Care, Medical and Non-Medical Case Management (MCM & NMCM), and essential support services, but the **lack of RWPA participation requires the clinic to refer away RWPA-eligible patients seeking RWPA-funded wraparound services that the clinic does not or cannot provide**. In the past year alone, over 100 RWPA-eligible patients who would have otherwise benefited from comprehensive HIV care at MCPC reluctantly transferred their healthcare to RWPA network providers in order to receive RWPA-funded wraparound services. By joining the RWPA network, MCPC will be able to provide RWPA-eligible patients an additional option to exercise their choice for high-quality, service-centric care.

RWPA funding enables MCPC to offer exclusive RWPA services that it is currently barred from providing, ensuring that RWPA-eligible patients can receive rapid Antiretroviral Therapy (ART) initiation, transportation assistance, food security support, housing referrals, access to specialized care, and [Great Experiences](#) directly through MCPC.

Last year, Music City Prep Clinic (MCPC) spent \$502,000 on Antiretroviral Therapy (ART) for our patients. Based on our projected growth, we anticipate an increase in the number of ART patients by over 100 individuals and 800 appointments. Consequently, we expect the total costs for ART to rise to \$603,297, which will cover both direct patient care as well as all associated support and wraparound services. MCPC will continue to cover 100% of the ART costs for the projected level of active patients.

We are intimately aware of recent RWPA funding uncertainty and do not wish our application to further destabilize the fragile funding ecosystem within our local HIV/AIDS healthcare community. As a result, we request a \$19,200 RWPA grant to recognize our independently funded and ongoing efforts and accomplishments. A modest grant is meaningful in that it enables our participation in the RWPA network. This approach eliminates the need for Metro Health to redistribute scarce RWPA funds among competing incumbent applicants and fosters the primacy of the principle of Patient Choice—patients should be able to choose their health care provider based on their preference. The Ryan White program should expand the options for patient choice, not limit patients to choosing among a small group of participating providers. That said, MCPC will provide a \$17.71 match to any dollar received from a RWPA award to further bolster our planned efforts.

It has been an honor to be part of this collaborative effort, working alongside the Ryan White network, community partners, and stakeholders to ensure that no eligible individual

Music City PrEP Clinic A. Organization and Team

Music City PrEP Clinic
Nashville Metro Health
Ryan White Part A & MAI Proposal

is denied life-saving HIV care and support delivered with our unmatched Great Experiences by Design. **Our participation in the RWPA network furthers the community goal of providing more options for PLWH to exercise their choice as patients to choose their providers.**

A) Organization & Team Qualifications

D) Organization Background:

1) MCPC Background

Music City PrEP Clinic (MCPC), established in 2017 as a federal 340B STD covered entity is a sexual health and wellness clinic dedicated to eliminating new HIV transmissions in Nashville and Middle Tennessee.

Our differentiator in the marketplace of healthcare options is our [Philosophy of Service](#) which recognizes that it is [Great Experiences by Design](#) that bring patients to us and keep them coming back. The design process begins with a deep understanding of our mission (ending HIV in Nashville and middle TN), purpose (fostering sex esteem), and vision (a world where we can have sex without fear and love without stigma).

This understanding of why we exist as an organization today and tomorrow, enables us to manifest our Philosophy of Service through trust building, courtesy, showcraft, and efficiency. These prioritized service essentials define how we do what we do. And finally, we create [Great Experiences by Design](#) for our patients and our staff intentionally, so that they happen every time.

We hold ourselves accountable to high standards through [regular surveys](#), investigations, service gap recovery, and experience improvement initiatives. We initially operated with minimal resources but we were possessed by a meaningful and impactful mission, purpose, vision, and philosophy of service.

MCPC has grown into **Tennessee's leading provider of Pre-Exposure Prophylaxis (PrEP) services**. Since 2019, we have provided PrEP care and sexual health services to **more than 20,000 patients**. According to Southeast AIDS Education & Training Center (SEAETC), "MCPC played a significant role in Tennessee's meteoric rise from the bottom tier of the country to the Top five states leading the nation in PrEP use rates in 2021. It's worthwhile noting that it is not the state of Tennessee that actually appears in the #4 spot, but Nashville/Davidson County punching above its weight as if it were a state in its own right--besting the states of Nevada and Massachusetts in the Top 5 and the other 45 states ranked below them (Fig. 1). As nearly a third of new HIV infections in TN are diagnosed in Davidson County, this feat clearly has substantial impacts in reducing new infections in the state." ([Local Response Plan](#), 2023). Note that the bottom 5 states, with exception of Puerto Rico, are TN's neighbors and where TN likely would have remained (Fig. 2).

Figure 1. Tennessee's Davidson county has a PrEP use rate higher than the top 4 states; this is largely due to MCPC's success. (Source: SEAETC)

Figure 2. Tennessee would have likely been within the lowest 5 PrEP-to-Need ratio had Davidson County not outperformed in PrEP usage. (Source: SEAETC)

Recognizing that ending the HIV epidemic requires comprehensive care, MCPC expanded its services in 2021 to include ART for individuals living with HIV. With training, mentoring, and guidance from the **Vanderbilt Comprehensive Care Clinic (CCC) Practice Transformation program** and the SEAETC, (see letters of support attached in the appendix), we launched our ART program, treating our first patient in July

2021. By November 2021, we had introduced case management and care navigation services. In 2024, MCPC provided **ART care to 413 unique patients** and served a **total of 6,789 active patients across all service lines**, including ART, PrEP, and STI services.

MCPC offers judgement-free, little to no-cost lab testing for HIV and bacterial STIs, as well as hepatitis A, B, and C testing. Our goal is to provide our services at the lowest cost possible to our patients, with many experiencing no out-of-pocket expenses. If cost is ever an issue, our friendly financial aid specialists and our “Bill Slayer” are available to help ensure that we bring [Great Experiences by Design](#), even to medical billing.

Our mission aligns seamlessly with the objectives of the Nashville Metro Health Ryan White Part A and Minority AIDS Initiative (MAI) services. By offering comprehensive, accessible, and stigma-free care, MCPC is well-positioned to contribute significantly to the health and well-being of people living with HIV/AIDS in the Nashville area.

2) Existing HIV Counseling and Testing Capacity

MCPC operates a high-volume HIV counseling and testing service embedded within our PrEP/STI service model, with an average **daily load of approximately 53 patients with peak loads as high as 74**. Testing is integrated seamlessly with sexual health screenings, ensuring same-day access to HIV testing, prevention, and linkage to care. Our HIV testing services are confidential, rapid, and service-centric, with a focus on early detection and immediate linkage to treatment or prevention strategies.

HIV Counseling & Testing Process

1. HIV Testing Workflow

- Routine rapid HIV testing is conducted alongside STI screenings, providing results within 20 minutes.
- Confirmatory testing (if necessary) is drawn the same day, with results delivered in person at a followup appointment, ensuring patients receive immediate next steps.
- Patients who test negative but are at risk are immediately counseled and linked to PrEP services.
- Patients who test positive are seamlessly transitioned to care navigation and case management.

2. Capacity for HIV Clinical Care (ART) Services

- ART providers currently have a maximum patient load of 16 patients per clinical day.
- Clinical encounters follow a comprehensive HIV care protocol, ensuring that patients receive medical evaluation, adherence support, and wrap-around services.
- Care navigation and case management teams play an active role in providing psychosocial support, benefits enrollment, and addressing social determinants of health.

3. Case Management & Patient Navigation

- Case managers (navigators) support in-clinic patients by facilitating access to care, addressing social and medical needs, and ensuring retention in services.
- Patient encounters include assistance with housing, transportation, mental health, and insurance enrollment.
- Daily coordination occurs to proactively address barriers to care and facilitate continuity of services.

4. Wrap-Around Services & Community Partnerships

- MCPC collaborates with community-based organizations and social service providers to ensure holistic patient support.
- Existing community partnerships provide wrap-around services in the realms of transportation assistance, as well as inpatient and outpatient rehabilitation for substance use disorders.
- Our referral system ensures that patients have access to comprehensive support beyond clinical care, improving health outcomes and retention.

MCPC's integrated **HIV counseling, testing, and treatment services** align with best practices in **early detection, rapid linkage to care, and retention in HIV treatment**. Through high-capacity testing, structured clinical protocols, and strong community partnerships, MCPC is well-positioned and resourced to meet the needs of people living with HIV in the Nashville Metro area.

3) Alignment with MCPC's Mission & Capabilities

MCPC was founded with the mission of eliminating new HIV transmissions in the Nashville Metropolitan area by providing accessible, high-quality, and **service-centric care**. Adding Ryan White Part A service lines would enhance MCPC's ability to deliver comprehensive support under one roof, reducing the need for external referrals and ensuring seamless access to medical case management, social services, and adherence support.

MCPC is well-positioned and resourced to integrate Ryan White Part A guidance and services into its existing infrastructure, with its passionate team of clinical case managers, experienced AAHIVM-certified providers, and support staff trained in HIV care and social service coordination. Our electronic medical records system is capable of tracking patient outcomes and ensuring compliance with HRSA reporting requirements. By participating in the Ryan White network, MCPC will be able to coordinate, report and improve network-wide retention, enhance viral suppression rates across the network, and expand access to care and **Great Experiences** for uninsured and underinsured individuals who may otherwise struggle to navigate fragmented healthcare systems.

Bringing Ryan White services in-house aligns perfectly with MCPC's **Philosophy of Service, Great Experiences by Design**, and mission to reduce new HIV transmissions while improving health outcomes and experiences for people living with HIV. Our experience in HIV prevention and treatment, combined with our existing case management capabilities, makes us an ideal provider to expand Ryan White services in the Nashville Metro area. With the staff, expertise, and operational readiness already in place, **MCPC is already delivering high-quality HIV care that exceeds community expectations and**

advances the objectives of the Ryan White program and Metro Nashville EHE Committee.

4) Alignment with the Program's Requirements

MCPC has a strong foundation in delivering high-quality HIV care and meeting the rigorous requirements of the Ryan White Part A program. Our clinical leadership brings extensive experience in providing HIV treatment and wrap-around services, ensuring that we can successfully implement and maintain program expectations. Our Medical Director, **Dr. Peter Cathcart**, previously worked in a Ryan White-sponsored ART institution (Neighborhood Health) in the Nashville area, equipping him with the necessary expertise to guide our providers in delivering evidence-based HIV care. Additionally, our Clinic Operations Director, **Jason Butler (MHA, NP)**, has a background in Ryan White-funded programs across multiple Federally Qualified Health Centers (FQHCs), offering expertise in quality improvement, clinical operations, and program compliance. Their deep understanding of grant timelines, reporting requirements, and specialized software platforms provides the structure needed for a seamless transition into the Ryan White Part A program.

MCPC is well-prepared to integrate Ryan White requirements into our existing framework, ensuring compliance from the outset. Our training department is positioned to facilitate rapid dissemination of program changes within both provider and care management workspaces, enabling immediate implementation upon the grant award on February 25, 2025. With support from our IT team, we have already begun assessing how to integrate CareWARE utilization and data capture to streamline reporting and enhance patient tracking. Our proactive approach to system adjustments and workflow integration will ensure a smooth adoption of Ryan White protocols, improving service delivery and data integrity.

Furthermore, MCPC has identified dedicated personnel to oversee Ryan White deliverables and **continuous quality improvement initiatives**, reinforcing our commitment to maintaining the highest standards of patient care. Our team's ability to anticipate and adapt to evolving program requirements will support long-term sustainability and continuous enhancement of services for people living with HIV. Metro Health's pre-award on-site visit will affirm that our facilities, staff, and operational infrastructure align with the program's expectations, demonstrating our readiness to become a strong Ryan White Part A participant.

II) Organization Capacity:

1) Organization Documentation and Description

MCPC is a 501(c)(3) non-profit organization incorporated in Tennessee, with the mission to treat existing cases of HIV and eliminate new transmissions in the greater Nashville area. As part of this grant application, the following documents are provided in the appendix:

- Articles of Incorporation
- 501(c)(3) Non-Profit Designation Documentation
- Current Tennessee Charitable Solicitations Letter

- System for Award Management (SAM) Exclusion Report

MCPC's organizational structure is depicted in Figure 3, clearly identifying the program components potentially funded by RWPA. MCPC is led by **Richard MacKinnon** as the Executive Director who will serve as the **Subrecipient Lead** for this project. Rich founded MCPC with friends and community members as a way of increasing PrEP access and uptake among gay men in a healthcare setting designed for and operated by gay men. This understanding of creating healthcare experiences that are [Great Experiences by Design](#) for a particular demographic is fundamental to the rapid growth and successful outcomes at MCPC. Rich has been appointed by the Metro Nashville Mayor to serve for two consecutive terms on the Ending the HIV Epidemic Advisory Council.

As much as Ryan White participation can bring to MCPC's existing and future services, it is Rich's aspiration that MCPC can bring the power of [Great Experiences by Design](#) to the Ryan White community.

Financial management of MCPC is overseen by **Monica Pintado**, who will act as the Project's Finance Manager. Monica holds an MBA from the University of Phoenix and an accounting degree from Pace University, with nearly two decades of accounting and controller experience. Monica's resume, along with her detailed job description, is included in the appendix.

Figure 3. MCPC's Organizational Chart. Staff directly supporting Ryan White Part A (RWPA) are indicated by colored shading.

All physicians and licensed healthcare professionals at MCPC are contracted through Music City Physicians Group, which provides independent malpractice insurance coverage for clinical staff. This arrangement, commonly used in non-profit healthcare organizations, helps to protect the core entity by ensuring that malpractice claims are

managed separately from the non-profit's operational and financial responsibilities. This structure allows MCPC to maintain its focus on mission-driven work while ensuring comprehensive risk management for its healthcare providers. Our Director of Clinical Operations, along with other non-clinical staff, are employed by Rod Bragg Diversity Health (RBDH), a Management Services Organization (MSO) that provides administrative and management services to MCPC under the direct oversight and control of MCPC's Executive Director and Board of Directors.

Additionally, Monica Pintado, the Finance Manager, is contracted through IronClad Consulting Services, which provides specialized financial management support to ensure compliance with grant and regulatory requirements. These contractual arrangements have been in place to staff MCPC's general operations for years and are not specific to the grant award.

2) MCPC's Experience Administering Government Funds

MCPC has a growing track record in the administration of federal- and state-funded programs, demonstrating strong fiscal management, compliance with grant requirements, and effective program implementation. MCPC currently administers funding through the Southeast AIDS Education & Training Center (SEAETC), which supports clinical education and training initiatives related to HIV care. This partnership reflects MCPC's capacity to manage government-related funds with a focus on accountability, accurate reporting, and performance-based outcomes. Brice Thomas (MDiv, DMin), ART Clinical Care Manager, oversees SEAETC fund management, ensuring compliance with grant conditions and deliverables.

In the past five years, MCPC has not faced any restrictions from receiving federal funds and has not been placed on restrictive measures such as increased reporting or monitoring visits due to compliance issues. This record reflects the organization's strong internal controls, robust financial oversight, and dedication to maintaining federal standards in grant administration.

MCPC has had a single corrective action plan within the last three years. This came from a routine 340B HRSA Audit in KY during April 2024 related to a defunct pharmacy listing discovered in the OPAIS database. We corrected the error by deleting the listing. Otherwise, there have been no other audit findings related to meeting grant requirements.

MCPC's proactive approach to risk management and internal auditing identifies and mitigates potential issues.

Although MCPC is not currently a Ryan White Part A provider, the organization has demonstrated effective performance with SEAETC funds and other grants. A letter of reference from SEAETC is provided in the appendix to validate MCPC's strong track record in managing allocated grant funds responsibly.

Additionally, MCPC's most recent IRS Form 990 is included in the appendix. This record confirms the organization's adherence to financial management standards required for federal grant recipients.

MCPC's experience, combined with its solid infrastructure for grant management, positions the organization to effectively administer Ryan White Part A funds, ensuring programmatic success and financial integrity.

3) MCPC's data collection and utilization system

MCPC utilizes a comprehensive, multi-platform data collection system to manage client demographics, service utilization, and performance data. This system supports robust data analysis, quality improvement initiatives, and compliance with reporting requirements for federal, state, and local funding programs.

MCPC's primary electronic health record (EHR) system is AthenaOne, which captures and manages patient demographics, clinical encounters, lab results, and service utilization data. AthenaOne allows for real-time data entry by clinical and administrative staff, ensuring accurate and up-to-date information. This system supports the generation of detailed reports on patient outcomes, adherence to care plans, and performance metrics aligned with grant requirements.

In addition to AthenaOne, MCPC employs BWell, a Management Information System (MIS) platform used to manage specific programmatic data related to patient engagement, outreach activities, and case management. BWell enhances MCPC's ability to track patient interactions beyond clinical encounters, providing valuable insights into patient needs, service delivery effectiveness, and [Great Experiences](#).

MCPC also utilizes Avita Care Connect, which supports pharmacy-related data, including medication adherence, prescription management, and pharmacy service utilization. This system integrates with clinical data to provide a comprehensive view of patient care, particularly for individuals on ART and PrEP.

Data collection and reporting are decentralized across MCPC's departments, with each department responsible for running and validating reports relevant to their operations. This approach allows for specialized oversight of data quality while maintaining organizational accountability. Staff involved in data collection include clinical data coordinators, case managers, quality improvement (QI) personnel, and IT support staff, all of whom are trained in data entry, validation, and reporting processes.

From a hardware perspective, MCPC utilizes secure, HIPAA-compliant servers and encrypted devices for data storage and access. Staff workstations are equipped with secure login protocols, and data access is role-based to maintain confidentiality and data integrity.

As part of the Ryan White Part A program, MCPC plans to integrate CAREWare into its data infrastructure. Preliminary assessments have been conducted to ensure data migration capabilities and system compatibility with existing platforms. This integration will enhance MCPC's ability to track Ryan White-specific metrics, support continuous quality improvement (CQI) activities, and meet all reporting requirements set by Metro Health and HRSA.

MCPC's data collection systems, combined with dedicated staff and secure technological infrastructure, ensure accurate, timely, and reliable data for monitoring program performance and improving health outcomes for people living with HIV.

4) MCPC's Fiscal System

MCPC employs an accrual basis of accounting, in compliance with generally accepted accounting principles (GAAP), to ensure that all revenues are recognized when earned, and expenses are recorded when incurred. This method offers an accurate and comprehensive view of the organization's financial position, aligning with HRSA National Monitoring Standards and the Nashville TGA Standards of Care. These standards require

strict tracking of funds to ensure that they are spent in accordance with the approved budget categories, such as Outpatient Ambulatory Care, Medical Case Management, and Early Intervention Services, all of which are integral to the services provided under the Ryan White Part A funding.

Expenditures related to the Ryan White Part A Program will be tracked through QuickBooks, which is utilized by MCPC for all income and expenses. We utilize project-based accounting in Quickbooks to produce separate project-specific profit & loss (P&L) statements and budget vs. actual (BvA) reports, which will allow for precise monitoring and reporting of the program's financial performance. Each expense is categorized under the appropriate project, ensuring that funds are properly allocated and documented.

For the Accounts Payable (AP) process, MCPC uses Bill.com, which streamlines and automates the invoice approval process. Invoices and supporting documentation are submitted through Bill.com, where they are reviewed and approved by at least two individuals—the department director and the controller—before payment is processed. This dual-approval system is integrated within Bill.com, helping ensure that no payments are made without proper oversight. The Bill.com approval workflow provides a clear and auditable trail of approvals, maintaining transparency and accountability for all expenditures, in line with the program's fiscal management requirements.

To ensure internal control and safeguard MCPC's financial assets, all records are securely stored in Google Drive and organized by fiscal year and vendor, making them accessible for future audits and reviews. Our internal controls include regular reconciliation of all transactions and accounts by the accounting department and periodic oversight by the Executive Director, ensuring all financial practices meet HRSA's and Nashville TGA's fiscal management expectations.

MCPC also adheres to comprehensive audit procedures. The organization undergoes an annual audit conducted by an independent CPA firm, in line with the financial oversight requirements outlined in the Ryan White Part A Program Manual. Detailed financial reports are provided monthly to the Executive Director and also presented to the Board during each monthly Board meeting, ensuring transparency and accountability in the use of program funds. Additionally, MCPC has successfully participated in a routine HRSA audit of its 340B operations and conducts annual mock HRSA audits to ensure the highest level of compliance.

5) MCPC's reporting process

MCPC has established a robust, multi-tiered reporting process to ensure that program reports are completed accurately, efficiently, and on time. Our reporting framework is designed to support compliance with grant requirements, monitor clinical performance, and drive continuous quality improvement across all service lines.

Responsibility for reporting is clearly assigned to designated staff members based on their roles within the organization. Clinical data reports, including metrics related to laboratory results, patient visits, and service utilization, are generated weekly to track key performance indicators. In addition, daily reports focused on clinical utilization are conducted by the Quality Assurance (QA) team to monitor service delivery and identify trends or areas for improvement. Staff responsible for report generation undergo formal

training provided by our Training and IT departments and must demonstrate proficiency before being authorized to manage reporting tasks. This includes hands-on instruction from the Medical Director, Clinical Operations Director, and Nurse Informaticist, ensuring a strong foundation in data management and analysis.

Data validation and accuracy are critical components of MCPC's reporting process. Reports generated through AthenaOne, our electronic health record (EHR) system, are routinely validated through chart checks to confirm data precision. This process ensures that reported information aligns with actual clinical documentation. Executive leadership, including the Executive Director and the Directors of the respective departments, plays an active role in reviewing reports for accuracy and providing oversight to maintain data integrity. Reports undergo a multi-level review process, where data is cross-verified between clinical documentation, EHR outputs, and manual audits when necessary.

To maintain timeliness, MCPC utilizes automated reporting schedules within AthenaOne, allowing key reports to run regularly without manual intervention. For emerging quality improvement (QI) or QA needs, ad-hoc reports are generated on-demand to address specific data inquiries or operational concerns. Analysis of daily and monthly performance trends and KPI's are discussed during bi-weekly executive-level Data Talks. This flexibility allows MCPC to respond quickly to both internal and external reporting requirements, supporting **a culture of data-driven decision-making.**

Ultimately, accountability for timely report submission rests with department leads, who coordinate closely with the executive leadership team to ensure that deadlines are met. Regular check-ins, internal audits, and cross-departmental collaboration reinforce MCPC's commitment to accurate, comprehensive, and timely reporting for all clinical and programmatic activities.

III) Cultural and Linguistic Competency:

MCPC is deeply committed to cultural and linguistic competency, recognizing that effective HIV care must be rooted in an understanding of the diverse communities we serve. Our approach is guided by the principles of cultural humility, health equity, and service-centric care, ensuring that our [Great Experiences by Design](#) are delivered with sensitivity to the cultural beliefs, languages, and lived experiences of our patients. Through [Mission-Purpose-Vision \(MPV\)](#)-driven leadership, strategic community partnerships, and comprehensive staff training, MCPC fosters an inclusive environment where individuals from all backgrounds feel respected, heard, and supported. This commitment extends to our service delivery, outreach efforts, and internal policies, all designed to build trust, reduce health disparities and promote equitable access to care for marginalized and underserved populations.

1) MCPC's Cultural Competency

MCPC operates with a deep understanding of the diverse populations disproportionately impacted by HIV, particularly marginalized and minority communities across Nashville and surrounding areas. Our commitment to cultural competency is embedded in every aspect of our work, ensuring that our services are delivered with sensitivity, respect, and awareness of the unique challenges faced by the people we serve. Mr. **Steven Ogooue**, Community Relations Director, attended Morehouse College and

studied medicine at Meharry Medical College. He leads our efforts in fostering meaningful relationships within the Black and African American communities throughout Nashville and Kentucky. Through his leadership, MCPC has built trust with historically underserved populations, utilizing culturally relevant outreach strategies such as presentations at Historically Black Colleges and Universities (HBCUs) and active participation in community events and health fairs across the region, including financially supporting the Music City ACC Ball for each of its 3 years in existence, culminating in a ballroom demonstration, panel presentation including Billy Porter, and screening of the award-winning documentary “Paris is Burning” at the National Museum of African American Music.

This culturally responsive approach has yielded tangible outcomes. For example, a recent ART patient cited Mr. Ogooue’s community presence as the reason they sought care at MCPC, emphasizing how familiar faces and culturally competent messaging can be the bridge to life-saving services. This reflects MCPC’s ability to create a welcoming, affirming environment where individuals feel seen, heard, and respected—a critical factor in building trust, creating [Great Experiences](#), and improving health outcomes for people living with HIV and seeking sexual healthcare.

2) MCPC’s Cultural Strategy

MCPC’s strategic commitment to cultural and linguistic competency is reflected in our organizational policies, staff training programs, and community engagement initiatives. Our cultural competency strategy is guided by the principles of cultural humility, acknowledging the importance of continuous learning and reflection to better serve diverse populations. MCPC ensures that all staff members undergo comprehensive training on cultural competency, implicit bias, and health equity. These trainings are facilitated through collaborations with community partners and experts in inclusive healthcare practices, ensuring our team remains current on best practices in cross-cultural patient care.

Additionally, MCPC incorporates cultural competency into its hiring practices, actively seeking staff members who reflect the communities we serve. This diversity within our workforce helps foster an environment of inclusion and understanding, both within the clinic and in our outreach efforts. Our Austin Peay State University brochure, designed with input from local students, is an example of how we tailor health education materials to resonate with specific cultural groups, using language, imagery, and messaging that align with their lived experiences.

Our cultural fluency is evidenced in our strategic approach to communicating with our communities via our public outreach, marketing, and advertising campaigns. The messaging and tone for one community may not be effective with another. For instance, we engaged members of the Black/African-American communities and a Black filmmaker to help us plan and execute our series of TV commercials intended for Black/African-American audiences (“We’re in this Together” campaign). Similarly, we conscientiously produced a series of radio-based messages meant for audiences during their drive home from church, and sponsored programs tailored to Black/African-American audiences broadcasted on the local National Public Radio affiliate.

3) *Cultural and Linguistic Competency in Service Delivery*

MCPC's service delivery model integrates cultural and linguistic competency at every level, from patient intake to ongoing clinical care. We understand that health behaviors are shaped by language, cultural beliefs, socioeconomic conditions, and historical experiences with healthcare systems. As such, we prioritize culturally tailored interventions, ensuring that our messaging is not only informative but also culturally relevant and sensitive. This includes using inclusive language in patient education materials, offering gender-affirming care, and adapting our outreach strategies based on the specific needs of diverse communities.

To support individuals with Limited English Proficiency (LEP), MCPC provides access to qualified language interpreters at no cost to the patient, in compliance with federal laws such as Title VI of the Civil Rights Act of 1964 and Section 1557 of the Affordable Care Act. To accommodate patients requiring spoken or sign language interpretation, we utilize SpokenHere, a synchronous audio and visual translation service, allowing real-time communication between patients and providers. SpokenHere provides access to almost any known language. SpokenHere provides professional foreign language services in more than 300 languages, including translation, remote interpreting, voiceovers, and more.

Figure 4. Net Promoter Score feedback published in near real-time on our website evidences a Great Experience for this Spanish-speaking patient.

Additionally, MCPC has Spanish-speaking team members integrated within every clinical service area, ensuring that Spanish-speaking patients receive immediate and culturally competent support, even in the event of a technical outage. We also ensure that critical documents are translated into the most commonly spoken languages in the region, and staff are trained on how to identify and address language barriers effectively. To further enhance accessibility, all essential documentation, including health, financial, and consent forms, has been translated into Spanish, and when necessary, SpokenHere translators or

bilingual staff assist patients with reading comprehension to ensure full understanding before signing documents. An example of a recent review by a patient is presented in Fig. 4; here the patient expressed that despite not knowing English, MCPC were tactful and had a high level of professionalism.

Our innovative approach to community engagement and service delivery is driven by the recognition that cultural competence is not a static goal but an ongoing process. MCPC remains committed to evaluating and improving our cultural and linguistic capacity, fostering an environment where every individual—regardless of their background—can access equitable, respectful, and high-quality HIV care.

IV) Collaboration:

1) HIV Service Network Development and Collaboration Plan

MCPC is committed to enhancing the continuum of care for people living with HIV/AIDS (PLWHAs) through the development of a robust, collaborative HIV service network. Our goal is to strengthen partnerships with community organizations, public health agencies, and healthcare providers to ensure comprehensive, seamless linkage to HIV testing, medical care, and support services. MCPC's approach focuses on identifying gaps in care, improving service coordination, and fostering data-driven interventions to address the evolving needs of the communities we serve.

MCPC has an established history of collaboration with key organizations in the Nashville area to support HIV prevention, testing, and care. For example, we are actively partnering with the **Tennessee Department of Health (TDH)** and **Metro Public Health Department** to analyze new HIV case data, with the goal of identifying hotspots and trends that can inform targeted outreach strategies. This partnership allows us to develop geographically and demographically focused interventions, ensuring that high-risk populations are effectively linked to HIV testing and medical care.

Our collaboration with **Street Works**, a community-based organization dedicated to supporting individuals affected by HIV, homelessness, and other social vulnerabilities, plays a crucial role in providing housing support and wrap-around services for our patients. This referral relationship helps address critical social determinants of health that often serve as barriers to medical adherence and retention in care.

MCPC also works closely with the **SEAETC** to support provider training and capacity building. This partnership ensures that both MCPC staff and external partners are equipped with the latest knowledge and best practices in HIV care, thereby enhancing the quality of services offered across our network. Additionally, our collaboration with **Tennessee Charitable Care Network (TCCN)** strengthens our ability to connect uninsured and underinsured individuals with vital healthcare resources, expanding access to HIV testing and treatment.

During the recent Mpox outbreak, MCPC partnered with Metro Health to support coordinated response efforts, demonstrating our ability to mobilize quickly in public health emergencies and integrate new health challenges into our existing service framework. This collaboration not only enhanced our capacity to manage MPOX cases but also provided an opportunity to screen high-risk populations for HIV, further strengthening the linkage between infectious disease surveillance and HIV prevention.

Looking ahead, MCPC strengthens and expands these collaborative efforts by formalizing data-sharing agreements, enhancing referral pathways, and participating in multi-agency case conferences to improve care coordination for PLWHAs. By leveraging these partnerships and continuously identifying new opportunities for collaboration, MCPC fosters a comprehensive HIV service network that ensures timely, equitable, and person-centered care for all individuals affected by HIV in the Nashville metropolitan area.

2) Commitment to Collaboration and Community Partnerships

MCPC is deeply committed to collaboration and community partnerships to enhance HIV prevention, care, and support services for people living with and at risk for HIV. Our partnerships with key organizations, as evidenced by letters of support from Street Works, the SEAETC, TCCN, and mental health provider **Charles B. Cobble** reflects our dedication to building a strong network of care.

- Through our collaboration with **Street Works**, we expand community outreach and linkage to care services, ensuring that high-risk individuals receive timely HIV testing and treatment referrals. Following the loss of their leased facility to a tornado, we partnered with the Frist Foundation to guarantee and make payments on the mortgage for a building of their own.
- **SEAETC** has been instrumental in providing clinic-wide education, provider training, and practice transformation initiatives, allowing MCPC to optimize HIV prevention and retention strategies across the region.
- As a member of **TCCN**, MCPC benefits from a statewide network of community and faith-based clinics, reinforcing our ability to serve uninsured and underinsured populations with comprehensive, service-centric HIV/ART care.
- Additionally, our collaboration with **Charles B. Cobble**, strengthens mental health services, ensuring that individuals navigating HIV care receive holistic support, counseling, and therapy tailored to their needs.

Finally, MCPC recognizes that it depends on strong partners if we together are going to end the HIV epidemic. To that end, MCPC has allocated over \$1.2M dollars to its Partner Strengthening Grants (PSG) program to help partners doing excellent work do more of it and to help partners doing good work become excellent at it. These partnerships are vital to our integrated approach, allowing MCPC to extend services beyond clinical care, address social determinants of health, and work collectively toward ending the HIV epidemic in Nashville and beyond.

A Bold Approach to Ending the HIV Epidemic in Uncertain Times

Music City PrEP Clinic

Nashville Metro Health's Ryan White HIV/AIDS Program (RWHAP) Part A and Minority AIDS Initiative (MAI)

B) Reference Projects Service History & References:

I) Current Services to the HIV/AIDS Population

Music City PrEP Clinic (MCPC) has been a **trusted provider of HIV prevention and care services** for several years, focusing on **rapid linkage to care, early intervention services (EIS), medical and non-medical case management (MCM & NMCM), transportation support, referrals and [Great Experiences by Design](#)**. MCPC's ability to deliver comprehensive and [service-centric](#) HIV care has led to **strong partnerships** with key organizations across Nashville and Tennessee, further expanding its reach and impact.

MCPC's **EIS program** emphasizes **rapid ART initiation**, ensuring newly diagnosed individuals are linked to care immediately. Through **bi-monthly follow-ups** during the first year of care, MCPC ensures that patients remain engaged and supported. Additionally, MCPC utilizes **Lyft and WeGo Public Transit partnerships** to eliminate transportation barriers, facilitating patient adherence to medical visits.

MCPC has also **improved the monitoring of Social Determinants of Health (SDH) and Behavioral Health (BH) issues** over the past 24 months, reinforcing its commitment to holistic patient care. Through targeted referral efforts, MCPC has **expanded access to food resources, housing, psychological services and emergency financial assistance** for PLWH, further mitigating non-medical barriers to care.

MCPC played a significant role in **Tennessee's meteoric rise from the bottom tier of the country to the Top 5 states leading the nation in PrEP use rates** in 2021. It's worthwhile noting that it is not the state of Tennessee that actually appears in the #4 spot, but Nashville/Davidson County punching above its weight as if it were a state in its own right--besting the states of Nevada and Massachusetts in the Top 5 and the other 45 states ranked below them. As nearly a third of new HIV infections in TN are diagnosed in Davidson County, this feat clearly has substantial impacts in reducing new infections in the state. Where the state of Tennessee does appear is in the Top 5 rankings of most improved--again powered by MCPC. ([Local Response Plan, 2021](#)). Note that the bottom 5 states, with exception of Puerto Rico, are TN's neighbors and where TN likely would have remained.

II) Demonstrated Competency and Partnerships

MCPC's **proven competency** in providing HIV medical and support services is reinforced through its partnerships and funding experience. These collaborations highlight MCPC's effectiveness in delivering high-quality, patient-focused HIV care.

1. Collaboration with Southeast AIDS Education and Training Center (SEAETC)

Music City PrEP Clinic
Nashville Metro Health
Ryan White Part A & MAI Proposal

MCPC has worked closely with **SEAETC** as part of the **Practice Transformation Project**, actively participating in **clinic-wide education and provider training** to enhance HIV prevention services and improve linkage-to-care strategies. MCPC's **HIV Champions** have also shared best practices in **regional Communities of Practice**, further **strengthening system-level HIV care across Tennessee**.

Reference Contact:

Jennifer Burdge, MEd, SEAETC Director
Organization: Southeast AIDS Education & Training Center (SEAETC)
Phone: (615) 875-7873
Email: jennifer.burdge@vanderbilt.edu

2. Partnership with Street Works

MCPC and **Street Works**, a leading HIV prevention and care organization in Davidson County, have collaborated extensively to ensure **equitable access to PrEP and HIV services** for underserved populations. Through **community-based interventions, mobile health initiatives, and advocacy efforts**, this partnership has increased PrEP uptake and strengthened **linkage-to-care pathways**.

Reference Contact:

Sharon Hurt, Executive Director
Organization: Street Works
Phone: (615) 259-7676
Email: shurt@street-works.org

3. Mental Health Integration with Healing Umbrella Psychotherapy

MCPC has established a partnership with **Healing Umbrella Psychotherapy LLC** to provide **trauma-informed, LGBTQ-affirming mental health services** for HIV-affected individuals. This collaboration ensures that patients receive comprehensive mental health support, reinforcing adherence to HIV care and improving overall well-being.

5. Behavioral Health Partnership with Charles Cobble, LCSW

MCPC collaborates with **Charles B. Cobble, LCSW, CCM, BCD**, an experienced mental health provider specializing in **integrated behavioral health services** for individuals living with or at risk of HIV. This partnership ensures that patients receive **comprehensive mental health support, including therapy, counseling, and crisis intervention**, addressing both the psychological and emotional aspects of HIV care. Through this collaboration, MCPC strengthens its capacity to provide **holistic, patient-centered care** that integrates mental health with HIV treatment.

Reference Contact:

Charles B. Cobble, LCSW, CCM, BCD
Organization: Private Practice

Email: charlescobblelcsw@gmail.com

6. MPOX Response with Metro Nashville Health Dept.

MCPC has an ongoing relationship with Metro Health that was only strengthened during the local response to the initial and subsequent outbreaks of MPOX within the middle Tennessee region. Through a coordinated effort MCPC was able to prioritize patients presenting with moderate to severe cases of MPOX to receive Tecovirimat treatment (TPOXX). Additionally, we continued our preventative care value by providing resources for vaccinations as it became available.

Email: Rachel.Franklin@nashville.gov

7. HIV Outbreak Epidemiologic Response with Metro and TN Department of Health

Over six weeks in Spring, 2024 MCPC had nearly 20 new diagnosed cases of HIV which were diagnosed, provided rapid start ART, and care management in our Nashville clinic. Given the medical and social needs were addressed, a combined effort between Metro and TN Dept of Health arose. This ensured contact was made with the individuals, and enabled contact tracing through an epidemiological approach. In collaboration with Norman Foster and Robb Garman, we enabled means for patients to feel less stigma and concern when approached by representatives from either entity in the future.

Email: Robb.Garman@tn.gov

III) Current Services to the HIV/AIDS population

Since July of 2021, MCPC has linked 588 new patients to HIV care. 498 of these patients completed at least one HIV care follow up appointment, and 436 ART patients have been seen at least once in the past year. 152 ART patients have successfully transferred their care to another PCP or moved out of state, resulting in 75% of our ART population remaining in adherence and in care.

The goal of ART medical and case management is to enhance independence and increase quality of life for individuals living with HIV through adherence to medical care and care plans. Providers and case managers prioritize PLWH who need support in accessing and maintaining regular medical care, address the needs of clients and assist them in overcoming the obstacles they face in obtaining critical services. MCPC's successful completion of the three year Practice Transformation program administered through the Southeast Aids Education and Training Center (SEAETC) has provided data of MCPC's proven success in managing HIV testing and treatment.

For instance, out of 16,194 HIV tests administered among the sixteen SEAETC Practice Transformation sites in FY 2024, MCPC administered 49% of the total tests.

*MCPC=1349.5 monthly mean HIV tests - Source: SEAETC

Summary of PT Program Statistics

Based on REDCap monthly clinic surveys, July 2021 – April 2024 (34 months)

According to our internal data reporting to SEAETC in 2024, MCPC had 149 positive HIV results in house. While the data is unclear about these numbers since the beginning of our ART program, it is clear we have had a continual increase of ART patients monthly since July 2021.

	Since July 2021	
HIV tests performed	82,116	Median 35 tests per clinic per month
Positive tests	625	
Positivity Rate	0.76%	
Linked to care	484	
Linkage Rate	77.4%*	
New PrEP Rx	7235	

*may be affected by data quality errors

MCPC has consistently demonstrated **sound financial management** in administering government and private funding sources. Notably, MCPC has successfully managed **SEAETC grant funding**, reinforcing its ability to effectively allocate resources and comply with federal reporting requirements.

MCPC has also maintained **a high level of staff retention and internal job satisfaction**, ensuring **continuity in service delivery and quality improvement initiatives**. These factors, combined with MCPC’s track record in **HIV case management, PrEP access, and social services**, solidify its ability to expand services through **Ryan White Part A funding**.

MCPC has a **proven track record of delivering high-quality HIV services**, strengthening **community partnerships**, and **demonstrating financial responsibility** in managing government and foundation funding. With the continued support of **SEAETC, Street Works, Healing Umbrella, and TCCN**, MCPC is well-positioned to **expand its services** through Ryan White Part A funding and continue making a **significant impact in reducing HIV disparities across Nashville and beyond**.

A Bold Approach to Ending the HIV Epidemic in Uncertain Times

Music City PrEP Clinic (MCPC)

Nashville Metro Health's Ryan White HIV/AIDS Program Part A (RWPA) and
Minority AIDS Initiative (MAI)

C) Project Approach and Process

I) Staffing:

MCPC proudly serves the greater Nashville community with a highly skilled team experienced in Outreach, Early Intervention Services, and Outpatient Care for HIV prevention, diagnosis, and treatment. Despite MCPC's established expertise, capacity, and emergence as a provider of choice, Ryan White Part A (RWPA)-eligible patients have been impeded from accessing MCPC's healthcare services due to programmatic restrictions that limit the provision of RWPA-funded wraparound services to RWPA-funded providers. As an externally funded organization, MCPC does not require RWPA funding to sustain its operations, but seeks to participate in the RWPA network in order to broaden access for patients who choose us for care. To facilitate this, MCPC is committed to providing a \$17.71 match to every dollar received for this RWPA award, ensuring that RWPA funding is leveraged to maximize services for people living with HIV (PLWH).

Indeed, just as we were able to maximize the State's 340B eligible in-kind grant of nominal value, we propose a similar investment from Metro Health. We are intimately aware of recent RWPA funding uncertainty and do not wish our application to further destabilize the fragile funding ecosystem within our local HIV/AIDS healthcare community. As a result, we request a \$19.200 RWPA grant to recognize our independently funded and ongoing efforts and accomplishments. A modest grant is meaningful in that it enables our participation in the RWPA network. This approach eliminates the need for Metro Health to redistribute scarce RWPA funds among competing incumbent applicants and fosters the primacy of the principle of Patient Choice—patients should be able to choose their health care provider based on their preference. The Ryan White program should expand the options for patient choice, not limit patients to choosing among a small group of participating providers. That said, MCPC will provide a \$17.71 match to every dollar received for this RWPA award to further bolster our planned efforts.

Our comprehensive staffing plan supports a successful implementation of RWPA services while maintaining high-quality, [service-centric](#) care. Built on a foundation of clinical excellence and [Great Experiences by Design](#), MCPC's multidisciplinary team of providers, care navigators, case managers, and operational leaders brings extensive experience in HIV prevention, treatment, and program management. By integrating RWPA participation, MCPC can extend its reach and provide essential care to individuals who have previously been excluded due to administrative barriers.

1) Clinical Team

MCPC is led by Richard MacKinnon as the Executive Director who will serve as the Subrecipient Lead for this project. Rich founded MCPC with friends and community members as a way of increasing PrEP access and uptake among gay men in a healthcare

setting designed for and operated by gay men. This understanding of creating healthcare experiences that are [Great Experiences by Design](#) for a particular demographic is fundamental to the rapid growth and successful outcomes at MCPC. Rich has been appointed by the Metro Nashville Mayor to serve for two consecutive terms on the Ending the HIV Epidemic Advisory Council.

MCPC's clinical team includes three AAHIVM-certified providers, each with specialized expertise in HIV care. Our **Medical Director, Dr. Peter Cathcart**, MD brings over five years of direct experience treating PLWH, overseeing clinical operations, and ensuring adherence to evidence-based HIV treatment protocols. This role is critical in providing clinical supervision, maintaining quality standards, and leading provider training efforts. Additionally, a fourth provider is in the process of obtaining AAHIVM certification, reflecting MCPC's ongoing commitment to professional development and clinical excellence. These providers collaborate actively with the Southeast AIDS Education & Training Center (SEAETC) and the Vanderbilt Comprehensive Care Clinic (CCC) to stay at the forefront of best practices in HIV care and contribute to continuous quality improvement initiatives.

MCPC's ART Care Team is composed of highly qualified individuals with experience both within MCPC and from other respected HIV organizations. Our **Clinic Operations Director, Jason Butler, NP, MHA**, has an exceptional track record, having successfully established an HIV clinic in **St. Louis** and led initiatives to expand HIV testing and PrEP delivery in Michigan, including securing buy-in from pediatric care providers—an accomplishment that underscores his ability to drive program growth and integration across diverse healthcare settings.

Fig. 1. A cumulative plot of active patients choosing their ART care at MCPC.

MCPC's clinic is supported by **Finance Manager, Sr. Controller Monica Pintado**, bringing extensive expertise in financial management, grant administration, and compliance to support the organization's fiscal operations and ensure effective stewardship of Ryan White Part A funding. Controller Pintado is assisted by **Financial Analyst Blake Osborne**, who records and tracks financial and service metrics such as active or inactive patient count, critical for accountability of measurable milestones such as those established in this proposal.

Beyond these key team members, **Justin Green, MHA**, is the **Education and Training Manager**, charged with maintaining and educating staff on Standard Operating Procedures for the clinic. Justin oversees the development and implementation of training programs designed to enhance clinical competencies, staff development, and quality improvement initiatives in support of the Ryan White Part A services.

2) Service Delivery Capacity and Justification for Staffing Hours

Most proposed and existing services are based on existing MCPC programs, extrapolated for current growth trajectories. **Currently, MCPC treats 403 active patients, with an average monthly growth rate of 3.6% since January 1, 2023** (Fig. 1). Services are broadly categorized as Outreach, Early Intervention and Outpatient Services (Fig. 2). Existing Outreach Services include Community Based Events, In-Clinic Screenings, and Partnerships with the goal to expand into Telehealth and Home-test Kits. Early Intervention Services include Rapid Diagnosis, Counseling, Initiation of ART, and establishing a Comprehensive Baseline for future tests. Current Outpatient Services (Fig. 3) include ongoing ART Treatment, as well as Medical and Non-Medical Case Management. Medical Case Management includes coordination of Individual Care Plans, Coordinated Medical

Fig. 2. The process flow diagram for patient treatment at MCPC.

Services, and Targeted Outreach for Adherence Support. Existing Non-Medical Case Management services focus on barriers to care, including Emergency Financial Assistance, as well as Housing, with the goal to expand into Food and Medical Transportation services.

Throughout the patient-care process, MCPC employs staff fluent in Spanish and utilizes professional translation such as through SpokenHere, and translated forms and documents. Beyond these services, MCPC already plans to expand availability to evenings and Saturdays in the current calendar year. This expansion is driven by patient demand and our commitment to reducing barriers to care, particularly for

individuals with work or family obligations that limit their ability to attend appointments

during traditional business hours. The increased appointment volume necessitates dedicated provider hours, care navigation support, and case management resources to ensure timely, comprehensive care for all patients. The projected staffing hours per month are based on projected patient volume, appointment capacity, and the need for continuous patient engagement through case management, follow-up calls, and care coordination activities.

3) Consultants and Subcontractors

All physicians and healthcare managers at MCPC are contracted through Music City Physicians Group which provides independent malpractice insurance coverage for clinical staff. This arrangement, commonly used in non-profit healthcare organizations, helps to protect the core entity by ensuring that malpractice claims are managed separately from the non-profit's operational and financial responsibilities.

Fig. 3. A Summary of Outpatient Services provided by MCPC.

This structure allows MCPC to maintain its focus on mission-driven work while ensuring comprehensive risk management for its healthcare providers. Our Clinic Operations Director, along with other non-clinical staff, are employed by Rod Bragg Diversity Health, a vendor that provides management services to MCPC under the direct oversight and control of MCPC's Executive Director and Board of Directors.

Additionally, Monica Pintado, the Finance Manager, is contracted through Ironclad Consulting, which provides specialized financial management support to ensure compliance with grant and regulatory requirements.

These contractual arrangements are in place to staff MCPC's general operations and would not be specific to the grant award. Our vendors have been retained to perform contracted services (management and clinical services), services that are already being performed and have been performed for years. These vendors and the services they perform are not tied to a federal award and are paid from 340B savings. These vendors would also be used to perform similar or identical services identified in the award. MCPC is in control of the management of its operations and will continue to control operations under an award.

We are aware of the filings in the Nashville CARES case challenging the State's denial of an IAP and can distinguish our structure from Nashville CARES. The State denied their award because they found that Nashville CARES was not simply engaging a vendor (SGRX) to provide a contracted service and instead had effectively contracted out the operations of the award to a for-profit contractor. Part of the State's basis for denial was the contract itself, which said Nashville CARES was engaging the vendor to meet the

award requirements

Music City PrEP Clinic
Nashville Metro Health
Ryan White Part A & MAI

In contrast, MCPC has been contracting with Rod Bragg Diversity Health (RBDH) and Music City Physicians Group (MCPG) for years to provide management and staffing services that are not tied to a federal award. While MCPC strategically elected to use a contracted staffing model years ago to manage its meteoric growth and to operate at scale, MCPC remains in control of its operations and will still be operating any awarded RWPA grant (analysis provided by MCPC outside counsel, Bass Berry Sims).

In summary, MCPC's staffing plan reflects a strategic allocation of resources, grounded in the expertise of our clinical team and supported by targeted consultancy where needed. This multidisciplinary approach ensures that we can deliver comprehensive, culturally competent care at scale to PLWH while meeting all programmatic and reporting requirements of the Ryan White Part A program.

II) Overview of Population:

Davidson County, Tennessee, is home to a significant population of people living with HIV/AIDS (PLWHAs). In 2021, more than 4,100 individuals were living with HIV in the county, alongside an estimated 720 individuals who may be unaware of their status. While the number of new HIV cases in Nashville reached historic lows since 1989, recent data indicates an uptick in new diagnoses since 2019, highlighting the ongoing need for comprehensive prevention, testing, and care services. Notably, 21% of all people living with HIV in Tennessee reside in Davidson County, underscoring the region's critical role in the state's HIV response efforts.

Disparities remain a significant challenge in the local HIV epidemic. Nearly 60% of new HIV cases in Nashville are among Black individuals, a rate higher than the national average, reflecting systemic barriers to healthcare access, social determinants of health (SDH), and persistent stigma. Additionally, 71% of new HIV diagnoses in 2022 were attributed to male-to-male sexual contact, emphasizing the need for targeted, culturally competent interventions within the MSM community. These disparities are compounded by factors such as housing instability, food insecurity, limited healthcare access, mental health challenges, and substance use disorders, all of which create barriers to both HIV prevention and long-term care engagement.

1) Number of Persons to be Served

MCPC is already providing the services outlined in this proposal and remains committed to continuing this care regardless of funding. However, Ryan White Part A (RWPA) funding and participation will enable greater access for Ryan White-eligible patients who have previously been unable to receive care at MCPC due to eligibility constraints. Removing these constraints ensures that the principle of patient choice is preserved and more individuals can benefit from the clinic's comprehensive HIV treatment, support services, and [Great Experiences by Design](#). We are currently seeing 403 active ART patients and adding nearly 10 new ART patients per month, anticipating a total case load of 500 patients through 2025. RWPA funding will reinforce our ability to serve this expected patient volume. With Ryan White Part A funding and participation, MCPC is projected to serve more than 100 new Ryan White-eligible patients annually who will benefit from Ryan White enabled services. This population includes newly diagnosed

individuals, patients newly linked to care at MCPC, and existing patients who become eligible due to changes in income or insurance coverage. The goal is to ensure as many eligible individuals as possible have access to comprehensive medical, supportive services, and [Great Experiences](#), particularly those facing barriers to consistent engagement in care.

2) *Units of Service by Type of Intervention*

MCPC provides a comprehensive range of services tailored to the individual needs of each patient, structured around clinical status and level of care engagement. The majority of Ryan White Part A (RWPA) services are built upon existing programs that MCPC has already implemented and continues to refine. Regardless of RWPA funding, MCPC remains committed to serving the greater Nashville community with these critical interventions. However, securing RWPA funding will allow previously ineligible patients to access MCPC's treatment programs, expanding care to those who have been historically referred away due to programmatic restrictions related to the provision of wraparound services. The following service units are projected, based on existing services or estimated in the case of Transportation and Food services, which will be added under RWPA:

- **Outreach Services:**
 - Community outreach events represent a service unit, targeting high-risk populations, building on our existing programs.
 - 1–4 hours of engagement per outreach event for education and developing referral partnerships.
 - In-Clinic Screenings.
 - “Know Your Status” mobile clinic screenings.
 - Expansion of existing Telehealth Services (a virtual appointment represents one service unit).
 - Initiation of Home-test Kits, with each kit a service unit.
- **Early Intervention Services (EIS):**
 - Establish a benchmark of 95% linkage to care within one week of diagnosis through CQI and MCM initiatives. Current baseline is 90%.
- **Outpatient Services:**
 - Outpatient services vary, but each service unit includes, annually:
 - 4–6 medical visits for newly diagnosed or uncontrolled patients.
 - 2–4 visits for controlled, stable patients. This includes standard ART treatment appointments.
 - Average appointment duration: 30–60 minutes, depending on clinical complexity.
 - The budget for Outpatient Services is extrapolated from current standards for estimated RWPA patients.

Outpatient Services include standard ART treatment visits, as well as Medical and Non-Medical Case Management (MCM & NMCM). The goal of MCM is for treatment of the patient's medical needs, individual care plans, coordinated medical services and follow-up to increase compliance. NMCM is focused on barriers to care, such as Food, Housing, Transportation and Financial Assistance.

- **Medical Case Management (MCM):**
 - Individual Care Plan development for each patient, including preliminary identification of NMCM needs.
 - Increased case management contacts for high-need patients (new diagnoses, uncontrolled, other social determinants of health).
 - Regular check-ins every 3 months for first year and biannually following if stable, virally suppressed.
 - Average session duration: 20–30 minutes per contact.
- **Non-Medical Case Management (NMCM):**
 - Each patient is evaluated for NMCM to help identify barriers to care. Patient needs are addressed through referrals or MCPC wraparound services.
- **Medical Transportation:**
 - Partnership with Lyft and WeGo Public Transit to provide transportation for medical appointments, with an estimated \$45.73/ride to our patients.
- **Food Program:**
 - Gift Cards: Need-based distribution of grocery gift cards to patients, addressing food insecurity among PLWH.
- **Housing Services:**
 - Emergency Financial Assistance (EFA) for Housing: MCPC subsidizes 5 to 7 patients' housing needs each month through direct financial assistance.

MCPC is part of a large community of providers in greater Nashville. Our team is committed to helping our patients regardless of their needs. For this reason, we rely on our community network for referral services. Our main goal when referring a patient is follow-up to ensure linkage within 30 days of the referral.

- **Referral Services:**
 - Ongoing coordination with community partners (e.g., Street Works, SEAETC, TDH, Healing Umbrella, Charles Cobble, see letters of support) for housing, mental health, substance use treatment, and additional support services.

3) *Average Amount of Service per Client Annually*

Based on MCPC's existing care, service intensity will vary based on the patient's clinical and psychosocial needs, categorized as follows:

- **Newly Diagnosed or Uncontrolled Patients:**
 - 6–8 medical visits annually (45–60 minutes each).
 - 12+ case management contacts (20–30 minutes each).
 - Frequent outreach and follow-up during initial engagement and ART initiation phase.
- **Controlled Patients/New to MCPC:**
 - 3–4 medical visits annually (30–45 minutes each).
 - 4–6 case management check-ins annually to support care retention and address emerging needs.
- **Stable, Long-Term Ryan White Clients:**
 - 2–3 routine medical visits annually (30 minutes each).
 - 2 case management contacts annually, with additional support provided as needed.

Through this comprehensive approach, MCPC aims to reduce new HIV infections, improve viral suppression rates, enhance retention in care, and create [Great Experiences by Design](#), particularly for those disproportionately affected by HIV in Davidson County. Ryan White Part A funding and participation will enable MCPC to expand its reach, strengthen care coordination, and provide critical services to individuals facing complex barriers to health and well-being.

II) Implementation Plan:

MCPC is committed to improving health outcomes along the HIV care continuum through the implementation of evidence-based and best practice models that support early identification, rapid linkage to care, retention, and viral suppression for PLWH. While MCPC already has the framework and infrastructure in place to deliver comprehensive HIV care, RWPA funding and participation will enhance our ability to provide healthcare services rather than refer away, formalize care coordination processes, and strengthen data-driven quality improvement initiatives.

Our clinical and programmatic interventions are grounded in scientific research and proven public health models that have demonstrated success in improving HIV-related health outcomes. MCPC's training department, led by Justin Green (MHA) plays an integral role in ensuring that clinical staff, case managers, and outreach teams are consistently updated on the latest evidence-based practices, both in direct patient care and in program implementation strategies.

1) Evidence-Based and Best Practice Models

1. **Rapid ART Start Model (Same-Day ART Initiation):**

MCPC follows the principles of the "Rapid Start ART" model, supported by the U.S. Department of Health and Human Services (HHS) Guidelines for the Use of Antiretroviral Agents. This approach emphasizes the importance of initiating ART as soon as possible after an HIV diagnosis, often on the same day. Studies have

shown that rapid ART initiation leads to faster viral suppression, improved patient retention, and reduced transmission rates. Our Early Intervention Services (EIS) team is trained to provide immediate counseling, clinical assessments, and ART initiation, minimizing gaps between diagnosis and treatment.

2. **Retention in Care Strategies** – Adapted from the "Patient Navigation Model": MCPC employs a patient navigation framework adapted from the CDC's High-Impact Prevention (HIP) strategies. Patient navigators play a crucial role in addressing barriers to care, such as transportation issues, mental health needs, and stigma-related challenges. This model focuses on personalized support, helping clients navigate the healthcare system, access resources, and stay engaged in care. Navigators work closely with Medical Case Managers (MCMs) to ensure that patients receive comprehensive support tailored to their individual needs.
3. **Comprehensive Risk Counseling and Services (CRCS):**
For individuals facing complex psychosocial challenges, MCPC incorporates elements of the Comprehensive Risk Counseling and Services (CRCS) model, part of the CDC's Compendium of Evidence-Based Interventions. This intervention combines intensive risk reduction counseling with case management to support behavior change and address underlying factors contributing to poor health outcomes. CRCS is particularly effective for high-risk populations, including those with co-occurring mental health or substance use disorders.
4. **Data-to-Care (D2C) Approach:**
MCPC's Data-to-Care (D2C) strategy aligns with the CDC's National HIV/AIDS Strategy, which emphasizes the use of data-driven approaches to identify individuals who are out of care and re-engage them in services. Our Quality Improvement (QI) team regularly analyzes data from our electronic health record (EHR) system (AthenaOne) and community surveillance data to monitor viral load suppression rates, retention in care, and gaps in service delivery. This proactive approach enables us to identify trends, implement corrective actions, and continuously improve care outcomes.
5. **Referral and Linkage Best Practices:**
Clinically, MCPC adheres to best practices for referrals and care coordination, ensuring that patients receive timely access to specialty medical services such as anoscopy, vaccinations, behavioral health care, and chronic disease management. Our referral protocols are designed to minimize delays, track follow-ups, and maintain open communication with external providers, creating a seamless continuum of care for patients with complex medical needs.

2) *Training and Continuous Quality Improvement*

MCPC's training department, led by Justin Green, MHA, plays a pivotal role in supporting the implementation of these models. Staff members receive ongoing training in culturally competent care, trauma-informed practices, and HIV clinical guidelines through partnerships with organizations such as the Southeast AIDS Education & Training Center (SEAETC) and Vanderbilt CCC. MCPC completed Vanderbilt CCC's Practice

Transformation program so that it could bolster the regional capacity for HIV medicine. Additionally, our involvement in the Ryan White application process has strengthened our internal capacity to align services with RWPA standards, ensuring that we are well-positioned to meet all programmatic requirements upon funding.

Through this implementation plan, MCPC aims to enhance patient outcomes, reduce HIV-related health disparities, and contribute to the broader goal of ending the HIV epidemic in Davidson County. By leveraging evidence-based models and continuous quality improvement practices, we will provide comprehensive, patient-centered care that supports every individual along the HIV care continuum.

III) Best Practices:

1) Project Description

The proposed project by MCPC is designed to expand access to comprehensive HIV care and support services for people living with HIV (PLWH) in Davidson County, Tennessee. The project implements an integrated intervention model focused on enhancing HIV testing through Outreach Services, improving rapid linkage to care with Early Intervention Services, and supporting long-term retention in high-quality HIV medical Outpatient Services. While most of these services are already in place at MCPC, RWPA participation enables MCPC to further address key gaps in the local HIV care continuum, particularly among populations disproportionately affected by HIV, including Black communities, men who have sex with men (MSM), and individuals facing socioeconomic barriers. Additionally, expanding RWPA participation to MCPC would provide an essential care option for RWPA-eligible patients. Because MCPC is not part of the RWPA network, over 143 RWPA-qualified patients who preferred MCPC as their provider of choice reluctantly transferred their care to a RWPA provider in order to gain access to RWPA-funded wraparound services. This highlights the urgent need for RWPA network inclusion to better serve all patients, the providers they choose, and the [Great Experiences](#) they deserve.

Outreach services, including Community Based Events, In-Clinic Screenings, Telehealth Services, Partnerships and Home-test Kits, help to identify newly infected individuals, and begin their treatment. Early Intervention Services (EIS) including proactive HIV screening, immediate post-diagnosis counseling, and the swift involvement of medical case management (MCM) to reduce delays in accessing care helps onboard new patients, with treatment initiated using the Rapid Start ART model. In this model, individuals newly diagnosed with HIV are linked to care and initiated on antiretroviral therapy (ART) as quickly as possible, often on the same day as diagnosis. The project also includes the Outpatient HIV Medical Services, where AAHIVM-certified providers deliver patient-centered, evidence-based care tailored to the unique needs of each individual.

To support sustained engagement in care, the project includes Medical and Non-Medical Case Management services, providing personalized care navigation, psychosocial support, financial incentives for adherence and appointment attendance, and assistance with accessing critical resources such as Emergency Financial Assistance (EFA), Medical Transportation, and referrals to Housing and Behavioral Health services.

MCPC's intervention model leverages existing partnerships with key organizations such as the Tennessee Department of Health (TDH), the Tennessee Charitable Care

Network (TCCN), Street Works, the Vanderbilt Comprehensive Care Clinic (CCC) and the Southeast AIDS Education & Training Center (SEAETC) to enhance service delivery and ensure seamless referrals to comprehensive support systems. Additionally, MCPC is the first organization outside of New York City to implement the Undetectables Program, a comprehensive strategy to increase adherence, retain patients in care and reduce HIV transmissions. Letters of support from SEAETC, the CCC, TCCN and Street Works are attached to part B of this proposal, illustrating MCPC's dedication to community involvement and strong referral network.

MCPC has an established and comprehensive data capture, recording, and analysis system led by Finance Manager Monica Pintado and Financial Analyst Blake Osborne. This system ensures the accurate and reliable collection of key metrics, allowing for the identification of trends and correlations to assess the effectiveness of programs and drive continuous improvement. By integrating data-driven quality improvement processes, the project will continuously monitor progress along the HIV care continuum, identify gaps in service, and implement strategies to improve health outcomes.

Ultimately, this project creates a robust, service-centric framework that not only facilitates timely entry into HIV care but also promotes long-term retention, viral suppression, and overall health and well-being for people living with HIV in Davidson County.

2) Strategies for identifying and engaging with key stakeholders

MCPC recognizes that meaningful engagement with key stakeholders is essential to the success of any HIV intervention program. Our strategies are designed to foster collaborative partnerships with trusted individuals and organizations within the HIV/AIDS community, ensuring that our services are accessible, culturally responsive, and aligned with the needs of those most affected by the epidemic. Our sizable network of partner institutions is illustrated by our letters of support attached to the appendix of this proposal, including letters from TCCN, Street Works, Vanderbilt's CCC, and SEAETC.

MCPC employs a stakeholder mapping process to identify organizations, community leaders, and healthcare providers who play critical roles in the HIV care continuum. This process involves assessing existing networks, community-based organizations, public health entities, and grassroots groups with a strong presence in Davidson County's most affected communities. Key stakeholders include:

- **Tennessee Department of Health (TDH):** A strategic partner in HIV surveillance, prevention, and public health interventions. MCPC collaborates with TDH to analyze **HIV incidence data**, identify high-risk populations, and coordinate public health responses.
- **Metro Public Health Department (MPHD):** MPHD supports data-sharing initiatives, epidemiological analysis, and joint efforts to address health disparities in Davidson County.
- **Southeast AIDS Education & Training Center (SEAETC):** Provides training, technical assistance, and capacity-building support for MCPC's clinical staff to ensure alignment with national HIV care standards.

- **Vanderbilt Comprehensive Care Clinic (CCC):** MCPC completed the CCC's federally-funded Practice Transformation program before initiating the care of PLWH. Additionally, a CCC staff member sits on MCPG's Provider Peer Review Committee (PPRC) to address cases needing clinical review.
- **Streetworks:** A key partner in addressing housing instability, case management, and harm reduction services for PLWH. MCPC refers patients with housing needs to Streetworks and collaborates on community outreach efforts targeting marginalized populations.
- **Tennessee Charitable Care Network (TCCN):** A statewide network that supports uninsured and underinsured individuals, ensuring linkage to medical and supportive services, including HIV care.
- **Community-Based Organizations (CBOs) and Peer Leaders:** Partnerships with organizations such as **Columbia Cares** and local LGBTQ+ advocacy groups help MCPC reach key populations, including MSM, transgender individuals, and communities of color.

MCPC's approach to stakeholder engagement is grounded in transparency, relationship-building, and shared goals. Key strategies include:

- **Formal Partnerships and MOUs:** Establishing **Memoranda of Understanding (MOUs)** with organizations like **Street Works, SEAETC, TCCN, Oasis Center, and We Are One** to formalize organizational interaction, data-sharing protocols, and collaborative program activities.
- **Advisory Committees and Community Input:** MCPC will create a **Community Advisory Board (CAB)** composed of stakeholders, including PLWH, community advocates, and healthcare providers, to inform program development, service delivery, and continuous quality improvement.
- **Regular Stakeholder Meetings:** Hosting quarterly stakeholder meetings to discuss program performance, share data insights, and align strategies with community needs. These meetings foster open communication and allow for real-time feedback.
- **Peer and Community-Led Outreach:** Leveraging the influence of trusted community leaders, such as Mr. Steven Ogooue', MCPC's Director of Community Relations, who has established strong ties within **Nashville's Black and African American communities**. His leadership in outreach at **HBCUs** and local events strengthens trust and engagement with at-risk populations.

MCPC actively participates in **joint initiatives** with stakeholders to address emerging public health challenges. For example:

- During the **Mpox outbreak**, MCPC partnered with **Metro Health** to support coordinated response efforts, integrating HIV testing and prevention services into Mpox outreach activities.
- **Data-Driven Targeting:** Collaboration with TDH and MPHD allows MCPC to use **real-time epidemiological data** to target outreach efforts, ensuring resources are directed to neighborhoods and communities with the highest HIV incidence rates.

By fostering these partnerships and leveraging the expertise of trusted stakeholders, MCPC ensures that our programs are **community-centered, evidence-based, and responsive** to the evolving needs of people living with and affected by HIV in Davidson County.

3) *MCPC's Intervention Model*

MCPC has developed a **comprehensive intervention model** designed to address the **full spectrum of the HIV care continuum**, from prevention and early detection to linkage, retention, and long-term engagement in care. Our approach is rooted in evidence-based practices and incorporates strategies that address the personal, financial, sociocultural, and structural barriers that disproportionately affect people living with HIV/AIDS (PLWHAs), particularly in Davidson County.

a) Increasing Awareness of HIV Disease Among High-Risk Populations

MCPC's strategy to increase awareness of HIV disease focuses on targeted outreach and education within communities at the highest risk of HIV infection, including Black and African American communities, men who have sex with men (MSM), transgender individuals, and individuals facing housing instability.

- **Community-Based Outreach:** Led by **Mr. Steven Ogooue', Community Relations Director**, and **Tyjah Eady**, our outreach team actively engages with the community through **partnerships with Historically Black Colleges and Universities (HBCUs)**, local organizations, and at-risk neighborhoods. By participating in health fairs, educational seminars, and community events, including financially supporting the [Music City ACC Ball](#) for each of its 3 years in existence, culminating in a ballroom demonstration, panel presentation including Billy Porter, and screening of the award-winning documentary "Paris is Burning" at the National Museum of African American Music. In these ways, we ensure culturally relevant messaging that resonates with diverse populations.
- **Same-Day Appointments:** MCPC's outreach efforts are strengthened by the ability to offer same-day appointments, either on-site at outreach events or in-clinic, reducing barriers related to scheduling delays and transportation. This immediate access to care helps capture individuals who might otherwise fall through the cracks.
- **Social Media, Digital, Billboard, TV, and Radio Campaigns:** Recognizing the power of multi-platforms campaigning, MCPC utilizes targeted campaigns to disseminate HIV prevention information, promote testing, and reduce stigma, especially among younger populations. The messaging and tone for one community may not be effective with another. For instance, we engaged members of the Black/African-American communities and a Black filmmaker to help us plan and execute our series of TV commercials intended for Black/African-American audiences ("[We're in this Together](#)" campaign). Similarly, we conscientiously produced a series of radio-based messages meant for audiences during their drive home from church, and sponsored programs tailored to Black/African-American audiences broadcasted on the local National Public Radio affiliate.

b) Identification and Linkage of High-Risk Individuals Needing HIV Testing

To identify high-risk individuals who are not accessing regular HIV testing, MCPC employs a multi-faceted strategy that combines community outreach, data-driven targeting, and strategic partnerships:

- **Targeted Testing Initiatives:** Outreach teams conduct **pop-up testing events** in high-prevalence areas identified through **epidemiological data from the Tennessee Department of Health (TDH) and Metro Public Health Department (MPHD)**.
- **Peer Navigation and Community Ambassadors:** Utilizing trusted community members, including **peer educators** and leaders within vulnerable populations, we build connections with individuals who may distrust traditional healthcare systems due to past stigma or discrimination.
- **Seamless Linkage to Care:** For individuals who test positive, MCPC's **Early Intervention Services (EIS)** team ensures immediate linkage to care, with referrals to our in-house providers or trusted community partners when needed. Our model includes same-day linkage appointments whenever possible to prevent loss to follow-up.

c) Re-Engaging Individuals Who Have Fallen Out of HIV Care

MCPC's intervention model prioritizes the identification and re-engagement of PLWH who have fallen out of care or never fully engaged after diagnosis:

- **Data-to-Care (D2C) Approach:** In collaboration with **TDH** and **MPHD**, MCPC leverages surveillance data to identify individuals who have missed medical appointments or are no longer virally suppressed. Our Medical Case Management (MCM) team then conducts targeted outreach to reconnect these individuals with care.
- **Peer-Led Re-Engagement:** Recognizing the impact of peer influence, we employ peer navigators with lived experience to reach out to disengaged individuals. This peer-driven approach helps build trust and reduce stigma associated with returning to care after a lapse.
- **Flexible Care Options:** To reduce barriers, MCPC offers flexible appointment scheduling, including evening and weekend hours, and telehealth options to accommodate individuals with transportation challenges, work conflicts, or anxiety about in-person visits.

MCPC's interventions are specifically designed to address the following barriers:

- **Personal Barriers (Stigma, Fear, Mental Health):**
 - **Culturally Competent Counseling:** All staff receive training in trauma-informed care and cultural humility, ensuring patients feel respected and supported regardless of background.
 - **Mental Health Referrals:** Integration of behavioral health screenings into routine visits with referrals to in-house or partner mental health services as needed.
- **Financial Barriers (Lack of Insurance, Income Instability):**

- o **Ryan White Part A Services:** Support for uninsured and underinsured individuals through **Emergency Financial Assistance (EFA)** for housing, transportation, and medical expenses.
 - o **Medical Transportation Partnerships:** Collaborations with Lyft and WeGo Public Transit to provide free transportation for medical appointments.
- **Sociocultural Barriers (Mistrust, Discrimination):**
 - o **Community Partnerships:** Strong relationships with organizations like **Streetworks** and **Tennessee Charitable Care Network (TCCN)** to build community trust and offer wrap-around services.
 - o **Outreach by Trusted Leaders:** Engagement led by community figures like **Mr. Ogooue**, who has a proven track record of building trust within marginalized communities.
- **Structural Barriers (Transportation, Clinic Accessibility):**
 - o **Same-Day Appointments and Mobile Clinics:** Providing on-the-spot appointments at outreach events or rapid linkage to care through mobile units.
 - o **Flexible Clinic Hours:** Expansion of service availability to evenings and weekends to meet the needs of individuals with non-traditional work schedules or caregiving responsibilities.

Through these comprehensive, patient-centered strategies, MCPC aims to increase awareness, improve HIV testing uptake, and strengthen engagement and retention in care for PLWH, ultimately reducing new infections and improving health outcomes across Davidson County.

IV) Service Specific Questions:

1) Service Model

The MCPC service model is a comprehensive, service-centric framework designed to deliver high-quality, coordinated care to PLWH while addressing the diverse barriers that impact health outcomes. Outreach Services are used to identify, inform and prevent new infections. Rooted in evidence-based practices, our model integrates Early Intervention Services (EIS), medical and non-medical case management, wraparound support services, and [Great Experiences](#) ensuring that every patient receives holistic, culturally competent care tailored to their unique needs.

1. Outreach Services

Underserved populations are informed of their infection through outreach programs, and easy access to care. Outreach can be in the form of events or advertisements. Free home-test kits can be used by at-risk populations to help inform patients of their infection and guide them to care. Outreach Services include:

- **Community Based Events** such as health fairs can be used to highlight testing and care options for at-risk populations
- **In-Clinic Screenings** promoted with social media advertisements, bringing potential patients directly to the clinic where EIS may be initiated

- Information and counseling can be provided via **Telehealth Services**
- **Local Partners** such as universities can refer patients
- **Home-test Kits** provide private, stigma-free testing for potential patients

2. Entry into Care: Early Intervention Services (EIS)

The patient journey at MCPC often begins with Early Intervention Services (EIS), which are designed to facilitate rapid identification, diagnosis, and linkage to HIV care.

Individuals newly diagnosed with HIV are provided with same-day appointments whenever possible, either on-site through community outreach efforts or in-clinic. The EIS team conducts an initial intake that includes:

- **Rapid Diagnosis** through rapid testing,
- **HIV counseling and rapid linkage to medical care**, with a goal of initiating **antiretroviral therapy (ART)** within the first clinical visit when appropriate (aligned with the **Rapid Start ART model**).
- **Comprehensive baseline assessments**, including laboratory tests, psychosocial evaluations, and screenings for co-occurring conditions such as STIs, hepatitis, and mental health issues.
- Immediate connection to **Medical Case Management (MCM)** and **Non-Medical Case Management (NMCN)** services to address urgent social or structural needs, such as insurance enrollment, housing referrals, and transportation coordination.

3. Outpatient Ambulatory Services

MCPC's service model goes beyond clinical care to address the **social determinants of health (SDH)** that often act as barriers to adherence and retention in care. Our **wraparound services** include:

- **Medical Case Management (MCM):** Provides individualized care plans, coordination of medical services, and adherence support.
- **Non-Medical Case Management (NMCN):** Case managers work closely with the clinical team to monitor treatment progress and identify potential barriers to care, such as language, housing instability, food insecurity, or transportation challenges. Focuses on connecting patients with community resources, navigating insurance systems, and ensuring access to social services, including Emergency Financial Assistance (EFA) for housing and essential needs.
- **Medical Transportation Services:** Partnerships with Lyft and WeGo Public Transit provide reliable transportation to and from medical appointments, reducing a common barrier to consistent care.
- **Behavioral Health and Mental Health Referrals:** Integration of mental health screening tools during routine visits, with direct referrals to behavioral health providers as needed.

MCPC's service model proactively identifies and addresses barriers that impact patient adherence and retention in care. Total Active and Inactive patients at MCPC are

Music City PrEP Clinic
Nashville Metro Health
Ryan White Part A & MAI

plotted in Fig. 4; inactive patients are defined as patients who have not been serviced for more than six months. In addition to NMCM described above, MCPC is working to lower its inactive patient percentages through flexible scheduling, including evening and weekend clinic hours, to accommodate patients with work or family obligations. Additionally, translation services are provided free-of-charge, either through one of our several Spanish-fluent team members, or through translation services such as SpokenHere.

MCPC already maintains a robust data collection and processing team led by Finance Manager Monica Pintado, as described above. With the implementation of RWPA funding, MCPC is transitioning to CAREWare for enhanced data management, performance monitoring, and reporting. While this shift presents challenges, including learning new data entry methods and adjusting workflows, it also provides opportunities to improve data accuracy and streamline reporting processes for grant compliance.

Additionally documentation protocols can be further refined to capture critical patient information efficiently. These new protocols can be used to develop new policies and procedures to guide the care team in data collection, entry, and quality assurance, ensuring consistency across all service areas. MCPC's commitment to continuous quality management is embedded in our service model. In collaboration with our Quality Improvement (QI) team, we continuously assess clinical outcomes, patient satisfaction, and operational efficiency to identify areas for improvement. This includes utilizing the PRAPARE tool with the ART care team to identify barriers to care, such as adherence challenges, stigma, mental health concerns, and substance use. MCPC conducts regular case reviews to track viral suppression rates, retention in care, and service utilization, ensuring that quality metrics are consistently met. QI initiatives based on data trends, patient feedback, and evolving community needs.

MCPC's service model is designed to provide comprehensive, coordinated, and service-centric care, and [Great Experiences by Design](#) that supports individuals at every stage of the HIV care continuum. Through the integration of clinical services, wraparound support, and data-driven quality improvement, we aim to improve health outcomes, reduce HIV transmission rates, and ensure equitable access to care for all people living with HIV in Davidson County.

2) Work Plan

Funding of this work plan will serve to facilitate treatment to existing and new RWPA patients, plus expand the functionality of the existing services.

Fig. 4. Active and inactive ART patients at MCPC. Inactive patients are defined as patients who have not been serviced for more than 6 months.

Outpatient Ambulatory Services

The Outpatient Ambulatory Services at MCPC are designed to provide a comprehensive, patient-centered care experience within our ART department, ensuring that every visit is both efficient and clinically thorough. From the moment a patient arrives until the conclusion of their appointment, we follow a standardized flow that allows us to identify changes in health status, address acute and chronic conditions, and seize opportunities for preventive health screenings.

With the support of RWPA funding and participation, MCPC aims to further enhance this model, striving to achieve the designation of an ART department that functions as a patient-centered medical home (PCMH). Key action steps include the review and standardization of existing policies and protocols, implementation of preventive screening tools within the electronic medical record (EMR), coordination of MCM encounters, and the promotion of preventive health metrics to improve patient outcomes. This initiative will be led by providers, the Medical Director, Clinical Operations, MCM, Quality Improvement (QI), and the IT team.

In order to provide the best outcomes in the clinical environment we have utilized Quality metrics within Athena one to ensure proper screening, identification of vaccinations missing, and providing linkage to care. Comprehensive ambulatory care includes not only treatment and suppression of HIV, but also learning to manage other existing or developing health issues. This can include hypertension, pre-diabetes, behavioral health, and cancer screenings.

Included services

Ambulatory services will provide MCPC's patients with diagnostic and therapeutic care in an outpatient clinical space. An outpatient clinical space for our patients includes: clinics (2 in Nashville), mobile services, telehealth technology, and pop-up clinical sites.

Within those visits we can conduct treatment and medical adherence with our licensed clinical providers that enhances the work of our medical case management team.

This includes the items listed below.

- Medical history
- Physical examination
- Diagnostic and laboratory testing
- Treatment of pre-diagnosis medical and behavioral health conditions
- Identification and management of medical and behavioral conditions identified after HIV diagnosis
- Behavioral risk assessments, subsequent counseling, and referral to specialists
- Preventative care screenings
- Vaccinations
- Education on preventative health measures
- Referral to specialty care related to LWH or to other identified conditions

Music City PrEP Clinic
Nashville Metro Health
Ryan White Part A & MAI

The medical evaluation and care will begin at the patient's initial visit upon taking a medical history that encompasses not only the events at diagnosis, but their pre-existing medical issues. More comprehensive medical assessments should occur every 6 months or at intervals determined by the provider based on the patient's medical needs.

At each visit, the provider will document the primary reason for visit, and ensure that proper labs indicated have been performed within the prescribed timelines as outlined by the standards of care. Within those visits we can conduct treatment and medical adherence with our licensed clinical providers that enhances the work of our medical case management team.

Additionally, PLWH will continue to utilize screening tools to identify psychosocial health needs that may not be discussed with the provider initially. If there are any changes noted within their psychosocial situation, providers will route the patient to appropriate services via the MCM or NMCM team to close possible gaps in care.

Goal: Provide **comprehensive, patient-centered outpatient ambulatory care** that ensures timely **antiretroviral therapy (ART) initiation, ongoing medical management, and adherence support** to improve health outcomes and sustain viral suppression for people living with HIV (PLWH).

- **Objective 1: Standardize Comprehensive Patient Assessments**
Monitor and address acute and chronic conditions, and seize opportunities for preventive health screenings.
 - Provide comprehensive care to both acute and chronic conditions and provide referrals to higher levels of care as indicated.
 - Standardize structured screenings of both physical and psychosocial health including vaccinations, PAP smears, colonoscopy, PRAPARE, Patient Distress Indicator, PHQ-9 and GAD-7 during outpatient visit to assess adherence barriers, co-occurring conditions, and social determinants of health (SDH) for 100% of ART patients.
 - Anticipated Dates of Completion: 3 months
 - Staff Responsible: ART Providers, MCMs, Quality Improvement (QI) Team
- **Objective 2: Monitor and Improve Retention in Care: 80% of patients enrolled in EIS remain engaged in care for at least 12 months**, with follow-ups at least every 3 months during the first year of treatment.
 - Anticipated Dates of Completion: 3 months
 - Staff Responsible: Medical Case Managers (MCMs), ART Providers, Quality Improvement (QI) Team
- **Objective 3: Enhance Access to Outpatient HIV Care:** 100% of newly diagnosed or uncontrolled patients receive 4–6 medical visits annually, while stable patients receive 2–4 visits to support ART adherence and viral suppression. This includes following the Standard of Care including vaccinations.
 - Anticipated Dates of Completion: 3 months
 - Staff Responsible: ART Providers, Medical Case Managers (MCMs), Clinical Operations

Challenges and Mitigation Strategies in Planning and Implementing the Work Plan

Implementing the proposed project may present several challenges, including data management complexities, workflow adjustments, resource constraints, patient engagement barriers, and referral coordination issues. The integration of CAREWare and new documentation protocols may require staff training and workflow refinement, which will be addressed through ongoing technical assistance, hands-on training, and designated support staff to assist with the transition. Expanding services such as transportation, food, and housing assistance may stretch available resources, necessitating stronger partnerships with community organizations and efficient prioritization of services based on need. Engaging and retaining hard-to-reach populations, particularly those facing stigma, housing instability, or mental health challenges, requires a culturally competent, patient-centered approach that includes peer navigation, flexible scheduling, and outreach in trusted community spaces. Additionally, ensuring efficient referral pathways may pose coordination difficulties, which will be mitigated by standardizing referral protocols, improving communication with partner organizations, and tracking service completion rates through EMR enhancements. Continuous quality improvement (CQI) efforts, quarterly performance reviews, and staff feedback mechanisms will help identify gaps early and implement data-driven solutions to enhance service delivery and patient outcomes.

By anticipating these challenges and implementing targeted mitigation strategies, MCPC will be well-positioned to achieve the goals outlined in the Ryan White Part A work plan. A proactive approach to **staff engagement, resource management, data quality, and patient-centered care** will ensure that the project is implemented successfully and sustainably, with continuous quality improvement driving long-term impact.

Dear Applicant:

We're pleased to tell you we determined you're exempt from federal income tax under Internal Revenue Code (IRC) Section 501(c)(3). Donors can deduct contributions they make to you under IRC Section 170. You're also qualified to receive tax deductible bequests, devises, transfers or gifts under Section 2055, 2106, or 2522. This letter could help resolve questions on your exempt status. Please keep it for your records.

Organizations exempt under IRC Section 501(c)(3) are further classified as either public charities or private foundations. We determined you're a public charity under the IRC Section listed at the top of this letter.

If we indicated at the top of this letter that you're required to file Form 990/990-EZ/990-N, our records show you're required to file an annual information return (Form 990 or Form 990-EZ) or electronic notice (Form 990-N, the e-Postcard). If you don't file a required return or notice for three consecutive years, your exempt status will be automatically revoked.

If we indicated at the top of this letter that an addendum applies, the enclosed addendum is an integral part of this letter.

For important information about your responsibilities as a tax-exempt organization, go to www.irs.gov/charities. Enter "4221-PC" in the search bar to view Publication 4221-PC, Compliance Guide for 501(c)(3) Public Charities, which describes your recordkeeping, reporting, and disclosure requirements.

History (21)

Music City PrEP Clinic

(A Nonprofit Organization)

Financial Statements

With Independent Auditor's Report Thereon

FOR THE YEARS ENDED JUNE 30, 2024 AND 2023

Independent Auditor's Report

To the Board of Directors of
Music City PrEP Clinic

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Music City PrEP Clinic, which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Music City PrEP Clinic as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Music City PrEP Clinic and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Music City PrEP Clinic's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Music City PrEP Clinic's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Music City PrEP Clinic's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

**MUSIC CITY PREP CLINIC
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2024 and 2023**

NOTE A – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Music City PrEP Clinic (the “Organization”) headquartered in Nashville, Tennessee is a not-for-profit organization which began operations in 2017. The mission of the Organization is to empower Tennesseans and Kentuckians to live an HIV-free life through PrEP medication, education, anti-stigma campaigns, and support. To meet these objectives the Organization offers free HIV screenings to individuals in Tennessee and Kentucky. The Organization, also, provides prescriptions for Truvada and Descovy commonly referred to as PrEP, to reduce the risk of obtaining and the spread of HIV. The Organization receives revenue from a pharmaceutical company for each script of PrEP filled. The Organization additionally receives revenues for exams and STI treatment from insured patients. The Organization provides need-based financial aid to eligible patients.

Basis of Accounting

The financial statements of the Organization have been prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of unrestricted revenue and support and expenses during the period. Actual results could differ from those estimates.

Financial Statement Presentation

The Organization presents its financial statements in accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 958, *Financial Statements for Not-for-Profit Organizations*. Accordingly, the Organization reports information regarding its financial position and activities according to the two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

Net Assets Without Donor Restrictions

Net assets without donor restrictions include unrestricted resources which represent the portion of funds that are available for the operating objectives of the Organization.

Net Assets with Donor Restrictions

Net assets with donor restrictions consist of donor restricted contributions and grants. Amounts restricted by donors for a specific purpose are deemed to be earned and reported as net assets with donor restriction revenue when received, and such unexpended amounts are reported as net assets with donor restrictions at year-end. When the donor restriction expires, that is, when a stipulated time or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as “released from restrictions”.

Net assets with donor restrictions also consist of donor restricted contributions, which are required to be held in perpetuity. Income from the assets held is available for either general operations or specific purposes, in accordance with donor stipulations.

Contributions

Contributions are recognized as public support when received or unconditionally pledged. All contributions are available for unrestricted use unless specifically restricted by the donor. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the support is recognized.

**MUSIC CITY PREP CLINIC
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2024 and 2023**

NOTE A – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contributions (continued)

All other donor restricted contributions are reported as an increase in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions.

Revenue Recognition

The Organization recognizes revenue from the prescription of PrEP medication upon the filling of the medication.

Cash and Equivalents

Cash and equivalents include cash on hand and short-term investments with original maturities of three months or less.

Accounts Receivable, Net

The accounts receivable, net consists of prescriptions of PrEP filled. The accounts receivable balance is reported at the amount management anticipates collection. An allowance for doubtful accounts receivable is provided based on management's evaluation of potential uncollectible accounts receivable balances at year-end based on anticipated and historical collections. As of June 30, 2024 and 2023, management has estimated the allowance for doubtful accounts receivable is \$-0-.

Investments

The Organization classifies its investments as available-for-sale. Securities classified as available-for-sale are carried on the financial statements as fair value. Realized and unrealized gain and losses, determined using the first-in, first-out method, are included in revenue. Dividends on investments are recognized in revenue when declared. Investments are reviewed annually for impairment by management. The Organization recognized no impairment charges during the years ended June 30, 2024 and 2023.

The Fair Value Measurements and Disclosures topic of the FASB Accounting Standards Codification estimates a fair value hierarchy that prioritizes the inputs to valuation technique used to measure fair value. This hierarchy consists of three levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs have the lowest priority. The Organization uses appropriate valuation techniques based on available inputs to measure the fair value of investments. When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs would be used only when Level 1 and Level 2 were not available.

Property and Equipment, Net

The Organization capitalizes all property and equipment expenditures with a cost of \$500 or more and having estimated useful lives of more than one year. Property and equipment are recorded at cost or for donated items, at fair value as of the date received. Such donations are reported as unrestricted contributions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted contributions. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies net assets with donor restrictions to net assets without donor restrictions at that time. Property and equipment are depreciated using the straight-line method. The equipment is depreciated over 5 years. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense when incurred.

MUSIC CITY PREP CLINIC
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2024 and 2023

NOTE A – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Grants Payable

The Organization enters into unconditional promises to give to multiple other not-for-profit entities which fit the mission of the Organization. The Organization follows *FASB ASC 958-720-25-2 Financial Statements for Not-for-Profit Organizations Contributions Made* which require unconditional promises to be recognized at the time the obligation is contractually entered into. Unpaid unconditional promises contractually obligated to other not-for-profit entities have been recorded as grants payable on the statements of financial positions.

Functional Expenses

Expenses are summarized and categorized based upon their functional classification as either program services, management and general or fundraising. Specific expenses that are readily identifiable to a single program or activity are charged directly to that function. Certain categories of expenses are attributable to more than one program or supporting function. Therefore, the expenses require allocation on a reasonable basis that is consistently applied. The Organization has determined the allocation based on estimates of time and effort within the salaries and wages expense; which in turn created a percent allocation that was used to determine the allocation of certain expenses.

Advertising and Promotion Expenses

Advertising and promotion costs, which include costs to promote the Organization and specific programs, are expensed as incurred on the statements of functional expenses. Advertising and promotion expense for the years ended June 30, 2024 and 2023 totaled \$2,412,754 and \$2,322,546, respectively.

Income Taxes

The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c) (3) of the Internal Revenue Code. Therefore, the Organization has made no provision for federal or state income taxes in the accompanying financial statements. The Organization has evaluated its tax positions for all open tax years. The Organization is open and subject to examination by the Internal Revenue Service and state generally three years and five years, respectively, from the date of filing their returns. The Organization is neither currently under audit nor has the Organization been contacted by any jurisdiction. Based on the evaluation of the Organization's tax positions, management believes all tax positions taken would be upheld under an examination. Therefore, no tax provision for the effects of uncertain tax positions have been recorded for the years ended June 30, 2024 and 2023.

NOTE B – INVESTMENTS

To the extent available, the Organization's investments are recorded at fair value based on quoted prices in active markets on a trade-date basis (level 1 input on the fair value hierarchy chart). The Organization's investments that are listed on the U.S. exchanges are valued based on readily available market quotations. The Organization exercises due diligence in assessing the policies, procedures and controls implemented by its external investment manager and believes the Organization's carrying amount of these investments is a reasonable estimate of fair value. Such due diligence includes the review of information from the external investment manager as well as review of performance. The investments consist of shares of a mutual fund focused on bond markets. As of June 30, 2024 and 2023 the mutual fund has an initial cost and fair market value of \$163,053 and \$152,032, respectively. Realized loss on sale of investment, recorded as a decrease to net assets without restrictions, during the years ended June 30, 2024 and 2023 totaled \$-0- and \$155,608, respectively.

Administrative fees	160,256	405,383
Totals	<u>\$ 4,481,851</u>	<u>\$ 3,386,834</u>

NOTE G – MANAGEMENT FEE

During the year ended June 30, 2023 the Organization had an agreement with Music City Physicians' Group, PLLC ("Physicians' Group") to provide support as Physicians' Group provide physician services in line with the mission of the Organization. The Physicians' Group reimburses the Organization for the cost of the support plus 18%. The reimbursement calculation is based on number of patient visits to meet the mission of the Organization. These reimbursement costs have been recorded as management fee revenue on the statement of activities. During the year ended June 30, 2024 and 2023 management fees charged to Physicians' Group totaled \$328,007 and \$19,565, respectively.

In January 2024, the agreement with the Physicians Group matured and an agreement was entered into with Rod Bragg Diversity Health, LLC ("Diversity Health") to provide management services for the Organization. Diversity Health will provide the management services for the cost of the support plus 18%. The agreement has not been officially signed but the Organization for the period January 1, 2024 through June 30, 2024 has recorded the transactions in line with the verbal agreement. The management fee has been recorded within "Pharmacy contract administrative fee" on the statement of functional expenses. During the year ended June 30, 2024 management fee totaled \$687,371

NOTE H – RETIREMENT PLAN

The Company offers a 401(k) retirement plan to all employees after 30 days of employment. The Organization matches 100% of the first 6% of employee contributions. During the years ended June 30, 2024 and 2023 employer match contributions totaled \$13,135 and \$120,701, respectively.

MUSIC CITY PREP CLINIC
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2024 and 2023

NOTE I – AVAILABILITY OF FINANCIAL ASSETS

The Organization is substantially supported by PrEP prescription revenue. Because a donor's restriction requires resources to be used in a particular manner or in a future period, the Organization must maintain sufficient resources to meet those responsibilities to its donors. Thus, financial assets may not be available for general expenditure within one year. As part of the Organization's liquidity management, it sends out cash as the restricted contributions come in and maintains a level of cash related to contributions without donor restrictions.

The following reflects the Organization's financial assets as June 30, 2024 and 2023, reduced by amounts not available for general use because of donor imposed restrictions within one year of June 30, 2024 and 2023.

	2024	2023
Financial assets, at year-end	\$ 8,296,960	\$ 4,002,729
Less those unavailable for general expenditure within one year due to:		
Donor-imposed restrictions:		
Restricted by donor with time or purpose restrictions	-	-
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 8,296,960</u>	<u>\$ 4,002,729</u>

NOTE J – CONCENTRATION OF RISK

During the years ended June 30, 2024 and 2023, the Organization received PrEP prescription revenue from a pharmaceutical company totaling \$46,914,200 and \$44,218,299 or 80% and 95%, respectively, of PrEP prescription revenue.

The Organization may be subject in the future to credit risk to its cash and equivalents accounts, which are placed with high credit-quality financial institutions. The Federal Deposit Insurance Corporation ("FDIC") offers coverage up to \$250,000 for substantially all depository accounts. As of June 30, 2024 and 2023, the Organization had \$7,858,962 and \$3,600,697, respectively in funds over the FDIC limit.

NOTE K – CASH FLOW INFORMATION

During the years ended June 30, 2024 and 2023 the Organization had cash disbursements for interest totaling \$255,057 and \$266,602, respectively. There were no cash disbursements income taxes during the years ended June 30, 2024 and 2023.

NOTE L – SUBSEQUENT EVENTS REVIEW

Subsequent events have been evaluated through October 18, 2024, which is the date the financial statements were available to be issued. There were no subsequent events or transactions requiring the financial statements to be adjusted.
