

**CUMBERLAND
RIVER COMPACT**
OUR WATER. OUR FUTURE.

April 16 2021

To: Metro Water Services

From: Cumberland River Compact

Please accept this donation of \$100,000.00 from the Cumberland River Compact. The Cumberland River Compact is the lead organization on the Tennessee Department of Agriculture approved Mansker Creek Based Plan for section 319 Nonpoint Source funding to pursue watershed restoration projects. MWS's project to implement a streambank stabilization project for Mansker Creek supports the goals of our approved Mankser Creek Based Plan.

We look forward to continuing our collaboration with MWS on our shared goal of improving impaired watersheds in our community.

Sincerely,

Mekayle Houghton
Executive Director
