Keep America Beautiful Grant Agreement

Keep America Beautiful (“KAB”), in partnership with its sponsor UPS, is pleased to provide resources to Metro Nashville Beautification and Environment Commission (“Grantee”) to implement a 2020 UPS Community & Recovery Tree Planting project.

This Grant Agreement (“Agreement”) effective October 1, 2020 (“Effective Date”) is entered into by and between Grantee and KAB to confirm the parties’ understanding of the services and benefits as described in this Agreement. KAB and Grantee shall be collectively referred to as the “Parties.” The Description of Grant Activities shall set forth relevant background information about Grantee, key performance indicators for goals aligned to the purpose of this Agreement, and any additional commitments of the Parties.

In consideration of the mutual undertakings herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree to the following:

1. Payment

KAB will provide a cash award of \$10,000 in two installment payments, seventy percent (70%) \$7,000 within thirty (30) days of receiving an executed Agreement and the remaining thirty percent (30%) \$3,000 upon the acceptance of a final grant report. Grantee shall use the Grant solely for the designated purposes as set forth in the Description of Grant Activities and subject to Grantee’s performance of all requirements under this Agreement.

2. Acceptance

- a. Grantee accepts the above Grant in exchange for the performance of all required actions under this Agreement, including the commitments set forth in the Description of Grant Activities.
- b. Grantee shall use the Grant solely for purposes as described in this Agreement and the Description of Grant Activities and understands that any alternative use of the Grant must be authorized in advance by KAB in writing.
- c. Grantee acknowledges and agrees that that the receipt of this Grant does not imply a commitment on behalf of KAB to continue resource support beyond the term listed in this Agreement and/or the Description of Grant Activities.

3. Use of Funds

Grantee shall use the awarded goods, services, and funds in accordance with the project description and budget included in the grant application and further described in Exhibit A. The Grantee will not use grant funds to influence legislation or for any purpose that does not meet the Internal Revenue Service Code provisions for charitable, educational, and scientific purposes. None of the grant proceeds are to be transferred by the grantee to any other organization without the written approval and consent of KAB.

4. Products, Services, and Project Labor

Grantee shall use reasonable care to ensure products and services funded with the grant adhere to the following principles. At a minimum, any employment provided as a result of this grant, fairly and equitably compensates the laborers in the following ways:

- a) There shall be no forced labor (including contractually bound labor without compensation) in the implementation of the project. All work or service which is exacted from any person under the threat of any penalty and for which the person has not offered themselves voluntarily is prohibited.
- b) Ensure that all employed project participants earn at least a regionally prevailing industry wage where that wage is a living wage sufficient to meet basic needs. A living wage is the remuneration received for a standard workweek by a worker in a particular place sufficient to afford a decent standard of living for the worker and their family. Elements of a decent standard of living include food, water, housing, education, health care, transportation, clothing, and other essential needs including provision for unexpected events.
- c) Adhere to all federal, state, and local labor laws including but not limited to not withholding wages as a means of disciplinary action.
- d) Any youth employed shall, at a minimum, ensure paid workers under the age of 18:
 - i. Are older than the federal or state determined age of completion of compulsory schooling, or 15 years of age, whichever is greater;
 - ii. Do not work in conditions likely to jeopardize their health, safety or morals;
 - iii. Receive protective equipment where relevant;
 - iv. Are paid equivalent wages to other employed project labors;
 - v. Work outside of school hours or does not obligate them to leave school prematurely; or requiring them to attempt to combine school attendance with excessively long and heavy work.
- e) Ensure the project does not use goods and services produced using child labor defined as work that deprives children of their childhood, their potential and their dignity, and that is harmful to physical and mental development. It refers to work that is mentally, physically, socially or morally dangerous to children and/or interferes with their schooling by depriving them the opportunity to attend school.
- f) Ensure that income-generating activities are maximized and economic growth is prioritized for the most vulnerable workers in the Community. Where a project eliminates or diverts existing income-generating activities, the grantee shall ensure the creation of alternative activities that generate the same or increased income that require similar knowledge and skills. Should loss of employment be greater than

creation of new employment as a result of the project, grantee shall describe and justify the situation.

5. Relationship between Parties

This Agreement does not constitute and shall not be construed as creating a partnership, joint venture, or employee/employer relationship between the two parties. Neither party shall have any right to obligate or bind the other party in any manner whatsoever, and nothing contained herein shall give, or is intended to give any rights to any third person ~~(except that the indemnification of Grantee by KAB and of KAB by Grantee shall extend to their respective, shareholders, officers, directors, employees, agents, management committee members, affiliates, and partners).~~ *JMS*

In addition, Grantee shall not use KAB Trademarks in any way that would cause a person to reasonably infer that the Parties are affiliated with one another or that either party is acting on behalf of or in endorsement of the other. Except for the trademark provided on the Grant materials, such license shall terminate upon termination of this Agreement. Grantee acknowledges that the provisions of this paragraph do not convey to Grantee any right, title, or ownership interest in any KAB Trademarks. The Parties further agree that nothing herein grants Grantee any rights to any KDP intellectual property of any kind.
- b. Grantee acknowledges its familiarity with the high quality of products and services offered under the KAB Trademarks and agrees to maintain a comparable standard of quality in connection with its use of the KAB Trademarks. Grantee shall comply with all Brand Standards (attached hereto as **Exhibit B**) in connection with its use of the KAB Trademarks, and shall not take any action that could tarnish or harm the goodwill or reputation associated with KAB or the KAB Trademarks.

7. Indemnification, Limitation of Liability and Disclaimer of Warranties

- a. ~~The Grantee agrees to defend, indemnify and hold harmless KAB, its directors, officers, employees, agents, successors, and assigns from and against any claim arising out of or related to the Grant regardless of cause, and regardless of the form of action. 2020 Keep America Beautiful-UPS Community & Recovery Tree Planting Grants

Q16

What are the specific OBJECTIVES of this tree planting project/program? (200 words max)

Overall objective: To restore the destroyed tree canopy in Nashville neighborhoods and for the Stones River Bend Regional Park, located in the Donelson community, for regional health and healing.

To restore neighborhood tree canopies

To protect the biodiverse Stones River corridor and floodplain from stormwater runoff, especially during extreme rain events

To protect the drinking water for over 250,000 people who depend on the Cumberland River for water as the planting site is less than four miles from Stones River's confluence with the larger Cumberland River

To protect the stream bank from deterioration as trees will be planted within the riparian buffer zone of the Stones River

To recover and improve this section of the river from negative effects of pollution or alteration from the upstream urbanized sections

To mitigate the effects of vehicle emissions from the heavily traveled thoroughfare only 300 feet away from the planting site, averaging 35,020 cars daily, for park visitors and wildlife

To improve and restore the aquatic and terrestrial wildlife habitats, which will protect the area's important biodiversity, including 69 rare plant and animal species found here

To restore the natural beauty provided by the trees

To restore neighborhood tree canopies

Q17

What's the anticipated COMMUNITY IMPACT that will result from this grant funding? (250 words max.)

Nashville was hit by three powerful weather events within two months during the spring of 2020 resulting in tens of thousands of trees lost: the deadly tornado of March 3rd with 165 mph winds and a 800 yard-wide path; a rare event called a derecho, also deadly, on May 3rd, with straight-line winds up to 75 mph, causing the worst power outages in decades; and within 24 hours another rare event, a wake low, with winds up to 50 mph. Many trees, that somehow survived the tornado and derecho, could not withstand this final impact and fell.

Nashville's neighborhoods sustained significant tree loss. The Donelson community, located a few miles from downtown, was just one area to receive a direct hit by the tornado. Their Stones River riparian buffer within 300 feet of the main commercial roadway, with parts of the river designated impaired or impacted negatively by pollution or alteration, was damaged. It is the home of the new 800 acre Stones River Bend Regional Park, sited on the last undeveloped river bend in the Nashville area and a community treasure.

As so many Nashvillians are repairing and rebuilding their homes, these community tree restoration planting projects will show they are not alone in their recovery. These trees will restore the lost ecological benefits and will be a beacon for years to come of how the city is resilient and has earned the Nashville Strong reputation.
