- A.5. Project Safe Neighborhoods (PSN) is designed to create and foster safer neighborhoods through a sustained reduction in violent crime, including, but not limited to, addressing criminal gangs and the felonious possession and use of firearms. The program's effectiveness depends upon the ongoing coordination, cooperation, and partnerships of local, state, tribal, and federal law enforcement agencies-and the communities they serve-engaged in a unified approach led by the U.S. Attorney Office (USAO) in all 94 districts. Acting decisively in a coordinated manner at all levels-federal, state, local, and tribal-will help reverse a rise in violent crime and keep American citizens safe. PSN provides the critical funding, resources, and training for law enforcement, prosecutors, and their PSN teams to combat violent crime and make their communities safer through a comprehensive approach to public safety that marries targeted law enforcement efforts with community engagement, prevention, and reentry efforts.

With PSN, each USAO is responsible for establishing a collaborative PSN team of federal, state, local, and tribal (where applicable) law enforcement and other community members to implement a strategic plan for investigating, prosecuting, and preventing violent crime. Through the PSN team (referred to as the "PSN task force"), each district will implement the five design features of PSN-leadership, partnership, targeted and prioritized enforcement, prevention, and accountability-to address violent crime in their respective districts.

- a. The Grantee will gather and maintain data relating to grant project activities and program performance as required by the Office of Criminal Justice Programs. Implementing Agency: Metropolitan Nashville Police Department

PROBLEMS FOR INTERVENTION AND NEEDS TO BE IMPROVED

Problem Description – What is the nature and magnitude of the problem(s) to be solved by the proposed funding? This should be based on your agency's own data and/or other relevant sources and describe in detail the most pressing problems in your service/impact area. The problem statement should also identify the needs of the community based on relevant and timely data. This should be light on demographics and geography. (See Open Solicitation Blurb for project requirements)

Gun Violence has impacted the citizens of Nashville and their quality of life over the last several years with a dramatic jump in gunshot wound incidents from 2016 to 2017 (+90 victims).

2014 was a year where we had the fewest homicides in years (approximately 48) but that total rose to 107 for 2021.

In 2015 we began using and tracking NIBIN (National Integrated Ballistic Information Network) data to combat the increase in gun violence. NIBIN utilizes forensic linkages of cartridge casings as leads between related shooting incidents. NIBIN use in proactive efforts assisted in GSW decreases from 2017 - 2019.

In tracking this data, we see extremely high rates of linked gun crime scenes in specific patrol zones located within the enforcement areas listed below. Those zones and NIBIN related incident totals for calendar year 2021 are: 111 = 26, 211 = 33, 221 = 37, 321 = 14, 325 = 17, 335 = 14, 511 = 41, 611 = 19, 613 = 23, 615 = 22, 621 = 20, 623 = 25, and 721 = 23 (13 of 69 zones account for 314 of 807 total NIBIN related incidents for 2021 / 19% of patrol zones account for 39% of NIBIN related incidents).

These NIBIN related incidents include robberies, shootings of people where victims survived, residential damage, and homicides.

The increase from 2019 to 2020 in GSW incidents was 30%. The increase from 2020 to 2021 was 3%.

We saw in 2021 that an increase in focus on these NIBIN related investigative leads and the intelligence derived from the data would enable the department to interrupt these shooting cycles, focus investigative efforts on suspects willing to pull the trigger, and increase the quality of life for the citizens in these areas most affected.

The focus on the NIBIN related data and the additional assistance provided by the US Attorney in federally prosecuting these offenders under the banner of Project Safe Neighborhoods is a great combination that enables us to continue to combat violent gun crimes.

ELIGIBILITY

Eligible subrecipients are limited to the Metropolitan Government of Nashville-Davidson County.

ATTACHMENT A
APPLICATION FOR FUNDING
GRANT PROJECT NARRATIVE
(Narrative Page 2)

Our agency is the Metropolitan Nashville Police Department located in Davidson County, TN.

Applicants for this funding must allocate at least 30% of funds to combatting gang attacking, violent crime and firearms offenses.

The department is constantly tracking gang activity and membership within the jurisdiction especially as it relates to violent crime and firearms offenses. We will combine the data we already have regarding gang membership and the data included in leads for violent crimes established through the NIBIN and ATF eTrace systems to have an evidence led violence reduction strategy. This will be used to investigate crimes where firearms were used and to investigate potential "straw purchasers" in an attempt to stop guns from being provided to prohibited offenders.

Please explain your agency's background in measurement, analysis, and improvement or organizational performance. How do you track data and information as it relates to violent crime, firearms, human and drug trafficking and gang activity? How do you measure organizational performance related to these key performance metrics?

The department already has extensive data tracking mechanisms using the records management system (RMS) that update on a weekly basis at a minimum that will allow us to track frequency and locations of these violent acts. In addition, there is data in RMS that allows us to quickly ascertain which established gangs have the highest levels of membership and whether or not those members are related to violent acts.

The department also actively tracks firearms arrests that occur on a daily basis and has a system of communication in place facilitating an almost daily dialogue with federal prosecutors to determine which of those firearms arrests would be best served by prosecution in the federal courts.

The MNPD Specialized Investigations Division has devoted 6 teams referred to as T.I.T.A.N.S. (The Investigative Teams Addressing Neighborhood Shootings) that specifically address violent firearm offenses, gang activity, and sources of firearms to prohibited persons. There are 6 teams with 1 supervisor and 6 investigators allocated for each team for a total of 36 detectives and 6 Sergeants. One Lieutenant is assigned to oversee the TITANS. 1 team is comprised of the personnel that was formerly known as the Crime Gun Unit and 2 teams are from the MNPD's former Gang Unit demonstrating experience at both gang and NIBIN related investigations.

PURPOSE

This section should include goals and objectives of the project.

- Goals The goals are the general statement of long-range benefits to the client or community that you are seeking to accomplish.
- Goal 1: Using NIBIN leads is an effective way to deal with gun crime within a community. This project will enable the department to institutionalize the use and training related to NIBIN leads provided by our crime lab which will enable us to take a precision approach to keep gun related violence to a sustained minimum.
- Objectives The objectives are the general strategies (not specific activities) to be employed to accomplish the above stated goals.

ATTACHMENT A
APPLICATION FOR FUNDING
GRANT PROJECT NARRATIVE
(Narrative Page 3)

Objective 1: Enhance the ability of the T.I.T.A.N.S. (The Investigative Teams Addressing Neighborhood Shootings) working with ATF partners to follow leads and investigate NIBIN related incidents that can be prosecuted at the state and federal level.

Objective 2: Provide additional training and opportunities to the MNPD investigators to follow-up on NIBIN related leads.

Objective 3: Use the ATF E-trace program to investigate suspicious firearm purchases by prioritizing firearms seized and linked to NIBIN related incidents over other non-linked seized firearms.

Objective 4: Purchase forensic equipment with grant funds along with funds from the Metropolitan Nashville Police Department. This equipment will enable the MNPD Crime Lab to collect images of fired cartridge cases and compare them to other shell casings the NIBIN Database.

ACTIVITIES

Activities are what a project does with the inputs to fulfill its mission. This section should describe the planned activities, major interventions or program elements designed to accomplish the goals of the project. You should describe the activities to be employed by the project to achieve the desired results. For projects requesting multi-year funding, describe and delineate how activities may change over the period of the grant if at all. Link the activities to the stated Objectives listed above. Repeat the section below as necessary.

Objective 1: Overtime will be allotted to the members of the TITANS teams to create additional opportunities for Unit detectives to analyze NIBIN data as assistance to the precinct and gain additional investigative leads for cases led by TITANS detectives with a focus of at least 30% of granted funds to be used in NIBIN leads which involve confirmed gang members. We have a statistical tracking mechanism already in place allowing us to determine when funds are used on a criminal case involving gang and non-gang members.

Activities – Overtime used for investigative follow-up of NIBIN leads

Objective 2: Overtime will be allotted to the TITANS detectives to follow-up on NIBIN leads after completing at least a 4-hour block of training conducted by Sgt. Joseph Winter and detectives from his former investigative team known as the Crime Gun Unit. This will provide a clear understanding of how to investigate NIBIN leads and familiarity of the minimum investigative follow-up actions to be completed for each lead.

 Activities – TITANS detectives to provide support and assistance to precinct investigative elements and centralized investigative teams in the investigation of NIBIN related incidents.

Objective 3: Investigative follow-up for suspicious firearm traces to determine the sources of crime guns to prohibited offenders. This follow-up investigation will be contained to firearms not reported stolen, with low time to crime rates [less than 2 years] and not seized from the possession of the legal purchaser.

 Activities - Interviews to be conducted of firearms purchasers meeting these criteria and evaluated for potential prosecution of fraud or "straw purchasing".

GRANT PROJECT NARRATIVE
(Narrative Page 4)

Objective 4: Purchase a BRASSTRAX Acquisition Station with grant funds along with funds from the Metropolitan Nashville Police Department which will enables the MNPD Crime Lab to collect images of fired cartridge cases and forwards them to be searched against the NIBIN Database.

 Activities – Purchase BRASSTRAX Acquisition Station and installing it at the Metropolitan Nashville Police Department Crime Lab. After installation the system will utilized to compare shell casings with other shell casings in the NIBIN database.

IMPLEMENTATION TIMELINE FOR ACCOMPLISHING KEY GRANT ACTIVITIES

This section should include a comprehensive timeline with concrete implementation and execution dates. The structure of the timeline should be feasible and outline the best scenario for achieving goals and objectives. Please add additional lines as necessary.

<u>INPUTS</u>

This section should describe the factors your project requires to conduct its activities and to achieve its goals and objectives. For example, an after-school program would need to have an evidence based program and appropriate referrals from an outside resource to be able to execute the project effectively. Provide a brief description of grant funded position's responsibilities.

Include special degrees, educational requirements or experience which are requirements of the grant-funded positions. In addition to this grant, what other resources are being offered by your agency? Outline the organizational structure including all who work with the project regardless of whether or not their salaries are grant funded. To what extent would this grant affect the overall project budget? Would this grant fund the entire project or are there other resources that would be leveraged to benefit this project? Give some detail.

Training provided to select investigators using grant funds will be required. All investigators will be POST certified police officers assigned to investigative units within the Metro Nashville Police Department with jurisdiction over the affected areas.

These types of investigations are already occurring and this grant will give the opportunity to investigate NIBIN related incidents that may be currently "filed" cases or cases suspended prior to the forensic linkage being established.

Personnel dedicated to the use of these funds for NIBIN investigations will be:

GRANT PROJECT NARRATIVE
(Narrative Page 5)

- Up to 36 Detectives (Police Officer II) assigned to the Specialized Investigations Division T.I.T.A.N.S. teams
- 6 Sergeants assigned to the SID TITANS teams. Sgt. Joseph Winter of "NIBIN A / TITANS" is designated to oversee administered funds and investigative follow-up.
- 1 Lieutenant assigned to the Specialized Investigations Division

The Specialized Investigations Division is specifically tasked and trained to address violent gun crime, firearms trafficking, and drug tracking with dedicated personnel (36 dedicated detectives and 6 dedicated sergeants to address violent crime alone). In addition, almost half of the personnel assigned to TITANS teams were formerly assigned to the MNPD SID Gang Unit giving them unique experience and addressing, tracking and documenting gang activity.

DATA COLLECTION PROCEDURE

Describe the data collection procedures you will undertake to collect and report the outputs and outcomes of the planned services or interventions. E.g. stakeholder questionnaires, client satisfaction surveys, case records, etc. Describe how you will document your activities and collect the data you will report for the quarterly PMT reports and OCJP Annual Report. Questions to be answered are; who will collect the data as well as how and when. In addition, describe how your agency will use the data collected to evaluate the goals of the project and the work performed and plan accordingly.

The Sergeant assigned to the SID "NIBIN A TITANS" team (Sgt. Joseph Winter) will consistently collect and maintain the data related to actions using grant funds. The data collected will record the statistical measures listed below in the intended outputs section along with case tracking involving the following:

- 1. Which specific NIBIN cases were investigated using grant funds and the number of cases that involved confirmed Gang Members.
- 2. Number and names of confirmed gang members investigated and arrested as a result of the investigations.
- 3. Date of NIBIN assignments made along with data case is closed / completed
- 4. Assigned case detective(s)

Checklist of minimum requirements for each NIBIN related incident investigative follow-up will be required with each completed requirement having sufficient documentation of completion along with statistical data section that captures the below statistical data at a minimum.

COLLABORATION ACTIVITIES (REQUIRED)

Collaboration is defined as a mutually beneficial and well-defined relationship entered into by two or more organizations to achieve results they are more likely to achieve together than alone. Collaboration should describe the ongoing working relationship where ideas are exchanged a common purpose and common goals are planned and attained. All applicants are strongly encouraged to collaborate with other agencies to achieve similar goals.

The MNPD personnel assigned to these investigations will work alongside of our ATF and FBI partners along with the Federal and State prosecutors to evaluate investigative progress and the

most appropriate prosecution strategies. Currently we have 6 ATF agents, and an assistant US Attorney assigned to work and consult in these investigations. The MNPD has also established 4 MNPD Task Force Officers with the ATF to assist in prosecutorial efforts at the federal level.

INTENDED OUTPUTS (Products)

This section should describe the outputs or internal measures of the amount of work done within the project. **Outputs are the direct products of program activities** and usually are measured in terms of the volume of work accomplished. Outputs refer to the completion of tasks you are required to accomplish over the course of the project.

- •Statistical outputs that will be measured and compiled will be:
 - o Number of Interviews for each incident completed
- o Number of arrests made in association with each NIBIN related incident with the number of Gang Members arrested counted as a separate statistic.
 - o Number of cases cleared by exception as defined by TIBRS (to be provided if needed).
 - o Number of firearms seized during investigation.
 - o Number of firearms traffickers identified and prosecuted.
 - o Number of search warrants executed as a result of investigation.

INTENDED OUTCOMES (Results)

Outcomes describe the difference the project will make for its participants and/or the community as a whole. The outcomes for a project should be **measurable** based upon a set of defined criteria. Project goals should be set for each criterion. For projects requesting multi-year funding, describe how outcomes may be expected to change over the period of the grant.

- •Reduction in homicides by 5% between July 1, 2022 and June 30, 2023.
- •Reduction in aggravated assaults where someone is actually shot by 5% between July 1, 2022 and June 30 2023.
- •Identification and Prosecution of 2 illegal gun traffickers between July 1, 2022 and June 30, 2023.

PROJECT SUMMARY (Mandatory)

Applicants must provide a project summary that includes the applicant's name, title of project, the goals of the project, type of programs to be implemented, a **brief** description of strategies to be used, major deliverables, and coordination plans. The project summary must not exceed one-half page, or 400-500 words.

Title of Project: MNPD Enhanced Gun Crime Reduction

The goals of the project are to reduce gun related violence in Nashville with specific goals of a 5% reduction in homicides, 5% reduction in injuries from shootings, and the successful identification and prosecution of 2 illegal gun traffickers from July 1, 2022 to June 30, 2023. We will implement intense follow-up investigation and prosecution of subjects using firearms by utilizing NIBIN leads and the ATF E-trace program combined with federal and state prosecutions in coordination with our federal

law enforcement partners. The strategy to be used will involve investigators following leads provided by forensic linkages of crime scenes provided by the NIBIN program and E-trace to identify and prosecute the offenders of illegal use and trafficking. We will work directly with ATF and FBI personnel to identify, locate and prosecute the offenders while determining the best strategies for prosecution in coordination with our federal and state prosecutors.
