HIV Surveillance

The Davidson County HIV Surveillance Program will engage in passive and active HIV surveillance to collect complete and accurate HIV data and trends. The program will bring together information from a range of sources to estimate how many people are living with HIV, understand who is being infected and why. In addition, this data will be used to analyze trends as well as assess the impact of HIV prevention, testing, and treatment services across different population groups.

HIV Jail Testing

The STD/HIV Program will provide pre and post test HIV test at the Downtown Detention Center (DDC) to provide individuals who are detained an opportunity to know their HIV status. It has been proven that this population has benefited from this type of confidential HIV screening. The screening gives individuals who would otherwise not prioritize HIV screenings an opportunity to know their HIV status.

Prevention and Intervention

The Davidson County STD/HIV Program's Communicable Disease Investigators / Disease Intervention Specialist (CDI's/DIS) will provide disease intervention services by counselling clients with the purpose of (1) prevention of HIV transmission and (2) the support of those affected directly and indirectly by HIV. This counseling aims to provide clients diagnosed with and affected by HIV with frank discussions of one of the most sensitive aspects of a patient's life. The purpose of this counseling is to provide non-judgmental services to assist clients with the tools necessary to navigate the medical and social aspects of an HIV diagnosis. The benefit to the community is the reduce the incidence of HIV, and reduce the stigma associated with HIV diagnosis, treatment, and Care.

Condom Distribution

The Davidson County Health Department's STD/HIV Program will provide condom distribution. Condom distribution programs have been proven to increase condom use, prevent HIV/STI's. The goal of our condom distribution program is to change the environment through increased availability, accessibility, and acceptability of condom use. Our program provides condoms in our Sexual Health Clinic (SHC), at outreach events, and to the public. Condoms are available for larger groups and our private medical practice partners when requested.
