Subject:	2024 Arson Dog Class
Sensitivity:	Confidential

Congratulations! Your department has been selected to receive two scholarships for the State Farm® Arson Dog Program in 2024. State Farm and Maine Specialty Dogs would like to invite you each to participate in the spring class scheduled for March 3 – March 29, 2024, at the New Hampshire Fire Academy in Concord, NH.

The State Farm scholarship includes all training fees, acquisition of the dog, certification of the K-9 team, lodging during the training, and transportation expenses to and from the training facility. State Farm will assist you with travel arrangements to Concord if you choose to not drive to the training.

As stated in the application, once the team graduates from the school, yearly maintenance, care and upkeep of the K-9 is the responsibility of the department. This would include yearly recertification training.

Please reply to this email to confirm your acceptance of the scholarship by December 8, 2023. Additional information about the class and arranging for travel to training will be sent out in early 2024.

Important Announcement

As we continually evaluate our business practices and funding, State Farm has decided it will not renew the State Farm Arson Dog Program beyond the 2024 training class. The program will end on December 31, 2024.

State Farm is proud to have provided 30 years of financial assistance for the acquisition and training of more than 450 arson dog teams in 46 states, three Canadian provinces, and the District of Columbia.

If you have any questions regarding the training or future re-certifications, please reach out to Paul Gallagher at Maine Specialty Dogs at 207-838-2505, or mainek9@aol.com.

CC Paul Gallagher – Owner and Head Trainer, Maine Specialty Dogs

You don't often get email from arsondogs@statefarm.com. Learn why this is important

Attention: This email originated from a source external to Metro Government. Please exercise caution when opening any attachments or links from external sources.

Good afternoon. I apologize in my delay in responding.

The fact sheet you provided is still current.

The terms of use are on the attached application you submitted. With State Farm discontinuing the funding of this program after this year, please work with Maine Specialty Dogs for future training and certification needs. They are the experts in this field.

The award date was the date of notification, which was 11/21/23. The estimated value of each scholarship is $25,000.

Thank you for all you and your teams do for your community. Please let us know if we can provide any other assistance.

Hello again Mr. Allen,

I sent the email below to Heather Paul earlier but she has informed she no longer with the arson dog program. She sent me your way. I am CCing the arsondogs@statefarm.com email as well in case they can assist with this.

Thank you and sorry for any inconvenience.

To: Heather Paul <heather.paul.jaw8@statefarm.com>
Subject: Information for State Farm Arson Dog Program.

Hello Ms. Paul,

Firstly, I am thankful for the opportunity for John Torzilli and myself to attend the State Farm Arson Dog Program in March 2024.

My administration is asking for the following:

- Letter from the Grantor with the date of award, value of training and K9, terms of use, and any other requirements
- Any documentation on the grant itself

I attached the letter that you guys sent before, I am sure something similar would be sufficient.
I will used the Arson Dog Factsheet from 2021 as documentation of the grant, unless there is an updated one.

Please let me know if there are any issues.

Once again thank you for the opportunity.

State Farm® Arson Dog Program Quick Facts

Key Messages

- Arson is a very serious problem as each year hundreds of lives are lost and millions of dollars in property damage occurs as a result of arson. It is important that law enforcement officials have every tool possible to combat this costly and sometimes deadly crime.
- Public education on arson, arson investigation and fire prevention through community outreach programs is essential to providing safer communities.
- State Farm's sponsorship of this program parallels with the values and characteristics it strives for as a good corporate citizen and is a perfect complement to State Farm's good neighbor values.
- Arson dogs can help fire investigators or law enforcement find evidence of arson crime quickly.
- Using their super strong noses, arson dogs are trained to point out where there is evidence that a fire has been started on purpose. Evidence can be gasoline, oil, or many other types of fuels that can start a fire.
- More information can be found by visiting www.arsondog.org.

Arson Dog Program Facts

- Program was established in conjunction with the Maine State Police and the Maine Criminal Justice Academy in 1993 through the sponsorship of State Farm.
- Over the past 25 years, more than 400 teams have been trained and placed in 45 states, District of Columbia and Canada through the State Farm Arson Dog Program.
- As of April 2018, there are over 100 certified arson dog teams trained through the State Farm Arson Dog Program in service. These teams investigate fire scenes to find evidence of possible arson across North America.
- The K9s are all Labrador Retrievers or Goldadors (Lab x Golden Retriever mix) because:
  - Labs have a superior ability to discriminate scents at a fire scene (the nose of a lab can smell in parts per quintillion!).
  - Labs generally have a good disposition and an outgoing personality.
  - Labs are very active and have a "love to work" type attitude.
- K-9s are chosen through a cooperative program with guide dog and disability assistance canine organizations, as well as through local animal shelters and humane societies.
- K9s are trained using the food reward method, meaning the dogs only eat from the hand of their handler when they are training or working a fire scene. They never eat from a dog bowl!
- K9s live and retire in the home of their handler.
- K9s are trained by Maine Specialty Dogs and are certified through the Maine State Criminal Justice Academy. The K-9s and handlers are required to complete 200 hours/ four weeks of training.
- Teams (K9s and handlers) are required to be recertified every year to remain a certified Accelerant Detection Canine team.

DocuSign Envelope ID: 39C17B3C-9ECC-4F3E-82AE-F6386D6C13EE

Did you know?

- Since 1993, the State Farm Arson Dog Program have placed teams in 3 Canadian provinces, 45 states and the District of Columbia. Only five U.S. states haven't had a dog trained through the program: Nevada, Alaska, Connecticut, Vermont, and South Dakota.
- Honolulu Fire Department will get their first arson dog team in 2018 and will be training in the 50th class for the State Farm Arson Dog Program. Honolulu is also the capital of Hawaii, the 50th state.
- The northern-most team trained through the State Farm Arson Dog Program is near Edmonton, Alberta, Canada. That team has even traveled north of the Arctic Circle to investigate fires!
- Paul Gallagher, owner and head trainer of Maine Specialty Dogs, has been training all of the arson dog teams for the State Farm Arson Dog Program since the first class in February 1993. And he is allergic to dogs!
- The State Farm Arson Dog Program has trained new arson dog teams every year for a quarter of a century. It is the longest continuous arson dog training program in North America.
- Three State Fire Marshal Offices have been involved with the State Farm Arson Dog Program since the first year in 1993 – New Hampshire State Fire Marshal's Office, Georgia State Fire Marshal's Office, and Illinois State Fire Marshal's Office.
- Paul Gallagher was the first arson dog handler for the State of Maine as a trooper with the Maine State Police. His partner, K9 Maddie, passed away at the age of 18.
- In 2016, State Farm paid nearly $2.5 BILLION for residential and commercial fire-related claims (45,757 claims). The average paid per claim was $54,531.

Superhero powers…SMELL!

- Dogs possess up to 300 million olfactory receptors in their noses, compared to about six million in us.
- The part of a dog's brain that is devoted to analyzing smells is 40 times greater than humans.
- We might notice if our coffee has had a teaspoon of sugar added to it but a dog could detect a teaspoon of sugar in a million gallons of water, or two Olympic-sized pools.
- When an arson dog smells gasoline or evidence at a fire, they sit down and point to it with their nose…even if it is buried under burnt debris or has been soaked in water!

ARSON CANINE TRAINING SCHOLARSHIP APPLICATION

Funded by State Farm Insurance®

State Farm™

GENERAL INFORMATION:

Each year, billions of dollars worth of property and hundreds of lives are lost as a result of fires set by arsonists.

State Farm® has been a sponsor of the program since 1993 and works in conjunction with Maine Specialty Dogs and the Maine Criminal Justice Academy to train ten canines and handlers a year. Over 350 teams have been placed in departments and law enforcement agencies throughout the U.S. and Canada.

State or local governmental agencies responsible for arson/fire investigations may apply for participation in the program. All applications are reviewed to determine eligibility and suitability to handle arson dogs.

Once eligibility is determined, accepted applicants will be notified of the dates for the five-week training program. The application deadline for next year's class is August 1st. The application review process will be completed by October 31st. All applicants will be notified by November 30th if they have been selected for the program. There are two, five-week training sessions conducted annually. One in April and May and one in August and September.

TRAINING AND CERTIFICATION:

The training is conducted by Maine Specialty Dogs located in Gray, Maine. Maine Specialty Dogs develops the curriculum and oversees all training and instruction for the program. The highly intensive five-week course includes classroom instruction, fire scene investigation, as well as various physically demanding training exercises. The canines are trained to work around physical obstacles and discriminate scents of various accelerants used to set fires during the intensive training.

At the end of the five-week course, the teams are evaluated by the Maine Criminal Justice Academy and a chemist certifies that each canine is capable of discriminating a variety of scents from substances used to start fires. This certification is crucial because the evidence uncovered by the canine and handler may become a key point in subsequent criminal and civil trials. A five-year commitment by the department to the program is required.

After completing the initial five-week training, the canine and the handler become a team. Each team must recertify annually at one of the recertification locations. If the canine is not recertified yearly or the department doesn't complete the five year commitment, the canine will be returned to the program or retired to the agency/handler. This decision will be made by Maine Specialty Dogs.

SCHOLARSHIP INFORMATION:

State Farm underwrites the program due to the problem of arson in our society. Arson dogs provide an invaluable tool for law enforcement officials to combat the costly and deadly crime of arson.

State Farm pays for:

- The canine,
- Training fees,
- Room and board during training,
- Certification by chemist and evaluation by the Maine Criminal Justice Academy and
- Reimbursement of transportation for the initial five-week class.

APPLICATION:

First name: MIGUEL	Last name: GARCIA
Full Title, Rank or Position: FIRE INVESTIGATOR	

AGENCY INFORMATION:

Name of Employing Agency: NASHVILLE FIRE DEPT	Phone: (615) 862 5421
