### Analysis

This resolution approves an application for a Connected Community Facilities grant from the Tennessee Department of Economic and Community Development (“TDECD”) to the Information Technology Services Department (“ITS”) to construct and improve digital access through the creation of buildings and rehabilitation of existing facilities.

TDECD has received \$30,000,000 in federal funds to improve digital access and was accepting applications for a Connected Community Facilities grant, with a maximum award of \$2,000,000. If awarded, the state will pay 90% of project costs and Metro will be responsible for 10% in matching funds. While the application deadline closed in December 2023, TNECD agreed to hold evaluation of the application pending approval of this resolution. The application from ITS is for \$2,000,000 to improve a Metro facility at 1281 Murfreesboro Pike, leased by the Metro Action Commission, to enable digital inclusion support. The Department of General Services will cover the matching funds.
