Analysis

This resolution approves an intergovernmental participation agreement between the Department of Water and Sewerage Services (MWS) and the Tennessee Department of General Services for stormwater and sewer infrastructure related to the construction of the Tennessee State Library and Archives building. The State has agreed to pay Metro \$515,415 to fund the design and construction of current and new stormwater systems by Metro. This work will separate stormwater and sewer flow from this site in order to reduce the potential for storm flooding, surcharging sewer, and odor in the area, as well as improve water quality in the Cumberland River. Any unused portion of these funds will be refunded to the State.

Future amendments to this legislation may be approved by resolution. This agreement has been approved by the Planning Commission.
