Analysis

This ordinance authorizes the execution of an agreement with 804 14th Avenue North, LLC, to provide improved public sanitary sewer service through the construction of an improved stormwater system. 804 14th Avenue North, LLC, will be constructing a 60-unit hotel development which is located in the combined sewer system and the Kerrigan basin. Currently, Metro operates the combined sewer system in the Kerrigan Basin which, if separated, would provide the potential for reduced localized storm flooding, surcharging sewer, and odors. The separation will also improve the overall water quality in the Cumberland River.

Metro will be responsible for the design and construction of the sewer separation infrastructure. 804 14th Avenue North, LLC will be responsible for the payment of \$1000,000 to fund the design and construction. 804 14th Avenue North, LLC will also be providing on-site stormwater control measures. Metro will also provide 804 14th Avenue North, LLC temporary access to the current combined system if the new separated system is not completed when the application for the use and occupancy permit for the multi-story development is submitted.

Fiscal Note: Metro will receive \$100,000 from 804 14th Avenue North, LLC, to be deposited to fund 47335 for the design and construction of the current and new stormwater infrastructure.
