Analysis

This resolution authorizes the Metropolitan Government to join the State of Tennessee and other local governments in amending the Tennessee State-Subdivision Opioid Abatement Agreement and approves the

related settlement agreements. The Council previously approved participation in this settlement pursuant to Resolution No. RS2021-1235 and an amendment approved pursuant to RS2023-2086. This settlement resolves years of complex litigation related to the opioid epidemic.

The Metropolitan Government filed suit in 2017 in *Metropolitan Gov't v. Purdue Pharma, L.P., et al.*, in the Middle District of Tennessee. That lawsuit became part of the nationwide multi-district litigation that resulted in the settlement at issue in this resolution.

RS2021-1235 approved a settlement with the three largest pharmaceutical distributors AmerisourceBergen Corporation, Cardinal Health, Inc., and McKesson Corporation ("Distributors"), and manufacturer Janssen Pharmaceuticals, Inc., and its parent company Johnson & Johnson ("J&J"). This litigation alleged various claims arising out of the manufacture and distribution of opioids. Metro is a named plaintiff in this litigation.

In November 2021, the Council approved Metro Nashville's participation in the agreement between the State of Tennessee and its political subdivisions (including Metro) as to how settlement funds will be distributed. Metro has received millions of dollars related to this settlement and will continue to receive funds for the next several years.

In 2023, the Council approved an amendment to the settlement agreement to include the settlement of claims against Teva Pharmaceutical Industries, Ltd., Allergan Finance, LLC, CVS Health Corporation, Walgreen Co., and Walmart, Inc.

The amendment to the settlement agreement under consideration include settlement of claims against Kroger Co. The settlement distribution between states and subdivisions will be identical to the original agreement. In addition, an amendment would be added to clarify language regarding the reallocation of future settlement funds from the J&J/Janssen settlement agreement.

The distribution in the original and amended agreement are as follows:

- Subdivision Fund: 15% of the funds will be paid directly to counties and certain municipalities that participate in the settlement. It is anticipated that these funds will be used for opioid abatement-related purposes.
- Abatement Fund: 70% of the funds will be paid into a new, statutorily created Opioid Abatement Fund. By law, these funds are placed in a trust and must be spent on future opioid abatement and remediation programs and expenditures. Funds are controlled by the independent Tennessee Opioid Abatement Council. 35% of funds, however, must be directed to counties participating in the settlements, and each county will determine how to spend its share of these funds on approved abatement programs in their communities.
- State Fund: 15% of the funds will be paid directly to the State. It is anticipated that these funds will be used for opioid abatement-related purposes.

The ordinance further states that the Metro Public Health Department will oversee the receipt and expenditure of funds Metro received related to the opioid-abatement-related settlements.

The Metropolitan Department of Law recommends the Council approve the amended settlement agreement.
