### Analysis

This ordinance amends Chapter 17.37 and Chapter 17.40 of the Metro Code to integrate the Nashville Department of Transportation and Multimodal Infrastructure ("NDOT") into the concept plan and final site plan processes of the Downtown Code ("DTC"). The ordinance amends Chapter 17.37 to require a formal recommendation from NDOT on concept plans reviewed by the Downtown Code Design Review Committee. A concept plan is the initial step in the approval process for developments within the DTC district. Currently, NDOT staff attend Downtown Code Design Review Committee meetings to answer questions related to proposed developments but have no formal role within the review process.

Additionally, the ordinance amends Section 17.40.170.C to require DTC final site plans to be approved by both the Planning Department and NDOT and to clarify the if the DTC district and Urban Design Overlay zoning are on the same parcel, then the DTC final site plan requirements shall take precedent. Currently, only the Planning Department reviews and approves DTC final site plans.

This ordinance has been approved by the Planning Commission.
