Analysis

This resolution appropriates \$42,405 through a grant contract from the Metropolitan Department of Water and Sewerage Services ("MWS") and the Tennessee Environmental Council ("TEC"). Resolution RS2021-1282, adopted by the Council on December 21, 2021, determined a plan for the allocation of funds from the State of Tennessee which included funds for riparian clean-up.

Pursuant to the terms of this agreement, TEC will coordinate 25 clean-ups in and along Nashville waterways for litter remediation. These clean-ups will occur in at least 12 Council districts. TEC will provide event outreach, safety training to volunteers, secure permission from property owners where the clean-ups occur, and educational content about the value of clean water. TEC will also provide reporting on expenses as well as metrics and progress related to the goals of this program. MWS will provide \$42,405 to TEC for performance of this contract. The grant term begins upon the date of approval by all required parties and filing in the Metropolitan Clerk's Office and extend for a period of 18 months.

Fiscal Note: Metro would pay \$42,405 to the Tennessee Environmental Council to provide trash and debris removal around Nashville's waterways.
