### Analysis

This resolution appropriates \$29,822,775 in CARES Act funds to various departments of the Metropolitan Government to reimburse expenditures incurred March 1, 2020 through December 30, 2020 for eligible public safety salaries already included in the fiscal year 2021 budget. The Council approved and accepted a Coronavirus Relief Fund (CRF) grant from the U.S. Department of the Treasury in an amount not to exceed \$121,122,775 via Resolution No. RS2020-318, as amended.

This resolution would further direct that savings from the fiscal year 2021 budget be used establish a new special revenue reserve fund for the purposes of continuing the expenditures necessary to respond to the coronavirus pandemic. The first \$20,000,000 of this new special revenue fund would be appropriated for Metro's continued COVID-19 emergency response expenditures, including but not limited to:

- Assessment centers
- Contact tracing / response lines
- Vulnerable population and homeless support
- Health order implementation and enforcement, including public safety/health overtime and PPE distribution
- Vaccine planning/distribution
- Increasing telework capabilities

Additionally, \$5,000,000 from this special revenue fund would be directed to Metropolitan Nashville Public Schools to cover COVID-19 related expenditures deemed eligible, but not limited to those already included in Resolution No. RS2020-658, also on the December 1 agenda. \$3,800,000 would be directed for rent, mortgage and utility assistance to be administered by the United Way of Greater Nashville under the same terms of Resolution No. RS2020-478. \$1,000,000 would be directed for small business relief grants to be administered by Pathway Lending under the same terms of Resolution No. RS2020-516.

Any unused portion of the \$29,822,775 of formerly approved CRF funding that are underspent by December 30, 2020, or any approved CRF funding allocated reimbursed through another funding source would also be directed to the special revenue reserve fund. These funds would be used for any additional COVID-19 emergency response needs and emergency management infrastructure and capital such as medical supplies and gear, fleet needs for first-responders, OEM equipment upgrades, and health department technology or

capital needs.

There is a proposed amendment for this resolution amending Section 8 to clarify that only the budgetary savings realized from the use of CRF funding for reimbursable public safety expenses will be transferred to the new special revenue reserve fund. All CRF funding will be spent by December 30 as required by the federal government.

*Fiscal Note: The Council has appropriated a total of \$96,800,000 thus far through the Committee process. This resolution along with RS2020-658 would appropriate the remaining \$29,822,7775 balance of the CARES Act Fund.*
