Analysis

On March 10, 2018, Elizabeth Giddens was visiting Nashville and walking on the sidewalk in front of 150 Third Avenue South to meet her rideshare driver. While walking, she tripped in a hole in the concrete and struck her head and face on a car and the curb, resulting in injury. The hole was caused by a missing sign in the sidewalk.

Ms. Giddens was transported to the hospital by the Nashville Fire Department with a severe headache, nausea, and pain in her neck. She was diagnosed with a closed head injury with concussion, post-concussion syndrome, and facial contusions. She returned to her home and experienced headache, dizziness, and changes in vision. She was again diagnosed with post-concussion syndrome and was referred to a neurologist as well as physical therapy and chiropractic care. Ms. Giddens completed three neurologist visits, two physical therapy visits, and 15 chiropractic visits. Her out of pocket medical expenses total \$18,490.24.

The Metropolitan Department of Law recommends settlement of this personal injury claim for \$30,000.

Fiscal Note: This \$30,000 settlement, along with the settlement per Resolution Nos. RS2023-2024, and RS2023-2030 would be the 20th, 21st and 22nd payments from the Self-Insured Liability Fund in FY23 for a cumulative total of \$732,640. The fund balance would be \$17,298,619 after these payments.
