Analysis

This resolution approves the second amendment to a Strengthening Public Health Infrastructure, Workforce, and Data Systems grant from the Centers for Disease Control and Prevention to the Metropolitan Board of Health, originally approved by Resolution No. RS2023-1955. The grant was previously amended pursuant to RS2023-2090 to reduce the amount of indirect costs collection by \$2,947 by moving from the Indirect Costs line item into the Direct Cost line item. The grant is used for implementation of workforce strategies to build organization resilience, promote employee well-being, and enhance workforce performance while focusing on building healthier communities.

The amendment under consideration increases the amount of the grant by \$843,396 from \$8,578,283 to

\$9,421,679 and incorporates terms and conditions for the grant based upon Notice of Funding Opportunity number OE22-2203. The amendment also requires Metro to respond to information by February 1, 2024, as a grant note for travel costs, supply costs, and other costs. In addition, Metro is given expanded authority to carryover unobligated grant funds. Finally, the amendment updates the funding requirements for indirect costs, reporting requirements, and payment information.
