Analysis

On July 5, 2021, raw sewage backed into the lower level of 145 Thompson Lane through floor drainage pipes. Approximately 3,000 square feet of the building was damaged. Upon investigation, it was determined that the

sewer main was full and packed with plywood, grease, rocks, trash, and excrement. The sewer main has been cleaned several times by the Metro Water Department.

The clean-up and restoration of the property is estimated to be \$56,723. This includes drywall removal and replacement, moisture treatment of wood and cinderblocks, vinyl flooring removal and replacement, tile removal and replacement, baseboard removal and replacement, electrical work, and painting for 3,000 square feet of the building.

The Metropolitan Department of Law recommends settlement of this claim for \$56,723.

Fiscal Note: This \$56,723 settlement, would be the 14th payment from the Self-Insured Liability Fund in FY21 for a cumulative total of \$734,068. The fund balance would be \$1,195,492 after this payment.
