#### Analysis

This resolution appropriates \$66,275 through a grant contract from the Metropolitan Department of Water and Sewerage Services ("MWS") to the Cumberland River Compact ("CRC"). Resolution No. RS2021-1282, adopted by the Council on December 21, 2021, determined a plan for the allocation of funds from the State of Tennessee which included funds for riparian clean-up.

Pursuant to the terms of this agreement, CRC will coordinate 17 clean-ups in and along Nashville waterways for litter remediation. These clean-ups will be divided into large and woody flood debris and flood debris accessible only by water. CRC will coordinate these events with the Tennessee Environmental Council to ensure no overlap or confusion. CRC will provide event outreach, safety training to volunteers, secure permission from property owners where the clean-ups occur, and educational content about the value of clean water. CRC will also provide reporting on expenses as well as metrics and progress related to the goals of this program. MWS will provide \$66,275 to CRC for performance of this contract. The grant term begins upon the date of approval by all required parties and filing in the Metropolitan Clerk's Office and extend for a period of 18 months.

*Fiscal Note: Metro would pay \$66,275 to the Cumberland River Compact to provide trash and debris removal around Nashville's waterways.*
