Analysis

This resolution approves an Amended Economic Impact Plan for the Madison Station Economic Development Area.

T.C.A. § 7-53-314 authorizes the Industrial Development Board (the “IDB”) to prepare economic impact plans for approval by the Metropolitan Council. On December 14, 2022, the IDB considered and approved the initial Plan for submission to the Metropolitan Council. The purpose of an economic impact plan is primarily to provide tax increment financing for a designated project to cover costs related to public infrastructure and site development. On January 3, 2023, the Metropolitan Council approved the initial economic impact plan for the Madison Station Economic Development Area pursuant to Resolution No. RS2022-1902, as amended.

This resolution contains the same Economic Impact Plan as amended by the Council and approved on January 3, 2023. The Amended Plan was resubmitted to the IDB, who held a public hearing on the proposal on April 12, 2023, as required by state law. The IDB approved the Amended plan at its April 12, 2023 meeting and has resubmitted the Amended Plan to the mayor and the Council pursuant to Tenn. Code Ann. 7-53-314. This resolution will ratify the actions taken by the Council at its January 3, 2023 meeting.

The Madison Station project is located at 721 Madison Square, Madison, TN 37215. At completion the project area will be a mixed-use development home to residential units, parks, other public spaces, and commercial units. The real property tax increment above the base tax and dedicated tax will be used to pay for the public improvements to the property, such as streets, transit center, pocket parks, greenway, etc. The funds will also be used to pay the costs of preparing the site for construction of the public improvements, such as demolition and grading.
