Analysis

This ordinance approves an agreement between the Nashville Fire Department, Emergency Services Division ("NFD") and Vanderbilt University Medical Center ("VUMC") for the participation and clinical training of students in the Emergency Medical Technician Externship Program.

Pursuant to the agreement, NFD would provide clinic training experiences to students from VUMC. Students would not be considered employees of the Metropolitan Government.

The school is required to provide assurances that students are covered by health and professional liability insurance and the school has agreed to assume responsibility for its students participating in the program.

The term of the agreement is three years, starting on January 1, 2024, and ending on December 31, 2026.

*Fiscal Note: There is no cost to Metro for the participation in this agreement.*
