Analysis

This ordinance amends Ordinance No. BL2024-439, which was approved by the Metropolitan Council on July 16, 2024. The legislation authorized the acceptance of approximately 1,635 linear feet of new eight-inch water main (DIP), approximately 630 linear feet of new 12-inch water main (DIP), approximately 1,247 linear feet of new eight-inch sanitary sewer main (PVC), three fire hydrant assemblies, 12 sanitary sewer manholes and easements, for two properties located at Century Farms Circle (unnumbered) and William Turner Parkway (unnumbered), also known as Century Farms J Road.

The ordinance under consideration authorizes the further acceptance of approximately 540 linear feet of new eight-inch water main (DIP), an additional approximately 94 linear feet of new eight-inch sanitary sewer main (PVC), one additional new sanitary sewer manhole, and easements, for two properties located now at 1000

Century Farms Circle and Century Farms Circle (unnumbered), also known as Century Farms J Road, Revision 1. The ordinance also removed the previously approved acceptance of approximately 630 linear feet of new 12-inch water main (DIP) and easements. The previously approved property at William Turner Parkway (unnumbered) is no longer required for the project.

These changes have been approved by the Planning Commission. Future amendments to this ordinance may be approved by resolution.
