Analysis

This resolution accepts the terms of a cooperative purchasing master agreement with ChargePoint, LLC for electric vehicle charging solutions for the General Services Department.

The original agreement is between Sourcewell, a governmental entity in the state of Minnesota, and ChargePoint, Inc. The anticipated project value is $500,000. The estimated savings to the Metropolitan Government by using this cooperative purchasing agreement is $90,071. The agreement would expire on September 18, 2029.

According to the Cooperative Request Review form, the pricing in the cooperative purchase agreement was leveraged from a competitive RFP with 86 offers. The agreement would provide electric vehicle charging stations, cloud software, station management, installation, and maintenance. It is unlikely that Metro would obtain a better value through competitive solicitation.

Tennessee Code Annotated § 12-3-1205(b) authorizes local governments to participate in cooperative purchasing agreements with governmental entities outside of the state as long as the goods or services were competitively procured by the other governmental entity. Tennessee Code Annotated § 12-3-1205(b) further provides that local governments may participate in a master agreement by adopting a resolution accepting the terms of the master agreement

Fiscal Note: According to the Cooperative Request Review from Division of Purchases, the anticipated project value is $500,000. The anticipated savings to Metropolitan Government through utilizing this cooperative purchasing agreement is $90,071.
