### Analysis

This ordinance, as amended, amends Section 3.24.010 of the Metropolitan Code pertaining to health insurance benefits for councilmembers after they leave office. Section 3.24.010 currently allows councilmembers to participate in Metro's health insurance program under the same terms and conditions as are available to regular Metro employees. After leaving office, members who were participants in the health care plan are allowed to continue, provided they pay the full amount of the premium with no subsidy from Metro. However, the code allows members who hold office for eight years or more -- as well as members serving on or after August 31, 2007 that served part of one term and a full consecutive term -- to continue the health care plan, provided they pay the contribution rates equivalent to those paid by regular Metro employees (which is currently 25% of the insurance premium paid by the employee and 75% paid by Metro).

The ordinance under consideration would modify this language to state that councilmembers holding office for less than eight years prior to October 1, 2027 who were participants in the plan may continue coverage, provided they pay the full amount of the premium. Council members serving eight years or more prior to October 1, 2027 would still be allowed to continue the health care plan, provided they pay the contribution rates equivalent to those paid by regular Metro employees. Councilmembers not covered by the above conditions could participate in the health care plan. For former councilmembers who served at least eight years, Metro would contribute 75% of the insurance premium for the first two years of continue participation in the plan, with the employee paying 25%. After the first two years, Metro's contribution would be reduced to 50% for the next two years. After these four years of continued participation, Metro's contribution would be reduced to 25% with the former councilmember contributing 75%.

Councilmembers serving eight years who would otherwise qualify for health care coverage at the contribution rates paid by regular Metro employees could elect to participate in the health care plan at the higher rates set forth in this ordinance. Except as detailed above, no councilmember serving after October 1, 2027 would be

eligible for the subsidized health care plan after leaving office.

Similar legislation was considered by the Council in 2012, 2015, and 2017, but was not enacted.

This ordinance was previously deferred to April 6 at the March 2, Council meeting.

*Fiscal Note: The estimated annual cost of the health care premium paid by Metro for current councilmembers is \$352,908 and past councilmembers is \$484,530, a total of 837,438 in 2020. Over the last three (3) years, this expense has been comprised of approximately 45% current Council members and 55% past Council members. The projected costs in 2024 would be \$1,208,134 if the number of participants remains the same. The cost could fluctuate and will depend on the number of individuals participating in the plan, according to the Human Resources Department.*
