### Analysis

This resolution approves an application for a Congestion Mitigation and Air Quality (CMAQ) Improvement grant from the Tennessee Department of Transportation to the Nashville Department of Transportation and Multimodal Infrastructure (NDOT). The application is for a grant award of \$3,655,000 with no local cash match required. If approved, the grant proceeds would be used to increase the enhancement, management, and maintenance for the Nashville transportation infrastructure. This would mean the implementation of a Transportation Management Center (TMC). This grant application request is enough funding to cover three years of active operations staff for the management, operation, and maintenance of the TMC.
