Analysis

This resolution approves a sole source contract with an estimated contract value of \$500,000 between the Metropolitan Government and NuOrigins Systems, Inc. for service, maintenance and upgrades associated with Metro's Right-of-Way Project Collaboration Application, also known as NashDigs.

Sole source contracts may be awarded under the Metro procurement code when it is determined that there is only one source for the supply or services rendered. Section 4.12.060 of the Metro Code requires all sole source contracts having a total value in excess of \$250,000 to be approved by the Council by resolution.

The term of the contract begins June 28, 2022 and will end after 60 months. Exhibit A contains a pricing sheet for the services provided under this contract. According to the sole source justification form, this contract was previously competitively bid and has gone through custom development at significant cost to Metro. This sole source contract would allow for retention of this customization that would be lost if required to re-bid the contract.

Fiscal Note: The estimated contract life value for this sole source contract is \$500,000.
